Saturday, May 15—p. m.

Operations in the security market to-day were conducted within narrow limits, and were wholly made up of boardroom traders' transactions. The prospect of a message from the President upon Cuba led to further sales for the short account, prices selling fractionally lower and closing at small net losses in the majority of issues. Chicago Gas, the Grangers and Consolidated Gas were the chief weak features, in the first-named a break of 2 per cent having an unfavorable effect upon the rest of the market. The so-called Gould stocks were again inclined to steadiness, but elsewhere in the railroad list the tendency was toward lower prices. Adequate explanation of the strength in the foreign exchange market was furnished last week by the enormous increase in merchandise imports, as shown by the weekly trade statement of this port, and again this week further reason is given in the week's imports, which amounted in value to $12,058,694, against $8,074,780 in the same time last year, and against $18,382,019 last week. If further explanation is wished, it is only necessary to refer to the statement of the country's foreign trade in April published to-day, which shows an excess of merchandise imports over exports for the month in value of $23,579,431, against an excess of exports in April, 1896, of $12,442,168. Of the imports in April, those received free of duty amounted in value to $50,913,135, against $50,391,996 dutiable. Compared with March, imports showed an increase in value of $24,932,309, and were the heaviest for any corresponding period in the history of the country.

Gold exports do not strengthen the money markets, as the receipts of currency from the interior continue to offset the outward movement of the metal, the net receipts this week amounting to above $2,000,000. The statement of the Associated Banks for the week showed an increase in cash of $857,400, made up by an increase in specie of $561,500 and an increase in legal tender notes of $295,900. Deposits increased $1,851,500 and loans increased $1,031,000. The result of all the changes was an increase in surplus reserve of $394,528 to $44,490,500, against $18,577,975 this week a year ago and $37,587,900 in the same time in 1895. At the close of the stock market to-day there were some slight recoveries, influenced by a sudden rise in Sugar Refining stock, which ended at an advance of ⅝ per cent from its lowest price of the day.

Prices for last sales of the principal active stocks to-day, compared with the final figures of yesterday, were as follows:
