Monday, June 7—p. m.

Stock market activity continued to-day, and, despite large sales for profits, the majority of active shares closed at net gains. Realizing sales, which were the heaviest in Granger shares and Chicago Gas, were well absorbed, and increased buying pressure from commission houses was again a pronounced feature of the market. In the Granger shares efforts to force a reaction on exaggerated reports of damage to the growing crops were not attended with important success, and the day's news developments furnished no sufficient grounds upon which to base lower values. London was not a factor in the market, owing to the holiday abroad. Early prices were somewhat lower, owing to heavy realizing sales, but subsequently morning losses were recovered, with last prices strong and generally at about the best of the day. Noteworthy strength marked the course of Manhattan and Western Union after early declines, the statement by a director of the last-named company to the effect that the company had earned more than the quarterly dividend, which will be acted upon to-morrow, offsetting a morning report from Chicago that the company was in need of money and would issue bonds. The effect of dividend gossip on Oregon Railroad and Navigation preferred was an advance of more than 3 per cent, good buying in the stock apparently foreshadowing a dividend declaration by the company, and in other railroad stocks buying was attracted by the accumulating proof of increased railway traffic, as reflected in the returns of earnings received last week and to-day. An exception was furnished by Cleveland, Cincinnati, Chicago and St. Louis, which lost 1¼ per cent, despite a gain in earnings for the fourth week in May of $46,478. This increase, however, stands against a loss for the fiscal year to date of $538,773.

Regarding the increase in current railway earnings, it is interesting to note a large gain in Western grain receipts at Chicago for last week, as reported to-day, total deliveries for the week being 8,007,000 bushels, against 5,850,000 bushels in the same week last year, and 3,967,000 bushels in the same time in 1895. In the Granger shares Rock Island closed at a slight gain, while Burlington, St. Paul and Northwest lost ¼@⅞ per cent, elsewhere in the railroad list final prices as a rule being at fractional net gains. Southern Railway lost ¼ per cent, perhaps on the reports from the South of a petition for a receiver for the railroad, but the business was not accompanied by any important selling and the receivership report was not considered by the officers of the company a serious affair; in fact, it was considered only an effort to annoy the company. No gold was taken for export, and there was a noteworthy increase in grain bills in the foreign exchange market.

Prices for last sales of the principal active stocks to-day, compared with the final figures of Saturday, were as follows:
