THE GENERAL MARKET REPORT.

New-York, June 14, 1897.

COTTON—Business at the Cotton Exchange is of disappointing volume. To-day the market opened barely steady, with prices on the first call unchanged to 3 points lower. There was a further decline of 1@2 points, from which the market returned to about Saturday's closing figures, with the tone finally steady at new quotations, prices to 2 points lower. Trading was dull, total sales reaching only 37,900 bales futures. The market for spot cotton was steady at unchanged prices; middling uplands, 7 11-16c; middling Gulf, 7 15-16c; sales, 1,526 bales, including 626 bales spinning and 900 bales contract. The market was featureless and almost entirely destitute of outside speculative interest. Local traders were almost as nervous, being intimidated by the inherent dullness of the market and the more favorable run of crop news on the one hand and by the strong statistical position on the other hand. Private cables indicate that the foreign contingent is governed by crop news, and is disposed to hold off for more positive testimony along this line. There was considerable disappointment as to the action of the Manchester market, which failed to respond to the favorable breaking of the monsoon in India. It was expected that this would send English spinners into the Liverpool market, but the English spot sales failed to indicate any improvement in this regard. It is claimed by some advices that a larger business has been done at Manchester than was reported to have been done. This belief and an advance of 1-16d reported on print cloths at Fall River served to check selling. The weather report, showing rains to have fallen in Texas, from which point good crop accounts are being received, and reports of very warm weather in the Mississippi Valley, led some of the more stalwart bears to increase their lines of short cotton to some extent, but on either side of the market caution is being observed, and all attention is being directed to further reports from the cotton belt.

The continued heavy withdrawals from New-York licensed warehouses attracts a great deal of attention on "Change." At the present rate of takings, the 1st of July will see stocks below last year's figures. This rapid reduction is almost without precedent, and should the movement continue unabated it is not improbable that the amount carried in 1896 will be reached, which was the smallest in over fifteen years. Takings during the last fifteen weeks have been 110,000 bales against 45,000 bales the same time last year and 31,000 bales in 1896, as will be seen by the following table:

	1897.	1896.	1895.

COFFEE—The coffee of the coffee future market today was restricted to a range of 5 points, opening steady with prices unchanged to an advance of 5 points, and closing steady with prices net unchanged to an advance of 10 points. Total transactions reached 8,500 bags, including 2,000 bags on the call. September, December and March were the only options dealt in. Early European advices were hardly of a stimulating character, indicating featureless markets, with the tendency downward. Brazilian receipts, though much below the average of a month ago, show signs of increasing, which made bulls cautious. Arrivals of Brazilian coffee in New-York today were enormous, but had but little influence on the market, as they had already been counted in the visible supply for this country while afloat. The steamer Galileo brought 23,419 bags, of which 19,919 bags were Rio and 3,500 bags Bahia; the steamer Chaucer, 40,428 bags, including 42,826 bags Santos and 7,102 bags Bahia; the steamer Szent Istvan, 41,000 bags, including 11,000 bags Rio, 4,000 bags Bahia and 20,000 bags Santos. Receipts at Rio and Santos during the last week were but 4,000 bags, all of which was shipped to the United States. Present stock, 42,000 bags. An increase in the amount of coffee in sight for this country was due to the clearance of the steamer Bleh from Rio Saturday with 32,000 bags. The present visible supply for this country is now 735,899 bags, an increase of nearly 400,000 bags compared with the same time last year, and an increase of nearly 140,000 bags compared with the same time two years ago. Receipts at Rio last week were 36,000 bags, against 41,000 bags the previous week and 56,000 bags in 1896. Santos receipts for the same week were 99,000 bags, compared with 28,000 bags two weeks ago and 40,000 bags last year. Rio shipped to the United States last week 45,000 bags and 25,000 bags to Europe. Santos shipments to the United States were 20,000 bags and to Europe 15,000 bags. Deliveries from warehouses show a large increase over the previous week, last week's movement footing up 85,000 bags, over 32,000 bags of which were New-York, against 46,872 bags for the previous week and 65,357 bags in 1896. The market for spot coffee, like the future market, ruled almost lifeless throughout the day, with quotations on the basis of 7¾c for No 7 Rio invoice lots and 8¼c for jobbing parcels. The mild coffee market was quiet but about steady, with quotations as follows: Maracaibo—Common to good, 10¼@11¼c; good Cucuta, 13¾@14c. La Guayra—Caracas, 11½@18¾c; Porto Cabello, 10@16½c. Savanilla—Bucaramanga, 13¾@16¾c; Ocana, 15½@16c. Mexican—Cordova, 14¼@17½c; Oaxaca, 11½@16c. Central American—Common to ordinary, 10@14c; fair to good, 14½@15c; prime to choice, 18½@21c. East Indian—Interior, 24@25c; fancy, 27@31c; Javas, 21½@25c; Angostura, 12@13c. Mocha, 19½@23c. Sales included 800 bags Maracaibo, basis 14@14½c for good Cucuta, and 1,000 bags Central American on private terms.

GRAIN—WHEAT—To-day the wheat market was lifted above Saturday's level of values, largely through the efforts of prominent Western traders, aided by bullish foreign and domestic weekly statistics. Trading for the most part was entirely local, beyond a little early selling of late deliveries by foreign houses. Shorts were easily frightened owing to the uncertain conditions at Chicago and the evidences of manipulation in the Western markets. At the opening there was considerable local buying on small world's shipments, the total last week being nearly a million and a half bushels smaller than the week before and three millions behind last year's total. Liverpool cables, while showing an advance of ¼d over Saturday, failed to realize the expectations of bull traders at first, although they subsequently encouraged bullish sentiment on this side by rallying sharply and closing ¾d net higher on July, with later months ¼d up. Continental markets were of little value as influences, showing a slight decline from Saturday. The generally favorable average of foreign crop advices was marred to-day by reports that the Central India crop was 30 per cent short and the Danubian damage about 25 per cent. Foreign houses were indifferent as to our cash market during the morning, and of course entirely shut out by the sharp advance near the close. The home crop news was of the usual favorable variety, except for heavy rains in Texas, calculated to retard the harvesting operations. A midday reaction under realizing sales for local account was followed near the close by another sharp upturn, in which shorts were active participants, particularly in the July option, which led all others in point of strength. The American visible supply decreased 1,700,000 bush for the week, which, being considerably larger than expected, brought in some buying when posted. Considerable interest was shown in this statement as it showed stocks of only 22,086,000 bush, against 49,486,000 bush a year ago, with the stopping point yet some distance in the future. Local stocks of wheat in store and afloat in New-York increased 10,200 bush during the week, and are now 1,153,000 bush, against 2,581,000 bush last year. The stock of No 1 Northern decreased 10,300 bush, and is now about one-third as large as last year. The English trade supply increased 193,500 bush, and the quantity on passage to Europe gained 1,100,000 bush. Final prices were 1@1½c net higher, latter on near months. Curb trading was light, with prices practically unchanged from the regular closing. Quotations, f o b afloat, to arrive, were as follows: No 1 hard Duluth, 81c; No 1 Northern Duluth, 80c; No 1 Northern Minnesota, 84c; No 2 hard Manitoba, 84c.

CORN—A sharp rally took place in the corn market to-day, based on the firmness in wheat and the receipt of less favorable crop reports than have been coming in lately. The complaints were chiefly from present and prospective injury to the crop from hot and dry weather now prevailing in many parts of the corn belt, notably in Kansas. Snow's crop review of the corn outlook, which was quite bearish, was more than offset by the later news from private sources to-day. The short sellers of last week were fair buyers at the advance, and the market closed very firm at ½c net advance. The visible supply increased 2,621,000 bush last week, and is now almost double the supply in sight a year ago. Total stocks at New-York were 181,000 bush larger than a week ago. World's shipments footed up 3,166,000 bush, against 3,646,000 bush a week ago. Amount on passage showed a week's decrease of 480,000 bush. Cash trade for export was unusually brisk to-day, 160,000 bush of old corn being taken on private terms. No 2 corn quoted 21¾c f o b afloat.....OATS—The market for cash oats without special feature and interest centred in the cash market, where a moderate business was done through the local trade. Export dealings, however, were very slack. Futures closed nominally ⅛c above Saturday. An increase of 327,000 bush in the visible supply and of 307,000 bush in local stocks for the week constituted the week's statistics, which had little effect upon the market. No 2 oats quoted 22c; No 3 oats, 21c; No 2 white, 25½c; No 3 white, 24½c; track white, 25@32c; track mixed, 21½@23c.....RYE—Market steady; quoted 30@36½c c i f Buffalo.....BARLEY—Market steady; quoted 27½c c i f Buffalo; sales, 10,000 bush.

OCEAN FREIGHTS—The market for freights was dull and fairly steady at the following quotations: Liverpool, 1⅛@2d; London, 2¼d; Glasgow, 2¼d; Bristol, 2¼d; Leith, 3d; Hull, 3d; Newcastle, 3d; Antwerp, 3d; Hamburg, 45 pfg asked; Rotterdam, 6½@7c; Amsterdam, 6½@7c; Cork for orders, 2s 7½d; cotton to Liverpool, per 100 lb, 12c.....FREIGHTS AND CHARTERS—Trading in sail tonnage continues limited owing, partly to the light available supply of large vessels of the better class, and partly to the limited requirements of shippers to South America and the West Indies. Rates are unchanged. The inquiry for steamers continues light, and rates, though quoted unchanged, are easy.....CHARTERS—British steamer, 15,000 qrs grain, Baltimore to Dublin or Belfast, 2s, berth terms, July 1-15; British steamer, 13,000 qrs grain, Baltimore to Cork for orders, 2s 4½d, June 25 to July 10; two British steamers, 1,261 and 1,342 tons, phosphate, Southern port to the United Kingdom or Continent, private terms; two British steamers, 1,390 and 1,944 tons, deals, St. John, N B, to west coast England, 37s 6d; British steamer, 2,704 tons, deals, same ports, at about 37s 6d; French steamer, 2,245 tons, phosphate, Port Royal to St Nazaire, 12s, August; Spanish steamer, 2,761 tons, general cargo, hence to the Mediterranean, berthed; Norwegian steamer, 1,958 tons, West India trade, one or two years, f990 per month; two British ships (both to arrive), 70,000 cases petroleum each, hence to Shanghai, 24c; bark, 661 tons, general cargo, Singapore to New-York or Boston, private terms; bark, 1,097 tons, general cargo, hence to Adelaide, private terms; British bark, about 500 tons, deals, St John, N B, to a direct Irish port, 40s 3d; schooner, 414 tons, lumber, Darien to New-York, private terms; British schooner, 299 tons, lumber, Brunswick to St John, N B, $5; schooner, 351 tons, stone, Greens Landing to Mayport, $1; bark, 560 tons, asphalt, Trinidad to Baltimore, $2; schooner, 726 tons, lumber, Pensacola to Carolina to Boston, lump sum; schooner, 653 tons, 36-foot ties, Fernandina to New-York, 12½c if 50 m ft per day, or 12½c if 75 m ft; British schooner, 297 tons, lath, Bathurst to New-York, 75c; British schooner, 130 tons, lath, Miramichi to New-York, 67c; British schooner, 82 tons, coal, Port Liberty to Fredericton, $1 15; schooner, 111 tons, coal, Port Liberty to Dover, 60c.

OILS—A stronger tone to the market reported for cottonseed oil to-day, but buyers were still unwilling to advance bids over the rates recently quoted. A sale of prime summer yellow at 23½c has been reported, but it was offered at that figure to-day, with 23½c rather freely bid. Linseed oil was quiet but steady. We quote: Prime crude, 20c; prime crude, f o b mills, 16@17c; prime summer yellow, 23½@23¾c; off summer yellow, 22@22½c; butter grades, 26@28c nominal; prime white, 26@26½c; linseed, American, raw, 29@30c; American boiled, 31@33c; Calcutta raw, 50c.

PROVISIONS—The market for provisions opened easier under selling by packers and the decline in hogs, rallied sharply in sympathy with grain, and advanced easily on liberal buying by brokers, presumably for prominent packers, and on covering by shorts. The close was steady.....PORK—Quiet but firm. Quoted: Mess, $8 25@$9; family, $9 25@$10; short clear, $9@$10.....BEEF—Steady. Quoted: Mess, $7 50@$8; family, $9 50@$10 50; packet, $8@$9; extra India mess, $12@$14.....BEEF HAMS—Steady; quoted at $25.....DRESSED HOGS—Very firm. Refined quoted: South America, 4.75c; Continent, 4.40c; compound, 3¾@4c; Western, 4@4¼c; Brazil kegs, 5.95c; option, 4c nominal for July.

RICE—The business for the day was moderate, buyers taking small lots. Tone was firm. We quote as follows: Domestic, common to ordinary, 3¼@3¾c; fair to good, 4@4¼c; prime to choice, 4⅛@5¼c; fancy, 5¼@6c; head rice, 6@6¾c; Patna, 4@4¾c; do in bond, 2¾@3¼c; Japan, 4⅛@4¾c; Java, 3⅞@4¾c; Rangoon in bond, 2@2¾c.

SUGAR—It was reported that a sale was made in Boston to a speculator of a cargo of centrifugal, basis 96 test, at 3⅝c. A telegram from Boston in response to inquiries said that the sale was unconfirmed, but that 3⅝c was bid. The idea on the Street, however, is that the sale was made as reported. Importers were asking fully 3⅝c for centrifugal sugar, but refiners would not pay that, as no business was reported here. The nominal closing prices were 3½c for centrifugal, 3c for muscovado and 2¾c for molasses sugar. Refined sugar was firm, with a fair demand; but prices were unchanged. Deliveries are still more or less delayed. The London market was dull and irregular for cane, with Java quoted at 10s 3d and fair refining at 8s 9d. Beet was dull and rather easier, with present month quoted at 8s 6¾d and next month at 8s 7½d. Prices for refined sugar were as follows: Dominos, 5¼c; cut loaf and crushed, 5⅝c; powdered and coarse powdered, 5⅛c; granulated and fine granulated, 4⅞c; coarse and extra fine granulated, 4⅞c; confectioner's granulated, 5c; cubes, 5c; XXXX powdered, 5¼c; mould A, 5c; Diamond A, 4⅞c; confectioners' A, 4⅞c; Nos 1, 2, 3 and 4, 4⅝c; No 5, 4.44c; No 6, 4⅜c; No 7, 4¼c; No 8, 4⅛c; No 9, 4.06c; No 10, 4c; No 11, 3⅞c; No 12, 3⅞c; No 13, 3.56c; No 14, 3⅝c; No 15, 3⅝c; No 16, 3.31c.

COUNTRY PRODUCE MARKETS.

New-York, June 14, 1897.

BEANS AND PEAS—Buyers are not showing much interest to-day, but the arrivals of domestic goods for sale are not excessive, and there is a generally steady holding, with perhaps a shade of firmness on strictly choice marrow, red and white kidney. Other varieties are very easily bought at the figures quoted. Green peas are very easily bought at the figures quoted. We quote: Beans, marrow, choice, per bush, $1 15@$1 17½; do fair to good, $1@$1 10; do medium, choice, 87½c; do pea, 85@87½c; do medium and pea, fair to good, 77½@82½c; do red kidney, choice, $1 75@$1 80; do fair to good, $1 30@$1 60; do white kidney, choice, $1 30; do yellow eye, $1 05@$1 07½; do lima, California, $1 22½@$1 25; do Lady Washington, California, 82½@87½c; green peas, bbls, 65@67½c; do bags, 60c; do Scotch, bbls, 75@77½c; do bags, 67½c.

BUTTER—The market for extra creamery is about steady. Demand is not large, and there is a very free offering at the rates quoted, but sellers do not seem inclined to make any concessions in the price. Most of the trading to-day was on local account and for current consumptive use. A few lots were bought by speculative buyers, and here and there a lot taken by exporters. Grades under fancy were in excess of supply and offered a little lower in instances. The Western packings of imitation creamery and fresh factory are about steady; the latter goods are more plenty, and unless strictly fancy lean somewhat in buyers' favor. We quote: Creamery, Western extras, per lb, 15c; do firsts, 14c; do thirds to seconds, 11@13c; do State, extras, 14½@15c; do thirds to firsts, 11@14c; State dairy, tubs, fine firkin tubs, extras, 14@15c; do Welsh tubs, fancy, 14c; do thirds to firsts, 11@13½c; imitation creamery, fancy, 12@12½c; do seconds to firsts, 9½@11c; factory, extras, 9½c; do firsts, 10@10½c; do thirds to seconds, 7½@9½c.

CHEESE—The arrivals were fairly liberal to-day, many lots having been hurried forward earlier than usual, owing to the Cunard steamer sailing this week on Thursday instead of Saturday. There was a good demand, however, from exporters, and a considerable quantity was engaged to arrive at generally 8¼@8⅜c for strictly fancy, both white and colored. Holders were inclined to be quite firm and generally asked 8⅜c on fresh negotiations, and some business was done at that price, though it is extreme, many of the large buyers objecting to paying above 8¼c, and willing to operate freely at that figure, and probably more business was at 8¼c than higher. Small-size full cream are held firmly, in some instances a shade higher, though buyers rarely cared to offer above 8c, and obtained some large lots at that figure. Very few skims in as yet, and prices nominally unchanged. At Watertown on Saturday large cheese sold at 8¼c. At Canton large sold at 8½c and small at 7⅞@7¾c. Liverpool cheese, 44s for new. We quote: State, full cream, large, fancy, colored or white, 8¼@8⅜c; do choice, 8@8¼c; do fair to good, 7½@7¾c; do small, colored or white, fancy, 8c; do choice, 7½@7¾c; do fair to good, 7@7¼c; light skims, choice, 6¼@6½c; part skims, white, choice, 6c; do colored, 5¾@6c; do good to prime, 5@5½c; do common to fair, 3½@4½c; full skims, 2@3c.

EGGS—Receipts to-day are about the same as a week ago. There is some scarcity of very high grade goods, and for such the market is decidedly strong. Receivers are not generally attempting to force prices upward until the extent of the week's receipts is more fully ascertained, but the tendency for the moment seems to favor the bulls and sellers' favor. Sales are mainly at unchanged prices, but on occasion a good lot of superlative quality has been placed at a slight premium. Dirty eggs are quiet and a shade easier. We quote: Jersey and nearby, fancy, per dozen, 12½c; State and Pennsylvania, prime to choice, 12c; Western, choice, 11c; do fair to good, 10½@10¾c; do inferior, 9c; do seconds, 8c; Southern peaches and plums are very plenty; but, as the quality shows no improvement, and most lots are below prime. Prices show a wide range, according to quality and condition. We quote: Apples, Ben Davis, State, prime to choice, per bbl, $3@$3 50; do Northern Spy, $3@$4; Baldwin, $3@$3 50; Russet, Rhode Island, $2 75@$3 25; do Golden, $2 25@$2 75; inferior, $1 75@$2; strawberries, Hilton and Irvington, extra fancy varieties, per quart, 8@9c; Staten Island, 8@12c; up-river, 7@10c; Jersey and Delaware Gandy's Prize, 7@9c; do usual sorts, 4@6c; Maryland, 4@6c; gooseberries, extra large, English, per quart, 8@12c; do small green, 3@4c; huckleberries, North Carolina, 8@14c; blackberries, North Carolina, 6@11c; cherries, large, red and black, per lb, 5@6c; do white, 4@5c; do small to medium, sweet, 3@4c; do sour, 3@5c; pineapples, Indian River, standard crates, $2@$3; do other sections, per 100, $4@$8; do Porto Ricos, each, 25@50c; watermelons, Florida, per 100, $15@$25; muskmelons, Florida, per bbl-crate, $1 50@$3 50; do per basket, $1@$2; peaches, choice, per carrier, $2 50@$3; do ordinary, $1 50@$2; do Georgia, early sorts, $1 50@$2 50; do South Carolina, $1 50@$2 50; North Carolina, $1 50@$3, plums, Botan, per carrier, $1 50@$2 25; do Wild Goose, $1 75@$2 25; do Chickasaw, $1 50@$2; pears, Le Conte, per bbl, $2 50@$4.

FRUITS—DRIED—The demand, though not active, is a little better than of late, and evaporated apples are held with confidence at full prices. Sun-dried scarce and nominal. Chops firm. Cores and skins dull and weak. Small fruit in light supply and but few wanted. California fruit steady. We quote: Apples, evaporated, choice, 4¾@5c; do choice, 4¼@4½c; do prime, 4⅛@4¼c; do common to good, 2½@4¼c; do sun-dried, sliced, 2@2½c; do quar
