BAD BLOOD!

SCROFULOUS.

INHERITED,

CONTAGIOUS

IN 1870 Scrofulous Ulcers broke out on my body until my breast was one mass of corruption. Some of these ulcers were not less than one and one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medical faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I become a mere wreck. For months at a time could not get my hands to my head because of extreme soreness. Could not turn in bed. Knew not what it was to be an hour even free from pain. Had reason to look upon life itself as a cure. In the summer of 1880, after ten years of this wretched existence, I began to use the Cuticura Remedies, and after two years' persistent use of them the last Ulcer had healed. The dread disease has succumbed. All over the breast where was once a mass of corruption, is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies.

COLD NIGHTS FOR CORN.

The Recent Chill Reduces Its Condition Several Points in the Official Record.

Missouri, Kansas and Nebraska the Only States Showing An Increase.

The Wheat Harvest 17 Per Cent Less Than Last Year—The Harvest Generally.

WASHINGTON, September 10—The September returns of the Department of Agriculture indicate a lower condition of corn than in August, in every section of the country and in nearly every state. The only gains in the West are in Missouri, Kansas and Nebraska in which a light improvement is indicated, Minnesota stands as in August; Arkansas makes a gain of one poitn; Georgia and Alabama remain as in August, and all the other cotton states show a heavy decline. The figures are also much reduced for each of the middle states and corn surplus states show changes as follows: Ohio, a reduction from 89 to 82; Michigan, 68 to 60; Indiana, 95 to 85; Illinois, 86 to 80; Iowa, 85 to 80. The increase in Missouri is 80 to 84; Kansas, 99 to 101; Nebraska, 84 to 87. The decline in New York is 90 to 77, and Pennsylvania 99 to 89. The general average condition on the 1st of September was 84 per cent, a decrease of 5 per cent during the last month. The cause of this reduction, so nearly universal, is drought, which is reported from nearly every state of the Atlantic coast, Gulf coast, and the Ohio valley, and from the Mississippi to the crest of the divide between that river and the Missouri. Between the Ohio river and the lakes the distribution of rain has been unequal, in a few places in excess, while the deficiency is general. The crop is nearly everywhere late requiring one to two weeks longer to mature. Where Kansas and Missouri seed was planted in more northern territory, the crop is still later, causing much apprehension as to ripening where planting was later and early season too wet. The average temperature of the summer has been low, making full yield an impossibility. Telegraphic communication with the state agents up to 3 o'clock this afternoon, shows that the recent frosts damaged corn north of the 40th parallel. The Ohio agent places the injurp at 2 per cent. The Indiana agent estimates the loss at 10 to 20 per cent. in the northern belt, and 5 per cent. in the middle belt. The loss is heavy in Wisconsin and Minnesota. There is also some injury in New York and Pennsylvania, while the damage cannot yet be clearly determined. It is certain that frosts have already reduced the general average below 80 though much of the heaviest corn of the west is beyond serious injury.

The condition of wheat where harvested as reported in the return averages 83, which indicates a product of 17 per cent. less than the yield of last year, or loss of 8,600,000 bushels.

The crop of oats will be large, the general average being 99.

The promise for potatoes is good, represented by 95, three points higher than the reported average of September, 1882

The Damage by the Frost.

CHICAGO, September 11.—The Farmers' Review, from very extended advices, will publish in to-morrow's issue, the following comment on the injury to corn crops: Recent frosts of greater or less severity have been experience throughout Minnesota, Wisconsin, Northern and northwestern Iowa, northern Illinois and Indiana, and the entire state of Michigan, causing serious injury to late corn. The extent of this injury is imposible at this writing accurately to determine. In all the territory visited by the frosts some fields were so fully matured as to receive no damage. In many parts corn on high ground escaped injury, while that on low ground was severely cut. It will be safe, we think, to estimate the injury in the territory named at 25 per cent of the estimated crops. It may exceed this estimate. Throughout the same territory where minor crops, such as tobacco, hops, tomatoes, and other tender garden vegetables, as well as grapes, were greatly injured or utterly ruined. In Kansas, Nebraska, southern and western Iowa, southern Illinois and Indiana and all other portions of the corn-producing country no material injury is reported.

The Collapse in Corn.

CHICAGO, September 11.—The boom which the corn market experienced yesterday suffered a reaction to-day. The heavy speculation indulged in by outside customers in anticipation of a sharp rise in prices, has apparently resulted disastrously for them. The market displayed signs of weakness from the opening and outside buying orders having fallen off, prices fell back very generally where they stood Saturday. Oats were steadier as compared with corn, though they were shaded off slightly. Wheat also showed a decline under yesterday's quotations.

The Harvest in New England.

BOSTON, September 11.—Crop returns from Maine, New Hampshire and Vermont, shows a fair condition. The yield in Maine: Wheat will yield 712,598 bushels; oats, 761,713; barley, 293,377; buckwheat, 300,000; rye, 30,000.

In Vermont grain of all kind looks fine. The estimated yield of the principal crops is: Potatoes, 35,000,000 bushels; oats, 309,300; wheat, 312,000; corn, 2,056,000; barly, 173,500; buckwheat, 370,000. The season has been favorable for the production of butter and cheese. Wool will probably fall below the average.

In New Hampshire the returns indicate a large yield of cereals and potatoes. The following is an estimate: Corn, 1,325,126; oats, 1,072,541; barley, 77,287; wheat, 174,806; rye, 35,093; potatoes, 3,480,000.

The Spikers' Progress to Portland

PORTLAND, Ore., September 11.—Villard's party reached Portland during the night. All are enthusiastic over their trip, which has been full of interesting incidents, but free from any serious accidents. Portland is preparing to give her visitors a grand reception. The city is elaborately decorated. A procession, speeches and banquets are a part of the programme here and several days will be spent in Portland and vicinity. From the last spike driving to the present terminus there has been a repetition of the previous lavish decorations at all towns and cities passed and the same warm welcome.

THE JAMES GANG.

The Confession of a Dead Member Made Public for the First Time.

KANSAS CITY, September 11.—In consequence of the recent publication of Dick Liddill's statement regarding the history of the James gang, Police Commissioner Craig of this city has given out the confession of Clarance Hite, made to officials at Jefferson City, and which is published to-day. Clarence Hite, the youngest of the band, was captured in Kentucky shortly after Liddill's surrender, being confronted by evidence of his complicity in Winston and Blue Cut train robberies. He pleaded guilty in the Darvess county criminal court and was sentenced to 25 years. This confession was made before Gov. Crittenden, Commissioner Craig and Sheriff Timberlake of Clay county, soon after Hite was incarcerated in penitentiary and before the death of Jesse James last February. Hite was pardoned on account of failing health and died a few day's after he made the statement.

The account of the movements of the gang during Hite's connection with it corresponds in all essential particulars with Liddill's story, and corroborates in detail Liddill's testimony at Gallatin, implicating Frank James in the Winston robbery. It also accounts for Frank's participation in the Blue Cut robbery, as told by Liddill, and for which James is yet to be tried. Charles Ford took part in the Blue Cut robbery and is expected to testify, as also will Liddill when the case is to be heard.

SPORTING NOTES.

THE COWBOYS AND THE BILLIARDISTS.

CAICAGO, September 11.—Several rumors are afloat here to-day, one of which found its way into print, regarding the billiard players, Jacob Schaefer, the world's champion, Wm. Sexton and Thos. Wallace, who have been to California, and are now on their way east. One is to the effect that they were captured by cowboys, near Georgetown, Colorado, and held for a ransom. Another, that they had a fight with cowboys, and that Schaefer was killed. All probably grew out of a telegram received here by Schaefer's sister, saying "Jake is hurt, but not badly." No further particulars given. Information was received this evening to the effect that they were all in Denver. A telegram sent by Brunswick & Balke company, to Schaefer, asking him to come to Chicago at once, to arrange a billiard match with George Slosson, who is here and says he wants to play Schaefer for the championship, provided Schaefer will play either in Chicago or New York.

Campbell and worked splendidly together. They jogged around the first mile in 2:29¼, though the last quarter was at a 2:17 gait. Then they were sent for time. The result was as follows: Quarter 36½, half 1:10, three-quarters 1:46, mile, 2:29. On the back stretch Richball's girth snapped short off.

Myrtie Peek, in the quarter mile dash, defeated President Barnaby's running horse, Rival, for $100, time; 27 seconds.

MADDENED MONGOLIANS.

An Incipient Riot At Canton Serves to Measure the Depth of Popular Hatred.

France and China Apparently Drifting Rapidly Toward Tonquin.

McDermott's Statement—Disorders Continue in Croatia and Agram—The Cattle Disease.

GENERAL FOREIGN NEWS.

IRISH POLICE FOR EGYPT.

LONDON, September 11.—It is stated that the government, in adopting Clifford Lloyd's suggestion, decided to form the nucleus of a new Egyptian police from the Irish constabulary. Eight officers and a number of constables will be asked to volunteer.

THE CANTON MOB.

LONDON, September 11.—A dispatch from Hong Kong states that the Chinese mob in Canton burned the houses of several opium merchants, and their wharves and causing great consternation among the foreign residents most of whom sought refuge aboard the vessels in the river. No violence was offered the persons. A force of Chinese troops were called out, which quickly dispersed the rioters. On receipt of the intelligence at Hong Kong, several gunboats were immediately sent to Canton to afford protection to foreign merchants.

THE ROW AT CANTON.

LONDON, September 11.—The British Admiral was informed by telegraph of the occurance of high disorder at Canton, but no orders were transmitted to the English fleet in Chinese waters in connection therewith, the Admiral in command being left to act as he thinks best under the circumstances of the case. It is stated that Marquis Tzng, who arrived in this city, will have an interview with Lord Granville, secretary of foreign affairs, before returning to Paris.

The Canton riot was caused by a number of portuguese sailors killing a Chinaman in an affray. The rioting caused great sensation in all circles and will, it is feared, result in a collision between the French and Chinese. Two war steamers started from Hong Kong to protect life and property at Canton. During the riot the mob threw the contents of the building attacked upon the wharves and looted them. The riot lasted several hours. Order was not restored until the arrival of Chinese troops. The natives are so excited against foreigners that a renewal of the riot is momentarily expected.

A dispatch from Paris states Tzng, Chinese ambassador, prior to leaving Paris for London communicated to Charlemel Lacour, French minister of foreign affairs, relative to the withdrawal of French forces in Tonquin. Charlemel Lacour said: He could not stop the dispatch of reinforcements while there is danger of war, and this can only be removed by settlement of the basis upon which a treaty can be made.

It is stated that Lord Lyons, British ambassador to France, will shortly return to Paris without finishing his vacation. There is reason to believe England is about to tender her good offices for delimitation of the Tonquin frontier.

Admiral Pierre, who returned to France a few days ago from command of the French fleet at Madagascar, died to-day from albuminura.

THE DISORDERS IN AGRAM.

The Hungarian prime minister summoned the principal notables to Agram, including the former ban, to consult upon the situation and devise means for suppressing disorders.

THE BI-CENTENARY LIBERATION OF VIENNA by John Sobieski was begun to-day by the unveiling of a new tablet. The principal ceremonies commemorative of the triumph of Sobieski take place to-morrow, which is the anniversary of the final victory over the Turks.

RIOTING IN CROATIA.

There is renewed rioting on the northern frontier of Croatia, where the peasantry are rising and insulting the priests.

THE SPREAD OF CATTLE DISEASE

in nearly every portion of England causes great uneasiness. In some sections only American beef is now obtainable. The disease has not yet appeared in Scotland.

THE CHOLERA.

Numerous attacks of cholera in Alexandria still, but the average daily deaths is reduced to four. The mortality in the provinces is also rapidly diminishing.

THE COUNTESS QUALIFIES.

PARIS, September 11.—The Figaro states the Countess Chambord authorizes the publication of a statement that her decision regarding the position of chief mourner of the funeral of the count, implied no refusal on her part to recognize the indisputable right of the Orleans princess.

THE NIHILIST ORGAN.

The Narodraja Wolja, the chief organ of the nihilists, suppressed by the government some months ago, has again resumed publication.

DECORATING KING TUDUC.

It is reported in Paris that the successor of King Tuduc, of Annam, will receive the grand cordon of the Legion of Honor from the French government, and two ministers that signed the treaty of Hue will be made commanders of that order.

The Bishop of Veszprim, Hungary, issued a pastoral letter, declaring Jew baiting most unchristian, and expects the clergy to use all endeavors to divert their flocks from following such dangerous paths.

MR. M'DERMOTT'S CARD.

James McDermott, in custody at Liverpool on the charge of being connected with the dynamite conspiracy, was brought into court to-day, but again remanded, owing to the fact that the case for the prosecution was not ready. McDermott, at his previous hearing, furnished the following document with a request of the press to print it: "I am not permitted to see any newspapers and as a consequently ignorant of what is going on in the world outside of my cell door. I have just been informed, however, that some person named James Malley and styling himself a refugee from Cork, has been ventilating his opinion in America through the press concerning me. Now I don't know and never heard before of James Malley; that he is a fugitive from justice is not only possible but probable, but in claiming to be a political refugee from Cork, or elsewhere in Ireland, there is no doubt that James Malley is a mendacious liar and a dangerous imposter.

CRIMINAL RECORD.

A SHE FIEND.

CAIRO, Ill., September 11.—Last night a colored woman named Kate Colton, who, having a spite against Alf Miller because he would not marry her, went to the house of Louis McMurray, Miller's father-in-law, and asked for a cup of coffee. Finding none made she volunteered to make a pot full to get one herself. She was granted permission. After making it she left the house and said she would return soon for a cup. Not returning the family finished cooking supper and sat down to eat. In a short time they were all taken sick, and one named Jerry Thompson died. His wife is very low, and Alf. ASSIGNMENT SUSTAINED.

NORTHVILLE, N. Y., September 11.—The trial just terminated here in which the validity of the assignment of F. Shaw & Bro. to Ferdinand Wyman has been sustained.

RAILROAD NOTES.

THE WABASH CUT.

CHICAGO, September 11.—The Wabash road continued to sell tickets between this city and Council Bluffs to-day at the cut rate of $9.30. Competing lines, however, took no action to meet it, at least not openly, and profess to care nothing for this new move on the part of the Wabash.

RATES ON BULK MEATS.

At a meeting of the executive committee of the east-bound pool to-day it was decided to make an allowance of three and one-half per cent on shipments of bulk meats, which, it is estimated, will be equivalent to the amount of salt, leaving the charge on the actual weight of meats carried.

AN EMBRYO STATE.

Some Points from the Proposed Constitution of Dakota.

SIOUX FALLS, D. T., September 11.—The prohibitionists are making headway in the constitution and the people will probably have to meet the issue of at the polls when the constitution is submitted. A numerous prohibition petition was read to the convedtion to-day. The article relating to legislature and education were adopted to-day. Most of the committees have reported. There are safeguards securing economy in every branch of the constitution. School lands are protected closely. The state cannot become involved in large debts of any character except in times of war. The pardoning power is likely to be taken from the governor and vested in a board consisting of three men elected by the people.

A meeting of delegates and other citizens of South Dakota is called for some day prior to adjournment to adopt a protest to the president against the reappointment of Gov. Ordway.

FIGHTING DOGS IN DARKNESS

A Brutal, Bloody Fight of Eight Cowboys on a Colorado Ranch.

They Lock Themselves in Their Quarters and Fight With the Ferocity of Tigers.

A Sudden Fusilade of Artillery Ends the Bloody Scene, With Six Men Weltering in Their Blood.

DENVER, September 11.—Details of a bloody affray which occurred at McLain ranch, Elbert county, Sunday night, in which eight cowboys engaged, have just reached this city. Sunday was a day off and all went to Agate station, on the Kansas Pacific road, and falling in with companions, opened the festivities with several drinks. Then they rode to a neighboring ranch, where they obtained a supply of liquor, and started home. On the way two, named Rossited and McKeever, engaged in an angry dispute over a trivial matter and all repaired to the herders' quarters to settle the difficulty. As soon as inside the men clinched and both fell to the ground, fighting desperately, their companions urging them on. Tables and benches were removed and in a ring improvised the men beat and tore each other with the ferocity of tigers. Onlookers, in their excitement, bawled, danced about, brandishing revolvers, encouraging their favorite in the fight. It was a weird, blood curdling sight. While the orgie was at its highest an oil lamp was knocked from its place and the room was in darkness. The madmen now ran upon each other, and in a minute after the light had been extinguished the melee was general. The door was locked and there being no means of egress, it was each man for himself. Amid the resounding blows and curses a pistol shot rang out and the death cry of the victim paralyzed whatever of reason was left in the party. Almost before the cry left the lips of the unfortunate man there was a wild fusilade and for a moment by fitful flashes the gloom was lifted from a bloody scene. Rossiter was dead, the two Jones were weltering in their blood, and three others were wounded, some fatally. Rollins and McKeever were the only ones not injured. They fled and have not yet been apprehended.

CUCKOO.

DYSPEPSIA

Does not get well of itself; it requires careful, persistent attention and a remedy that will assist nature to throw off the causes and tone up the digestive organs till they perform their duties willingly. Mrs. Bosworth, of Amherst, N. H., after trying many "sure cures" without benefit, found that

Hood's Sarsaparilla

hit the nail on the head and restored her to health. Among the agonies experienced by the dyspeptic, are distress before or after eating, loss of appetite, irregularity of the bowels, wind or gas and pain in the stomach, heart-burn, sour stomach, &c., causing mental depression, nervous irritability and sleeplessness. If you are discouraged be of good cheer and try Hood's Sarsaparilla. It has cured hundreds, it will cure you if you give it a fair chance.

MESSRS. C. I. HOOD & Co.

Gentlemen—I was persuaded to try Hood's Sarsaparilla for my wife, who has been troubled with indigestion and debility for several years, which had really rendered her feeble. * * * Before she had taken the first bottle her health commenced to improve. She is now taking the fourth bottle, and her health has steadily and permanently improved, and I firmly believe Hood's Sarsaparilla is entitled to the credit. GEO. W. BOSWORTH, Amherst, N. H.

Prepared by C. I. HOOD & Co., Lowell, Mass. Price $1.00, six for $5.00. Sold by Druggists.
