WOMEN FEAR LA GRIPPE AND CATARRH.

Pe-ru-na a Reliable Protection.

MRS. THEOPHILE SCHMITT, OF CHICAGO.

Mrs. Theophile Schmitt, wife of the Ex-Secretary of the German consulate, writes the following letter to Dr. Hartman, from 317 Wabash Ave., Chicago, Ill. Mrs. Schmitt says: "I suffered this winter with a severe attack of la grippe, and having repeatedly heard of the value of Pe-ru-na in such cases I thought I would try it. I used it faithfully and began to feel a change for the better the second day, and in the course of a week I was very much improved. After using three bottles I not only found that the grippe had disappeared, but my general health was much better. I am satisfied that Pe-ru-na is a wonderful family remedy and gladly endorse it. Yours, Mrs. Theophile Schmitt."

Mrs. M. E. Wheeler, Rockford, Tenn., writes: "I am very glad to write you that I am in every way cured of catarrh with which I have been troubled for ten years or more. I feel very grateful to you for curing my catarrh, as it was a very stubborn case. I have felt no symptoms of the catarrh for over a year. If you think this letter will be of any use to suffering humanity you may use it."

Mrs. M. E. Wheeler.

La grippe is acute, epidemic catarrh. There is no remedy in the world that meets this form of catarrh as thoroughly as Pe-ru-na. During the first stages of la grippe Pe-ru-na is an unfailing remedy. People who have had la grippe and have partly recovered, but remain half sick, will find Pe-ru-na exactly suited to their case. There is no remedy devised that will so quickly and thoroughly dispel the disagreeable and serious after-effects of la grippe as Pe-ru-na.

The leading actors and actresses of this country have come to regard Pe-ru-na as indispensable to their success.

Mlle. Jane Delorme, the famous chanteuse from the Folies Bergere, Paris, says: "Pe-ru-na forever, say I.

"I have tried many so-called cures for various catarrhal affections, but none afforded the immense relief that Pe-ru-na has. Indeed it has effected a cure. I regard it as the most essential article on an actress' toilet table."—Mlle. Jane Delorme, of New York City.

All women praise Pe-ru-na after one trial. It is safe to say that no woman ever took one bottle of Pe-ru-na who did not become a life long advocate of this remarkable remedy. Never was a medicine devised of so much value to women. A book, "Winter Catarrh," sent free by Dr. Hartman, Columbus, O.

The Human Birds.

A facetious man who rejoices in the name of Bird conceived the idea of calling a convention of all the people in Philadelphia who belong to his tribe. Of course it was a joke, but a glance through the pages of the directory convinced him that such a gathering would be a big one. He discovered that there were just an even 100 plain Birds, but the variety of those who specified their kinds was appalling. The list, as far as he went, was as follows: Doves, 15; Eagles, 8; Finches, 21; Fowls, 3; Hawks, 20; Jays, 6; Larks, 6; Peacocks, 29; Pigeons, 1; Parrots, 40; Partridges, 30; Sparrow-hawks, 7; Sparrows, 7; Wrens, 10; Robins, 15; Nightingales, 9; Flickers, 5; Thrushes, 4; Canaries, 3; Geese, 2, and Turkey, 1. There were two Chippeys, and Philip Ducks upheld the dignity of his branch of the family.—Philadelphia Record.

Denver's Great Chimney.

The tall chimney of the Grant smelter is an object of interest to every visitor of Denver. It is by far the tallest smokestack in the United States and has but two rivals in the world. The following facts will give the reader an adequate idea of the immensity of this chimney: It is 352 feet 4 inches in height. There are 1,343,000 bricks in this immense shaft. Its weight above the foundation is 12,376,500 pounds. Its pressure at the base is 109 pounds to the square inch, and the total wind pressure against it in a gale would be 396,200 pounds. The diameter at the base is 33 feet and at the top 20 feet.—Denver Post.

BE GOOD TO YOURSELF and good to your friends. When you treat a friend to whiskey, give him the best. HARPER WHISKEY is the beverage for your friends and for you.

BASIS FOR REFORM.

Aims and Objects of the National Municipal League.

The objects of the National Municipal league are on a broad basis, which every reformer must commend. Other organizations formed in the interests of better government can work in harmony with the National Municipal league and gain influence without losing their own identity. At the annual meeting recently held in Columbus, O., reports were presented showing the league to be stronger in ability, influence and numbers than ever before. The objects of the league, as set out in the constitution, are:

First.—To multiply the numbers, harmonize the methods and combine the forces of all who realize that it is only by united action and organization that good citizens can secure the adoption of good laws and the selection of men of trained ability and proved integrity for all municipal positions or prevent the success of incompetent or corrupt candidates for public office.

Second.—To promote the thorough investigation and discussion of the conditions and details of civic administration and of the methods for selecting and appointing officials in American cities and of laws and ordinances relating to such subjects.

Third.—To provide for such meetings and conferences and for the preparation and circulation of such addresses and other literature as may seem likely to advance the cause of good city government.

The league is composed of associations formed in the cities of the United States having as an object the improvement of municipal government. It has no connection with state or national parties or issues and confines itself strictly to municipal affairs. Any association belonging to the league may withdraw at any time.

POLITICAL QUIPS.

Where there is rotten politics the public morals are rotten.—Philadelphia Record.

When the office seeks the man, it doesn't look for him on the street corner.—Chicago Dispatch.

If the currency orators in the senate want to please the country, they should "hoist it down."—Baltimore American.

THE LOCAL NEWSPAPER.

Why It Should Receive the Support of the Community.

Do you subscribe for your local paper? If not, why not?

It is deserving of and should receive your support—

If it gives you all the state and county news;

If it contains the legal advertisements;

If it is well printed;

If the price is reasonable.

Every man in the county should take his local paper, for among other things—

It keeps you in touch with county affairs;

It keeps you posted as to the time for paying taxes, the time for making returns, the time of court and the time and place of all religious and public meetings;

It tells you what your neighbor is doing, how crops are getting on, who is married and who has died;

It gives you hints about the farm work, keeps you informed about the state of the cotton and produce markets and tells you a thousand and one things you want to know;

It teaches the children to take an interest in affairs and tells them what is going on in the great, busy world around them.

Once its weekly visits have commenced, it will always be welcome and its coming looked forward to.

Your county paper needs your support, because the more subscribers a paper has the more it can do for you.

The county paper is the spokesman for the section in which it is published. It tells the world what is to be found there, corrects misrepresentations, attracts capital, helps develop the county and jealously guards its interests and good name.

A section is judged by its paper. If the paper is slovenly printed, shows lack of enterprise and culture, it reacts against that section.—Aiken (S. C.) Journal.

Why?

"Why," asks the New York Press, "should Hartford be the center of insurance in this country instead of New York? Why should Boston be the center of the copper industry? There is no copper within 1,000 miles of the Hub. Why should a majority of our shoes be made at Lynn?

"We can understand why Pittsburg should be the center of the iron industry, sitting as she does in the heart of the ore and coal region, but why should she make nearly all our glass when there is better sand elsewhere? Why is Providence the great jewelry making city?"

Tiny Bibles.

In Russia miniature Bibles are often worn as watch charms. One of these Bibles is owned by a Bostonian who received it from a friend living in Russia. It is about one inch long, three-fourths of an inch wide and three-eighths of an inch thick and contains the first five books of the Old Testament. The text of the book is in Hebrew and the titles in Latin. It can only be read with the help of a powerful magnifying glass.

Setting a Neighbor Right.

"Was that your dog that was howling all night?"

"I guess it was."

"Why in thunder don't you feed him?"

"Heavens, man, it's indigestion that makes him howl!"—Cleveland Plain Dealer.

W. W. WILKINSON,

Greenville, Ala.

Testimonial From Judge Gaston.

GREENVILLE, Ala., Aug. 10, 1899.

I take great pleasure in certifying to the purity and the merit of Wilkinson's Matchless Mineral Water. This natural mineral tonic, to my personal knowledge, is taken from a well three miles east of Greenville, in the exact condition in which it is sold. I have seen this water used, with wonderful success, for dyspepsia, indigestion, sore eyes and for eruptive diseases, sores and ulcers on man and animals. As a remedy for these troubles, I do not believe its equal exists. It is highly recommended by physicians for a number of diseases.

ZELL GASTON,
Judge of Probate Court, Butler County, Alabama.
