LAND FOR SALE!

A first rate Bargain offered.

I will sell on the most accommodating terms—on a credit of one and two years—that valuable plantation formerly known as the CARROWAY tract situated in the South western part of Lowndes county, State of Mississippi. The tract contains 285 acres, about one half of which is in a high state of cultivation. There is a comfortable dwelling house, on the tract—also negro houses, gin house with mill attached, cistern &c. The plantation is considered one of the most valuable of its size in that part of the county. The tenements are all comfortably situated—the location being high and dry at all seasons of the year. The range for stock is excellent.

The terms on which I propose to sell this valuable plantation are most liberal. I will take cotton in payment at as many cents per pound, valued at the market price, as dollars per acre for the land.

Possession given the first day of January 1850.

Persons wishing to purchase will please apply to John A. Clayton on the premises, or to the subscriber at Murfeesborough Tennessee

SAM. DAVIS.

There can also be had on the premises of Mr. Clayton a quantity of corn, fodder, cattle, stock, farming utensels &c. S. D.

Oct. 13, 1849. 16—

Hoop Poles, Staves and Timber.

A MARKET can always be found at the Mobile Wood Manufactory for the above materials.—Hoop poles of hickory, white oak, birch, &c—the former preferred. They should be from to 9 feet long, ¾ to 4 inch at small end, cut when the bark holds, and kept out of the water, straight as possible and free from heavy branches.

ALSO—Cypress staves, 3 feet long with further detailed description.

White Ash, Cypress, Poplar, Maple, Walnut, and other timber.

Small Hickory and White Oak timber.

For further particulars address JOHN HAR
3t Mobile.

THE exercises of this Institution will be resumed on Monday the 1st of October next. The Trustees take great pleasure in saying to the former patrons and friends of the Institute and the public generally, that they enter upon the third year of its history with prospects of increased success and usefulness. They have engaged as Principal Mr. Robert A. Means, of South Carolina and late of Eutaw, Ala., whose undoubted qualifications for that important station, are evidenced by those best of all testimonials, long experience and uniform success.—The same may be said of the assistants whom he brings to his aid in the management of the various departments. The importance of sustaining an Institution of a high order in Columbus, is, we believe, felt and acknowledged by all. We present the Columbus Female Institute as such an Institution.—We have able and accomplished instructors; the course of study is full, thorough and finished; the buildings and grounds are well adapted for the purposes of a large Female school; the location is pleasant, healthy and retired, and no exertions will be spared on the part of the Trustees to make it an Institution *second to none.* To accomplish this we only ask for the patronage of the community. Send us your daughters and we will give them such an education will be useful to them and gratifying to you.

Two hundred and thirty-five Cadets, from 15 different States, have entered this Institution since it was organized, in 1847. It is entirely free from the control or domination of any sect or party, either political or religious. Economy in dress, by the adoption of a cheap Uniform, for Winter and Summer, is rigidly enforced. Every student is required to select a College Guardian, with whom all funds brought or received must be deposited, and no debt must be contracted without the consent of such guardian.

CIVIL ENGINEERING

Will be thoroughly and practically taught in the Western Military Institute—the Professor, Col. Morgan, being one of the most skillful and experienced Engineers in the U. S. All the instruments connected with the department, have been procured at a considerable cost, and of the best quality.

The Superintendent takes the liberty of stating that he is now offered $75 per month, for competent assistant Engineers. One of his former pupils receives at this time, $2,500 per annum, as Principal Engineer of a Railroad now under construction in Kentucky—whilst others of the same class are receiving in different parts of the U. S., 2000, 1,500, or 1,200 a year as Assistant Engineers.

The great and rapid advancement of our whole country, and the eagerness of our people, for exploring the hidden resources of the new States and the newly acquired territory, will give ample scope for ages to come, to the skill and enterprise of the Engineer, the Geologist, the Mineralogist, the Surveyor and the Architect. Young men who have an aptitude for the Mathematical and Physical sciences, will have a wide field opened to them for engaging in an honorable, a healthful and a lucrative pursuit, for which they may be thoroughly and practically qualified, in a short time, and at small expense, at the Western Military Institute.

To secure the manifold advantage of health, economy, discipline and moral training, the Faculty of this institution have selected for its permanent location the famous

BLUE LICK SPRINGS,

Situated on the Lexington and Maysville turnpike, 24 miles from the latter place, and 40 from the former; emphatically a country location, being 10 or 12 miles distant from any town or village. The buildings are mostly new, well constructed for garrison purposes, and ample for the accommodation of THREE HUNDRED CADETS. This place is unsurpassed for its healthy atmosphere, pure water and romantic scenery; and is unquestionably one of the most eligible locations for a literary institution in the United States. The grounds have been greatly improved and ornamented during the last 5 years. A plot of 40 acres, beautifully situated on the margin of the licking river, immediately in the rear of the buildings, will be reserved for military exercises.

The removal will be made immediately after Christmas, and the school opened at that place on the

SEVENTEENTH OF JANUARY, 1850.

Vacation will embrace the month of July and August, by which arrangement the watering season will not interfere with the exercises of the institution.

The academic year extends from the 1st Monday of September to the 3rd Friday of June—40 weeks.

TERMS.

The entire charge for tuition, boarding, washing, fuel, lights, Blacking, servants' attendance, music, use of arms, &c, &c will be $160 per year. Payment will be required in advance, at that rate from the day of entrance to the end of the term. From the 1st Monday of January—for example—to the 3rd Friday of June, (twenty four weeks) it is $96.

Cadets from a great distance, who prefer remaining in Kentucky during Vacation, can find the most comfortable Boarding in the families of our wealthy farmers, at $1,50 per week. Southern or western students may land at Louisville and take stage, steamboat or rail road to Frankfort, and Lexington; thence in four horse coaches to the Blue Licks. Or, they may ascend the Ohio to Maysville, which is 3 hours stage from the Springs.

☞ This place is furnished with commodious baths, and is abundantly supplied with Freestone, Limestone and Cistern water of the best quality, independent of Sulphur springs, and Salts and Sulphur springs.
