The building will be three stories high, with provisions for more stories when the necessity arises, according to Mr. Devore. Dr. Devore's present home in West Main street will be moved and the hospital will be built on the site it now occupies. Brick will be used in the construction. Among other improvements in South Sioux City will be the erection of a commercial building in Dakota street, between Lincoln and Bradford streets, just south of the South Sioux City Pharmacy. H. A. Among the other citizens we met were Dr. Stidworthy and Rev. Keckler, of the Methodist church, who is a live wire and never misses an opportunity to fight the booze demon and judging from the general appearance of things there he certainly ought to have plenty of opportunities. Last, but by no means least, we met "Heinie" Wagner, of the Star, who is one of the brightest and most prosperous publishers in northeast Nebraska, having recently put in a new linograph machine costing \$1,800. The Homer people are, taken as whole, live wires and certainly seem to appreciate a good local paper, judging from the number of ads in the Star each week.
