State securities were dull, and railroad bonds were little better. In the latter securities there was an irregular course of prices, and no changes of any great importance in the quotations for the issues dealt in, nor was the market characterized by any special feature. In London there was a firm market for British consols, which recovered to 97⅞ a 98 for both money and the account. United States bonds were steady at the final quotations of yesterday—namely, 106 for new fours, 109⅞ for 4½'s and 105⅞ for fives. American railway securities were unchanged, excepting Pennsylvania, which declined from 50⅞ to 50¼ and Reading, which fell off from 31¼ to 31⅛. Bar silver advanced to 53½d. per ounce. At Paris the three per cent rentes reacted to 81f. 60c.

The *Times*, in its financial article this morning, says:—Money continues in large supply on short loan, but the discount rates are still somewhat unsettled. More gold has been withdrawn from the Bank of England for New York. This was fully expected, and probably there will be further withdrawals. If they continue the bank will have to supplement its action of Thursday by absorbing the surplus supply of money in the open market, and, as on former occasions, force the outer rate up nearer to its own minimum, and thus try to make shipments unprofitable.

The *Economist* of this week says:—The rate of discount for bank bills, sixty days, is 2¼ per cent, and three months, 2¼ a 2⅜ per cent, and for trade bills, three months, 2½ a 3 per cent. On the Stock Exchange there has been more business this week than last. Home railways advanced continuously until Friday afternoon, when a sharp relapse occurred in consequence of disquieting rumors. There has been a further rise in banks, mining, tea, steamship and many other miscellaneous descriptions of shares. In foreigns, after the fears concerning the Paris settlement were removed, there was a fair amount of animation. Egypts especially improved on the rumors of some sort of agreement with Austria. The action of England respecting Turkey did not affect the market. United States bonds were more in request, the promised redemption being regarded favorably. There have been many fluctuations in American railways, for the most part resulting favorably. The most striking feature in colonial railways has been a rise in Grand Trunk stocks on official notification of the purchase of a connection to Chicago. An issue of $500,000 six per cent bonds is now offered at 94, redeemable in 1900, as part of a first mortgage of £1,240,000 on the 330 miles of road which are to be consolidated, under American laws, into a temporary company, under the control of the Grand Trunk Railway Company, and to be known as the Chicago and Grand Trunk Railway Company (Limited)."

A despatch from Berlin to the *Post* says:—"The loan issued by the government to cover the deficit of the Prussian budget, which was offered at 96 6-10, has been subscribed three times over."

Foreign exchange in this market was quiet at the following figures:—

The following were the rates of exchange on New York to-day at the undermentioned cities:—Savannah, buying ¼ discount, selling ⅛ discount; Charleston, plentiful, buying ⅜, selling ¼ a par; New Orleans, commercial 450 a 500 discount, bank 100 discount; St. Louis, 1.10 discount; Chicago, 50 discount; Boston, 1s. a 25c. discount.

Joseph A. Blair, late first teller of the Mechanics' National Bank, has become associated with the stock firm of Talcott & Sons.

The foreign commerce of the port of New York for the past week was as follows:—General merchandise imports, $6,497,541; produce exports, $8,523,292. Total imports of general merchandise since January 1 were $280,401,228, against $250,672,695 for the corresponding period last year, and $275,742,041 in 1877. Total exports of produce since January 1 this year were $295,202,857, against $294,625,474 for the same period last year, and $242,333,263 in 1877.

The gross earnings of the Burlington, Cedar Rapids and Northern Railway Company for the week ending October 31, 1879, were $63,154 12; same week last year, $44,533 79; increase, $18,620 33.

The following despatch from the West gives the movement of grain at the leading points there to-day:—Milwaukee—Receipts of wheat, 98,000 bushels; shipments, 74,500 do.; receipts of corn, 2,000 do.; shipments, none. Chicago—Receipts of wheat, 119,124 bushels; shipments, 144,859 do.; receipts of corn, 124,512 do.; shipments, 304,101 do.

The production of anthracite coal last week was 577,417 tons, as compared with 595,709 tons the previous week, and 400,631 tons the corresponding week of 1878. The total output from January 1 to October 31 was 21,585,147 tons, as against 13,817,399 tons for the like period of last year, showing an increase this year of 7,768,288 tons. The production last week was as follows:—

THE MANCHESTER MARKET.

MANCHESTER, Nov. 8, 1879.

The Manchester *Guardian* in its trade report this morning says:—"The market retains the characteristic features observable throughout the early part of the week—great firmness, but marked by the absence of anything like activity."

FINANCIAL.

A GOOD PLAN.

Anybody can learn to make money rapidly operating in Stocks by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and co-operated as a mighty whole, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $25 to $5,000, or more, can be used successfully. N. Y. Baptist Weekly, September 20, 1878, says:—"By the combination system $15 would make $75, or 5 per cent; $40 pays $250, or 7 per cent; $100 makes $1,000, or 10 per cent on the stock, during the month, according to the market." Frank Leslie's Illustrated Newspaper, June 29:—"The combination method of operating stocks is the most successful ever adopted." New York Independent, September 12:—"The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." Brooklyn Journal, April 29:—"Our editor made a net profit of $101 25 from $20 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. Stocks and Bonds wanted. Government bonds supplied.

NOTICE TO ASSENTING FIRST MORTGAGE BONDholders of the New York and Oswego Midland Railroad Company.

NEW YORK, Oct. 16, 1879.

Bondholders who have assented to the plan of reorganization are hereby notified that they can subscribe pro rata to their holdings to the sum of $320,000, for the purpose of paying off the outstanding receiver's debt.

Each $1,000 bond entitles the holder to pay $40 in cash, and in the event of the purchase of the road by the committee he will receive $80 of preferred stock and $160 of the common stock of the new company. The money paid will be returned if the purchase is not made by the committee on the return of the receipt issued therefor.

Bondholders and holders of receiver's debt (assented) are also notified that their subscriptions to first mortgage bonds must be paid on or before November 10.

Payment must be made to the unders
