GENERAL MARKET REPORT.

New-York, June 9, 1898.

COFFEE—The bear crowd had rather the better position in to-day's market, news from abroad being of a discouraging nature and the general situation without improvement. The opening of the market was attended with a fair amount of steadiness, although prices eased off 5 points. Business fell off to a small peddling trade shortly after the call and for the rest of the session was without animation. Some of the less confident bulls evened up their accounts, seeing little prospect in the near future of renewed speculative interest on the part of outsiders, and fearing possible international developments in the political situation within the next week. At the close the market was dull at a net loss of 5 points. Total sales futures were but 3,750 bags, including 2,000 on the opening call. Despite the fact that Brazilian receipts overran expectations, the demand for spot coffee was of a jobbing character, and, outside support lacking, shorts failed to press their advantage, and while a shade lower, the market exhibited a steady undertone throughout the day. The market for spot Brazilian coffee was inactive and largely nominal, with quotations ranging between 6¾c and 6⅞c. Included in recent arrivals at this port was the steamer Biela, with 27,008 bags Rio and 5,000 bags Santos, and the steamer Roman Prince, with 20,476 bags Santos. Yesterday the steamer Cuvier cleared Santos with 14,000 bags, and on Tuesday the steamer Gallito cleared Bahia with 2,600 bags.

The range of contract prices in the local market to-day was as follows:

COTTON—There was little of an inspiring nature for either bulls or bears in to-day's news. Even the scaping element failed to find anything in early advices from abroad or the South on which to base an opinion. Cables from Liverpool reported quite an increase in demand for spot cotton, but a nervous market for futures with unimportant fluctuations in quotations. Our market opened steady, with prices 9 points higher on moderate buying of the August delivery by a well-known Wall Street commission house, which recently has been identified on the long side, more particularly in the summer deliveries. Following the call, however, prices sagged back, and the market became dull. There was some covering by less confident shorts in the late afternoon on reports of unbroken drouth in the Atlantic States, and this tended to improve prices. The close was dull, but steady, with a net gain a matter of 4@6 points. Total sales reached 39,100 bales. The market for spot cotton closed quiet, with quotations unchanged, on the basis of 6⅛c for middling upland and 6⅜c for middling Gulf. Sales included 400 bales for export, direct shipment, and 250 bales to domestic spinners. Spot cotton in Southern markets, middling quoted, was officially reported as follows: New-Orleans steady at 6 1-16c, sales 1,500 bales; Mobile quiet at 6c, an advance of 1-16c, sales 100 bales; Savannah steady at 6c, sales 56 bales; Charleston quiet and steady at 6c; Wilmington quiet at 6⅛c; Norfolk dull at 6⅛c, sales 118 bales; Baltimore nominal at 6⅝c; Augusta steady at 6⅛c, sales 88 bales; St. Louis quiet at 6c, sales 725 bales.

The export movement thus far this season has been as follows:

In a recently issued circular, A. J. Landauer & Co., of Liverpool, estimate the reduction in acreage this year at 1¾ per cent, as compared with last year, and the condition of the crop at 88½ per cent, as compared with last year. While private cables received to-day on the local exchange reported a fair business doing in both spot and future delivery yarns and cloths at Manchester, this firm claims business is unsatisfactory, and the market has a poor tone. The local trade were disposed to hold off for to-morrow's Government report, although, as a rule, the information furnished by this authority has produced little or no influence on sentiment. The promise of sensational developments in the Spanish-American trouble within the next few days also tended to arrest speculation.

Cotton Exchange special Liverpool cables: Spot cotton better, with more business; sales 10,000 bales. Speculation and export, 500. American, 9,000 bales. Receipts, 3,000 bales. American, 2,000 bales, middling uplands, 3 3-16d. Futures opened quiet, partial 1-64d advance; closed quiet but steady at 1 2-64d net advance. December-January, 3.30b; January-February, 3.30b; February-March, 3.30b; March-April, 3.31b; June, 3.33b; June-July, 3.33b; July-August, 3.33b; August-September, 3.33b; September-October, 3.32b; October-November, 3.31b; November-December, 3.30. Manchester—Yarns and cloths quiet, but steady.

FLOUR AND MEAL—Buyers cherished a belief that flour prices would be further reduced in keeping with wheat's depression, and accordingly withheld orders so far as possible to-day. Some concessions were made near the close, but not sufficient to stimulate trading. Spring patents quoted, $5 20@$5 30; winter straights, $5 20@$5 35; winter patents, $5 50@$5 60; spring clears, $4 70@$4 80; extra No 1 winter, $4 50@$4 75; extra No 2 winter, $4 25@$4 40; rye mixed, $4 25@$4 35.....RYE FLOUR—Weak; quoted, $3 25@$3 75.....CORNMEAL—Dull; quoted: Kiln-dried, $2 25@$2 35, as to brand.....BAG MEAL—Quiet; fine white, $2@$2 05; fine yellow, $2; coarse, 75@80c.....FEED—Weak; 40, 60 and 80 lb. winter in bulk, spot, 70c; spring, bulk, spot, 65@70c; active, 62½@65c; middling, bulk, 80@85c; rye feed, 65@70c; city feed, 75@80c; hominy chop, 70c; oilmeal, $25@29; screenings, 60@75c.

GRAIN—WHEAT—An early upward swing of values to-day was subsequently overcome by persistent bear attacks which left the market in a weak condition and ¾@1¼c lower than yesterday. The September, having lost support from foreign sources, was particularly depressed. July reflected a growing scarcity of the cash article, and followed other options reluctantly. It is conceded that supplies at all points are setting down to low ebb now that farmers have no incentive to ship wheat, and increasing attention is naturally being diverted to this phase of the situation. Northwest receipts continue light. Chicago expects to be left with only half a million bushels by Saturday, and it is said that Kansas City points are shipping wheat to Minneapolis. While this is likely to affect considerably the spot price and July, if continued, bear traders, unless frightened by sensational crop news with, it is thought, hammer away at the late options, stimulated in such actions by crop estimates, varying all the way from seven to eight hundred millions. Thoman figured in his June report a crop of 715,000,000 bushels wheat on an area of 33,874,000 acres, or two million acres ahead of the record. Bulls severely criticised the report, however, on the score that with the highest yield per acre ever made by Government returns, 15.8 bushels, the above area would only foot up a crop of about 635,000,000 bushels. Crop news of the day was as usual conflicting. There were reports of further rains and the weather map disclosed a low area all through the Southwest. Rust, bugs and fly were with dispatches came in from all sections, side by side with reports of favorable conditions until the track was fairly bewildered. The "Price Current" was rather bearish. Kentucky's State report made winter wheat conditions 104, or the highest in the State history. Cables were irregular. July wheat in Liverpool at one time showed 4¼d advance, but lost most of it and closed finally only 1¼d up for the day. French markets, influenced by less favorable weather, closed 25@40 points to 1.25 francs higher on flour. Antwerp was 1¼ francs lower. Foreign houses were moderate buyers of futures here, but took little cash grain. New-York shipped out 423,000 bushels of wheat yesterday, and the entire seaboard 579,000 bushels, raising the week's total about 216,000 bushels wheat and flour ahead of the previous week. No 2 red wheat closed $1 11; export, $1 12@$1 13 nominal, and $1 10 car lots. The Government report will be out Friday at 4 o'clock and is scheduled to be a very bearish factor, showing, perhaps, a condition 3 points or so better than last month.....CORN—The market was strong and higher all day, despite unfavorable developments in wheat. Traders, short from previous efforts, bought freely on rains West affecting both farmwork and deliveries. Receipts have been gradually falling off and are now about 355,000 bushels behind four days' first week. The crop will need the best of conditions from now on to figure a fair yield. Prices here closed ⅛@1c net higher, while Liverpool was partly ¼d net lower. Exporters took 17,000 bushels to-day. No report is expected from the Government on corn. No 2 corn closed 37⅛ f o b afloat. .....OATS—Bad crop news from Iowa and Nebraska were responsible for decided strength in oats to-day. Our market closing ⅝c net higher. Rainfall has brought considerable injury to the crop. Exporters were out of the market here. No 2 oats closed 30¾c; No 3 oats, 29½c. No 2 white, 32c; No 3 white, 31½c; track, mixed, 29@31½c; track, white, 31@35c; No 2 white, clipped, 33c.....RYE—Market steady; No 2, Western, 52½@53¼c, f o b, afloat; State rye, 50c, c i f, track; 52@53c f o b afloat .....BARLEY—Market dull; feeding, 37c, c i f, Buffalo.

METALS—Tin and spelter exhibited pronounced strength again to-day, on increased demand and light offerings, but other departments ruled inactive for the most part, with unimportant changes in quotations. At the close tin was officially reported as firmer, with spot to July quoted at $15 10@$15 20. Lead was quiet, with spot to July quoted at $3 72½@$3 77½. Spelter closed strong, with spot to July quoted at $4 45@$4 55. Copper ruled dull and featureless, with spot to July quoted at $11 90@$12 10. Iron closed easy at $6 60@$6 70 for spot to July. In the London market spelter closed at £19 8s 9d, soft Spanish lead at £13 12s 6d, spot tin at £68 17s 6d and future tin at £69 6s 3d, spot tin at £59 17s 6d and future tin at £61 2s 6d.

MOLASSES AND SYRUPS—The market was a quiet one again to-day, city dealers restricting purchases to immediate wants. The undertone was very firm, however, on light stocks and continued favorable news from Southern markets. Quotations follow: New-Orleans centrifugal, common, 10@12c; fair, 13@15c; good, 16@18c; prime, 20@25c; New-Orleans open kettle, common, 27@32c; fair, 28@29c; good, 29@30c; prime, 31@32c.....Choice Porto Rico, 28@35c; syrups, common, 10@12c; fair, 13@14c; good, 15@16c; prime, 17@18c; fancy, 20@22c.

OILS—The cottonseed oil buyers were in attendance today, and these only for small lots, which were occasionally offered a shade under the market. Prices ruled steady in the main, with little change from Wednesday. Linseed oil quiet. We quote: Prime crude, 21½c nominal; prime crude f o b mills, 17@18c; prime summer yellow, 25½c; off-summer yellow, 25@25½c; butter grades, 28@29c; prime white, 31c; prime winter yellow, 33@35c. Linseed, American raw, 44@45c; American boiled, 46@47c; Calcutta raw, 54c; lard oil, choice, 49@50c.

PROVISIONS—Buyers were numerous and persistent to-day, affording the market ample support and a strong undertone, which lasted throughout the session. Packers undertone, which lasted throughout the session. Packers led the market.....PORK—Firm. Quoted: Mess, $10 75@$11; family, $12 50@$13; short clear, $12 25@$13 75.....BEEF—Steady. RICE—The opening of the market was attended with quite a rush of city buyers to secure large lots of both domestic and foreign styles, and business for a time was quite active. Operations later in the day were smaller owing to the refusal of holders to sell the better grades on the basis of previous quotations. Reports from abroad and the South were fully up to expectations of local dealers and added not a little to the general strength of the market. Quotations follow: Domestic, common to low fair, 4½@3c; fair to good, 5¼@5¾c; prime to choice, 6¼@6¾c; head, 7@7¾c; Patna, 5¼@6c; do in bond, 3¾@4c; Japan, 6@6¼c; Java, 4¾@5¼c; Rangoon in bond, 2½@2¾c.

SUGAR—Importers and refiners failed to come together on any considerable lots of raw sugar to-day. A lot of 630 bags St. Croix centrifugal 96 test changed hands in the afternoon at 4 5-16c. At the close refiners were quite the afternoon at 4 5-16c. At the close refiners were quite firm, adding that figure for further supplies, 3½c for 89 test molasses sugar, and 3⅛c for a few scattered lots of muscovado 89 test. Importers were generally asking 1-16c above these figures, being stimulated by the more favorable turn of the English market. At London cane was quiet, but firm, with Java quoted 15s 6d, and refining 11s 3d. Beet was steady and quiet, with holders demanding higher prices. June and July delivery advanced ¼d to 9¾d for the former and 9¾d for the latter, closing at 9¾d. Refined sugar in the local market was quiet, but very firm, without change in figures. Quotations follow: Powdered, 5⅝c; cut loaf, 5¾c; crushed, 5⅞c; powdered, 5⅛c; coarse powdered, 5¼c; granulated, 5⅛c; fine granulated, 5⅛c; coarse granulated, 5¼c; extra fine granulated, 5⅛c; confectioners' granulated, 5⅛c; cubes, 5⅜c. THE WOOL EXCHANGE REPORT—The Wool Exchange gives the following resume of the market: Business shows signs of subsiding as compared with results for the last few weeks. The chief cause assigned to this is abatement in the demand for wools suitable for Army cloths and the small requirements of mills that are producing regular goods. The new season's business has not opened as yet with manufacturers, and until the demand for light weights is under way the inquiry for wool is expected to rule light. Prices, however, continue firm and are well maintained both here and in the West. Growers show no inclination to recede from the firm stand taken by them, notwithstanding that dealers claim that they cannot pay the high prices asked and turn their wools over at a profit in the seaboard markets. Some wools are being bought in the West, but those coming along are largely held on consignment. In foreign growths Bulls severely criticised the report, however, on the score that with the highest yield per acre ever made by Government returns, 15.8 bushels, the above area would only foot up a crop of about 635,000,000 bushels. Crop news of the day was as usual conflicting. There were reports of further rains and the weather map disclosed a low area all through the Southwest. Rust, bugs and fly were with dispatches came in from all sections, side by side with reports of favorable conditions until the track was fairly bewildered. The "Price Current" was rather bearish. Kentucky's State report made winter wheat conditions 104, or the highest in the State history. Cables were irregular. July wheat in Liverpool at one time showed 4¼d advance, but lost most of it and closed finally only 1¼d up for the day. French markets, influenced by less favorable weather, closed 25@40 points to 1.25 francs higher on flour. Antwerp was ¼ franc lower. Foreign houses were moderate buyers of futures here, but took little cash grain. New-York shipped out 423,000 bushels of wheat yesterday, and the entire seaboard 579,000 bushels, raising the week's total about 216,000 bushels wheat and flour ahead of the previous week. No 2 red wheat closed $1 11; export, $1 12@$1 13 nominal, and $1 10 car lots. The Government report will be out Friday at 4 o'clock and is scheduled to be a very bearish factor, showing, perhaps, a condition 3 points or so better than last month.....CORN—The market was strong and higher all day, despite unfavorable developments in wheat. Traders, short from previous efforts, bought freely on rains West affecting both farmwork and deliveries. Receipts have been gradually falling off and are now about 355,000 bushels behind four days' first week. The crop will need the best of conditions from now on to figure a fair yield. Prices here closed ⅛@1c net higher, while Liverpool was partly ¼d net lower. Exporters took 17,000 bushels to-day. No report is expected from the Government on corn. No 2 corn closed 37⅛ f o b afloat. .....OATS—Bad crop news from Iowa and Nebraska were responsible for decided strength in oats to-day, our market closing ⅝c net higher. Rainfall has brought considerable injury to the crop. Exporters were out of the market here. No 2 oats closed 30¾c; No 3 oats, 29½c. No 2 white, 32c; No 3 white, 31½c; track, mixed, 29@31½c; track, white, 31@35c; No 2 white, clipped, 33c. .....RYE—Market steady; No 2, Western, 52½@53¼c, f o b, afloat; State rye, 50c, c i f, track; 52@53c f o b afloat .....BARLEY—Market dull; feeding, 37c, c i f, Buffalo.
