FRIDAY EVENING, AUG. 17, 1900.

NATIONAL DEMOCRATIC TICKET

For President,
WILLIAM J. BRYAN.
For Vice-President,
ADLAI E. STEVENSON.

The question is not what we can do, but what we ought to do. This nation can do whatever it desires to do, but it must accept responsibility for what it does.—Bryan.

The anti-imperialists will do for Bryan in this campaign that which the gold democrats did for McKinley in the last presidential contest—help elect him.

The Agua Pura company wants $80 a year from the city of Las Vegas for each fire hydrant and only $65 from the county of San Miguel. Why this discrimination when the city is good pay and the county isn't?

Theere promise to be some rich developments in the hearing in the case of Jose L. Perea, collector and treasurer of Bernalillo county, in Las Vegas on the 20th inst. The questions raised will not be so much of law as of fact.

Abe Vorhees' head may not be as long as his legs, but the Raton attorney's political pole (pull) may be long enough to knock the persimmons in the matter of the appointment to be U. S. attorney for the district of New Mexico.

The late Senator Ingalls was sixty-six years of age and a year ago his health was such that he could not attend the funeral of his second daughter, Mrs. Robert Porter Shick who died at Reading, Penna., while he was in the southwest.

An exchange sums up what Roosevelt said in the forty-one speeches he is said to have made in the canvass, as follows: "We can lick anybody. I can lick anybody. I can lick Chinamen and wolves and democrats. I am glad I am running. 'Trippe, trappe, tropjes, the Boers are on the kopjes? Hurrah for America. Hurrah for me!"

Some criticising people in Las Vegas seem not to remember the fact, if they ever knew it, that the board of education on the east side was republican, with a single exception, when it was proposed to vote bonds for the rection of a new public school building in this city. However, there is no politics in city school matters, neither will there be so long as the present board is in office.

Charles W. Bridges & Co., real estate dealers at Indianapolis ,Ind., have offered for sale a 240-acre farm, a cottage, five city lots and twenty lots in the Indiana gas belt, the whole valued by them at $11,200, on the following terms: The purchaser to pay the full valuation of $11,200 if Bryan is elected, and to get the property for nothing if McKinley wins. Straws show which way the wind is blowing.

The republican party in New Mexico under its present self- assumed leadership is nothing if not cowardly and fearful of consequences. The white feather has again been shown in selecting such a late date, October 3rd, for holding their nominating convention in Santa Fe. However, they will be sadly disappointed this year in counting on the purchase of votes at so much per head. The people are being informed on the issues at stake as never before in the history of the Territory and the usual republican tactics will fail of success at the polls in November.

FREE TO POSTMASTERS.

The Denver "Times" is the only daily newspaper we know of that regularly remembers postmasters with free copies.—San Marcial "Bee."

And there are reasons for it. The "Times" is backed by W. S. Stratton, with his millions, it gets a good slice of the republican slush fund in Colorado, then it must re-build itself to former position and proportions in a field full of enterprising newspapers that have been thriving like the proverbial green bay tree and somewhat at the expense of the Denver "Times" that goes to the republican postmasters in its patronizing section, without money and without price.

ANOTHER CONVERT TO BRYAN.

Hon. M. C. C. Church, of Parkersburg, West Va., who was one of the founders of the republican party,who established and edited for many years the "State Journal" of that city and then presented it to the republican party and who has been one of the most liberal contributors to the campaign funds of his party and a life-year. In his letter Mr. Church says, among other things: "There is no reason why true republicans, who know the origin of the party and its principles, should not vote for Mr. Bryan—the chosen leader of the people—in this crisis of our country's history. He calls himself a democrat. Let the writer add another word, 'republican,' and it will stand for all he represents—a democratic republican, the same as Mr. Lincoln."

HEALTHY OLD AGE

The majority of persons upon reaching middle age and past find their blood becomes weak and thin, and diseases that were easily controlled in earlier life begin to affect the constitution.

Those predisposed to Scrofula, Cancer, Rheumatism, Gout and other hereditary troubles may escape till then, but as they age the blood, so long tainted and weakened by accumulated waste matters, is no longer able to properly nourish the body, and it becomes an easy mark for disease. At this critical period of life the blood must be re-enforced before it can perform its legitimate functions and rid the system of these poisons, and nothing so surely and effectually does this as S. S. S.

S. S. S. strengthens and enriches the blood, improves the appetite, and builds up the general constitution. It is not only the best blood purifier, but the best tonic for old people. It warms the blood, tones up the nerves, removes all taint from the blood, and prevents the development of disease.

S. S. S. is the only purely vegetable blood medicine known. Not one particle of mercury, potash or other mineral poison can be found in it, and it may be taken for any length of time without harm.

S. S. S. is the only remedy that reaches deep-seated blood troubles like Scrofula, Cancer, Rheumatism, Eczema, Tetter, etc. It purifies and restores the blood to a healthy, normal condition, and makes it impossible for any poisonous waste materials to accumulate.

If you have an old running sore or an obstinate ulcer that refuses to heal, or are troubled with boils and carbuncles, try S. S. S. It never fails to make a quick and permanent cure of these pests. If your system is run down and you feel the need of a tonic, S. S. S. will strengthen and help you as it has many others to a happy, healthy old age.

S. S. S. cured Mr. H. Borden of Saumsville, Va., of a case of Eczema of thirty-five years' standing, after the best physicians in the surrounding country had failed. This was seven years ago, and there has been no return of the disease.

Mrs. D. R. Johnson, of Blackshear, Ga., was for years afflicted with a severe type of rheumatism, and had used every remedy known and recommended as a cure without receiving any benefit. S. S. S. promptly reached the seat of the disease and made a complete and permanent cure.

If you are in doubt about your disease, and will send us a statement of your case, our physician will give you any information or advice wanted, for which we make no charge.

Book on Blood and Skin Diseases sent to any desiring it. Address Swift Specific Co., Atlanta, Ga.

S. S. S. IS THE IDEAL TONIC AND BLOOD PURIFIER FOR OLD PEOPLE.

POINTS IN BANKRUPTCY.

The first impression or construction by any court of general jurisdiction of one of the most important provisions of the United States bankruptcy laws, section 70 of 1898, has recently been made by Judge Russell, of New York, in a case brought before him from Denver courts and involving a number of Denver parties. The point decided by Judge Russell is a provision that has given attorneys for creditors of bankrupts no end of trouble.

The provision referred to sets forth in general terms, that if any creditor shall receive preference from the debtor over other creditors and shall have good cause to believe that the debtor is at the time insolvent, it shall be held that he has been treated as a preferred creditor and that the transaction is illegal, providing it was made within four months before the debtor was declared a bankrupt. The trustee in bankruptcy of the debtor can recover for the benefit of other creditors.

From the terms of the provision it is easily seen why it is calculated to make creditors of bankrupts other than those preferred, suffer. It is much like the "reasonable doubt" instruction given to juries. It must be shown when the trustee in bankruptcy seeks to recover from a preferred creditor for the benefit of the creditors in general, at the time his debt was paid he knew the debtor was insolvent. This point had never been passed upon by any court until Judge Russell decided it in a case brought before him by Attorney Ernest Morris, of Denver. The title of the case is "Silberstein, as trustee, against Stahl Jr., and others."

OPPOSED TO TRUSTS.

The synod of the Lutheran church in session at Laporte, Indiana, and representing the states of Ohio, Indiana and Kentucky, has gone on record in the discussion of the labor question as strongly and unqualifiedly opposed to trusts and their machinations.

In the general condemnation of trusts and combinations of capitalists the present tariff law was denounced as being responsible for the advance in prices upon many articles of utility, the sentiment being expressed that robber monopolists are not only worse than thieves and robbers, but are commercial and industrial anarchists.

The particular feature of the deliberations of the conference has been the strong position taken favorable to the recognition of the just demands of labor and the bitter excoriation of trusts and denunciation of legislation which oppresses one class and gives special privileges to another.

The action of the conference, while free from any professed political prejudice, is accepted as significant and as meaning that the Lutheran church means to take no uncertain position in its defined policies.

Women Wonder Why

They are doomed to so much suffering. But are they doomed? Is not the suffering the result of conditions which under skillful treatment might be entirely cured? Thousands of women who had been great sufferers, have learned that suffering was unnecessary after using Dr. Pierce's Favorite Prescription. It heals diseases of the delicate womanly organs and banishes the headache, backache and other aches which are the consequence of these diseases.

"Favorite Prescription" is absolutely a temperance medicine in the strictest meaning of the term. It contains no alcohol and is free from opium, cocaine and all other narcotics.

"I wrote you for advice February 4th, 1896," writes Mrs. Leona Halstead, of Cherokee, Cherokee Nat., Ind. Ty. "I was racking with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz., Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery,' and 'Pleasant Pellets,' also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard work."

Sick women are invited to consult Dr.

THE LATE SENATOR INGALLS.

The Kansan as Viewed Before Death By a Writer for the Denver "News."

* * * * * * *

Although his language was two-edged and acrid in his treatment of public questions, especially topics that concerned party topics. John James Ingalls is in temperament and personal habit gentle whether he is in touch with a profound and solemn thinker, a professional humorist, a woman or a ten-year-old boy. His gift of adapting himself pleasantly to surroundings is remarkable.

He is tall, gaunt and as whimsical as neat as to dress. Two gentle eyes beam out through his constant gold-rimmed spectacles, and a scrawny moustache rolls over a mouth when he speaks. His is a low, quiet voice from which rolls a vocabulary that is not only extensive but picturesque. Simile and epigram flow from him without hesitation. He is a natural poet and loses himself in high color reveries when striking scenes or incidents confront him.

Mr. Ingalls is as true a light in domestic ways as was the late Col. R. G. Ingersoll, whom he greatly admired personally. He is as thoroughly an agnostic as was Colonel Ingersoll, although only his closest friends hear much of his speculations on "The great mystery on the otherside." He says that he doesn't know, and that he will not permit it to trouble him. His amiable wife and their six children at the Atchison home never found reason to change their claim that he was the best man alive. Nor did his aged parents whose gentle and quiet life in Massachusetts was brightened twice a year by a visit from this ever dutiful son.

Years in the lower house in congress and in the senate did not offer inducements sufficient to lead Mr. Ingalls into the many questionable schemes that offered vast fortune. He cared not enough for money and regarded personal integrity too high to sell. He went back to private life nearly bankrupt. He had been caught by the disastrous collapse of the frenzied boom in Kansas. Although routed he was not dismayed. He quietly went to work to regain his losses, and by lecturing and newspaper writing he was soon able to re-establish himself and family in safety and comfort. His two sons proved to be worthy young men and so it was that misfortune had but a short sway in the Ingalls home.

Mr. Ingalls has always been sharp in denouncing what he has termed the whimsical "issues" of Kansas, notably prohibition and woman suffrage. He is a total abstainer as to liquor and chivalry itself as to women,but he has believed that laws prohibiting the sale of liquor in one state while it is permitted in surrounding territory is a humbug and he holds that women suffrage is a failure because it is not at this time womanly. "There is really no born right to vote," he has said: "It is merely a permission. The great trouble now is that we have too much suffrage. Too many men who should not be allowed to vote are through faulty laws made controllers of this government."

After his retirement from the United States senate Mr. Ingalls spent a year traveling abroad and while there outlined a political novel that he has worked upon for years but has never completed. He told a friend two years ago that so much of his time was required in lecturing and daily newspaper writing to support his family and save his Atchison home that he found no time to make his book as he would have it finished.

Several times it has been said that he had a desire to return to public life, but if he ever entertained the notion, no political opportunity appeared. If his forced retirement through the changes of party fortune or misfortune, his step from the presidency of the senate to the walks of private citizenship was a bitter disappointment to him as has been claimed he has never given public exhibition of it.

Belgian Hares of Pure Blood.

The only full-blooded strains of Belgian hares in this city are owned by Sibbley & Jones. They have six distinct strains of full-blood hares, which they received by the fanciers at Los Angeles, California. Their rabbitry is headed by Lord Cayenne, Jr., whose service is $10. Sired by Lord Cayenne, the finest hare ever imported from England. They have also strains headed by Rufus Roy Gold Dust, Britain's Bob and Alert. Pedigrees furnished with every animal sold. Visitors always welcome.

SIBBLEY & JONES.
231-12t. Prince St.

Percy Hagerman, treasurer of the

WHERE WILL IT END?

Where is this business of annexation to stop? We have got Hawaii, Cuba, Porto Rico and the Philippines, and there is a division of public opinion as to whether we want them or not. We gained these possessions at a great sacrifice of life and treasure, but now comes a country offering itself as a free gift. Switzerland wants to be made one of the United States. This unique proposition has been hit upon by the people of that country as a solution of their tariff troubles. The protective tariffs of European countries, says Consul General Guenther, at Frankfort, excludes the products of Switzerland, whose industries find support only in free trade England. The proposition talked of to create a tariff between Great Britain and her colonies is regarded with apprehension. Such action, it is said, would involve Switzerland in industrial ruin. Her statesmen are inclined to seek an alliance of Switzerland with some foreign country.

TRACK AND TRAIN.

Mountain engines 952 and 982 are up for repairs.

Seven cars of borax from Arizona went east today.

Forty-one new pilots have been made and fitted to engines in the Raton shops the past two months.

Robert W. Denny was notified, at Raton, that he had completed his machinist apprenticeship the 3rd inst.

Taxwell Smith is now engine hostler at Raton, in place of Pete Mogensen, who now has the switch engine.

Firemen Fishburn and Strawmat have gone to the Chicago division, where they will be regularly employed.

Engineers Schock, Wicker, Wolf and Woods left Las Vegas today for the Chicago division, running out of Marceline, Mo.

W. McPike, the conductor who fell under his train at Torreon, Mexico, and lost a leg, has gone to New York to secure a wooden limb.

A Santa Fe conductor and a brakeman on a lower division were suspended twenty days for not giving proper attention to hot boxes.

John E. Jenkins has resigned his position with the Union Pacific at Topeka and accepted a position as cashier for the Rock Island at Chickasha, I. T.

E. M. Sanjule and family have moved from Barstow, Cal., to Gallup, where Mr. Sanjule has been appointed division foreman, made vacant by the promotion of E. H. Harlow.

Boilermaker Robert Cunningham returned to Raton from Topeka where he was in the hospital having his eye treated. His sight was saved and he has reported for work.

Conductor Pollock, of the White Oaks route, was married to Miss Phillips of El Paso, Texas. The bridal pair left for the City of Mexico, on their wedding trip.

Engine failures are very scarce on the New Mexico division these days. Only three passenger engine failures occurred last month—which is considered a remarkable record.—Raton "Reporter."

Passenger Conductor Sloane of the Mexican Central, who was recently poisoned while on his run in Mexico, has resumed his place and Conductor Foy, who has been relieving him has returned to his freight run.

W. Stanford Patterson, who has been a stenographer in the office of the Grand Cañon Railway at Williams, Arizona, has taken a similar position in the office of General Manager Nevin of the Santa Fe Pacific at Los Angeles.

A. F. Youngston of Las Vegas, has gone to the City of Mexico, out of which he will have a run as conductor. Mr. Youngston is a young man, but his long service in New Mexico showed him to be a No. 1 in every particular.

At a conference between the Albuquerque city council and General Manager Mudge, of the Santa Fe system, all the differences with regard to railway improvements in Albuquerque were amicably adjusted and work will commence September 20th. General Manager Mudge says the improvements will cost at least $100,000, and will consist of a big hotel, a new depot, a large park and a viaduct over Coal avenue crossing. The city bears half the expense of the viaduct and voted bonds for $15,000 for that purpose last June.

The first shipments of the Rocky Ford melons have been given to the railroads. The season lasts about six weeks. In this time about 1,000 cars of melons are sent over the Santa Fe. To prepare the cars for this is something of a task. Each car requires about 12,000 pounds of ice before the melons are loaded. 6,000 pounds of ice are used in cooling the car, and after the car is cooled an equal amount is used in reicing
