PIANOS AND ORGANS. | PIANOS AND ORGANS. | PIANOS AND ORGANS. | PIANOS AND ORGANS.

The STEINWAY PIANO

is not the product of a single brain, but the gradual evolution of the efforts of four successive generations in one family of practically and scientifically trained piano makers. Unlike so many other well-known piano houses where not a single bearer of the name is in existence, there are at the present time eight grandsons and great-grandsons of the original founder in active charge of the various departments of our house, which is more than at any other time of our history.

Fifty years ago a jury of the highest musical authorities in America at the Crystal Palace Exhibition in this city unanimously pronounced the Steinway the best piano, and it has ever since been the ***Standard Piano of the World,*** and each year has steadily widened the gap between the Steinway and its would-be competitors.

The best proof that public opinion has endorsed this verdict lies in the fact that over one hundred and fourteen thousand Steinway pianos are in daily use all over the world, the original purchase value of which amounts to the stupendous total of ***One Hundred Million Dollars.*** Up to the present time only the wealthy could afford to purchase, excepting the musical profession, who often-times save for years to attain the great desire of their lives, the possession of a Steinway. But since the introduction of the newest Steinway models, the Vertegrand, at $500, and the Miniature Grand, at $750, the Steinway piano has been put within easy reach of many thousands of new purchasers, and our vastly increased sales testify to the positive fact that a difference of from $50 to $150 will not deter the public from acquiring the best and most lasting piano ever produced.

The mere fact of possessing a Steinway piano puts the seal of supreme approbal on the musical taste of the owner.

Our illustrated catalogue and "Portraits of Musical Celebrities" mailed on application.
