UNCLE SAM'S PARTNER

Planting home gardens, producing more food, and saving food are all war-time efforts of this government in which the women of America have co-operated loyally. We are all in the home army; the home army here must help the fighting forces and home armies over there; 120 million Allies must eat.

Rev. Mr. Phillips and Rev. Mr. Trascott officiated. Interment will be in Graceland Park cemetery. Mrs. C. C. Huling, a daughter, of South Sioux City, is the only survivor, besides a sister who lives at Laguna, Iowa. L. C. Knutson of South Sioux City has asked the state railway commission to "talk turkey" to the Missouri River Bridge company because of its conduct with relation to tickets issued by it, but the commission has replied that the company does an interstate business and is beyond its jurisdiction. Mr. Knutson says that the company sells commutation bridge tickets, of which he is a purchaser. These are signed by the purchaser, and a contract attached says they cannot be used by anybody but the purchaser. Mr. Knutson's complaint was that the company would not honor his commutation ticket when presented by members of the family and insisted that all the tickets in the book be used before the expiration of the month in which they were bought or they would not be accepted in payment of fare.

County Agent's Field Notes

C. R. Young, County Agent

The auto tour which was made last Wednesday in spite of the almost constant drizzle which prevailed throughout the day, was as much of a success as we could hope for under the conditions. The numerous phone calls which came early in the morning asking if the tour would be made that day, and the many persons who have since expressed regret because they did not go, shows that a large crowd would have been on hand, had the day been more promising. Thirteen well filled cars made port or all of the trip, although there were but seven or eight to finish.

All expressed themselves as glad they went, feeling that their time had been profitably spent. Everyone enjoyed the hospitality shown at each farm where stops were made. County Agent Leader R. E. Holland and Mrs. Emma R. Davison of the State University, made their country addresses from under a tree while the people sat in their cars to keep from the rain. Mr. K. F. Warner of the State Farm gave an illustrated talk on sheep-husbandry at the Chas. Holworth farm. It is very possible that a second tour will be in this season in which some of the most interesting farms on the Iowa side of the river will be studied. These tours have an educational value that cannot be gotten from reading, colleges, experiment stations or any laboratory. Those who go once never fail to go again if possible.

If you are going to need seed wheat for this fall or for next spring's sowing be sure to buy it

now. There is no incentive for growers to hold over any quantity more than for their own needs and next spring may present a serious shortage that can only be supplied through the elevators at an advanced figure and an uncertainty as to variety. Even though other crops may prove more profitable, Dakota county must show her patriotism as she has in the past and sow a large acreage to wheat. If you have good seed wheat for sale kindly let us know.

Calls from many places are now coming in for alfalfa hay. If you have any for sale, we will help you to find a market for it.

During the past week hog cholera has appeared on the farms of Don Forbes, Guy Sides, Wm. Betecke and C. E. Kline. These men have all vaccinated or are preparing to do so as soon as serum can be secured. At present there is a serious shortage of serum at all factories so that persons contemplating vaccinating soon should figure ahead for the material.

"It's a Good Place to Trade." South Sioux City, Nebraska

raised and forwarded before Synodical books are closed Sept. 30. You are going to help.

Dr. Verian, of Omaha, president of Synod, was a pleasant visitor at the pastor's home Monday. He was on his way home from an over Sunday visit at Ponca.

It is a mighty good indication when people get out of the church and immediately put into practice some of the things the preacher has just spoken in the pulpit. It means that the people have heard as they ought to hear. "Let him that hath ears to hear take heed how he hears." "Do not be a hearer of the word only but a doer." They have applied the word and it becomes helpful to the hearer and to the man who has been served. It is a sad state of affairs when anyone thinks a sermon applies to Mr. X fine but not to himself. Likewise when any hardens his heart against what he may hear of the word of God. A preacher ought always to apply the word to the problems of life and if he does truly it ought to be received as the word of God. It is only by so doing that we can profit by the preaching, hearing with a sympathetic ear and putting the truth into practice. If a man feels that his church is doing him no good, he should ask himself if he is trying to live and operate the Christian principles. Suppose you had typhoid fever, called the doctor and then neglected or refused to take any medicine or follow instructions. How would you be healed?

HOME DEMONSTRATION NOTES

Miss M. Hall, Home Agent.

I find a great many women becoming alarmed over the dill pickles that they have canned by the recipe that was published a few weeks ago. In order to have dill pickles they must go through a fermentation process. A few days after the cucumbers are canned the liquid will turn white and appear to be working. In about ten days or two weeks the jar will clear up, the fermentation is completed, and the pickles are ready to use. It is a little safer after sealing the jar and it has cooled, to dip in melted paraffin just below the rubber.

Some people have gotten the idea that with the good wheat crop we are no longer required to use substitutes. The 50-50 rule has not been changed and we are still getting along with as little wheat as possible. The following recipe for the use of cornmeal will be found an appetizing dish and help to conserve wheat. It is given to us by Mrs. Cora Warden of Sacramento, Cal.

- Southern Spoon Bread**
- 2 cups milk.
 - 1 cup corn meal.
 - 4 eggs.
 - 1 teaspoon salt.
 - 2 teaspoons baking powder.
 - 1 tablespoon sugar.

Measure and set aside all dry material. Put milk on to heat. Beat egg whites until stiff and dry. Beat yolks until thick. Add the cornmeal to the hot milk and cook until thick. While hot, add salt, sugar and egg yolks. Mix thoroughly, add baking powder and fold in egg whites. Bake in a well greased deep pan or casserole forty to fifty minutes. Serve hot from pan, with spoon.

We are going to make soap at the home of Mr. C. R. Young, Friday, August 23, at 2 o'clock. Anyone interested in seeing this is urged to come.

United Appeal for Larger Wheat Acreage

The following have issued a united appeal to Nebraska farmers to sow more wheat this fall: United States Department of Agriculture, Governor Klieh Neville, State Council of Defense, College of Agriculture, Federal Food Administration for Nebraska, State Board of Agriculture, Nebraska Extension Service, Nebraska State Grange, Nebraska Farmers' Union. The appeal issued as Emergency Bulletin No. 1 of the Nebraska Extension Service. Nebraska is asked to sow 17 per cent more wheat than it harvested last year, and some of the organizations urge sowing 20 per cent more.
