SOLDIER'S LETTER

From Harold T. VandeZedde to his parents, Mr. and Mrs. D. VandeZedde. Somewhere in France, Sept. 20, 1918.
Dear Folks: I suppose you are wondering what has become of me. We have been on the go most of the time and did not get a chance to write, as there was no address for you to answer to, and not much time.
We are settled now, for the time being at least, in southern France. I sure saw some wonderful sights and scenery. This is a beautiful country. The farmers use cattle for farm work and also on the road. Some have donkeys—very seldom you see horses. The houses are all made of brick or stone. You see lots of the people with wooden shoes yet. There are lots of vineyards here and the people plant vegetables, potatoes, etc., on every available inch of ground. There is lots of pasture, as most all farmers have sheep.
I could certainly write a book on what I have seen. I am feeling fine and in best of spirits. I know you will be glad to hear that. Hope you and Ma are alright. Give my best regards to everybody. Well, I will close.
Your loving son,
Harold T. VandeZedde,
Co. C, 333rd Inf., A. E. F.

From George E. Bates to his sister, Mrs. Freeman Antrim.
Somewhere in France, Aug. 14, 1918.
Dear Sister: Just received your most welcome letter yesterday, and was sure glad to hear from you. Your letter was dated June 11th, and I also got one from Grace dated July 2nd. She wondered why I never wrote her, and I have written you girls at least twelve times. I don't see why you don't get your letters. I am just feeling fine and can't complain one bit, for we have earned a great reputation over here and I am sure you have all heard of the good work this division has done, long before now. Possibly you know almost as much about it as I do, although I can't tell you of my experience until I get home, and then I will spread it on good and thick. There isn't much chance to tell anything that isn't an actual fact, for there is certainly very few things that aren't possible. I feel just the same as I always did—that I'm coming back to you. I sure enjoy the letters I get from you, for you know our letters and the papers we get hold of are our greatest treat. I don't think from the looks of things at present it will be a great while before this old war will be over. And then we will have a good old visit, and I can tell you all about what I have seen over here.
I suppose everybody has good crops this year. Minnie says all prospects are for a bumper crop. I sure hope so, for a great deal depends on the good old United States, as she is capable of doing anything she starts out to do, no matter what it is or how hard it is to do, for the American people are not to be compared with in any way whatever. When it comes to war the Sammys are sure true blue. They are the same color as that grand old flag. No more yellow in our soldiers than there is in the flag. So rest assured that we will win and be home before a great while. Old Fritz put me in the hospital once, but I am back after him again just as good as when I started, and a great deal wiser.
Will close for this time, with lots of love and best wishes to you all, from your loving brother,
George E. Bates,
Headquarters Co, 58th U. S. Inf., Div. 4.

To the Electors of the 13th Representative District:

As candidate on the democratic ticket for Thurston and Dakota Counties, "the 13th district," I ask for your support at the coming election. The leading issue before the people is "Win the War." That is my platform and if elected, I will support President Wilson and his policies at every opportunity.
I am acquainted with the wants of this district, have lived in it for twenty-six years, and as a farmer, a public official and citizen, have stood for the highest ideals of American citizenship, and all it stands for.
I was born in the United States, the greatest privilege I know of, and will at all times, support her aims and high purposes.
If elected, I will represent you as I believe you would be represented.
HENRY D. RIXEN.

Save Fruit Pits

The war department is in urgent need of fruit pits and nut shells. Sixty thousand members of boys' and girls' clubs in Nebraska are collecting pits and shells, which are to be used in making carbon for gas masks. County Red Cross chapters are depots for collection. The Red Cross is hurrying shipments to the carbon plants. Many merchants have placed boxes where pits and shells can be conveniently thrown. Likewise many schools have such boxes.
