GREAT IMPROVEMENT IN DENTISTRY.

The attention of the public is called to a great discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is which is not true of any method hitherto used.

I have secured Letters Patent in the United States, England and France.

The improvement is not in material, but in the construction, which secures the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Franklin, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves of such improvement, will call on

Dr. L. GILMAN,

will quickly restore Gray Hair to its natural color and beauty, and produce luxuriant growth. It is perfectly harmless, and is preferred over every other preparation by those who have a fine head of hair, as well as those who wish to restore it. The beautiful gloss and perfume imparted to the Hair make it desirable for old and young.

RENOVATOR!

A SURE CURE FOR

Scrofula, Erysipelas, Tumors, Salt Rheum, Fever Sores, Scald Head, White Swellings, Heart Diseases, Ulcerations of the Lungs and Liver, and all Cutaneous Affections, and Cancerous Affections, and diseases arising from indiscretions or Mercury.

Persons afflicted with the above diseases and having no confidence in the efficacy of this medicine, can make an arrangement with the Proprietor,

"To be Cured or NO PAY!"

In Dyspepsia, Bilious Complaint, Costiveness, Diarrhea and Dysentery, IT HAS NO EQUAL, curing the Diseases quickly with a few doses, by removing all irritating secretions and inflammatory tendencies, and giving the stomach and bowels a natural, healthy tone.

This medicine has been used over 14 years, yet it is unknown in many parts of the State from the fact that it has never been advertised. The Proprietor never intended making it for general use, but at the urgent request of Physicians who have watched its effect in severe chronic cases, and friends and others who have recovered by its use from diseases that appeared hopeless, he will now furnish it to Druggists and Dealers throughout the State.

☞ A Circular containing certificates of the most remarkable cures ever effected, from Physicians, Ministers and others of the highest standing in the different towns where used, will be furnished by dealers free, or by addressing

This most wonderful and beautiful addition to the Cottage Organ is acknowledged by leading musical characters in the country to be the *ne plus ultra* of all improvements on reed instruments.

THE FIRST PREMIUM

Was awarded to this instrument at the New York State Fair and the Fair of the New England States, Vermont State Fair, Missouri State Fair, and Iowa State Fair, over all other instruments, including Mason & Hamlin's Cabinet Organs, Smith's American Organs, and Taylor & Farley's.

It is very important that purchasers bear in mind that the original and genuine Cottage Organ is made by the House of J. ESTEY & Co., only.

The chief points of superiority are patented by them, and of course are found on the instruments of no other maker.

CIRCULAR.

The attention of Town Superintendents, Teachers, and others interested in the cause of popular education in the State of Vermont is called to Section 2, Act No. 2, of the Laws of Vermont for the year 1866, which reads as follows:

SECTION 2.—The Board of Education are hereby authorized, and it is made their duty, on or before July 1, 1867, and on or before said date every fifth year thereafter, to select a list of such grammars, geographies, arithmetics, histories of this State and the United States, philosophies, algebras, readers and spellers, not exceeding one book of a kind in each branch, as they shall deem best suited for instruction and use in the district schools in this State, in each of said branches; and shall cause the list so selected to be published in all the news papers published in the State, during the month of January next following the making of such selection; and also to be inserted in each school register issued after one year from the making of such selection; which list, so selected, shall be and remain authoritative and binding upon the Board of Education, superintendents and teachers, and during five years from and after November 1, 1868, and each five years thereafter; and superintendents and teachers shall recommend for use in the district schools, as new books shall become necessary for instruction in the branches named, no other than the books included in said list so selected and published.

The following is an extract from the Report of the Board of Education, for the year 1867, page 8:

Mitchell's First Lessons, Primary, and Intermediate Geographies were adopted, for these reasons, in brief; the simplicity and clearness of the text, the gradual and constant advancement from the primary truths to the higher departments of geographical knowledge, the conciseness and completeness of the definitions, the elegance and accuracy of the maps, the attractiveness of the pictorial illustrations, and the uniform method of treating topics that are similar to each other. Since the adoption of these books, the publishers have taken measures to prepare a special edition of the Intermediate Geography for use in the schools of Vermont. This edition will contain a new quarto map of the State, engraved on copperplate; and four pages of letter press and questions, relating to the geography of Vermont, to be prepared by Rev. Pliny H. White. It is believed that this feature, while it is not to increase the cost of the books, will materially increase its value, and the interest with which it will be studied. McNally's Physical Geography, accompanied by Monteith's Lessons in Astronomy, was adopted to be used in those departments of the study which are indicated by their titles. Guyot's Common School Geography was adopted as a Physical Geography of a grade different from McNally's.

Inasmuch as there seems to be some misapprehension as to the intention and design of the Board in recommending the different text-books in geography, it seems proper to state that it was their intention to recommend the use of Mitchell's Geographies by all classes which have hitherto used, or which would otherwise use Cornell's, and that they did not design that Guyot's Geographies should be used, except by pupils who, having passed through Mitchell's, desire to advance to the study of physical geography by Guyot's method.

The publishers of Mitchell's New Geographies will send agents into every town in the State, to supply schools according to the terms annexed, and it is hoped that superintendents will furnish every facility for the speedy prosecution of their business.

JOHN B. PAGE, PLINY H. WHITE, JONATHAN ROSS, D. D. GORHAM, State Board of Education.

L. F. WARD, A. J. SANBORN, M. CLARKE, A. E. RANKIN, Secretary.

In calling attention of Superintendents and Teachers to the above statement of the State Board of Education, the subscribers would say that, immediately upon the opening of the district schools, our travellers will visit each town in Vermont for the purpose of furnishing Mitchell's New Geographies in exchange for those now in use. All persons interested, who may desire further information in relation to the exchange, will please address, LORENZO B. PECK, Montpelier, Vt.
