GENERAL MARKET REPORT.

New-York, August 1, 1899.

COFFEE—Coffee futures came in for very little attention from the professional branch of the trade to-day, and were almost totally neglected by the outside investment public. The opening was steady at unchanged prices, and for the rest of the session there was scarcely a hair's breadth variation from this level. The news at hand offered no incentive to speak of to longs or shorts. The cables reflected apathetic speculative conditions abroad, with declining prices in domestic circles. The outlook was so pessimistic one, while the general statistical situation was hardly calculated to inspire confidence on the bull side. Receipts were heavy, warehouse deliveries light, clearances for this country again large, and reports from European centres of accumulation of a burdensome order. At the close the local market was steady in tone, with prices net unchanged. Total sales of futures were restricted to a meagre 4,000 bags, 1,500 of which changed hands on the opening call. In the Street market for spot coffee business was of a straggling jobbers' order, and small at that. Prices were nominally unchanged, on the basis of 5¾c for invoice lots and 6¾c for jobbing parcels of No 7 Rio. A special cable from Amsterdam stated that the next Dutch sale will be held August 8, when 20,000 pecule will be offered. The brokers' valuation for good ordinary Java is 29½c. The amount afloat from Java and the East for Europe is 145,000 bags. No shipments were made to the United States from these points during the month of July. Clearances for this country yesterday included 32,000 bags from Santos, 9,000 bags from Victoria and 9,000 bags from Rio. The present stock of coffee at Hamburg is 583,000 bags, including 344,000 Brazilian.

The range of contract prices in the local market to-day was as follows:

	Opening.	High.	Low.	Close.	Yester-day.

COTTON—Few brokers on the Cotton Exchange had orders when the market opened this morning, and throughout the session business of any description came in very slowly. Room operators were not in a mood to push out new risks, inasmuch as the news from abroad and the crop centre did not warrant aggressive action in either direction. The market opened quiet at an advance of 1 point to a decline of 1 point, and after fluctuating within a range of 3 points closed quiet and steady, net unchanged to 1 point higher. Semi-sensational reports that yellow fever had made its appearance in the cotton belt were emphatically denied by private dispatches. The trade were not inclined to worry themselves in this connection, as it was known that the authorities had the situation at Hampton, Va., well under control and were taking extra precautions to keep the plague from entering the belt from Cuba. Nevertheless, the knowledge that the fever had gained a foothold in the South tended to make investors cautious and check promiscuous transactions on the part of the professional contingent. Crop reports were unquestionably good on the average, though it was admitted by fair minded parties that in the Eastern States the crop was spotty and shedding to a more or less general extent. Texas information was especially fine. The weekly crop and weather statement by the Government was no better nor worse than looked for, and, therefore, made little stir in the market. The English cables were summed up as of little consequence for or against the market. A brief summary of the weekly Government crop and weather report by telegraph stated that complaints of seeding continued from the central and eastern portions of the cotton belt, and, while rains have improved the condition of the crop in the Carolinas, the excessively heavy rains in North Carolina have proved injurious. Good growth is, however, generally reported, especially in the central and eastern sections. Picking is well advanced in portions of fruiting well. Picking is well advanced in portions of Southern Texas, in which State the general condition of the crop is promising.

The range of contract prices in the local market to-day was as follows:

Cotton Exchange special Liverpool cables, spot cotton, quiet but steady; sales, 7,000 bales; speculation and export, 500 bales; American, 6,000 bales; receipts, 3,000 bales; American, 2,000 bales; middling upland, 3⅝d; futures closed quiet, buyers at last night's prices; closed quiet at unchanged to ½-64d higher. December-January, unchanged to ½-64d higher. January-February, 3.15½b; February-March, 3.15½b; March-April, 3.16½s; April-May, 3.17b; May-June, 3.18s; June-July, 3.18½b; August, 3.19½s; August-September, 3.18½s; September-October, 3.17s; October-November, 3.16s; November-December, 3.15b. Manchester—Yarns move slowly. Cloths, more demand.

DRUGS—Opium ruled firm with a good jobbing demand, at the following prices: Opium cases, $3 07½; jobbing, $3 10@$3 12½; powdered, $3 90@$4 10; morphine, $3 10@$3 12½; powdered, $3 90@$4 10; morphine, $3 10@$3 12½; bulk, $2 05; ounce phials, $2 10; eighths, $2 30@$2 35; quinine, domestic manufacturers, bulk, 32c; foreign manufacturers, bulk, 29c; outside holders, bulk, 30@31c.

FLOUR AND MEAL—The market was very unsettled and weak, with prices fully 10c lower to sell, and very little demand beyond attending to actual requirements, while the outcome of the market is so uncertain. Spring patents $3 70@$3 85; winter straights, $3 30@$3 40; winter patents, $3 70@$3 85; winter straights, $2 90@$3 10; extra No 1 patents, $2@$3 75; spring clears, $2 90@$3 10; extra No 1 winter, $2 40@$2 50; no winter, $2 70@$2 80; extra No 2 winter, $2 40@$2 50; no grade, $18 10@$18 25 to arrive. RYE FLOUR—Weak; choice to fancy, $3 15@$3 30. CORN MEAL—Weak; quoted: Kiln dried, $2 10@$2 25, as to brand. BAG MEAL—Weak; quoted: Fine white and yellow, $5@90c; coarse, 72@75c. BRAN—Fine white and yellow, $5@90c; coarse, 72@75c. FEED—Lower. Quoted: Spring bran, bulk, $14@$14 50, sacks, to arrive, 200 lb, $14 25@$14 50; lake and rail, sacks, to arrive, 200 lb, $14 25@$14 50; lake and rail, sacks, spot, $15@$15 25; coarse winter bran, $16@$17, latter white; fine, $14 50@$15; middlings, $14 75@$15 25, bulk, and feed, $16@$16 50; hominy chop, $14 75@$15 25, bulk, and $16 25@$16 75 sacks; oil meal, $24 50@$25.

GRAIN—WHEAT—The market began and ended to-day decidedly weak as to tone and uneventful as to speculative developments. Last prices were at the lowest point of the session and ½c under the previous night. Scarcely a bull influence appeared on the speculative horizon. The only interval of steadiness was at midday, when, instead of the increase expected, there was a decrease of 332,000 bush in world's stocks, according to "Bradstreet's." A momentary rush to protect small short interests, and the market immediately drifted back into its previous condition of weakness, aggravated near the close by selling for both accounts. Bears were in an aggressive mood all day. The entire trade seemed to be impressed with the idea that Europe would not take our wheat at present prices, and that the sooner a heavy break took place the better it would be all around. Crop advices, cables and clearances were all against the market. Foreign houses neglected options again quite as much as they did the cash market. At all ports only 10 loads could be put down to export account, while the movement of wheat at interior points gained on last week, although not so important a factor as some of the other bear influences. Friends of the market realize that as the days go by without unfavorable weather developments in spring wheat States and in European countries, the crops are steadily working toward a point where the ordinary changes of temperature, etc., will have a less accute effect upon the plant. Consequently the tendency both here and abroad is to steadily raise the limit on crop figures. Snow, for instance, claimed that threshing returns showed half a bush to the acre better than expected, and estimated winter wheat production at 285,000,000 bushels, or about ten millions larger than was figured out a month ago. The figures on spring wheat were 275,000,000 bushels.

In spring wheat territory to-day it was clear and cool. Arrivals at Northwest points were 296 cars, compared with 252 cars the previous week and 82 cars last year. Liverpool closed ¾d lower on futures and partly ½d off on spot. Paris markets were unchanged to 10 points lower and Antwerp ¼c franc lower. Prime reported spring wheat outcome largely a matter of guesswork, with condition not so good as a year ago. Quotations of cash wheat, f o b afloat basis, were as follows: No 2 red, 75½c spot; No 1 Northern Duluth, 76⅝c spot; No 2 Northern Duluth, 72⅝c spot; No 1 hard Duluth, 80⅝c, to arrive; No 2 red, 73⅝c elevator. CORN—Bears also had entire control over the corn market to-day, and at the close found prices ½c to their credit. It was again a case of fine crop news and liquidation, these two points overcoming the influence of an export business that reached 125 loads at all ports. Bulls lost all heart under the perfect weather conditions and continued big crop estimates coming in from the West, and unloaded freely all day. The buyers were shorts who took profits only to contract new interests again on the same side. Liverpool closed ⅝@½d net lower. Chicago received 881 cars to-day, but expected only 350 cars on Wednesday. No 2 corn closed 35⅝c elevator, 36⅛c delivered and 36⅝c f o b afloat. OATS—The export business in oats amounted to 100,000 bush, all ports, but did not check weakness, which came as a result of depression in other grain markets. No 2 oats closed 27c; No 3 oats, 26c; No 2 white, 29c; No 3 white, 27½c; track mixed, 26@28½c; track white, 28@35c; No 2 white clips, 30½c. RYE—Market quiet; No 1 Western, 49c f o b afloat; No 2 Western, 50½c spot. State rye, 54c c i f New-York carlots. BARLEY—Steady for feeding, 35c c i f Buffalo; malting, 46@50c delivered New-York.

HEMP AND JUTE—There was considerable firmness in the market for Manila hemp, with sisal steady. Jute and jute butts quiet. Prices were quoted as follows: Manila hemp, spot, 8½c; Manila hemp, shipment, sc; Manila hemp, shipment, U. K. 8½c; sisal, spot, 6 7-16@6½c; sisal, shipment, 6 7-16@6½c; jute, spot, B B 2 3½c; jute, spot, double triangle and equal, 2.80c; jute, shipment, B B 2, 3.30c; jute butts, spot, paper quality, 1½c; jute butts, shipment, paper quality, 1⅝c; jute butts, mixing, 1.60@1.80c; jute butts, bagging, 1.90c.

HIDES—Common dry hides were held firmly, owing to light supply on hand, and city slaughters were also firm. Quotations follow: California, 18½c; Matamoras, 16c; Truxillo, 16c; Orinoco, 17½c; Tampico, 16c; Bogota, 15½@16½c; Central American, 16@16½c; Vera Cruz, 15½c; Puerto Cabello, 16½c; La Guayra, 16½c; Caracas, 16½c; Payta, 15c; Tabasco, 15c; Rio Hache, dry and pickled, 14@14½c; Port au Platte, 14½c; Galveston, 16½@17c; San Antonio, and Laredo, 17½c. Dry salted hides—Payta, 11½c; Pernambuco, 11½c; Maranham, 12½c; Pernambuco, 13½c; Bahia, 12c; Maracaibo, 11½c; Savanilla, 11½c; Matamoras, 12½c; Texas, 12½@13c; city slaughter native steers, 11¾@12c; butt brands, 11@11¼c; side brands, 11@11½c; bulls, 9½@9¾c; cows, 10¼@10¾c; country slaughter native steers, 9¾@10¼c; cows, 9¼@9¾c; bulls, 8½@8¾c.

LEATHER—Considerable firmness was noted in all kinds of leather, with a good volume of business on the basis of the appended prices: Hemlock, non-acid, first selection, 21@24c; seconds, 20½@22c; thirds, 18@20c; acid, first selection, 21½@23c; seconds, 20½@23c; thirds, 18½@21c; rejects, 16½@18½c; union light backs, 32c; middle backs, 32c; middle heavy, 32c; seconds, heavy, 30c; thirds, 28c; light backs, cow, 32c; seconds, 30c; bellies, 17½@18c; oak dressed backs, 34@35c; seconds, 32@33c; thirds, 30@31c; bellies, 19@20c; belting butts, 34@38c; Texas oak sole, 22@24c.

METALS—The various phases of to-day's metal market were of a less sensational order. Tin fell off some 50 to 75 points under an abrupt let up in demand and less favorable reports from home and foreign markets. The other departments were quiet and unchanged. At the close the Metal Exchange called pig iron warrants unchanged, with No 2 quoted $15 25@$15 75. Copper closed unchanged, with spot to August quoted $18 50. Tin at the close was firmer, although having opened easier; spot at the close was quoted at $32 85@$33. Lead closed unchanged; spot to August, $4 55@$4 57½. Spelter closed unchanged; spot, $6; August and September, $6 75. During the month of July the market for tin advanced rapidly and closed at about the highest point. Our market opened at $27 50 for spot; highest, $33; lowest, $27 50, closing at $32 87½; average price for the month of July, $29 55. London started at £121 12s 6d; closed at £145 15s; lowest, £121 12s 6d; closed at £145 15s. Copper during the last month changed but little, exhibiting for the most part a firm undertone. Our market opened at $18 25 for spot; highest point touched was $18 50; lowest, $18 25; closing at $18 50. The average price for the month was $18 42½. London opened at £77 for spot and standard contracts; highest point was £77 12s 6d; lowest, £76; closing, £76 2s 6d. Spelter was very quiet during the last month, opening at $6 12½ for spot, fluctuating between $6 37½ and $6, closing at the latter figure; average price was $6 20. Lead showed a very fair amount of activity during July; prices fluctuated somewhat, and at the close a firmer tone prevailed. Our market opened at $4 12½ for spot destiverized, ranged from $4 60 to $4 52½, closing at $4 55. The average price for the month was $4 57½.

MOLASSES AND SYRUPS—The midsummer apathy which has been in force for several weeks has not been dissipated. The wants of jobbers and country buyers are small; holders are very cautious and stick strictly to full rates; sales rule quiet and firm at unchanged prices. Quotations follow: New-Orleans, centrifugal, common, 9½@12c; fair, 13@15c; good, 16@18c; prime, 20@26c; New-Orleans open kettle, 32@33c; Porto Rico, 28@35c. Syrups—Common, 12@14c; fair, 15@16c; good, 17@19c; prime, 20@21c; fancy, 22@25c.

OILS—Cottonseed oil was entirely without change or feature of interest, ruling steady in absence of selling pressure. Business in linseed oil was still of very fair proportions, and steadiness prevailed, as heretofore. The recent advance in prices of refined petroleum was strongly adhered to, but aside from this the market was without particular feature. Quotations follow: Petroleum, bulk, $7 80, and in bulk, $5 30; Philadelphia, bbls, $7 75, and in bulk, $5 25; refined cases, $8 80; crude naphtha, cargoes, $10; deodorized, $10 50. Cottonseed oil—Prime crude nominal; prime crude f o b mills, 17@18c; prime summer yellow, 26½@27c; off summer yellow, 25½@26c; butter grades, 30@32c; prime white, 29½c; prime winter yellow, 30@32c; linseed, American raw, 39@40c; American boiled, 41@42c; Calcutta raw, 58c; lard oil, 44@45c.

OCEAN FREIGHTS—Business in sail tonnage was of a rather limited character, owing to light offerings of vessels. There was a fair demand from grain and general cargo tonnage to the colonies, also for South American and West Indies, but shippers' wants were not readily met. A steady, moderate inquiry for coasting lumber and coal tonnage was noted, with rates firm. Steamers for grain in better demand, particularly from outports, and rates were firmer, say 3s 3d from Baltimore to Cork for orders for prompt and early boats. 3s 4½d to Cork for orders for prompt and early boats. 3s 4½d for late August and 3s 6d for September. Berth terms rates to Liverpool were quiet United Kingdom and Continent were 3s 9d for September. Other departments were unchanged. Quotations to Liverpool were 2¾d; London, 3d; Glasgow, 3d; Bristol, 4d; Leith, 4½d; Hull, 3¾@4d; Newcastle, 4d; Antwerp, 4d; Hamburg, 60 pfennigs; Rotterdam, 9½c; Amsterdam, 9½c; cotton to Liverpool, per 100 lb, 15c nominal; London, oats, 1s 9d.

PROVISIONS—The advance which hog products displayed early in the day on covering was partly destroyed later in sympathy with the break in grain, and the market closed weak at about the lowest point of the day, and only a slade above the previous night. PORK—Steady. Quoted: Mess, $9 50@$9 75; family, $10 50@$11 50; short clear, $11@$11 75. BEEF—Quiet. Quoted: Mess, $9 50@$10 50; packet, $9 50@$10; extra India, $20; family, $9 50@$10 50. BEEF HAMS—Firm. Quoted at $27 50 @$29. DRESSED HOGS—Firm. Quoted: Bacons, 6¼c; 180 lb, 6¾c; 160 lb, 6¾@6⅞c; pigs, 6¾c. CUT MEATS—Pickled bellies firm. Quoted: Smoking bellies, 7¼@7½c; 10 lb, 6¾c; 12 lb, 6¼c; 14 lb, 6c. Pickled shoulders firm; quoted at 6c. Pickled hams steady; quoted at 10¼@11c; Western greens, 10½c; Western S P, 10½@10¾c; city, 9½c. TALLOW—Strong, city, 4½c; country, 4½@4¾c. LARD—Easy; quoted: Prime, 5.55c. City lard steady; quoted at 5.10@5.15c. Refined lard quiet; South America, 6.25c; Continent, 5.75c; Brazil kegs, 7.35c. Compound quiet. Quoted: City, 4⅝c; Western, 5c. STEARINE—Firm. Quoted: Oleo, 7¼c; city lard stearine, 7c nominal.

RICE—The market locally continues quiet but steady at unchanged prices. New factors failed to put in an appearance either here or at the South. The foreign news was meagre and of indifferent purport. Quotations follow: Domestic, common to low fair, 2½@4¼c; fair to good, 4⅝@5¼c; prime to choice, 5⅛@6⅝c; head, 7@7½c; Patna, 4⅝@5¼c; Japan, 4⅝@5¼c; Java, 4⅝@6½c; Rangoon, in bond, 2@2¼c.

SUGAR—Demand for refined sugar was active most of the day, with the market strong in tone. An advance had been looked for by many brokers and interested parties, especially in those grades most heavily oversold. The cable news, public and private, was of an optimistic turn and added to the strength of the local market. Quotations follow: Dominos, 5⅝c; cut loaf, 5¾c; crushed, 6c; cubes, powdered and coarse powdered, 5⅝c; confectioners' granulated, 5⅝c; 2 lb cartons, 2 lb bags, 5 lb cartons and 5 lb bags of fine granulated, 5.50c; mould A, 5¾c; diamond A, 5⅝c; confectioners' A, 5¼c; Nos 1, 2 and 3, 5c; No 4, 4.94c; No 5, 4⅞c; No 6, 4.81c; No 7, 4⅝c; No 8, 4.69c; No 9, 4⅝c; No 10, 4½c; No 11, 4⅜c; Nos 12 and 13, 4.31c; Nos 14, 15 and 16, 4¼c. Raw sugar was exceedingly strong all day, with the bids plentiful on the basis of 4⅛c for centrifugal, 3 15-16c for muscovado and 3 13-16c for molasses sugar. Importers were not tempted to any considerable degree by these figures, entertaining much higher ideas as to the value of their staple. Asking rates were 1-16c to ⅛c above bid quotations. Beet sugar at London was reported through the regular channels firm at quotations. August delivery was marked up 1½d to 10s 10½d and September ¼d lower to 10s 8¼d. Cane sugar was quiet but steady, with Java quoted at 12s 7½d and fair refining at 11s 6d. The present United Kingdom stock is 56,000 tons, compared with 89,000 tons same time last year.

TOBACCO—Sales of seedleaf tobacco amounted to 525 cases, with a firm market at the following prices: New-England Havana, crop 1898, at 20@40c; 200 cases Pennsylvania crop 1898, flats, 16@16½c; 100 cases Zimmer, crop 1897, at 10@17c, and 100 cases Dutch, crop 1897, at 14½@15c. Sales of foreign tobacco included 575 bales Havana at 70@88c in bond and 75 bales Sumatra at 85c@$1 in bond.

COUNTRY PRODUCE MARKETS.

New-York, August 1, 1899.

BEANS AND PEAS—Receipts for the week: Beans, 4,560 bbls; peas, 1,242 bbls. Exports: Beans, 1,568 pkgs; peas, 412 bbls. There has been a further shading of values on nearly all kinds during the week, resulting from a generally quiet trade and slight pressure to sell. Stock is now coming forward quite moderately, however, and the tenor of interior advices makes sellers rather unwilling to yield any more, so that, while the volume of business is still very moderate, there is a steady holding of choice lots of most varieties. The general asking rate for fancy marrow is $1 47½, but 2½c less has been accepted in instances. The best brands of medium and pea are held mainly at $1 35, but a few sales of pea are reported at $1 32½. Exporters are taking a few lots of red kidney at $1 67½@$1 70; the demand is not large enough, however, to give much strength to the position. Rather more kidney seems coming forward and only a limited outlet for them, we hear offers to sell some very nice stock at $1 90. Yellow eye and turtle soup are seldom inquired for. California lima slow, and $2 80 is more of an asking than selling price. Green peas without further change, but Scotch are quiet and rather easy. We quote: Beans, marrow, 1898, choice, per bush, $1 45@$1 47½; do poor to good, $1 20@$1 40; do medium, choice, $1 35; do peas, choice, $1 32½@$1 35; do medium and pea, poor to good, $1 15@$1 30; do red kidney, choice, $1 67½@$1 70; do poor to good, $1 40@$1 65; do white kidney, choice, $1 90@$1 95; do poor to good, $1 35@$1 40; do yellow eye, choice, $1 35@$1 40; do black turtle soup, choice, $1 70; do lima, California, $2 77½@$2 80; green peas, bbls, $1 12½@$1 15; do, bags, $1 10; do Scotch, bbls, $1 12½@$1 15; do, bags, $1 10.

BUTTER—Receipts for week, 45,121 pkgs; last week, 51,528 pkgs; exports for week, 10,444 pkgs. We have had a better market the last week and the feeling at the close is more steady. Receipts have fallen off more than 6,000 pkgs, and the indications are that less cream production in all sections of the West. This is due to general conditions, which are common at this season of year, but in the Northwest we understand that the weather has been hot and dry and the pastures are not looking as well. The market has received most support from the export demand; shippers have bought 12,000 to 15,000 pkgs during the week, largely of fresh creamery, and this has taken up most of the surplus stock. Home buyers have taken enough to operate rather more freely because of the fact that exporters were taking so much stock. The local consumption is now at the lowest point and no material increase can be expected for another month, but jobbers are inclined to take a little more stock, evidently feeling more confidence in the position. For a few days some fancy marks of creamery were sold at 17½@17¾c, but 18c has remained the general trading basis and that figure could not be shaded at the close on strictly extra Western goods; some of the stock is being shaded a little so that we retain the double quotation. Firsts are steady at 17@17½c, but grades from 16@17c are slow and rather easy. The purchases for export have been in range of 16@17½c generally, but they have taken some lots of fancy goods at 17¾@18c. The movement in State dairy is light and the great bulk of the stock is of a fairly inferior quality. 14@16c covers a large part of the business, only a few fancy selected half tubs reaching 16½@17c. Imitation creamery is unchanged in tone or price. Current packed factory is running poorer and the demand is still very moderate; the finest marks are commanding 14c, but there is still stock to be had for lower prices. June factory held steady. We quote: Creamery, Western, extras, per lb, 18c; do firsts, 17@17½c; do thirds to seconds, 15@16½c; do State, extras, 17½@18c; do firsts, 16½@17½c; do thirds to seconds, 15@16½c; State dairy, half firkin tubs, fancy, 16½@17c; do firsts, 15½@16c; do Welsh tubs, fancy, 16½c; do firsts, 15½
