GENERAL MARKET REPORT.

New-York, September 2, 1899.

COFFEE.—The coffee market, after opening quiet at unchanged prices, was very dull until just before the close, when quite a little selling movement set in, and the market was finally unchanged to 15 points lower, as compared with the closing figures of the previous day. The total sales were 5,250 bags, with the transactions confined to four out of the twelve months. The easier ruling of the market resulted from weak cables, and continued large receipts at Rio and Santos, although the movement at these points was less extensive than it has been recently running. Rio reported a decline of 1-32d on the Exchange rate, while Santos reported a further decline of 100 reis for coffee, and Havre market reported a partial decline of ¼ franc. Warehouse deliveries in United States, reaching 18,350 bags, furnished a substantial feature; but there was only a small market for spot Brazilian supplies, in the sample way. The market closed dull and nominal, at unchanged prices, on the basis of 5¾c for No. 7 Rio, invoice lots, and 6¾c for jobbing parcels. Rio shipments to Europe last month were 89,000 bags; from Santos, 560,000 bags; from this country, 201,000; and from Santos, 216,000 bags. Rio to other countries, 48,000; Victoria to the United States, 13,000 bags.

COTTON.—The cotton market was a narrow one, and inactive. Most of the local traders had already squared their accounts the previous day, in anticipation of Monday's holiday, and an outside interest was very slack, the movement of affairs on Change during to-day's brief session was quite sluggish. The cable accounts were unsatisfactory, particularly as to the volume of spot sales at Liverpool; there were only 5,000 bales, and represented a procrastinating policy on the part of English spinners which was significant in connection with the large movement of new cotton in this country. At the same time there was talk of yellow fever at New-Orleans, and this exerted a disturbing influence, although it was said, in answer to inquiries sent out from cotton houses here, that but one case of genuine yellow fever was known of, and that was a case that had been brought into the city. "The Chronicle's" weather and crop report covering the last week was also bearish in its influence, although not a pronounced factor; it was not as bad as expected, not that it was a particularly bearish feature. There was largeness of the movement of new cotton was, as heretofore, the subject of discussion, the bears claiming that it supported the theory of a heavy crop, while the bulls were industriously calling attention to the fact that the crop of 1898 was a small one, yet the movement of new cotton that year was most precocious. For example: Receipts are called very heavy by the bears this season. But the bulls call attention to the fact that while the movement for this week may be 110,000 bales, the movement for the corresponding week in 1898 was 153,626 bales. The market opened quiet, with prices unchanged to 2 points lower; eased off a point more under local liquidation; rallied on covering and closed steady, with prices net unchanged to 1 point lower. At one time the market showed a net advance of 1@2 points, but the general level was a little under yesterday's closing figures. Spot cotton ruled quiet at unchanged prices; middling upland, 6¼c, and middling Gulf, 6½c; no sales were reported.

Estimated receipts at Houston Monday, 10,000@10,500 bales, against 4,539 bales last week and 5,846 bales a year ago. No estimate for New-Orleans receipts was posted.

MOLASSES.—The demand was moderate to-day, but a good call during the week took considerable stock of fine grades from first hands. Therefore, the market closes the week with the tendency in favor of holders. Reports from New-Orleans indicate that the coming crop of cane will be about 50 per cent short and that there will be a corresponding shortage in the supply of molasses of better grades. Syrups were slow of sale, with the market nominally unchanged. Glucose was dull. We quote: New-Orleans (centrifugal) common, 8½@12c; fair, 13@15c; good, 16@18c; prime, 20@26c. New-Orleans open kettle, 32@36c; Porto Rico, 20@35c. Syrups—Common, 13@14c; fair, 15@17c; good, 18@20c; prime, 20@21c; fancy, 23@25c.

OCEAN FREIGHTS.—The market for steam and sail tonnage was quiet to-day in all departments. There was but a limited inquiry for vessels, but rates were firm and with no outside change. Quotations to Liverpool were 2¾@3d; L. Plate, 24c; Glasgow, 3d; Bristol, 4¼@4½d; Leith, 4½d; Hull, 4½d; Newcastle, 4½d; Antwerp, 3½d; Hamburg, 55 pfgs; Rotterdam, 8c; Amsterdam, 8c; cotton to Liverpool, per 100 lb, 26¾c; London, oats, 2s.

We quote: Refined petroleum, bbls, New-York, $8.25; Philadelphia, $8.20; do bulk, New-York, $4.75; do bulk, Philadelphia, $5.70; do cases, New-York, $9.50; Russed oil, American raw, 44@45c; do boiled, 46@47c; Calcutta, raw, 60c.

RICE.—The market was strong in tone, with a fair demand for the closing day of the week, and prices were unchanged, but top rates were named by sellers for the best assortments. The Southern markets were firm, with light offerings and movement good. Quotations follow: Domestic: common to low fair, 2¾@4¼c; fair to good, 4¼@5¼c; prime to choice, 5¼@5¾c; head, 5¾@6¾c; 4¾@5¼c; prime to choice, 5¼@5¾c; head, 5¾@6¾c; Patna, 4¼@5¾c; Japan, 4¾@5¼c; Java, 4¼@5¼c; Rangoon, in bond, 2@2¼c.

SUGAR.—While prices abroad as represented by the London cable were not higher, there was a steady to firm undertone on both cane and beet sugars, with a fair demand. Cane was quoted at 12c 4¾d for Java and 12c 9d for fair refining. Beet was quoted at 10s 4½d for September and at 10s 4¾d for October. As to local conditions, there is nothing of special interest to note. Raws were still steady and quoted at 4¾c for 96 test centrifugal, with Muscovado, 89 test, at 3 15-16c and molasses sugar, 89 test, at 3¾c. The demand for refined sugar was moderate, with all list prices as last quoted. Quotations of refined sugar follow: Domino, 5.55c; cut loaf, 5.65c; crushed, 5.85c; cubes, 5.44c; powdered and coarse powdered, 5.35c; XXXX powdered, 5.44c; standard granulated, 5.35c; coarse granulated, 5.45c; fine granulated, 5.44c; confectioners' granulated, 5.35c; No 1 cartons and No 2 cartons fine granulated, 5.56c; diamond A, 5.31c; confectioners' A, 5.06c; mould A, 5.56c; diamond A, 5.31c; confectioners' A, 5.06c; Nos 1, 2 and 3, 4.81c; No 4, 4¾c; No 5, 4.69c; No 6, 4¾c; No 7, 4.56c; No 8, 4½c; No 9, 4.44c; No 10, 4.31c; No 11, 4.18c; Nos 12 and 13, 4¼c; Nos 14, 15 and 16, 4.06c.

COUNTRY PRODUCE MARKETS.

New-York, September 2, 1899.

BEANS AND PEAS.—There is a steady holding of choice marrow beans, but a very quiet trade. Medium and pea are also slow and must be strictly fine to command our outside figures in a jobbing way. It was reported to-day that the Government would take a further considerable lot of small white beans for Porto Rican sufferers next week. If these goods are bought on the marrows next week. If these goods are bought on the marrows next week. Red kidney are also likely to clean up the stock. Red kidney are steady but slow. Very little doing in other varieties. Not many green or Scotch peas here at the moment. We quote: Beans, marrow, 1899, choice, per bush $1.65; do medium, choice, $1.37½; do pea, choice, $1.35@$1.37½; do red kidney, choice, $1.65@$1.70; do white kidney, choice, $1.65@$1.90; do yellow eye, choice, $1.35@$1.40; do black turtle soup, choice, $1.65@$1.70; do lima, California, $2.75 @$2.80; green peas, bbls, $1.12½; do bags, $1.07½; do Scotch, bbls, $1.12½; do bags, $1.07½.

BUTTER.—This was almost a holiday. A good many operators left the city last night to extend the holiday until Tuesday; besides this, a heavy rainstorm prevailed during the morning, and very few jobbers were found on the streets, but, in spite of the quietness of the trade, there was a generally steady feeling, receivers having a good deal of confidence in the future of the market. Quotations cannot be changed much, certainly not on the finest grades, which will come in for the largest share of the demand next week. Exports for the week foot up 28,122 packages. We quote: Creamery, Western extras, per lb, 21c; do firsts, 19¾@20c; do seconds to firsts, 16½@18c; do State, extras, 20½@21c; do firsts, 19½@20c; do thirds to seconds, 16½@18c; do June, extra, 20½@21c; do seconds to firsts, 18@20c; State dairy, half firkin tubs, fancy, 19c; do firsts, 17¾@18¼c; do Welsh tubs, fancy, 19c; do firsts, 17¾@18c; State dairy, tubs, seconds, 16¾@17c; do thirds, 15@15¾c; State dairy, tins, etc, 18@19c; Western imitation creamery, extras, 16¾@17c; do firsts, 15@16c; do seconds, 14@14½c; Western factory, June, extras, 15½@15¾c; do firsts, 14½@15c; do current packed, finest, 15@15¼c; do seconds to firsts, 14@14½c; do thirds, 13½@13¾c; do fourths, 13c.

CHEESE.—Receipts to-day, 3,385 boxes, more than half of which were in transit for export. Of large size full cream cheese there was scarcely any fresh stock available, consequently no trade of importance. A few buyers were looking the situation over and it looks as if some business could have been done for next week's shipment on the basis of 11¼c for fancy colored and 11c for white. Further considerable lots of icehouse cheese have been moved at 10¾@11c, including a long line of a favorite combination at the outside figure. There was only a moderate inquiry for small sizes, but the high cost of the cheese in to-day made a little stronger holding of fresh lots; a few sales were reported at 11¾@11¾c, and we use the latter figure as an outside quotation, though quite a number of fancy parcels are still going to some trade at 11¼c. Rather than pay the extreme prices asked for some of the fancy lots a number of buyers have taken icehouse goods, for which they have paid 11@11¼c. Part skims quiet, but stock well sold up. At Sinclairville yesterday 250 boxes small size, full cream sold at 11¾@11¾c, and at Arcade the Sandusky and Arcade combinations, colored and white, sold at 11¾c. Liverpool cable, colored, 53s; white, 52s. We quote State, full cream, small, colored, fancy, 11¼@11¾c; do white, 11@11¼c; do good to choice, 10¾@10¾c; do common to fair, 9@10c; do large, colored, fancy, 11¼c; do choice, 11c; do good to prime, 10¾@10¾c; do large, white, fancy, 11c; do good to choice, 10¾@10¾c; do common to fair, 9@10c; light skims, small, choice, 9½c; do large, 9@9¼c; part skims, small, prime, 8¼@9c; do large, prime, 8¼@8¾c; do fair to good, 6¾@7¾c; do common, 5@6c; full skims, 4c.

EGGS.—Market is closing with a firm tone on strictly choice qualities of fresh gathered; medium grades move rather slowly; all cheap stock is in good demand and firm. We quote: Jersey and nearby, fancy, white, per dozen, 20c; do mixed, prime to fancy, 17@19c; do Western firsts, loss off, 17c; do extra, at mark, 16½@17c; do seconds, per 30 dozen, $4@$4.20; do lower grades, $3.45@$3.75; culls, $2.40@$3.60.

FRUITS—FRESH.—Apples are in liberal supply and weak at former low prices, though there is no surplus of fine red fruit, and such rules firm. Pears in moderate supply and meeting an active demand at slightly higher prices. Plums in moderate demand and weak under liberal offerings. Peaches also quite plenty and lower. Receipts of grapes continue heavy, and market continues weak at former low prices. Cranberries commencing to arrive, but no quotations established. Huckleberries neglected unless fancy, and there are few such. Demand for muskmelons was light to-day, and the market ruled weak and lower, with all reasonable bids accepted on poor stock. Receipts of watermelons about 6 cars; demand shows no improvement, and market continues weak at the very low figures quoted: We quote: Apples, Alexander, per bbl, $1.50@$2.50; do Gravenstein, $1.25@$2; do Strawberry, $1.25@$2; other red varieties, $1.25@$1.75; green varieties, $1@$1.50; do common windfalls, 50@75c; crab apples, per bbl, 75@$2.50; pears, Bartlett, per bbl, $1.50@$3; do Seckel, $3@$4; do Clapp's Favorite, $1.75@$2.25; do Beurre d'Anjou, $1.75@$2; other table sorts, $1.50@$2; common cooking, $1@$1.50; plums, per bushel, 10@30c; peaches, per basket, 25c@$1.25; grapes, up river Delaware, per case, 50@75c; do Niagara, 50@75c; do Concord, 30@40c; do Moore's Early, 30@40c; do Western New-York, Delaware, per 4 lb basket, 10c; huckleberries, per quart, 4@8c; muskmelons, Rocky Ford, Colorado, per crate, 50@$2.25; do Maryland, Seed, 75c@$2.25; do Jersey Seed, 75c@$1; do Hackensack Seed, 50c@$1.25; do Jersey Christina, 50c@$1.50; do Gem and Jenny Lind, 50c@$1.50; do Albany County (N. Y.) Christina, 75c@$1.50; watermelons, Maryland, per carload, $25@$75; do Jersey, $20@$50; do Maryland, per 100, $5@$10; do Jersey, $3@$8.

FRUITS—DRIED.—The few new evaporated apples arriving are meeting a slow jobbing demand at about figures quoted, but with increased offerings lower prices would have to be accepted, and, with stock offering to arrive considerably lower than now quoted, tone is weak. Small fruits in moderate supply and firm, except raspberries and blackberries, which are quite plenty and easy. California fruit sell rather slowly, at unchanged prices. We quote: Apples, evaporated, 1899, choice, per lb, 5¾@5¾c; do prime, 7½@8c; do common to good, 6@7c; do sun dried, 4¼@5½c; do cores and skins, 1½@1¾c; raspberries, evaporated, 11@11½c; huckleberries, 11½@12c; blackberries, 4@4½c; cherries, 10c; apricots, California, Moorpark, 14@16c; do Royal, 12@13c; peaches, California, unpeeled, 7¾@10c; prunes, California, 1898, 3@3½c.

HOPS.—No stock has gone abroad this week, and foreign advices indicate an easier market, in consequence of a pretty large crop of new, which will soon be coming on the market. Demand from our local dealers and brewers is still very light; in fact, there is scarcely enough business transpiring from day to day to indicate values. Holders have shown a little more anxiety to dispose of their stock and have named easier prices in the hope of attracting demand. Crop reports are very much the same as noted for some days past. Rapid progress is being made in the harvest and samples of the late crop will be here next week. We quote: State, 1898, choice, per lb, nominal; do good to prime, 12@13c; do common to fair, 9@11c; do 1897, 60@8c. Pacific Coast, 1898, choice, 14@15c; do good to prime, 12@13c; do common to fair, 10@11c; do 1897, 6@8c; State or Pacific Coast, old odds, 3@5c.

POULTRY—ALIVE.—Receipts to-day, 3 cars of Western. The Jews are still buying for the Hebrew holidays next week, but there is a large accumulation, particularly of fowls, and outlook is uncertain, though to-day's arrivals changed hands at unchanged figures. We quote: Spring chickens, per lb, 9@9½c; fowls, 11c; roosters, 7c; turkeys, 10c; ducks, per pair, 35@40c; geese, $1@$1.25; pigeons, per pair, 20@25c.

DRESSED POULTRY.—Only a few lots of Western poultry are coming in to-day, and these are cleaned up fairly well, market closing steady at unchanged prices, although most receivers anticipate some weakening of values in the near future owing to the interruption of business by the approaching holidays. Spring ducks are plenty and lower. For other kinds quotations are without change. We quote: Turkeys, young, dry picked, good to prime, per lb, 18@22c; do poor to fair, 12@15c; do scalded, fair to good, 12@13c; old hens and toms, 11@12c; spring chickens, Philadelphia, large, 16@18c; do mixed weights, 13@16c; do Pennsylvania, mixed weights, 13@15c; do fair quality, 11@12c; do Western, dry picked, fancy, 12½@13c; do average prime, 11½@12c; do scalded, average prime, 11½@12c; do fair to good, 10½@11c; do poor to fair, 9@10c; fowls, State and Pennsylvania, good to prime, 11½@12c; do Western, dry picked, prime, 11@11½c; do Southwestern, dry picked, prime, 11@11½c; do Western scalded, average prime, 11c; do poor to fair, 10@10½c; old cocks, Western, 7½c; ducks, Eastern and Long Island, spring, 15c; do Western, young and old mixed, 8@10c; do old, 7@8c; geese, Eastern, spring, selected white, 16@17c; do dark, 13@14c; squabs, choice, large, white, per dozen, $2@$3; do small and dark, $1.25@$1.50.

POTATOES AND VEGETABLES.—Irish potatoes are in rather liberal supply and moving slowly at unimproved prices. Sweets quiet and slightly in buyers' favor. Red onions plenty, dull and weak; yellow about steady; whites in fair demand. Other vegetables are without material change. HAY.—Rain to-day and the prospective holiday of Monday operated to make a decidedly blank day for the hay market. All of the encouraging sentiment noted in Friday's report as to a more than probable revival of trade next week was repeated to-day. Prices for good stuff lots closed something stronger for No 2, but there is not general demand enough to warrant revision of last figures for any of the lines of new hay. There will undoubtedly be a waiting market until Wednesday, and then no prominent bulges should be expected. It is in order to repeat receivers' caution as to crowding receipts for fear although new hay is in unusually good carrying condition, a good many of the older large buyers will not stock up heavily while doubt exists about condition of cure. Old hay, as before, has its special customers and perfect lots exceed old $1 per ton. We quote: Prime, in large bales, per 100 lb, 77½@80c; No 1 do, 72½@75c; No 2 do, 65@70c; No 3 do, 55@60c; clover mixed do, 55@60c; clover small bales, 2½c less per 100 lb.....STRAW.—A weak sort of a tone exists, but there is no threatened immediate break in prices. Free receipts and good average quality give buyers considerable independence. We quote: The range of 47½c to 50c per 100 lb for good to No 1 long rye, and 52½c for choice. Receipts of hay to-day, 1,400 tons, and of straw, 100 tons.

The closing of the Produce Exchange to-day cut off a number of negotiations with the feed dealers.
