Lutheran Church Notes

By Rev C. R. Lowe.
The Ladies Aid met at the home of Mrs. Harry Brown last Thursday and there was a good attendance, and all enjoyed themselves.

The young people will meet at the home of the pastor next Saturday night for their practice.

There will be the holy communion at Salem on Sunday, February 15th, if nothing prevents.

Upon that day the young folks will render the Common Service which they have been preparing at the advice and suggestion of the council. There will be a good move on the part of the congregation. We like to have something new occasionally, and this will be new. We have been talking about it for a good while, and now we will try it. This is the service that is used in almost all of the Lutheran churches who have not yet adopted the latest edition of the hymnal. When we get to know this service we will be at home in any Lutheran church in the land if we happen to be abroad. We trust we will have a large congregation at that time, both for the communion and to hear the new service.

Do you know that the success or failure of any church depends on the support of the congregation rather than upon the pastor, or as much, at least? If the congregation is pushing the work of the church, the pastor will have to work to keep up. Or the members can push the pastor to the work, and then if he will not be pushed, it is his move. I have known of pastors who were told to get busy at the work of the church by the council, and that is right if it is necessary. And then I have known of church councils that have had a directing hand over the whole work of the church, and that is as it should be. The whole work of the church ought never to be let in the hands of the pastor, for he may do something which is not acceptable to the congregation. I have known that to be the case, too. The best way is to have the pastor and

the council working together with a single mind, doing what work there is to be done at the time it ought to be done, always looking out for ways and means of working that will accomplish the most good for the congregation.

And then do you know that the church always needs the support of your presence? The pastor may call much and preach with all power, and yet if the congregation will not respond to the call of the church, there will not be very much done. You know if you crank and turn the car, fix the wires, spark plugs, and do not see but that everything is in perfect order, and still the engine refuses to respond, you can not go even to a circus, no matter how much you may sweat at it. So if a congregation does not put forth an effort, we will not get anywhere. All the responsibility is not on any one person, but there is no person who has no responsibility. There is a place for you.

Again, do you know you need the church more than the church needs you? Christ's work will go on even tho I am not in it, tho it will languish because of the absence of any man. But what am I to do without the church, without the grace dispensed thru her, without the power for righteousness that comes from her, without the channel she offers me for the work which I cannot carry on by myself but only with others, this work which is necessary to my own Christian life. Once more do you know the proper expression of this Christian life is necessary to its growth and continuance? The sinner in the dark grows pale and sickly and later dies, and a man's spiritual life does the same way. Because many do not exercise their Christian virtues they fail in the race, and then are too prone to think the "way" is a failure. But the fault is in ourselves.
