BULLION PRODUCT OF THE PACIFIC COAST.

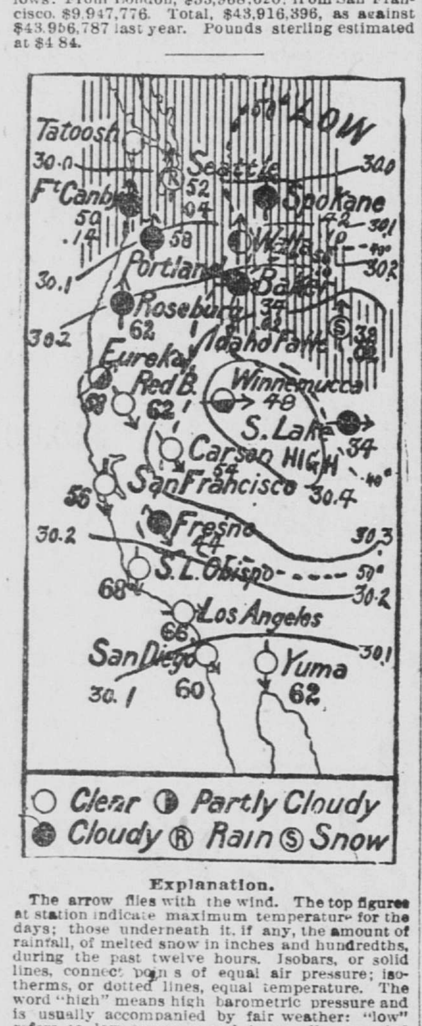
Wells, Fargo & Co.'s Annual Report of Precious Metals produced in the States and Territories west of the Missouri River (including British Columbia) during 1896 shows in the aggregate: Gold, $54,399,242; Silver, $35,784,963; Copper, $28,869,305; Lead, $7,236,026. Total gross result, $126,289,536. The "commercial" value at which the several metals named herein have been estimated is: Silver, 67c ⅌ oz.; Copper, 11c ⅌ lb., and Lead, $3 ⅌ cwt.

The production by States was as follows: California, $15,631,391; Nevada, $2,759,364; Montana, $37,270,500; Utah, $10,383,759; Colorado, $26,854,844; Arizona, $9,265,917; Idaho, $8,125,182; Dakota, $4,794,765; Alaska, $2,750,955. The other amounts are small.

The gross yield for 1896, shown above, segregated is approximately as follows:

Gold, 43.07%	$54,399,242
Silver, 28.34%	35,784,963
Copper, 22.86%	28,869,305
Lead, 5.73%	7,236,026
Total	$126,289,536

The exports of Silver during the past year to Japan, China, the Straits, etc., have been as follows: From London, $33,968,620; from San Francisco, $9,947,776. Total, $43,916,396, as against $43,956,787 last year. Pounds sterling estimated at $4 84.



Explanation.

The arrow flies with the wind. The top figures at station indicate maximum temperature for the days; those underneath it, if any, the amount of rainfall, of melted snow in inches and hundredths, during the past twelve hours. Isobars, or solid lines, connect points of equal air pressure; isotherms, or dotted lines, equal temperature. The word "high" means high barometric pressure and is usually accompanied by fair weather; "low" refers to low pressure, and is usually preceded and accompanied by cloudy weather and rains. "Lows" usually first appear on the Washington coast. When the pressure is high in the interior and low along the coast, and the isobars extend north and south along the coast, rain is probable; but when the "low" is inclosed with isobars of marked curvature, rain south of Oregon is improbable. With a "high" in the vicinity of Idaho, and the pressure falling to the California coast, warmer weather may be expected in summer and colder weather in winter. The reverse of these conditions will produce an opposite result.

WEATHER BUREAU REPORT.

UNITED STATES DEPARTMENT OF AGRICULTURE, WEATHER BUREAU, SAN FRANCISCO, Jan. 20, 1897, 5 P. M.—Weather conditions and general forecast:

The following are the seasonal rainfalls to date as compared with those of same date last season and rainfalls during the past twenty-four hours:

Eureka 23.48 inches, last season 20.02, past 24 hours .00 of an inch; Red Bluff 11.84, last season 10.18, past 24 hours .00; San Francisco 11.14, last season 8.78, past 24 hours .00; Fresno 4.73, last season 3.11, past 24 hours .00; San Luis Obispo 9.70, last season 9.20, past 24 hours .00; Los Angeles 8.40, last season 3.92, past 24 hours .00; San Diego 6.52, last season 1.65, past 24 hours .00; Yuma 4.62, last season .32, past 24 hours .00.

San Francisco data—Maximum temperature 56, minimum 47, mean 52.

An area of high pressure continues over Utah and Nevada. There has been a slight rise in pressure during the last 24 hours over the northern half of the Pacific slope, and the storm, which was central there last night, has apparently moved inland.

The temperature has risen decidedly over the northern half of the Pacific slope.

Rain has fallen over Washington and Northern Oregon.

The following maximum wind velocities are reported: Portland, 22 miles per hour from the south; Fort Canby, 48 south.

Forecast made at San Francisco for 30 hours ending midnight, January 21, 1897.

Northern California — Fair Thursday; light northerly winds.

Southern California — Fair Thursday; light northerly winds.

Nevada—Fair Thursday.

Utah—Fair Thursday.

Arizona—Fair Thursday.

San Francisco and vicinity—Fair Thursday; light northerly winds. ALEXANDER McADIE, Local Forecast Official.

NEW YORK MARKETS.

Financial.

NEW YORK, N. Y., Jan. 20.—There was a further falling off in the volume of business at the Stock Exchange to-day and the market was depressed by the receipt of lower quotations from London and the Continent. According to cable advices the foreign markets were weakened by the arrival at Hamburg of a steamer with a case of bubonic plague on board. The bears here tried to make capital from this and hammered the list vigorously at intervals. They met with little success, however, outside of coal stocks. Susquehanna and Western preferred suddenly broke 3½ points to 22¼ on the announcement that a decision had been rendered against the company at Stroudsburg, Pa., in its litigation with the Delaware, Lackawanna and Western.

Jersey Central at the same time yielded 3¼, Delaware and Hudson ¾ and Susquehanna and Western common 2¼ per cent. The general list was irregular and in the main lower. The decline was equal to ¼ to 1¼, Manhattan leading. The dealings, however, were small and confined largely to room traders. The leading commission houses reported a liberal decrease in outside orders. In the late trading Susquehanna and Western preferred rallied about 2 points and the rest of the list recovered ⅛@⅝ from the low point. Among the specialties Illinois Steel broke 4 to 38 on the circulation of unfavorable rumors in regard to the finances of the company.

Late in the day it was announced that the company had effected a loan of $1,000,000 for one year with the United States Trust Company of this city, which it is asserted will enable it to pay off its floating debt obligations. The fact that the company has had to shut down its steel rail department, however, was used against the stock. The selling of the active issues, such as Sugar, Chicago Gas, the Grangers and Louisville and Nashville was chiefly for short account and a fair borrowing demand prevailed.

Speculation closed about steady in tone. Net changes show declines of ¼ to 2¾ per cent in the usually active shares and ½@1¾ in the coals.

In the specialties Illinois Steel dropped 4 to 68. Total sales were 154,874, including 29,500 shares of Sugar, 14,900 St. Paul, 14,600 Chicago Gas, 13,100 Burlington and 9200 Reading.

The bond market was easier to-day. The sales footed up $1,613,000. Columbus and Hocking Valley consolidated fives fell 1 to 87, do general

CHICAGO MARKETS.

CHICAGO, ILL., Jan. 20.—Reported sales of 200,000 bushels of wheat at St. Louis for export had a temporary stimulating effect on prices of that grain in this market this morning. The opening was firm on Liverpool's failure to fully recognize our break yesterday; then the report from St. Louis helped values, but when a doubt as to the accuracy of the business claimed was expressed prices hedged off, lower quotations than yesterday's closing being made. Business was mostly of a local character, although some selling orders from abroad were said to be on the market. Receipts at Chicago were 29 cars, and 92,984 bushels were withdrawn from store.

The Northwest had 212 cars, against 213 last Wednesday and 265 a year ago. A report that two or three million acres of the Russian crop was winter killed helped prices for a time, but the bearish sentiment prevailed subsequently. Export clearances amounted to 321,611 bushels. Closing Paris cables were higher for flour and unchanged for wheat. Antwerp was unchanged and Berlin slightly lower. A bulge at the close was due to reports of more cash business at St. Louis. May wheat opened at from 79⅜c to 79¾c, sold between 79¼c and 80¼@80⅜c, closing at 80⅛@80¼c, ⅝@¾c higher than yesterday. Estimated receipts for to-morrow, 40 cars. No. 2 red, spot, wheat ranged from 87¼c to 89¼c, closing about 88¼@89¼c.

CORN—The tone of the corn market varied little if any at all from that of wheat. In the morning early it was firmer, prices were up, but the strength vanished and recessions were then in order. Receipts were 211 cars and 81,326 bushels were taken from store. Liverpool cables were quiet and unchanged. Exports were heavy at 600,918 bushels. A rally occurred at the close in sympathy with wheat, being the controlling factor. May corn opened at 24¼c, sold between 24⅜c and 24@24⅛c, closing at 24⅜c, ⅛@¼c higher than yesterday. Estimated receipts for tomorrow 215 cars.

OATS—The oats market was distinctly a sympathetic one, the advances and declines of wheat and corn being faithfully reproduced. Receipts were 183 cars and 6946 bushels were withdrawn from store. There were no export clearances. May oats closed unchanged from yesterday. Estimated receipts for to-morrow 175 cars.

FLAX—Was steady. Cash, No. 1, 74½c; Northwestern, 76½c; May, 77½@77¾c. Receipts were 35 cars.

PROVISIONS—Improvement in product followed the receipt of the intelligence that the hog run was much lighter than expected. Only a trifling trade was noted and the range of prices was consequently narrow. At the close May pork was 10@12½c higher, May lard 5c higher and May ribs 5@7½c higher.

BUTTER—The butter market showed no alteration either in tone or condition to-day. Receipts were light and the demand moderate.

Creameries—Extras, 19½c asked; firsts, 17@18c; seconds, 14@16c; imitations, fancy, 13@14c. Dairies—Extras, 17c asked; firsts, 14@15c; seconds, 9@10c. Ladles—Extras, 10@11c; firsts, 8½@9½c; packing stock, 8c; grease, 2½@3c; roll butter, 10c.

EGGS—Were weak, holders were anxious to sell, but buyers were scarce. Fresh stock, 13½c ⅌ dozen.

MONEY—Was 5@6% on call and time loans. There was no market for New York exchange.

Closing Prices.

WHEAT—January, 77¾@77⅞c; May, 80⅛@80¼c; July, 76⅜@76½c.

CORN—January, 22½c; May, 24⅜c; July 25½c.

OATS — January, 15⅝c; May, 18@18⅛c; July, 18⅝@18¾c.

SUN, MOON AND TIDE.

UNITED STATES COAST AND GEODETIC SURVEY—TIMES AND HEIGHTS OF HIGH AND LOW WATERS AT FORT POINT, ENTRANCE TO SAN FRANCISCO BAY. PUBLISHED BY OFFICIAL AUTHORITY OF THE SUPERINTENDENT.

NOTE—The high and low waters occur at the City Front (Mission-street Wharf) about twenty-five minutes later than at Fort Point; the height of tide is the same at both places.

January—1897.

Thursday, January 21.

NOTE—In the above exposition of the tides the early morning tides are given in the left hand column, and the successive tides of the day in the order of occurrence as to time. The second time column gives the second tide of the day, the third time column the third tide, and the last or right hand column gives the last tide of the day, except when there are but three tides, as sometimes occurs. The heights given are additions to the soundings on the United States Coast Survey charts, except when a minus sign (—) precedes the height, and then the number given is subtractive from the depth given by the charts.

NOTICE TO MARINERS.

A branch of the United States Hydrographic Office located in the Merchants' Exchange is maintained in San Francisco for the benefit of mariners without regard to nationality and free of expense.

Navigators are cordially invited to visit the office, where complete sets of charts and sailing directions of the world are kept on hand for comparison and reference, and the latest information can always be obtained regarding lights, dangers to navigation and all matters of interest to ocean commerce.

The time ball on top of the building on Telegraph Hill is hoisted about ten minutes before noon, and is dropped at noon, 120th meridian, by telegraphic signal received each day from the United States Naval Observatory at Mare Island, Cal.

A notice stating whether the time ball was dropped on time, or giving the error, if any, is published the same day by the afternoon papers, and by the morning papers the following day.

W. S. HUGHES,
Lieutenant, U. S. N., in charge.

The Time Ball.

BRANCH HYDROGRAPHIC OFFICE, U. S. N., MERCHANTS' EXCHANGE, SAN FRANCISCO, January 20, 1897.

The time ball on Telegraph Hill was dropped exactly at noon to-day—i. e., at noon of the 120th meridian, or exactly at 8 P. M., Greenwich time.

W. S. HUGHES,
Lieutenant U. S. N., in charge.
