GENERAL MARKET REPORT.

New-York, November 15, 1899.

COFFEE—A feeling of unrest existed when the market opened this morning, as the European cables depicted lower prices in Havre and Hamburg. Initial bids were on the basis of last night's quotations. But this uncertainty soon gave way to confidence on the part of the bull element, as subsequent Havre cables reported a rally of ¼@¾ francs, the far months for the investment public. Prices responded by advancing 5@10 points, and for the rest of the day the market showed considerable strength and activity. Sales to midday alone, or during the first hour, were 10,000 bags. Bullish factors of influential importance included light receipts at Brazilian ports, evidences of returning interest on the part of spot buyers and a continuation of liberal withdrawals from American warehouses. The market at the close was steady in tone, with prices net unchanged to 5 points higher. Total sales of futures were 17,000 bags. The street market for spot coffee was rather steadier, with quotations about on the basis of 6¾c for invoice lots and 6¾c for jobbing parcels of No. 7 Rio, although some dealers were inclined to name a shade lower rates. The steamer Asiatic Prince has arrived in New-York with 16,019 bags Rio and 25,454 bags Santos. The next Dutch sale will take place on the 21st, when 25,000 piculs will be offered. Brokers value good ordinary Java at 31c.

COTTON—The market made fair progress in an upward direction this morning, but during most of the session there was a feeling of nervousness apparent in the pit, generated by the persistent circulation of conflicting rumors as to the feeling abroad. Shorts were made decidedly uneasy by an estimate of Latham, Alexander & Co. for a crop of 8,700,000 bales, following as it did last night's estimate of 9,000,000 bales by the Government, in effort to cover, together with active buying for Wall street account, sent prices up 4 to 9 points on the opening call and gave the market a steady tone. The trading that immediately following the opening was 9 to 12 points above the close of last night, but later profit taking caused a substantial reaction and induced the more courageous bears to extend their short accounts. Liverpool responded to our extensive advance of yesterday, to the extent of 2d of values here, but lost a good share of the improvement before our market opened under heavy realizing and bear hammering, said by private cables to have been founded on a very bearish Neill circular, in which confidence was again expressed that the crop would reach 11,000,000 bales, or the amount predicted ever since the season opened, this being entirely out of harmony with local ideas. Local bulls were much comforted by the fact that receipts, not only in the interior, but at the ports as well, were falling far short of the amount predicted early in the week. Official and private dispatches reported a warm of confidence on the part of spot holders South, and an advance of 1-16@¼c in quotations at leading points. The local future market closed weak at a net loss of 1 to 3 points, having dropped within the last few minutes under heavy realizing and active bear hammering.

In relation to the recent turnabout action of the Government on the crop question, Hubbard Bros. & Co. state: "We fail to recall a time when the Department has issued a supplementary report so radically changing by its tone the impression given in its monthly report. Great injury has been done to planters and the trade by these conflicting reports, as many were compelled to part with their cotton and others sold freely on the belief that the Department believed in a larger crop than its second report would indicate. At a moment when indignation is the dominant feature in the trade, it is difficult to calmly consider what will be the result of these conflicting estimates from the Government. On one hand it is certain that the foreign spinners will hold to the first report, and believe the crop to be larger than the movement would indicate, on the theory that the second report will cause planters and merchants to withhold their cotton from the market. On the other, the merchant and operator, looking for higher prices, will credit the latter report as being borne out by the movement of the crop, which, though increasing slightly, is falling behind the 9,000,000 mark. Spot cotton closed quiet, with quotations 1-16c higher, on the basis of 7 9-16c for middling upland and 7 13-16c for middling Gulf. No sales. Southern spot markets were officially reported by wire as follows: Mobile nominal, at 7¾c; Savannah steady, ¼c up, at 7 1-16c; Charleston steady, 1-16c up, at 7¾c; Wilmington quiet, at 7¾c; Norfolk steady, 1-16c up, at 7 5-16c; Baltimore nominal, at 7¾c; Memphis steady, at 7¾c. FLOUR AND MEAL—The market for flour opened rather weak, when wheat was showing ½c decline, and ruled moderately active. Later, following the reaction in wheat, flour holders were firmer in their views. But buyers did not respond. The market closes quiet, but firm. Sales about 11,000 packages, including city, Spring patents, $3 75@$4; winter straights, $3 40@$3 50; winter patents, $3 60@$3 75; spring clears, $2 85@$3 15; extra No 1 winter, $2 85@$3; extra No 2 winter, $2 60@$2 75; no grade, $18 50@$19; buckwheat flour, $2 30@$2 40.....

GRAIN—WHEAT—The market was decidedly more active. Sales reached 4,251,000 bush. The course of the market was irregular. Cables were unsatisfactory; statistics were bearish, the weather was favorable and the export demand was disappointing. Stocks were increasing abroad as well as in this country. Chicago reported a gain of 600,000 bush in her stocks in three days. Under these conditions our market opened weak at a decline of ¼c. Liquidation, as well as selling for short account, was quite active; prices further declined ¼c. Later there was a sharp upturn of about ¾c. The only explanation for this reaction was some Russian war talk, which started shorts to covering. After so protracted a decline the shorts were naturally easily frightened. The regulation influences were quite as bearish as ever, except that the Northwestern carlot receipts were small and the export demand if anything a little better. Northwest carlot receipts, 681 cars, against 1,037 cars last year the corresponding date. The future market was finally firm at net unchanged prices to an advance of ¼c. The market for spot wheat was firmer, with sales of 11 loads at New-York and 11 loads at outports. Quotations of cash wheat f o b afloat basis were as follows: No 2 red, 73c spot; No 1 Northern Duluth, 76½c spot, nominal; No 2 Northern Duluth, 74½c to arrive; No 1 hard Manitoba, 78c to arrive; No 1 hard Duluth, 78¼c spot.....CORN—The market for corn was very narrow. Prices varied only ¼c, with the market finally firm for futures at ¼c advance. Sales were only 50,000 bush, including December at 39c, and May at 38⅝@38¾c. The market was finally firm at ⅛c net advance. The receipts of corn continue to be moderate; country offerings were small. The spot demand was moderately active at about former prices, with the market finally steady in tone. Spot sales were 17 loads corn at New-York and 12 loads corn at other ports; No 2 corn closed at 39¾c elevator, 39¾c delivered, and 40c f o b afloat.....OATS—Business in cash oats was more active. METALS—The market for metals was weak and unsettled all day, closing in a nervous condition, with sellers demoralized and buyers indifferent. The cable advices reported no change in the situation abroad, apathy and weakness continuing. Telegraphic news from home producing points was equally unfavorable. At the close the Metal Exchange called pig iron warrants dull and neglected, with $15 25 bid and $15 75 asked for March and April delivery, lake copper dull at $17, tin unsettled at $28@$28 25, lead dull at $4 57½@$4 62½; spelter weak and lower, at $4 55@$4 65. The brokers' price for lead was $4 60, and for spelter, $4 60.

MOLASSES AND SYRUPS—In no respect is the situation locally changed from that of the early week. Buyers take hold in a rather hand-to-mouth way, while sellers offer sparingly and only at last quotations. Syrups maintained a firm undertone and met with a light call from expediters. Quotations follow: New-Orleans centrifugal, common, 8@12c; fair, 13@15c; good, 16@18c; prime, 20@28c; New-Orleans open kettle, 32@38c; Porto Rico, 28@35c. Syrups—Common, 11@13c; fair, 13@14c; good, 15@17c; prime, 18@19c; fancy, 20@22c.

OCEAN FREIGHTS—Sail tonnage for the long voyage trades was in demand and rates were strong, owing to the light offerings. In the South American and West India departments business was quiet. For coastwise tonnage there was an active demand, and advanced rates were paid in instances. For steamer tonnage the inquiry was light, and rates show a weaker tendency in all departments. Grain boats to Cork for orders were quoted 3s 3d@3s 4½d for November loading. Quotations at Liverpool were 5¼d; London, 3½d; Glasgow, 4d; Bristol, 4d; Leith, 4¼@4½d; Hull, 4d; Newcastle, 5d; Antwerp, 3¾d; Hamburg, 50 pfennigs; Rotterdam, 3c; Amsterdam, 8½c; cotton to Liverpool, per 100 lb, 20¼c nominal; London, oats, 1s 9d.

OILS—Crude petroleum was firm, but very quiet and without quotable change. Linseed oil ruled steady and refined petroleum dull. Quotations follow: Petroleum, bbls, $9 25, and in bulk, $6 75; Philadelphia, bbls, $9 20, and in bulk, $6 70; refined, cases, New-York, $10 50; crude naphtha, cargoes, $10 50; deodorized, $11. Cottonseed oil—Prime crude, tanks, 21@22c; prime summer yellow, 27½@28c; off summer yellow, 27@27½c; butter grades, 29@30c; prime white, 29@30c; prime winter yellow, 31@32c. Linseed—American, raw, 46c; boiled, 48@49c.

PROVISIONS—The market for provisions was a little easier at the opening, on large hog receipts, Chicago getting 39,000 (quality not so good), with estimates of 35,000 for to-morrow. Kansas City received 14,000 hogs, and Omaha, 9,500. Provisions in the West rallied a little with grain in the afternoon, and the local market also steadied up a little, and closed quiet and rather firm. The weekly letter of Dan Talmage's Sons' Company states: "Advices from the South note steady marketing of the crop, and at double the rate of last year. Sentiment at many points is bullish, but there are just enough needy planters and millers who believe in 'quick returns at small profits,' to keep the markets fully supplied at former figures and, for the time, prices in check. Cables and correspondence from abroad confirm previous reports concerning the shortened crops in Japan and Bengal. Burmah promises an average yield, but as it is the base of supply for the famine stricken districts of India, its surplus crop for Europe and other parts of the world cannot but be greatly diminished."

Talmage, Norris & Co., New-Orleans, telegraphs Louisiana crop movement to date: "Receipts, rough, 564,860 sacks; last year, 397,200 sacks. Sales, cleaned (est), 146,895 bbls; last year, 89,500 bbls. Steady demand, prices unchanged. Strong undertone and advance imminent. Carolina crop movement to date: Receipts, 16,900 bbls. Sales, 14,585 bbls. Enlarging inquiry, prices firm."

No further business of importance was scheduled, and at the close the market was no more than steady, with prices unchanged, on the basis of 4¼c for 96 test centrifugal, 3 13-16c for 89 test muscovado, and 3 9-16c for 89 test molasses sugar.
