GENERAL MARKET REPORT.

New-York, November 18, 1899.

COFFEE—Operations in the market for coffee futures were not extensive, but the general trend of sentiment was friendly. The opening was steady, with prices unchanged to 5 points higher, and throughout the balance of the short session the tendency was slowly upward on demand from room shorts and light buying for investment account, latter induced by better cables from Brazil than looked for and a more favorable statistical outlook at home. The European news was something of a disappointment, but not sufficiently so to offset the effect of advices from the crop centre. Total receipts at Rio and Santos were reported to be only 29,000 bags, or the smallest received in a long time. Yesterday's takings from American warehouses were well up to the recent high average, the actual amount being 25,019 bags, nearly all reported at New-York. The market at the close was steady, with prices net unchanged to 10 points higher. Total sales futures were 11,500 bags. The market for spot coffee was neglected, with prices more or less nominal, about on the basis of 6¼c for invoice lots and 6¾c for odd-lot parcels of No. 7 Rio.

The range of contract prices in the local market to-day was as follows:

In reviewing the situation of the last week "The Chronicle" stated in part: "Conflicting estimates relative to the probable yield of the crop have been the principle factors, with the result of the trade disposed to believe in a crop between 9,000,000 and 10,000,000 bales. The movement of the crop has been a disappointment to the bear operators, the receipts not coming up to their expectations. Advices, however, received from some sections of the South report a scarcity of freight cars and this, it is claimed, has been in a measure responsible for the comparatively light movement. Advices received from Memphis stated that in that section exporters on Wednesday made large purchases, paying prices above a parity with those ruling in the speculative markets. A supplementary Bureau report issued on Tuesday saying that the present indications point to a crop of less than 9,000,000 bales, had a temporary bullish influence upon values. Reports had a temporary bullish influence upon values. Reports by telegraph from the South indicate that favorable weather for gathering the remainder of the crop has been quite general during this week. Our advices denote that picking is practically completed in Texas, except in the southwestern portion of the State, and from other sections the reports are that it is finished, or nearly so." The Liverpool spot market was steady, with prices unchanged, on the basis of 7 1-16c for middling upland and 7 13-16c for middling gulf. Sales were 43 bales to spinners.

The statistical position, as made up by this morning's "Chronicle," is as follows:

FLOUR AND MEAL—The market for flour, following Friday's large sales, was less active, but buyers still showed a good deal of interest and the market continued tolerably steady in tone, with quotations more or less nominal for low grades on account of their scarcity. We quote: Spring patents, $3 75@$4; winter straights, $3 40@$3 55; winter patents, $3 60@$3 75; spring clears, $2 85@$3 15; extra No 1 winter, $2 85@$3; extra No 2 winter, $2 00@$2 75; no grade, $18 50@$19; buckwheat flour, $2 25@$2 40. GRAIN—WHEAT—The wheat market was a very tame affair to-day. The variations in price were confined to a range of ⅛@¼c. Trading was quite local, and very little of that. The total transactions reached only 890,000 bush. The business was of a strictly professional or "scalping" character. As the market has sustained a decline of about 7c during the last six weeks, even the local bears hesitated to sell, although the general situation had a discouraging outlook. It is estimated that the world's shipments of 7,500,000 bush for the week, against 8,600,000 bush last week, produced a favorable influence on the English market, causing an advance of ⅛@¼d at Liverpool for wheat. But as 1,000,000 bush increase is expected to appear in the visible supply Monday, with exporters indifferent and public speculation at a standstill, the undercurrent of local sentiment was still bearish. Weather conditions in this country and abroad had a favorable average. In the Northwest the weather was clear and in the Southwest cloudy, and for the season quite warm. Northwestern carlot receipts were considered small, being 712 cars, against 1,039 last week and 1,495 last year. These were the principal factors for and against the market to-day. Local covering caused a slight rally. Thus December wheat, which closed at 72c Friday afternoon, opened at 72⅛c and sold up to 72¼c. Later there was a little local liquidation, which caused a reaction. The market was finally easy in tone, at unchanged prices to an advance of ⅛c. We note that while wheat exports continue moderate, the outward movement of flour is large and still increasing. Business in cash wheat was of unimportant dimensions, exporters being out of line and having few orders. The sales were confined to about 7 loads spring wheat, on private terms. Nothing was reported for export. On the curb trade was very small, with December ranging from 72⅛c to 72c, closing 72c. CORN—The market for corn was inactive, and for the most part nominal. There was scarcely any trading. The entire session's business was only 35,000 bush, confined to December at 39⅝c and May at 38⅝@38¾c. The market had a firmer undertone on an advance of ¼@⅜d at Liverpool, and in view of advices of continued small country offerings, disappointing receipts and indications of a further decrease in the visible supply. The market for futures, after advancing about ⅛@¼c, closed easy, with the improvement practically lost. For spot corn the market was quiet and rather easy, with sales of 200,000 bush for export, including 40,000 bush worked at the out ports. No 2 corn closed at 39¾c elevator, 39⅝c delivered and 40½c f o b afloat. On the curb December ranged from 39⅛c bid to 39⅝c asked, closing 39⅛c bid at 1 o'clock. OATS—Business in cash oats was quiet, on local account, sales reaching 25,000 bush. The feeling was a little easier in the absence of export demand and in the face of small receipts. The steadier ruling of corn and the shade better prices for oats futures at Chicago encouraged holders of oats, and offerings were moderate, especially in view of recent indications of returning export demand. No 2 oats closed 29¼c; No 3 oats, 28¾c; No 2 white, 31½c; No 3 white, 31c; track white, 30@34c; track mixed, 29@30½c; No 2 white clips, 32c. RYE—Market firm. No 1 Western, 62½c f o b afloat; No 2 Western, 62½c to arrive; State rye, 56c c i f, New-York carlots. BARLEY—Market easy. Feeding, 39@41c c i f, Buffalo; malting, 43@47c c i f, Buffalo. BUCKWHEAT—Market easy. Quoted: 61@63c c i f, New-York.

MOLASSES AND SYRUPS—Both markets ruled steady in tone, but very quiet, with the closing figures showing no changes worthy of mention in prices or the general situation. Quotations follow: New-Orleans fancy, nominal; common, 11@13c; fair, 13@14c; good, 15@17c; prime, 18@19c; fancy, 20@22c.

OCEAN FREIGHTS—There were no changes of importance in the condition of the market for steam and sail tonnage, either as regards the rates or demand. Quotations to Liverpool were 3⅝@¾d; London, 3¼d; Glasgow, 4d; Bristol, 3¼d; Leith, 4¼d; Hull, 3¾d; Newcastle, 4½d; Antwerp, 3½d; Hamburg, 55 pfgs; Rotterdam, 8c; Amsterdam, 8c; cotton to Liverpool, per 100 lb, 20c nominal; London, oats, 1s 9d.

OILS—Cottonseed oil was very quiet, but firmly held, in absence of sellers. Linseed oil ruled about steady at former prices, with demand conservative. Refined petroleum closed firm at unchanged prices on a continued good demand. Chas. H. Tainter & Co's circular said: "The quotations for refined spot oil are quite nominal, as it is either very scarce or held so firmly that no business results on offers. This condition is also manifesting itself in December's options, and many think the oil is being held to meet contracts already made at lower prices. It is certainly a strange condition when cotton oil advances, and lard and tallow decline, and reminds one of the tail wagging the dog. We see very little prospect of the tail wagging the dog." Cottonseed oil cannot long remain independent, no matter how cleverly manipulated. Receipts of cotton oil at this port for the week, including through shipments for export, are 6,378 bbls. Quotations follow: Petroleum, bbls, $9 40, and in bulk, $6 70; refined cases, delphia, bbls, $9 85, and in bulk, $6 70; refined cases, New-York, $10 50; crude naphtha, cargoes, $10 50; deodorized, $11. The market for raw sugar was about steady in tone, but very quiet, buyers being slow to proceed in view of less favorable advices from the other side. Prices at the close were unchanged on the basis of 4⅛c for 96 test centrifugal, 3 13-16c for 89 test Muscovado and 3 9-16c for 89 test molasses sugar. The London cable reported cane sugar at that point as quiet, with Java rated at 11s 3d and fair refining at 10s 6d. Beet sugar was dull and rather easier, with present month quoted at 9s 1½d and next month at 9s 1½d.

June creamery very firm and some holders are asking a further advance, although we hear of no important sales above last quotation. State dairy nominal in the absence of supply. Very little Western imitation creamery arriving. Western factory is generally of common to simply good quality and moving rather slowly, but the supply is light; fancy grain fed stock would exceed our quotations. We quote: Creamery, Western extras, per lb, 26c; do firsts, 24½@25c; do thirds to seconds, 22@24c; do State extras, 25½@26c; do firsts, 24½@25c; do thirds to seconds, 22@24c; creamery, June extras, 24@24½c; do firsts, 23½c; do held, thirds to seconds, 21@23c; State dairy, half firkin tubs, fresh, fancy, 24@25c; do firsts, 22@23c; tubs, seconds, 20@21c; do thirds, 18@19c; State dairy, firkins, finest, 21@22c; do seconds to firsts, 19@20c; Western imitation creamery, extras, 20@21c; do firsts, 18@19c; do seconds, 16@17c; Western factory, June extras, 17c; do held, thirds to firsts, 15½@16½c; do fresh, best, 16½c; do lower grades, 15½@16c; rolls, Western, 16@19c.

CHEESE—The general market presents a quiet appearance to-day and without new features of interest. There has been a fair call from out of town dealers the last week or so for white cheese of both early and September made, but such grades are comparatively scarce. The few lots of late made cheese arriving have sold readily to local dealers at generally 11¼c for large sizes, though a few have reached 11½c. Skims have had a moderate call from exporters and the home trade and prices of desirable grades steadily sustained. At Sincinnati yesterday 778 boxes small sold at 11⅛@11¼c, ruling idle yesterday 778 boxes small sold at 11⅛@11¼c, ruling 11¼c. Liverpool cable, 56s for colored and 54s 6d for white. EGGS—The week closes with a good clearance of high grade fresh eggs and a very firm market for such. There is, however, an ample offering of good average qualities and lower grades are still plenty and dull. Refrigerator eggs are still pressed for sale and weak except for the very fanciest April packings, which are generally held steady. We quote: Jersey and nearby, fancy, white, per dozen, 20c; do average prime, 23@24c; Western average best, loss off, 23c; do good quality, 22@22½c; do good quality, per 30 dozen case, $4 80@$5 10; do poor to fair, $4 20@$4 65; refrigerator, fancy, April packings, 16½@17c; do average prime, 16c; do poor to fair, per 30 dozen case, $3 60@$4 50; limed eggs, prime to choice, 15½@16c.

FRUITS—FRESH—There is a large offering of apples, and stock has accumulated; much of the supply is inferior, and there is strong pressure to sell; exceptionally fancy stock has a nominal value higher than we quote, but there is no present outlet for important quantities. Pears are in light supply, but demand is quiet. Very few quinces offering. Strictly fancy grapes are not over plenty and held about steady, but ordinary grades are urgently offered. Cranberries closing a little quieter; strictly fancy fruit is generally held unchanged. Florida oranges in fair demand when of good quality. FRUITS—DRIED—Advices from primary sections continue weak on evaporated apples, but spot goods are meeting fair jobbing demand a about late prices. Sun-dried apples in light supply and steady. Chops and waste dull and weak. Small fruits in few hands and held high. California fruit selling fairly. HOPS—The movement on local account continues moderate, brewers not showing as much interest as natural to expect at this season of year. Very few hops here suitable for exporters and most of the business on export account is at points of production. We hear of some further business in the country at full late prices for choice grades. Advices from the Pacific Coast report a fair trading all the way from 7@11½c. Foreign advices without new features. POULTRY—ALIVE—There are no important arrivals, but the market is still badly overstocked and prices low and favoring buyers. We quote: Fowls, per lb, 8c; chickens, 7c; roosters, 5c; turkeys, 7c; ducks, per pair, 40@60c; geese, 90c@$1 25; pigeons, 15@20c. DRESSED—There was a fair quantity of fresh receipts to-day and a large accumulation on hand from previous arrivals. With scarcely any demand, holders were compelled to put all stock away that was in any way in decent condition, while stock not suitable to send to the refrigerators had to be sold to cheap trade at about whatever they would give, and large lots cleaned up at 5c per lb. Invoices of stock to arrive next week continue heavy, especially fowls and chickens. Some receivers report liberal invoices of turkeys, but others are moderate. The outlook for Thanksgiving is considered fairly favorable for a satisfactory market, but prices of average best turkeys not expected to exceed 12½@15c. Supplies will undoubtedly be heavy for the holiday, but an unusually large demand is expected. Most of the dry picked poultry arriving in the last few days has been more or less out of condition and salable only to cheap buyers at low prices. GAME—Partridge and grouse in light supply and firm. Fresh quail plenty, but irregular in quality and value; fancy frozen birds in fair demand and steady. Wild ducks have only a moderate outlet. Rabbits more plenty and tone easy. Venison cannot be legally sold after Monday, November 20, and remaining lots on hand are urging for sale to clean up at irregular prices. We quote: Quail, fancy frozen, per dozen, $2@$2 25; do average best, fresh, $1 50@$1 75; do inferior, 75c@$1; partridges, prime, per brace, $1 50@$1 60; grouse, prime, per brace, per pair, $1 25; do pinnatt, $1 12@$1 25; woodcock, prime, $1; English snipe, per dozen, $2 50; grass plover, $1@$2; ducks, canvas, 6 lb average to pair, $2 50@$3; do light weights, $1 25@$1 50; do redhead, 5 lb average to pair, $1 75@$2; do light weights, 75@$1; do teal, blue-wing, 40@50c; do greenwing, 30@40c; do common, 25@30c; rabbits, per pair, 20@25c; venison, fresh saddles, per lb, 18@20c.

Celery steady. Southern vegetables in light receipt to-day, and without material change; anything in prime condition from Florida sells promptly, but Charleston and Norfolk beans and other vegetables were mostly poor and dragging at low figures. Other vegetables ranged about as quoted.
