

### After Thorough Trial a Detroit, Mich., Man Endorses Pe-ru-na

The following letter written from Detroit, Michigan is no snap judgment expressed on the merits of Pe-ru-na, the well-known catarrh remedy, but rather a mature, sober opinion formed after a full year's trial. This is the way Mr. Michael Fako of 608 East Palmer Avenue, in the Michigan Metropolitan, writes: "After using PE-RU-NA for about one year I will say I have found it a very good medicine for catarrh. It has helped me a great deal and I am very well satisfied. I have gained in weight, eat and sleep well, my bowels are regular and better color in my face."

"PE-RU-NA has done wonders and to me is worth its weight in gold. I shall continue to use PE-RU-NA as long as I live and recommend to my friends who are troubled with catarrh." Nothing can be more convincing than an endorsement of this nature from an actual user. There are many people in every community, in using Pe-ru-na, has been identical with Mr. Fako's. It is the standby for coughs, colds, catarrh, stomach and bowel disorders and all catarrhal conditions. Put up in both tablet and liquid form. SOLD EVERYWHERE.

### Look Out for Rheumatism As Winter Approaches

So many cases of Rheumatism come from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its source in the blood cannot be reached by local remedies applied to the surface. One remedy that has given splendid results in the treatment of Rheumatism is S.S.S., the fine old

blood remedy that has been sold by druggists for more than fifty years. S.S.S. acts by driving out of the blood the disease germ that causes Rheumatism, thus affording real relief. Begin taking S.S.S. today and if you will write a complete history of your case, our medical director will give you expert advice, without charge. ### BIRD CLUB HAS 700 BOARDERS

Three Floors and Basement Needed to Accommodate the Feathered Pets.

#### LIVELY NEW YORK HOUSE

Wonderfully Accomplished Parrots and Cockatoos, Temperamental Canaries and Brilliant Black. And - Yellow Tropicals That Imitate Musical Instruments.

New York.—Quite the most populous boarding house in New York city this summer is Virginia Pope's Bird club, at 130 West Sixty-fifth street. They counted up to the 700th bird that had arrived the other day, and then it took so much time to serve bird seed, meal worms, boiled eggs and baked apples for the little guests that they stopped counting, and no one knows how many birds there are now—three floors and a basement of them, including a bird comic opera troupe. It is a very chatty place, this bird club, and when a reporter dropped in a gay voice said "Hello!" cheerfully and then began in a clear voice to sing: Yankee Doodle came to town riding on a pony, Stuck a feather in his hat and called it Macaroon.

The nonchalant reception of a guest was in keeping with the character of the singer, who is one of the aristocrats of the club. He is a Mexican yellow head parrot, a wonderful bird, one in 10,000, worth many thousands of dollars; there have never been a dozen so valuable in the country, and his mistress would not take any price for him. Polly is patriotic in his musical selections; he sings "Marching Through Georgia" and shouts "Vive la France" and if you knew his mistress you would know where he learned the sentiments, for he speaks exactly in her voice. Polly also knows his primer and if he happens to be in a showing-off mood he will ask: "Can you spell cat? I can spell cat—c-a-t, cat." He will do the same with the word dog and wind up with: "What does the canary do?" and with twitter and trills he will show how the canary sings.

An Acrobatic Cockatoo. But the talented Mexican is not the greatest bird socially in the club if he is worth in cold cash at least \$5,000.

broken. Parrots sometimes have no the bath habit because in their native climates there are heavy dews and they are not accustomed to the baths taken by smaller birds. A spray bath with an atomizer or plant sprayer twice a week keeps them clean and happy.

Birds are subject to all sorts of ills which affect human beings. They have indigestion if they have poor seed; they are sure to get rheumatism if their perches are left damp, they have a variety of typhoid fever, and it is bad for any of them to hang in drafts or out of doors, and they may have different affections of the lungs. Very ill birds are sometimes given a Turkish bath by being fastened to a hot-water bag and a cloth placed over them to induce perspiration.

From Canaries to Crows. Canaries, of course, predominate in numbers in the clubhouse, but there are birds of all kinds, including the various-colored parrots. Aside from those already mentioned, Polly Shapard talks and also sings "Yankee Doodle." There is a Panama parrot whose accomplishment is singing "Tipperary"; one parrot crows like a cock, and of two others, mates, Polly and Abe, one whistles the "Merry Widow Waltz," and the other dances the waltz on his perch. There is a big black crow who used to speak German, but cannot now be induced to say a word in the language. Little white love birds with red bills have big round empty coconut shells for nests, and very cunning they look in them when they go to sleep at night with little heads out at the round opening. Miss Pope has reason to love cockatoos, for one of them, Bob, saved her life at one time, pecking her cheek early one morning, awakening her to the smell of smoke and a fire.

Some of the most valuable birds in the club at present are the brilliant black-and-yellow tropicals, which can learn the sound of musical instruments and to sound a bugle call. One of these in a big roomy cage was being prepared the other day for a trip to England. Part of his food was being sent with him, seed and meal worms, and there were full directions for a further diet of egg, chicken, apples, etc., that could be served to him from the ship's table. He went off with a messenger, his future owner being a little English girl. An unusual bird of distinguished appearance which is a permanent guest is a corolla which once belonged to Margaret Anglin, the actress. If you are selecting parrots they will tell you at the club that the South African is the best imitator and the Mexican and South American have the biggest repertoires.

Ambulance for the Hospital. The club hospital has had its own ambulance, a pretty thing that a child would like for a plaything, a little covered affair similar to a regular ambulance and drawn by a tiny horse. It was a feature in some of the animal league parades. There is a surgical department to the hospital and birds' wings and legs when broken can often be set satisfactorily. There is also a little bird burying ground out in Buffalo, where they are sure of an undisturbed resting place. Two little love birds shared one of these little coffins. The first had been ill and died and was brought to the club to be prepared for burial, and in the meantime its mate died of grief and loneliness and they were buried together.

New York does not stand first in the cities of the country in its love and care for birds, Miss Pope says. Boston has that honor; Philadelphia is second and this city third. New York birds have their manures, however. Well-cared-for birds have their bills and claws trimmed every so often.

British Workers Send Greetings. Portsmouth, England.—British workers, in convention here, sent a message of greeting to American workers on the occasion of Labor day in the United States. The message, signed by Ben Smith of the textile workers, Robert Smillie of the coal miners, Harry Gosling of the transport workers and O. K. Cramp of the railway men, said: "English labor stretches its hand across the seas in a group of brotherly friendship to its American cousins. International solidarity means a steady movement toward world peace and progress."
