GENERAL MARKET REPORT.

New-York, August 13, 1900.

COFFEE—It was a day of small things in the coffee market, so far as pendulations and speculation were concerned. After respecting for about 10 points on the opening to weakness in European markets, there was a further decline in the local pit under general selling, led by the professional interest. The small business which sifted in from abroad went to the bear side. The speculative public took little interest in the market for either side. In addition to the unpleasant advices from Havre and Hamburg, local bulls were hampered by heavier receipts in Brazilian ports than looked for, very light American warehouse deliveries and a tame trade in spot coffee. Local bear houses of influence attacked the fall and winter months with considerable show of confidence, presumably on the belief that the rate of movement would rapidly increase from now on, and that the world's statistics would show a corresponding bearish turn. The late advices from the French market failed to indicate any marked change in sentiment abroad. The local market closed steady in tone, with prices net 5@15 points lower. Total sales, 10,750 bags. The market for spot Brazilian coffee was dull and easy, with prices largely nominal, about on the basis of 9¾c for invoice lots of No 7 Rio. Total warehouse deliveries in the United States for the week just ended were 38,127 bags against 45,742 bags last week and 114,461 bags last year. For the week ended the former amount New-York reported 38,865 bags. Santos receipts were 230,000 bags for the week, as compared with 218,000 bags last week and 244,000 bags the same week a year ago. Rio receipts aggregated 65,000 bags, against 52,000 bags the previous week and 90,000 bags last year. Rio shipments to the United States, 16,000 bags for the week, to Europe, 10,000 bags. Santos shipments to the United States, 48,000 bags; to Europe, 176,000 bags. Bahia weekly receipts, 5,000 bags; stock, 16,000 bags.

The range of contract prices in the local market to-day was as follows:

Same time 1899	1,231,815	1,203,388	1,265,642

COTTON—Broadening speculation was apparent to-day, and the present indications point to no midsummer "dog days" in cotton. The market opened barely steady, with prices unchanged to 10 points lower, but immediately developed strong characteristics following heavy foreign buying and a bad scare of dull spots. The early and late cables from Liverpool were emphatically strong, news from all parts of the South was bullish, while the speculative public manifested an eagerness to take the long side and adopt aggressive tactics. By midday an advance of 8 to 19 points had been recorded, with subsequent fluctuations showing still further improvement. Friends of the market had an abundance of inspiration and ammunition in the way of light receipts at all points in the South, unfavorable weather reports, poor crop accounts, evidences of increasing spot demand in the South despite higher prices, and indications of a general improvement in the China war situation. The special weather report from Texas noted general rains over that portion of the State which has repeatedly been drenched of late. Beeville reported a cloudburst, some seven inches of rain falling at that station. Private advices from New-Orleans declared that bull sentiment was on the increase in that market, while rumor had it that a strong pool clique was once more in control at that centre. In the late session the bears were harassed by fears of another bulge in Liverpool to-morrow and predictions for a gloomy Government report at 1 p. m. to-morrow afternoon. A significant feature of the crop movement was an absence of new cotton at many points, while some of the centres of accumulation showed large arrivals. Galveston reported but 75 new bales, as against 654 last year, same day. Houston received no new cotton, whereas 389 bales were reported a year ago. Rumors that Neill was about to issue a bullish circular, and that the Mississippi Valley had been visited by a cloudburst aided bulls in the late session; nevertheless profit taking reduced overzealous longs. At the close the market was very steady, with prices net 9 to 16 points higher.

The range of contract prices in the local market to-day was as follows:

Cotton Exchange special Liverpool cables: Spot cotton—Small inquiry; sales, 4,000 bales; American, 3,000; receipts, 1,000; American, 1,000; middling upland, 5 21-32d. Futures opened steady, 1-64@2-64d advance; at 1:45 p. m. steady and 1-64@2½-64d net advance; closed very steady, 2-64@2½-64d net higher. December-January, 4.43d; January-February, 4.41½d; February-March, 4.40½d; March-April, 4.39@4.40; April-May, 4.39d; August, 5.2½d; August-September, 5.15½d; September-October, 4.61½d; October-November, 4.51½d; November-December, 4.46½d. Manchester—Yarns quiet. Cloths—More inquiry, but not much doing.

FLOUR AND MEAL—A decline occurred in flour prices, following the break in wheat, and shut out demand except where stuff had to be bought. Buyers had little confidence in the market or in wheat, and are holding off for still greater concessions. The close was dull and easy. Quotations follow: Spring patents, $3 90@$4 35; winter straights, $3 50@$3 65; winter patents, $3 30@$3 40; spring clears, $2 90@$3 30; extra No 1 winter, $2 30@$3; extra No 2 winter, $2 70@$2 80; no grade, $1 9@$1 90, spot and to arrive.....RYE FLOUR—Easy; quoted: Fair to good, $3@$3 20; choice to fancy, $3 25@$3 35.....CORN-MEAL—Weak; quoted: Kiln dried, $2 45@$2 55, as to brand.....BAG MEAL—Weak; quoted: Fine white and yellow, 90@95c; coarse, 86@87c.....FEED—Dull; quoted: Spring bran, spot, $16@$16 25; sacks, to arrive, 200 lb, $15 85@$16; spring bran, bulk, $15 25@$15 50; coarse winter bran, $17@$18 50; latter white; middlings, $16@$18; city bran, $17; Rochester hominy chop, $17, nominal; oil meal, $28 50; linseed oil cake, $27 50; corn oil cake, $20 50.

GRAIN—WHEAT—Sustaining a sharp decline early in the day under weakness abroad and a severe drop in corn prices, the wheat market recovered some of its loss during the last half hour and closed quite firm, although still 1¼c under Saturday's last figures. The final upturn was attributed to the burning of a large elevator in Buffalo, said to contain a million bushels of wheat, and to the sharp rally in corn. As a matter of fact, the movement of corn had about as much effect in determining wheat quotations as any other influence during the day. The prevailing tendency was unmistakably downward until the last half hour. In addition to the factors mentioned as having an early effect, on prices, winter wheat receipts at Southwestern points also directed sentiment against the market, for they were very large, and in the case of Kansas City, with arrivals of 750,000 bush, the heaviest on record. At all of the important winter wheat points receipts footed up 1,123,000 bush, against only 351,000 bush last year. St. Louis had 335,000 bush, whereas a year ago on the same date arrivals were only 32,000 bush. The visible supply increase of 683,000 bush, although away behind Saturday's predictions, failed to stir up any bullish response, in view of the big receipts. Last year in the corresponding week a decrease of 785,000 bush was noted. The English visible supply increased for the week 275,000 bush. Continued fine weather on the other side had a good deal of influence in bringing about the English decline of ⅞@1¼d, which exerted some influence on our market at the opening. Berlin closed 2 points lower and Budapest 5 points higher. There were holidays at Antwerp and Paris. The amount on passage decreased 1,280,000 bush. World's shipments amounted to 5,534,000 bush, compared with 6,291,000 bush a week ago and 6,160,000 bush last year. Northwest receipts were 488 cars, in comparison with 393 cars the previous week and 231 cars a year ago. It was said that steamer freights were in a considerably firmer position, with an urgent demand for room. Export business for the day amounted to about 40 loads. The local stock of No 2 red wheat increased 7,700 bush, while the supply of No 1 Northern decreased 50,600 bush. The total stock of wheat in store and afloat increased 291,300 bush. Quotations of cash wheat, f o b basis, were as follows: No 2 red New-York, 61⅝c to arrive; No 2 hard Manitoba, 84⅛c spot; No 1 hard Duluth, 86⅝c to arrive; No 1 Northern Duluth, 84⅛c to arrive. No 1 Northern Chicago, 81⅝c to arrive.....CORN—At the opening everybody appeared to have corn for sale on heavy rains in all parts of the belt, but notably through Nebraska and Iowa, giving rise to reports that the crop was now out of danger. Prices went down with a rush until at Chicago there had been a drop of 1¾c a bush, and in this market about 1¼c per bush. Local traders, however, yielding to the temptation to indulge in short selling, soon found that there was bottom to the market, and in attempting to replace their sales rallied prices half a cent. Throughout the middle of the day they held about steady on this basis, but in the last hour on rumors of a heavy export business, advanced still further, and closed quite firm, although still ⅞@1⅛c under Monday's prices. It was found that early export talk was more than justified, for sales of 178 loads came to light during the afternoon, including 500,000 bush worked at Chicago. Country offerings were reported to be more liberal on account of the rains. Private advices from the belt spoke very encouragingly of the outlook, now that the drouth has been broken, but but traders felt that the extraordinary export developments came pretty near offsetting the improvement in crop prospects. English markets closed 1@1¼d net lower. World's shipments amounted to 3,528,000 bush, compared with 5,239,000 bush a week ago, while there was a decrease of 2,040,000 bush in the quantity on passage. The visible supply decreased 969,000 bush, the local stock of No 2 corn lost 62,000 bush, while the total stock in store and afloat at New-York increased 222,700 bush. No 2 corn closed 43¾c elevator, 45⅝c delivered and 44c f o b afloat.....OATS—The market practically followed weakness in corn, but was dull here speculatively and quiet at a decline in cash circles. No 2 oats closed 25¼c, No 3 oats, 25c; No 2 white, 28@28½c; No 3 white, 27½c; track mixed, 25¼@27c; track white, 26@33c. No 2 white clipping, 29c.....RYE—Market quiet, but firm. No 2 Western, 57c, and No 2 Western, 57½c, both f o b afloat; State rye, $2@53c, c i f New-York carlots.....BARLEY—Market steady; feeding, 41¼@43¼c, and malting, 48@53c, both c i f New-York.....SEEDS—Market quiet; timothy, September, $3 65 bid; clover, October, $9 25.

METALS—Continued dullness prevailed in all iron and metal markets to-day. Tin in London declined to £143 for spot and £136 15s for futures, and the local market eased off somewhat in sympathy with this break. The close was easy at $31 40@$31 65. Copper remains unchanged at $16 50 locally, but was 8s higher in London. Lead ruled dull and unchanged at $4 25 and spelter quiet at $4 71½@$4 22½. Pig iron warrants closed dull and weak at $11 50. The brokers' price for lead was $4 and for spelter $4 20.

MOLASSES AND SYRUPS—There was a very quiet trade in molasses at full former prices, with the market at the close steady to firm in tone. Syrups were comparatively tame, though ruling steady at former quotations. Quotations follow: New-Orleans centrifugal fancy, 32@35c; choice, 27@30c; fair, 24@25c; prime, 30@37c; New-Orleans open kettle, 43@53c; Porto Rico, 34@40c; syrups, common, 15@16c; fair, 17@18c; good, 19@20c; prime, 21@24c; fancy, 25@28c.

OCEAN FREIGHTS—A good demand prevailed for sail tonnage for the foreign trades, and also for lumber from the south, but business was restricted by the scarcity of available vessels, and the reluctance of owners to send their vessels south of Hatteras at this season of the year. Rates were firm in all departments except coal to New-England ports. Steamers were in demand for the various trades, and rates were well sustained, as vessels offered sparingly. Grain steamers to Cork f o r were quoted 4s@4s 1½d for August-September loading. Quotations of cash wheat, f o b basis, were as follows: No 2 red New-York, 61⅝c to arrive; No 2 hard Manitoba, 84⅛c spot; No 1 hard Duluth, 86⅝c to arrive; No 1 Northern Duluth, 84⅛c to arrive; No 1 Northern Chicago, 81⅝c to arrive.....CORN—At the opening everybody appeared to have corn for sale on heavy rains in all parts of the belt, but notably through Nebraska and Iowa, giving rise to reports that the crop was now out of danger. Prices went down with a rush until at Chicago there had been a drop of 1¾c a bush, and in this market about 1¼c per bush. Local traders, however, yielding to the temptation to indulge in short selling, soon found that there was bottom to the market, and in attempting to replace their sales rallied prices half a cent. Throughout the middle of the day they held about steady on this basis, but in the last hour on rumors of a heavy export business, advanced still further, and closed quite firm, although still ⅞@1⅛c under Monday's prices. It was found that early export talk was more than justified, for sales of 178 loads came to light during the afternoon, including 500,000 bush worked at Chicago. Country offerings were reported to be more liberal on account of the rains. Private advices from the belt spoke very encouragingly of the outlook, now that the drouth has been broken, but but traders felt that the extraordinary export developments came pretty near offsetting the improvement in crop prospects. English markets closed 1@1¼d net lower. World's shipments amounted to 3,528,000 bush, compared with 5,239,000 bush a week ago, while there was a decrease of 2,040,000 bush in the quantity on passage. The visible supply decreased 969,000 bush, the local stock of No 2 corn lost 62,000 bush, while the total stock in store and afloat at New-York increased 222,700 bush. No 2 corn closed 43¾c elevator, 45⅝c delivered and 44c f o b afloat.....OATS—The market practically followed weakness in corn, but was dull here speculatively and quiet at a decline in cash circles. No 2 oats closed 25¼c, No 3 oats, 25c; No 2 white, 28@28½c; No 3 white, 27½c; track mixed, 25¼@27c; track white, 26@33c. No 2 white clipping, 29c.....RYE—Market quiet, but firm. No 2 Western, 57c, and No 2 Western, 57½c, both f o b afloat; State rye, $2@53c, c i f New-York carlots.....BARLEY—Market steady; feeding, 41¼@43¼c, and malting, 48@53c, both c i f New-York.....SEEDS—Market quiet; timothy, September, $3 65 bid; clover, October, $9 25.
