GENERAL MARKET REPORT.

New-York, September 14, 1900.

COFFEE—The market for Brazil coffee futures opened steady at about unchanged prices and ruled quiet early in the session, as European and Brazilian cables were unsatisfactory. Later, however, the market improved 10@20 points, following the final cable from Havre, which reported a recovery of ½ franc and caused local covering in sympathy with firmer advices from the open market for spot supplies. Rio's stock reported 8⅝ for No 7 lb invoice lots. The market was not active, sales on the call being 1,500 bags, up to 12 m, 8,750 bags, and for the entire session, 18,500 bags, with the market finally firm in tone at a net gain of 10@15 points. Receipts at Rio and Santos were reached 42,000 bags, this being a larger total than for some weeks past. The demand for futures to-day was chiefly local, and for the purpose of covering short accounts. Cleared Bahia, September 12, steamer Belgric, 2,000 bags; cleared Rio, September 13, steamer Flaxman, 21,000 bags. Havre reports a stock of 1,323,000 bags, of which 949,000 are Brazilian, against 1,544,000 and 952,000, respectively, last year.

Foreign Coffee Markets.—Santos—Coffee market quiet; good average Santos, 7f200; receipts, 49,000 bags; stock, 774,000 bags. Hamburg—Coffee market opened ¼ pfg lower at 2.30 p. m., ¼@½ pfg net lower; sales, 9,000 bags. Havre—Coffee market opened quiet and unchanged; at 3 p. m. steady, at 3 p. m. irregular May ½ franc off, others ½ franc lower; at 5.30 p. m. ½ franc higher; total sales, 26,000 bags.

COTTON—There were less sensational conditions at the Cotton Exchange. The market, however, opened feverish, irregular, with prices on the first call showing a decline of 5@15 points under the closing quotations, while the later months were 2 points lower to 1 point higher. A good deal of long cotton was for sale, and within the next few minutes prices showed a further loss of 7 to 11 points. There was a partial reaction on covering, but again the market became very weak. The decline of 7@12 in spots and 6@6@13⅝@6@d in futures at Liverpool was greater than expected. Public support, heretofore always ready to take advantage of breaks, failed to materialize. The near positions were particularly weak; liquidation of long accounts was the order of the day. Spots were closed nominally Saturday, September broke 25 points; October, 26 points; January, 31 points; March, 31 points and May, 31 points. At one time October had special support in the way of heavy buying by Liverpool, but this was finally withdrawn. In a general way the market was gravitating toward a more normal condition, and while still extremely sensitive was less spasmodic than for any time within the last ten days. The decline was arrested several times by the profit taking, and the market was also helped by reports that the Gulf markets were showing new signs of life. Spinners, however, were still abstaining from buying futures without orders to justify them in paying current prices. Crop accounts, as a whole, were not worse, although still conflicting. It was reported that rains were interfering with cotton picking east of the Mississippi Valley, particularly in the Atlantic States. The movement of cotton was very light, but rather ahead of calculations, particularly as to interior receipts, which reached 79,350 bales, against 45,477 last week and 138,298 last year. The port receipts for the week came to a total of 83,907 bales, whereas early in the week estimates pointed to about 70,000 bales. Texas storm reports failed to be a factor, they being chiefly conflicting and incomplete. During the afternoon the market was somewhat more stable, but the general tendency was downward under the pressure of long cotton, which came out quite freely on a belief that the Liverpool market, heretofore showing leading strength, was now in a position to show leading weakness. The market was finally steady at a net loss of 3@ 5 points, this being about the lowest level of the day. The failure of a single name in New-Orleans was announced in the afternoon without producing any influence upon the local market.

The range of contract prices in the local market to-day was as follows:

FLOUR AND MEAL—Continued firmness was a feature of the flour market all day, resulting in a slight advance on most grades and fair demand from local sources. Spring patents, $4 15@$4 40; winter straights, $3 50@$3 60; winter patents, $3 70@$4; spring clears, $2 75@$3 25; extra No 1 winter, $2 80@3; extra No 2 winter, $2 70@$2 80; no grade, $1 90@$1 75 per ton, spot and to arrive. RYE FLOUR—Steady. Quoted: Fair to good, $3@$3 25; choice to fancy, $3 30@$3 60. CORNMEAL—Firm. Quoted: Kiln dried, $2 45@$2 55, as to brand. BAG MEAL—Steady. Quoted: Fine white and yellow, 95c@$1; coarse, 65@90c. FEED—Firm. Quoted: Spring bran, spot, $16 50@$16 75; sacks to arrive, 200 lb, $16 25@$16 40; spring bran, bulk, $16@$16 25; coarse winter bran, $17 25@$19 50, latter white; middlings, $16 50@$19; city bran, $16 50@$17; hominy chop, $17@$17 25; oilmeal, $28 50; linseed oilcake, $27 50; corn oilcake, $26.

GRAIN—WHEAT—Because export demand was less active than on the previous day and because local operators were in a mood to take profits, the local wheat market, after a rather strong opening, eased off, fluctuated over a small range through the greater part of the day and finally weakened quite sharply, closing partly ¼c net lower than last night. The export business was reported at 38 loads. It was hardly to be expected, however, that a business of such huge proportions as that of Thursday could be repeated every day, and friends of the market were therefore not inclined to be particularly discouraged over this feature in its bearing on the general market. But at Chicago there was a good deal of selling on account of a prominent packer, which, getting noised abroad through the country, brought in a lot of orders to sell that might otherwise have been withheld. The Northwest, notably Duluth, showed considerable early strength, the latter advancing a cent a bushel on reports of further rains in spring wheat sections. Some disappointment was expressed over the Northwest receipts of 509 cars, but, while somewhat larger than on Thursday, they looked small in comparison with last year's arrivals of 1,022 cars on the corresponding day. At all spring wheat points receipts were 914,800 bush, compared with 1,042,000 last year, and winter wheat receipts were 346,000 bush, compared with 202,000 last year. A feature of the export business was the fact that a good part of it took place at St. Louis. With the exception of a decline of 3 points at Budapest, foreign markets were all firm and higher, notably Liverpool and London with an advance of ⅝@¾d. Paris closed 10 points higher, Berlin 1@1¼ marks up and Antwerp ⅛@¼ franc higher, while Liverpool flour showed another 6d advance. Ocean freights were quiet and unchanged, but those interested in this department are closely watching the coal strike and the idea that vessel room engaged for coal may, if the strike proves serious, come on the market for other commodities and perhaps weaken prices. Broomhall reported United Kingdom requirements for the coming season at 188,000,000 bush minimum, against 186,000,000 bush by Beerbohm. "The Modern Miller" said that seasonable preparations had been made with winter wheat seeding and the movement of wheat is quite large of hard winter destined for the seaboard, and soft winter which was damaged by rain and insects and cannot be held. Quotations of cash wheat, f o b afloat basis, were as follows: No 2 red New-York, 81½c; No 1 hard Duluth, 88⅝c, No 1 Northern Duluth, 85⅝c; No 1 Northern Chicago, 81⅝c; No 2 hard Chicago, 77⅝c. CORN—The strength in corn was confined principally to nearby options. September showing ⅝c advance for the day, while later deliveries were from unchanged to ⅛c net higher. Export business looked rather small in comparison with the 1,500,000 bush worked on the previous day, although 57 loads were taken. Selling was inspired by talk of increased receipts, while bulls found an aid in the advance of ¼@½d in English markets and the steadiness of cash property. Argentine shipments amounted to 1,062,000 bush, compared with 1,062,000 bush the previous week and 443,000 bush last year. No 2 corn closed at 46⅝c elevator, 46⅞c delivered and 47⅝c f o b afloat. OATS—The market for cash oats was rather firm, although no higher, and futures remained entirely nominal. No 2 oats closed at 25c; No 3 oats, 24½c; No 2 white, 27@27⅛c; No 3 white, 26@26⅛c; track mixed, 24⅛@26c; track white, 29@33c; No 2 white clips, 28c. RYE—Market firm. No 1 Western, 58⅛c, and No 2 Western, 57⅛c, both f o b afloat. Rosin's rye, 53@54c, c i f New-York carlots. BARLEY—Market quiet. Feedings, 45@45c, and malting, 46½@56c, c i f Buffalo. "Bradstreet's" exports of wheat and flour for the week aggregated 4,665,982 bush, against 3,373,100 bush last week and 4,336,552 bush in the corresponding week of 1899. From July 1 to date this season wheat exports are 34,983,843 bush, against 42,612,795 bush last season. Corn exports for the week aggregate 2,402,786 bush, against 3,162,271 bush last week and 2,282,731 bush in this week a year ago. From July 1 to date this season corn exports are 37,157,036 bush, against 49,360,263 bush last season.

METALS—The week finishes up with very little if any material change in the prices as quoted on last Friday. Tin ruled very dull and somewhat lower, owing to the easier markets abroad, prices there easing off 10s for spot and £1 for futures. The close here showed spot to be on the basis of $29 50@$30. Lake copper was quiet and unchanged at $16 75@$17. Lead dull at $4 37½. Spelter easy in tone, but not quotably lower, at $4@$4 10, and spot zinc warrants very dull at $9 37½@$10 37½. The brokers' price for lead was $4 37½ and for spelter $4 05.

MOLASSES AND SYRUPS—Refiners are bidding freely for the choice grades of molasses, but holders are too far apart to create any business of importance. Syrups were steady and unchanged. Quotations follow: New-Orleans centrifugal, common, 13@13c; fair, 14@15c; good, 20@28c; prime, 30@37c; New-Orleans open kettle, 43@53c; Porto Rico, 24@35c; Cuba centrifugal, 16@16c; fair, 17@18c; good, 19@20c; prime, 21@24c; fancy, 25@28c.

OCEAN FREIGHTS—In the market for sail tonnage there was a steady demand for vessels in several of the trades, notably for case oil to the Far East and general cargo to Australia, but the offerings of desirable vessels were very light, even at the full rates offered. In all West Indian and South American trades rates were firm, and for the coastwise trade there was a good demand from Brunswick to New-York. Steamers were in steady moderate demand to-day for the various trades and rates were firm in all, owing to the scarcity of prompt or nearby boats. Grain rates to Cork for orders were firm at 4s 9d September and October loading. Quotations to Liverpool were 4¾d; Hull, 5¼d; London, 2½d; Glasgow, 4½d; Bristol, 6d; Leith, 5¼d; Hull, 5¼d; Newcastle, 5¼d; Antwerp, 5d; Hamburg, 80 pfgs; Rotterdam, 11½c; Amsterdam, 11½c; cotton to Liverpool, per 100 lb, 40c; London, oats, 3s 6d.

OILS—The firm position of holders has arrested foreign demand for cottonseed oil and last quotations are as slow, local buyers holding off on account of the further decline in lard products. Linseed oil steady and unchanged. Petroleum, bbls, $8.05, and in bulk, $5 50; Philadelphia, bbls, $8, and in bulk, $5 45; refined, cases, New-York, $9 35. COTTONSEED OIL—Prime crude, nominal; prime summer yellow, 29@30c; off summer yellow, 32@33c; winter yellow, 39@40c; prime winter yellow, 35@36c; prime white, 39@40c; prime winter white, 40@41c; linseed, American raw, 65c; American boiled, 67c; Calcutta raw, 76c; Western linseed quoted 2c under city brands, lard oil, 54@56c.

PROVISIONS—Still influenced by big hog receipts, provisions yesterday sold off again, with liquidation a feature and buyers scarce. At all points the arrivals for the day were 82,000, compared with 46,000 last week and 46,900 a year ago. Of this amount Chicago had 24,000, Omaha 6,000 and Kansas City 9,000. About 16,000 were estimated at Chicago for Saturday. PORK—Firm. Quoted: Mess, $12 50@$13 for old and new; family, $15@$15 75; short clear, $13 25@$15. BEEF—Quiet. Quoted: Mess, $9@$9 50; extra mess, $10@$11 50; packet, $10@$11; extra India mess, $16@$17. BEEF HAMS—Dull. Quoted: $20@$21. DRESSED HOGS—Steady. Quoted: Bacons, 7⅝c; 180 lb, 7⅝c; 160 lb, 7⅝c; pigs, 8⅛c. CUT MEATS—Pickled bellies steady. Quoted: Smoking bellies, 10⅝c; 10 lb, 10@10⅛c; 12 lb, 9⅞@9⅝c; 14 lb, 8⅝@8⅞c. Pickled shoulders easy; quoted: 6½c. Pickled hams dull; quoted: 9⅝@10⅝c. TALLOW—Quiet. Quoted: City, 4 7-16c; country, 4⅛@4⅜c. LARD—Steady; quoted: 7.20c. City lard steady; quoted: 6.75c. Refined lard steady; quoted: South America, 8c; Continent, 7.50c; Brazil, kegs, 9.15c. Compound quiet; quoted: City, 6@6⅛c; Western, 6@6⅛c. Stearine steady; quoted: Oleo, 7¼@7⅜c; city lard stearine, 8¼c.

RICE—The market continues in the same narrow rut, with business only to supply the immediate wants of buyers, and the market at the close was quiet at unchanged prices. Quotations follow: Domestic, common to low fair, 3¼@4¼c; fair to good, 4⅜@5c; prime to choice, 5⅛@5⅜c; head, 5¼@6½c; Patna, 4⅜@5½c; Japan, 4⅜@6c; Java, 4⅜@4¾c; Rangoon, in bond, 2½@2½c.

SUGAR—Demand for refined sugar continues brisk, and the market ruled firm at full list prices, owing to the light supply on hand. Quotations follow: Cut loaf and crushed, 6.55c; dominos (in half bbls only) and mould A, 6.40c; cubes and XXX powdered, 6.30c; powdered, coarse powdered and fruit powdered, 6.25c; Eagle confectioners' granulated, 6.40c; Eagle coarse granulated, extra fine granulated, 2 ⅝ cartons, 2 lb bags and 5 lb bags of fine granulated, 6.25c; Eagle fine granulated, standard granulated and Diamond A, 6.15c; confectioners' A, 5.95c; Nos 1, 2 and 3, 5.80c; No 4, 5.75c; No 5, 5.70c; No 6, 5.60c; No 7, 5.50c; No 8, 5.40c; No 9, 5.30c; Nos 10 and 11, 5.25c; No 12, 5.20c; Nos 13, 14, 15 and 16, 5.15c. This week's summary of the statistical position, as made up by Willett & Gray, shows stocks in the United States and Cuba, together, of 67,716 tons, against 84,778 tons last week and 198,754 tons last year, a decrease of 131,038 tons under last year. Europe—Stocks in Europe, 532,000 tons, against 593,000 tons last week and 742,692 tons last year. Total stocks of Europe and America, 599,716 tons, against 677,778 tons last week and 941,446 tons last year at the same time in the United States, and 1,011,393 tons at even date of August 1 last year. The deficiency of stock is now 341,730 tons, against a deficiency of 227,148 tons last week and an excess of 56,023 tons December 28, 1899. The market for raw sugar retains its firm undertone. Stocks are very light, and there were buyers on the basis of 5c for centrifugal 96 test, 4⅜c for muscovado and 4c for molasses, but as has been the case for weeks, very few sellers were in evidence. Cables from London were in accord with the strength exhibited here, coming firm and very active at an advance of 1⅝d for the present delivery of beet and ¾d rise in the future option.

COUNTRY PRODUCE MARKETS.

New-York, September 14, 1900.

BEANS AND PEAS—The market is a little firmer for marrow beans, with some sales making at an advance of 2½c; possibly very choice stock might command a little more than we quote. Marrow are not plenty, and also doing a little better, and the scarcity of pea at the moment makes quite a strong market. Red kidney in good favor. Other kinds are steady and unchanged. Green and Scotch peas firm. We quote: Beans, marrow, choice, bbls, $2 15@$2 17½; do medium, choice, $1 90@$1 85; do pea, choice, $2 05; do red kidney, choice, $1 90@$1 97½; do white kidney, choice, $2 25; do yellow eye, choice, $2 10; do black turtle soup, choice, $1 70@$1 75; imported medium, fair to prime, $1 50@$1 60; do inferior, $1 30@$1 45; do lima, California, $3 52½@$3 55; green peas, bags, $1 15@$1 17½; do Scotch, bags, $1 20.

BUTTER—Just a moderate jobbing trade to-day, but fresh supplies were light and values were sustained. Strictly fancy fresh creamery is commanding 21c quite generally, but it requires only slight defects in quality to reduce the selling value ½@1c per lb, and there is still quite an accumulation of stock from 18@20c. More of these goods have been moved of late, mainly because holders have been willing to accept what seemed to be the current value. Exporters are not doing much. No change in State dairy nor in imitation creamery. Factory is slow and in buyers' favor. We quote: Creamery, extras, per lb, 21c; do firsts, 19½@20c; do thirds to seconds, 16½@19c; creamery, June, extras, 20½@21c; do seconds to firsts, 18½@20c; State dairy, half firkin tubs, fancy, 20c; do firsts, 18@19c; fl Welsh tubs, fancy, 19½@20c; do firsts, 18@19c; State dairy, tubs, seconds, 17@17½c; do thirds, 15½@16c; State dairy, tins, etc, 15½@19c; Western imitation creamery, firsts, 16½@17c; do, lower grades, 15@16c. Western factory, June make, finest, 16@16½c; do, held, fair to good, 15¼@15¾c; do, do current packed, finest, 15½@15½c; do, do, lower grades, 14@15½c; factory or dairy, lower grades, 14@14¾c; renovated butter, fancy, 18½c; do common to prime, 16@18c.

CHEESE—The stronger advices from the country added to the firmness of the position here, and prices were further advanced quotably on both large and small sizes. Exporters paid 10⅛@11c for strictly fancy large colored and white, and the small offerings cleaned up closely on that basis. There was no special demand, but buyers felt assured that more money would be asked next week. Small cheese were quite active at the advance; quite a number of lots were closed out early in the day at 10⅞c for fancy colored, but later 11c was paid, and in a few exceptional cases even a fraction more. White did not share fully in this improvement, most of the best lots going at 10⅞c. There was pretty fair demand for grades under fine—say from 10⅜c down to 10c. Choice light skims inquired for and firm, but other grades are quiet. At Cattaraugus yesterday sales were at 10⅞@11c. Liverpool cable: Colored, 53s 6d; white, 52s 6d. We quote: State, full cream, large, colored or white, fancy, per lb, 10⅞@11c; do good to choice, 10⅛@10⅝c; do common to fair, 9½@10⅛c; do medium, colored, fancy, 10⅞@11c; do small, white, fancy, 10⅞c; do good to choice, 10⅛@10⅝c; do poor to fair, 9½@10c; light skims, small, choice, 9¼@9½c; do large, choice, 9⅜@9⅝c; part skims, prime, 8@8½c; do fair to good, 5½@7c; do common, 3@4c; full skims, 2@2½c.

EGGS—There is a fair movement, and while offerings are ample there is no urgency to sell fine grades, and the market holds a steady to firm tone. We quote: Jersey and nearby fancy selected white, 21@22c; do fancy selected brown, 20@21c; do fancy mixed, 19@20c; do average lots, 17@18c. Western, loss off, 18@19c; do fancy selected, at mark, 17½@18c; do average prime, regular packings, at mark, 16@17c; do fair to good, 14½@15½c; do poor to fair, 12@14c; dirties, 8@12c; checks, 6@9c; refrigerators, 13@17c.

FRUITS—FRESH—Fancy table apples in the best shipping grades are in light supply and firm; market burdened with inferior qualities, which are pressed for sale at low prices. Fancy fresh packed Bartlett pears in light supply and steady; poorly kept refrigerator lots and all ordinary varieties of fresh packed stock are moving slowly. Peaches doing better under lighter receipts. Preserving varieties of plums are full and in buyers' favor, but fancy table fruit holds steady. Grapes generally slow of sale and liberal stocks on hand; prices weak. Fancy watermelons steady. Colorado muskmelons selling well but somewhat irregular prices, according to condition. Cranberries are inquired for in a small way and receipts are very light as yet. We quote: Apples, fancy red table varieties, per bbl, $2@$2 50; do green fall varieties, good to choice, $1 25@$1 75; do winter sorts, per double head bbl, $1@$1 25; open heads, inferior, 40@60c; pears, Bartlett, per bbl, $1 50@$2; do Seckel, $2@$3 50; do Beurre Bosc, $1 75@$2; do Beurre Clairgeau, $1 25@$1 75; other good varieties, $1 25@$1 50; do poor to fair grades, 50c@$1; peaches, extra fancy, per carrier, $1 75@$2; do good to prime, $1 25@$1 50; do poor to fair, 75c@$1; other good fruit, fancy, 75@85c; do prime lines, 50@60c; do ordinary, 35@45c; cults, 25@30c; prunes, fancy large, per 10-lb box, 30@40c; do small, 20@25c; plums, fancy table sorts, 30@35c; do Damson, 30@35c; do Reine Claude and Green Gage, 20@30c; common kinds, 12@15c; grapes, Western New-York Delaware, per small basket, 9@12c; do Concord, 6@7c; do large red, 6@7c; Delaware, upriver, per carrier, 40@85c; best white varieties, 40@50c; do black, 30@40c; Niagara, in trays, per 100 lb, $1 50; white, $1 75@$2; do Delaware, $2 25@$2 50; do Niagara, per carload, $75@$225; do fancy, large, per 100, $20@$30; do medium, $10@$18; do small and inferior, $1@$6; muskmelons, Colorado, per crate, $1 25@$2 75; cranberries, per bbl, $5 50@$7 50.

FRUITS—DRIED—The market is quiet for evaporated and other spot apples. Futures are firm, owing to damage to crop by the storm early in the week. Small lots of new Southern apples arriving and sales of ordinary evaporated reported at 4@4½c, and sun dried quarters, 3⅜c. Small fruit in light supply. California fruit unchanged. We quote: Apples, evaporated, fancy, 6@6½c; do choice, 5⅝@5¾c; do prime, 5⅛@5⅜c; do common, 3@4c; do sun dried, 3½@4¼c; do quarters, 2½@4c; do chops, per 100 lb, 50c@$1 12½; do cores and skins, 25@75c; peaches, Southern, peeled, per lb, 8@9c; cherries, 10@11c; raspberries, evaporated, 16@17c; do sun dried, 14@15c; huckleberries, 14@15c; blackberries, 4½@5c; apricots, California, 20@22c; peaches, California, 8@9c; prunes, California, 4½@4¾c.

HOPS—Nothing transpired to-day to change in any way the general position of the market. There is a fairly active holding and some business is doing each day—enough to reduce stocks in a fairly satisfactory manner. There are very few new Hops arriving as yet and not much interest. Oper
