GENERAL MARKET REPORT.

New-York, May 10, 1904.

COFFEE—There was more liquidation in to-day's coffee market. On the other hand, some of the larger bear interests were buying, and it seemed to be a demand on the theory that a reaction was probable after the recent severe declines. Consequently, the market, after opening 5@10 points lower, ruled generally steady, and was finally net unchanged to 5 points higher. Sales were reported of 64,000 bags. The initial decline was in keeping with the character of foreign advances. But the European markets were lower, Hamburg by ¾ pfg and Havre by ¼@¾ franc. Primary receipts, too, were full. The two ports had 14,000 bags, against 32,000 last year, and interior towns receipts reached 9,200 bags, against 5,400 bags reported on the previous day and 15,691 last year. The opening guidelines, carrying September to 5.70@5.75c, seemed to uncover a very fair demand. Wall Street houses began buying. Importers also were buying moderately, although some of the leading trade authorities are quoted as predicting still further declines to around 5c for September before the summer is over. European houses that have recently been selling also bought on the decline, and were offerings almost entirely for long account, selling lost its aggressiveness as soon as the presence of buying orders became evident. The spot market was quiet, with quotations on the basis of 6¾c for Rio No 7.

COTTON—The cotton market yesterday started out very quiet, but became much more active in the afternoon, with sentiment evidently very nervous and unsettled. The influence stimulating business was the weekly report of the Weather Bureau. The summary of this report, as read on the floor of the Exchange, proved distinctly bearish, in that it reflected a very general improvement in the condition of the plant. It was followed by active liquidation. But the decline developed the fact apparently that a considerable short interest existed who are sufficiently apprehensive of the continued reductions in local stocks to cover, and thus the decline was checked before it had extended to any material her loss. Private crop reports received during the day were generally unfavorable, as they almost always are, and it was said that the report of the Weather Bureau giving the conditions at length and by States was much less bearish than indicated by the summary. The general idea is, however, that the crop has been given a decided improvement, and the smaller longs were evidently anxious to get out during the late trading. Aside from the crop news, developments were along recently lines. Receipts continued light; exports were about 40,000 bales, all from New-York, and there continued reduction of New-York stocks is naturally attracting more or less attention. Cables came somewhat better than due, and the local market opened steady at an advance of 3@4 points. During the forenoon it showed little change, prices fluctuating within a 5@6 points range, with the trade generally awaiting the bureau report at midday. Following this there was a break under active selling for long account and room bears carrying the market to a new low, a loss of 8@14 points on the active months, with July showing special weakness. But brokers believed to be representing large Wall Street interests bought heavily of July at the decline to around 13.50c, and in the late trading the market rallied a few points, and was finally quiet at a net decline of 4@12 points. Sales estimated at 100,000 bales.

FLOUR AND MEAL—What little demand there was in flour yesterday was for spring patents and the better grades of winter wheat flour. Low grades appeared to be entirely neglected. Spring patents, $5 10@$5 50; winter straights, $4 80@$5, winter patents, $5@$5 35; spring clears, $4@$4 20; extra No 1 winter, $3 60@$4; extra No 2 winter, $3.25@$3 50. RYE FLOUR—Quiet; quoted: Fair to good, $4@$4 25; choice to fancy, $4 25@$4 60. CORNMEAL—Steady, quoted: Kiln dried, $3@$3 10, as to brand. BRAN—City, $23 50@$24; bulk and sacks, middling, $23 50@$24; red dog, $26 50; hominy chop, $20 50, bulk; $21 75, sacks; oil meal, $23 50.

GRAIN—WHEAT—Irregular conditions prevailed in the wheat market again throughout the session to-day and the close was ⅛@⅜c net lower. At best point of the prices showed an advance of ⅛@¾c over the previous night and at the lowest interval was ⅞c under. Gossip on the government report occupied attention most of the day and was chiefly responsible for whatever changes occurred in the price. While a bullish statement was generally expected, the trade had pretty well discounted the report, and selling by timid longs in the last half hour brought about weakness, in contrast to earlier strength. The weekly crop and weather bulletin was bearish, except for Ohio Valley States, where condition remains very poor. The Michigan State report gave a condition of 54, against 79 in April and 90 last May by the government. A crop of about 10,000,000 bush was indicated for that State, compared with 15,524,000 bush actual last year. Interior receipts were 171,000 bush, compared with 256,000 bush a year ago. A decrease of 150,000 bush in Minneapolis stocks was reported, and at Duluth export orders from the Continent attracted attention, the price being close to the market, as were also bids from the United Kingdom, latter for old crop Manitoba. The "Bradstreet's" statement of world's stocks showed a decrease for the week of 1,180,000 bush, compared with 3,327,000 bush decrease a year ago. In addition to a bullish weekly crop report from Illinois, private advices from Oklahoma predicted one of the largest crops on record, and a private estimate from Kansas placed the prospect there at 75,000,000 bush. The weather map showed clear conditions throughout the West, with milder temperatures generally. No 2 red closed at $1 08, elevator, and at $1 07⅞@$1 11, f o b afloat. Northern Duluth, $1 00¾, f o b afloat. CORN—After a steady opening in response to the wheat advance, corn gradually worked lower owing to the promise for warmer weather and the bearish crop bulletin at noon. A better demand for cash corn at the West seemed to have little effect on the market. The close here showed a partial net decline. No 2 corn was quoted at 59½c, elevator, and at 55c, f o b afloat; No 2 white at 57c and No 2 yellow at 60c, f o b afloat. OATS—The trade in oats at Chicago was small, and the market acted rather weak, especially after midday, following the bearish crop bulletin and the favorable weather indication for Wednesday. Mixed oats, 26 to 32 lb, 46½@47c; natural white, 30 to 32 lb, 48@50c, and clipped white, 36 to 40 lb, 51@54c. RYE—Market dull; No 2 Western, 70c, spot. BARLEY—Market slow; feeding was quoted at 46c, c i f New-York, and malting at 55@58c, c i f Buffalo. The government report made winter wheat area 27,083,500 acres, showing an abandonment of 4,932,000 acres. Condition on this area was 76.5, or the same as a month ago and comparing with 92.6 in May last year. The estimated crop on the acreage given was 360,212,000 bush, compared with 425,600,000 bush estimated last month and 390,867,000 bush actual last year. The area harvested last year was 32,510,500 acres. On the curb July sold down to 90½c and up to 90⅞c, with the 4:45 o'clock price 90¾c.

PROVISIONS—There was heavy selling of pork throughout the session by commission houses and packers. Lard and ribs opened steadier, but eventually followed the break in pork, and the whole market after midday ruled weak, closing at lowest prices of the session. Chicago receipts of hogs were 18,000 head; Kansas City, 13,000; Omaha, 7,500, and the West, 61,000. Live hogs were steady. PORK inactive; quoted: Mess, $13@$13 75; family, $14 50; short clear, $13 25@$14 75. BEEF steady; quoted: Mess, $6@$8 50; family, $9 50@$10 50; packet, $8 50@$9 50; extra India mess, $14@$16. TALLOW easy; quoted: City, 4⅝c; country, 4½c. LARD quiet; quoted at 7c. City lard easy; quoted at 6¾c. Refined lard dull; quoted: South America, 7.50c; Continent, 7.10c; Brazil, kegs, 8.50c. Compound easy; quoted at 6½@6¾c. STEARINE slow; quoted: Oleo, 5½@5¾c; city lard stearine, 7c.

RICE—The local market is firm as shipments from the South are moderate, owing to the fact that prices there are relatively higher than at New-York. Demand is moderate and largely for special assortments to fill up broken lots. Talmage, Charleston, telegraphs Carolina crop movement to date: Receipts, 38,700 bbl; sales, 23,735; market steady. Talmage, New-Orleans, telegraphs Louisiana crop movement to date: Receipts, rough, 1,773,950 sacks, against 1,415,970 last year, and sales cleaned estimated at 1,496,664 pockets, against 1,338,050 last year. Improved inquiry, higher grades very strong. We quote: Domestic, ordinary, 3@3¼c; fair to good, 3½@4¼c; prime to choice, 4¼@4¾c; head, 5@5½c; Patna, 5¼@5¾c; Japan, foreign, nominal; do domestic, 3¾@4¼c; Java, 4½@4¾c; Rangoon in bond, 2¼@2¾c.

SUGAR—Refined sugar is steady, with a moderate demand on new orders, but a fairly active movement in withdrawals. List prices are as a rule well maintained. Prices quoted are net less 1 per cent for cash seven days: Cut loaf and crushed, 5.50c; mould A, 5.15c; cubes, 5.05c; XXXX powdered, 4.95c; powdered, coarse powdered and fruit powdered, 4.90c; Eagle confectioners' granulated, 5.05c; Eagle coarse and extra fine granulated, 4.90c; Eagle 2 lb cartons of fine granulated, 4.95c; Eagle 2 lb bags and 5 lb bags of fine granulated, 5c; Eagle fine granulated, standard granulated and diamond A, 4.80c; confectioners' A, 4.65c; Nos 1, 2 and 3, 4.55c; No 4, 4.50c; No 5, 4.45c; No 6, 4.40c; No 7, 4.35c; No 8, 4.30c; No 9, 4.25c; No 10, 4.20c; No 11, 4.15c; No 12, 4.10c; No 13, 4.05c; Nos 14 and 15, 4c; No 16, 3.95c. The local market for raw sugar holds firm, but without business. The current duty paid prices are as follows: Centrifugal, 96 test, 3.32c, and molasses sugar, 89 test, 3.21-32c. The stock of sugar in the United Kingdom is 97,000 tons. The London beet sugar market was firm at ¾d advance on the May position, and 1½d up for June, which closed May at 9s ¾d, and June at 9s 1½d.

COUNTRY PRODUCE MARKETS.

For week ending Tuesday, May 10, 1904.

BEANS AND PEAS—Receipts for the week, 1,267 bbls beans and 2,185 bags peas; exports, 79 bbls beans and 474 bags peas; imports, 1,002 bags beans. The market has drifted along in a dull, rather heavy condition, but without material change in the line of values. Exporters have been unsuccessful in drawing orders, and the jobbing trade is unusually light, even for this season. We quote: BEANS—Marrow, choice, per bush, $2 90@$2 95; do common to good, $2 50@$2 85; do medium, choice, $2 05; do peas, $1 95@$1 97½; do medium and pea, common to good, $1 75@$1 90. Red kidney, choice, $3@$3 05; do common to good, $2 75@$2 90; do white kidney, $3; do yellow eye, $2 60@$2 65; do black turtle soup, $2 80; do lima, California, $2 40; do foreign marrow, duty paid, $2 40@$2 65; do Italian medium, $1 90@$1 95; do other foreign medium, $1 70@$1 85; do foreign peas, $1 80@$1 90; PEAS, green, Scotch, bags, per bush, $1 17½@$1 20.

BUTTER, EGGS—Receipts for the week, 33,525 pkgs; last week, 29,688 pkgs; exports to Europe for week, 630 pkgs. Almost immediately following our last weekly report the market began to show evidences of a heavy feeling, but it was Thursday morning before values took a downward turn; from that point on it declined steadily. Saturday it was very sharp, prices falling 4c per lb on top grades and from 2c to 3c on the lower qualities of table butter. The drop to 20c on extra creamery brought out freer buying on Monday, and there has since been brisk trading and a good healthy feeling; possibly the tone is a little stronger at the close, with buyers occasionally paying a little more money for high quality. This is due to the fact that the butter is averaging low, with a very small proportion of strictly first class stock. The official quotation was held to-day at 20c, and while much of the regular business was done at that basis, buyers were compelled to pay 20¼c for some of the fancy lots. The bulk of current receipts coming are in the classification of firsts and seconds, and these are selling only moderately at the figures quoted. Held creamery has been carried down by the decline in fresh, and the business doing at the close is mainly in range of 14@17c, some very poor stock down to 13c at the close. Buyers are paying 19c for selected lots of fancy State dairy fresh tubs, but general receipts are going at 15@18c, and are slow at that. Not much imitation creamery here, and the receipts of fresh factory are also light; the demand for this class of stock is very moderate, with there is a little call from bakers' supply trade at about 13@14c. Packing stock has ruled slow and weak. Best marks of renovated declined on Saturday to 17c, and has since ruled steady; there is a very little outlet for any of the lower grades. We quote: Creamery, extras, per lb, 20@20¼c; extra firsts, 18½@19½c; do seconds, 17@18c; firsts, 14@15c; do held, extras, 18c; do firsts, 15@17c; do seconds, 14@14½c; do thirds, 13@13½c; State dairy tubs, fresh, extras, 19c; do firsts, 17@18c; do seconds, 15@16c; do thirds, 13@14c; Western imitation creamery, firsts, 16c; do seconds, 13½@14c; renovated, extras, 17c; do firsts, 15@16c; do seconds, 13@14c; do thirds, 10@12c; Western factory, current make, firsts, 14c; do seconds, 13@13½c; do thirds, 12@12½c; do held, 12@14c; packing stock, current make, No 1, 13½c; do No 2, 12@13c; do No 3, 11@13½c; do held, 11@13½c.

CHEESE—Receipts for the week, 27,474 boxes; exports, 1,259 boxes. Old cheese has had a fair peddling outlet to home trade dealers, but at irregular prices, as holders generally are anxious to clean up and willing to meet buyers on most any reasonable basis for good sized lots. There is very little demand, however, except for small lots wanted for current use, and such are selling out within the range of quotations. New cheese is steadily increasing in supply, and, with quality irregular and only a limited demand, prices are lower and unsettled; with the Northern markets on Saturday and the Utica on Monday 6c, the market here at the close is down to 6¾c for large, either white or colored. Some business in large was done on that basis, but very little demand for large colored. Small size new cheese shows irregular quality, and, while a few exceptionally fine, well cured lots have brought a premium, average best lots are freely offered at 7@7¼c and poorer grades range all the way down to 5@6c. Small white cheese attracts very little interest, and prices are uncertain. Skims have slow sale and feeling weak and irregular. Liverpool cables, 42s for colored and 40s for white. We quote: OLD—State, full cream, fall made, small, fancy, 10¾@11c; do choice, 10@10½c; do good to prime, 9@9½c; do common to fair, 8@8½c; do large, fancy, 10¾@11c; do choice, 10@10½c; do good to prime, 9@9½c; do common to fair, 8@8½c. NEW—State, full cream, colored, small, choice, 7@7¼c; do fair to good, 6½@6¾c; do white, small, choice, 6¾@7c; do fair to good, 6¼@6½c; do small, poor, 5@6c; do white, large, choice
