MORE GREAT WESTERN STOCK.

Holders Will Vote on Proposition to Issue $14,000,000 of Preferred B.

St. Paul, June 12.—Extensive improvements by the Chicago Great Western road are foreshadowed in an announcement to-day that stockholders will vote at a meeting to be held in Chicago next September on a proposition to increase the preferred B stock by $14,000,000. "The Dispatch," which to-day published the announcement, says:

If the issue is made to the full amount named, it will add 70 per cent to the present total of preferred stock issued by the company and nearly 20 per cent to the sum of all stock so far issued.

Four kinds of stock have previously been authorized by the Chicago Great Western company—4 per cent debenture stock, 5 per cent preferred A stock, 4 per cent preferred B stock and common stock. Of the 4 per cent debenture stock, $30,000,000 has been authorized and about $26,000,000 issued. Of the 5 per cent preferred A stock, $15,000,000 has been authorized and about $11,000,000 issued. Of the 4 per cent preferred B stock $10,000,000 has been authorized and about $9,000,000 issued, and of the common stock $50,000,000 has been authorized and $30,000,000 has been issued. Thus stock to the amount of $105,000,000 has been authorized and about $76,000,000 has been issued.

In addition to the 4 per cent dividends paid annually upon the debenture stock, 5 per cent has been paid since January, 1900, upon the preferred A stock. The payment of the 4 per cent dividend on the preferred B is contingent upon earnings. So far, no dividends have been paid upon that issue or upon the common stock.

Most of the debenture stock and the preferred A stock is held abroad, where the shareholders have an annual meeting of their own in London every March and select a finance committee to conserve their interests.

Although the object of the proposed stock increase is not announced, it is conjectured that an expansion of the Great Western system is about to be made.

BANKRUPTCY NOTES.

The following petitions in bankruptcy were filed yesterday with the clerk of the United States District Court:

Mollis Goldberg, 1st-ave.; liabilities, $4,700; assets, $30. Principal creditors, State Bank, $1,800; Cooper Exchange Bank, $1,100; Monroe Bank, $1,200.

Albert Shapiro, No. 733 Wendover-ave.; liabilities, $1,411; no assets. Principal creditor, Sabaliwitz Bros., No. 115 East Broadway, $255.

Involuntary petition against William Washer, No. 55 West 42d-st., by H. H. Shufeldt & Co. and other creditors; claims, $547. Preferences alleged and the further statement that an action is now pending against him wherein H. H. Ketchum is suing the alleged bankrupt to recover $13,500 of goods, secured, the petition states, "by fraud and deceit."

Involuntary petition against C. G. Swartz, lumber dealer of White Plains, by Charles G. Schwartz and other creditors; claims, $9,316. Preferences alleged.

Involuntary petition against William Hope, teacher, by the Remington Typewriter Company; claim, $1,723. Max S. Harburger appointed receiver, with a bond of $1,000.

Involuntary petition against the Poughkeepsie Art Pulp Company, of Poughkeepsie, by the Fabrikord Company and other creditors; claims aggregate $895.

STOCK MARKET OPERATIONS.

Transactions in yesterday's stock market were much lighter in volume than expected by the majority of commission houses, trading being made up in great part of the operations of the professional element, despite the favorable developments of the last few days, which naturally were considered important enough to attract a large public following in speculative dealings. The fact that commission house customers did not respond to the prospects for peace in the Far East, to the practical settlement of the Equitable muddle and to the remarkably favorable government crop report, did not, however, cause any uneasiness in the higher circles of finance. There is no reason why the absence of a public demand should be considered a bear argument on American securities. The speculative public never comes into the market until prices are well up the speculative scale, but while this element is waiting for what it foolishly believes will be the psychological moment to buy stocks, careful investors and speculative interests who always "buy cheap and sell dear" accumulate good securities, knowing that periods of dulness in Wall Street are always followed by activity. Doubtless in the absence of a big outside demand many operators took profits in yesterday's early trading, and thereby encouraged pressure from the bear party, the result of which was lower prices in the forenoon in the majority of issues, declines, however, generally being confined to small figures. Metropolitan was an exception, its advance being based on the theory that the settlement of the Equitable troubles would bring about closer relations between the Belmont-Ryan interests in local traction affairs.

The government's report of crop conditions of June 1 indicates a large yield of winter wheat and an unusually large spring wheat harvest. Of course, it is too early in the season to place absolute faith in the spring wheat estimate, as much may occur in weather conditions before the maturity of the crop to damage the growing cereal; but, so far as winter wheat is concerned, it is safe to say that the yield will be just as large as the government's prediction, as the grain has now reached a condition that is practically immune from climatic vagaries. According to the reports received from the best informed men in the agricultural section of the country conditions have improved since the first of the month, and therefore at the moment there is every reason for optimism over the prospects for this year's harvests. In the early dealings some bear sentiment was noted as a result of the tone of the London press over the prospects for peace in the Far East, but later on in the day, when it was officially announced that Russia had agreed to meet Japan to discuss peace terms, the whole market exhibited a firmer tendency, and in the last two hours there was a considerable increase in the volume of business, especially in Amalgamated Copper, American Smelting, Canadian Pacific, Metropolitan, Pennsylvania, Reading, Union Pacific and the United States Steel shares.

Canadian Pacific ended the day at a net gain of 1⅜, Metropolitan at a net gain of 1, Union Pacific closed unchanged, and United States Steel common and preferred at a net gain of ⅝ for each issue. Amalgamated Copper lost over 1 per cent, American Smelting 1 per cent, while elsewhere in the list final changes, as a rule, were confined to small fractions, net gains predominating. The increased activity in Canadian Pacific was accompanied by strength in "Soo" common, which gained over 1 per cent. The control of the "Soo" company is held by the Canadian Pacific, and it is a noteworthy fact that interests identified with the latter company have been buying the "Soo" shares to hold as investments. Earnings of the company have made wonderful improvement in the last two years, and ever since the opening of the road's Winnipeg extension, which taps a most productive territory, the volume of traffic has much more than doubled. Corn Products preferred was again a strong feature, and from the character of the buying it was assumed in well informed quarters that the stock is on its way toward a materially higher quotation range. There was no change in money and exchange quotations. In banking circles it was thought that there would be no important advance in lending rates in the near future, at least before the end of the month, when preparations will be made for the July interest and dividend disbursements.

WALL STREET AND EXCHANGES.

FOREIGN TRADING.—The London market was closed, and as a consequence foreign houses were not factors in the local market. Foreign houses had cable dispatches from their London correspondents forecasting a buoyant opening on the other side to-day, especially as trading for the new account begins after midday.

THE COSTA RICAN DEBT.—Full particulars of the Costa Rican debt readjustment show that Speyer & Co. have bought $11,500,000 of the new 5 per cent refunding bonds, which may be increased to $13,239,000, to retire $1,449,000 Pacific Railway 6s. The new bonds are dated July 1, 1905, and payable 1955. They have a sinking fund of 1 per cent a year after January, 1910, the bonds to be purchased at not exceeding 100 and interest, or drawn at that price. They are exempt from all taxation. These bonds are secured by a first charge on all customs; a first charge on all liquor revenues, subject only to the interest on the $1,449,000 railway bonds; an agreement by the government to create no obligation prior to or equal to these bonds, and to make no changes in customs or liquor manufacture, except as Speyer & Co. may agree. The bondholders are entitled to appeal to the United States for the enforcement of all rights. The total debt, April 1, 1905, was $15,233,558, of which $4,690,525 is foreign. The customs in 1904 brought in $1,675,527 and the sale of liquor brought $334,800 net.

WABASH "A" INTEREST AGAIN PASSED.—The directors of the Wabash Railroad Company met yesterday and decided not to make any distribution on the debenture "A" bonds at this time. This was the regular meeting for taking action on this question. A year ago and six months ago the interest was passed also. The "A" bonds are an income security and interest is payable only as earned and when the funds are not needed for improvements. From 1890 to 1893 the full 6 per cent interest was paid. During the next two years the interest was passed. In 1896 1 per cent was paid, while from 1897 to 1899, inclusive, no distribution was made. From 1900 to 1904 the full 6 per cent declaration was renewed.

BIG FOUR'S NEW STOCK.—The new common stock of the Cleveland, Cincinnati, Chicago and St. Louis will be distributed among stockholders beginning June 22. It will be apportioned on the basis of 20 per cent of the holdings of record April 29. Stockholders, both common and preferred, who exercise their option will have from June 22 to July 3 to pay for the new stock. As the $7,600,000 common stock set aside to be sold to stockholders is to go at par, the company will have in its treasury by July 3 that amount in cash.

AMERICAN SMELTING.—Although American Smelting is undoubtedly active, traders on the floor think the market in the stock is rather artificial. A good deal of the strength developed on Saturday and the strong rallies on any attempt to sell the stock short are thought to be directly traceable to the Smelters Securities underwriters, who would naturally wish to influence sentiment in favor of the 55 per cent of that issue which they were obliged to take.

ANACONDA'S PRODUCTION.—A dispatch from Butte, Mont., says that the Anaconda Mine is producing now the largest amount of ore in its history. The production of the precious metals, as silver and gold, appears to be on the increase. It is stated that the next dividend will be a quarterly one, of $1 a share. Anaconda at present is earning 25 per cent on its capital.

GREENE GOLD DIRECTORS RESIGN.—The report has been confirmed that Henry Ollesheimer and E. B. Tustin have handed in their resignations as directors of the Greene Consolidated Gold Company and the Greene Gold-Silver Company the week before last. Mr. Ollesheimer has also resigned from the board of Greene Consolidated Copper.

GREEN BAY AND WESTERN.—Green Bay and Western B bondholders' committee will be appointed this week. The well founded assertion is made by the bondholders that the earnings of the company warranted a dividend at the last annual meeting of the directors, and it will be the purpose of the protective committee to take measures to compel a payment on the B bonds.

UNITED STATES STEEL.—A substantial buying order in United States Steel was executed by a house believed to be trading for one of the members of the United States Steel finance committee. Traders bought both common and preferred, taking a bullish view of the general market, and naturally arguing that a movement in steels will be necessary to influence outside interest.

COTTON EXCHANGE MEMBERS TO VOTE ON EXTRA HOLIDAY.—The members of the New-York Cotton Exchange will vote to-day on the proposition to make July 3 a holiday. It is expected that the Stock Exchange members will take similar action.

WHEN BANKS MUST PAY.—Secretary Shaw announces that payment under the second call for government deposits due July 1 need not be paid by banks until July 15.

OUTSIDE SECURITIES.

The market for outside securities continued to move irregularly. There was a fair amount of activity during the early hours, but after midday the market lapsed into dulness, with only a sprink-
