AMERICAN SECURITIES ABROAD.

London, Nov. 28, 4 p. m.—The market for American securities was generally firm. The contango rate on American issues was 4¾ per cent. Final prices follow:

	London, Nov. 28.	N. Y. equiv.	London, Nov. 27.	N. Y. equiv.	Monday's N. Y. close.

FOREIGN MONEY MARKET.—Call money in London, 2@2½ per cent. Open market discount rate for short bills, 3⅞@3 15-16 per cent; long bills, 3⅞ per cent. Berlin discount rate, 4⅝ per cent. Berlin exchange on London, 20 marks 43 pfennigs. Paris discount rate, 3 per cent. Paris exchange on London, 25 francs 13½ centimes. Bar gold in London was 77s 9½d.

FOREIGN SECURITIES.—British consols for money, 89 5-16; for the account, 89 5-16. French rentes, 99 francs 85 centimes.

WALL STREET AND EXCHANGES.

FOREIGN TRADING.—Foreign houses dealt in 10,000 shares in the local market, buying on balance. In London consols were strong, while Russian bonds declined fractionally, owing to the serious situation at Sebastopol. The copper issues were strong, Anaconda and Rio Tinto being the leaders in the movement. Kaffir stocks showed early weakness, but improved somewhat before the close.

MARKET GOSSIP.—C. B. Macdonald was a heavy buyer of Southern Pacific, taking the stock freely on every little reaction. This is about the first time in some months that Southern Pacific has shown any inclination to follow the leadership of Union Pacific. The predicted rounding up of shorts in Sloss-Sheffield did not materialize. This stock acted as if there were profit taking in it. There has been a good deal of short selling in the Southern iron stocks on the theory that a reaction was logical. National Lead made a sensational advance, opening at 65 and advancing to 72½ within a few minutes' trading. These erratic price movements are not liked by conservative commission houses, who are advising their customers to keep out of these stocks. There was a liberal supply of tips before the market opened, most of them coming from pools in specialties. Among others it was given out that Erie would be moved up to-day. It is said that there has been some quiet accumulation of St. Paul preparatory to an active market movement. The extension to the coast is considered as a bull argument. Traders were watching Union Pacific for any indication of an upward movement. It was thought that if the railroads were to be advanced this stock would be the first to be taken in hand. The fluctuations in this stock were, however, within narrow limits. E. Wassermann offered to bet that Tennessee Coal and Iron would sell up 10 points before it would go down 5, and he attempted to make this offer good by bidding for the stock. It was reported that interests back of the recent advance in Smelters had been selling some of their long stock.

NATIONAL LEAD.—The advance in the price of National Lead stock presumably is based on the idea that the company soon will pay a dividend on the common shares. The concern has enjoyed a profitable year, and it is generally believed that early in 1906 the stockholders will receive a return on their investment. A few months ago the company increased its preferred and common stocks $10,000,000 each, but so far nothing has been done with the new issue. This stock was authorized to take over properties to be determined by the directors. American Smelting and Refining interests deny that they are buying National Lead in anticipation of a merger of the United Lead Company with the National Lead Company.

BETHLEHEM STEEL.—In connection with the advent of the Bethlehem Steel Company into the manufacture of commercial steel, mention of which was made some time ago, it can be stated that the company has planned to expend between $8,000,000 and $10,000,000 for additions, replacements, etc. The company will engage in the manufacture of structural steel, steel springs, screws, etc. Five blast furnaces, with a daily capacity of 2,500 tons, will be erected. The company owns large ore deposits in Cuba, and this ore will be utilized in the manufacture of pig iron.

BANKS LOSING MONEY.—So far in the current week the local banks have lost upward of $3,500,000 in their cash holdings. Large transfers have been made through the Sub-Treasury for the account of San Francisco, shipments yesterday amounting to $1,000,000, while $200,000 was transferred to New-Orleans. It is understood that a considerable amount of money will be sent to South America.

GOLD GOING BACK TO CANADA.—The gold withdrawn from the Sub-Treasury yesterday represented a part of that received from Canada in the recent flurry in money rates at this centre. It is probable that all the gold recently received from Canada will be returned, owing to the decline in money rates in New-York.

LACKAWANNA DIVIDEND.—The directors of the Delaware, Lackawanna and Western are expected to declare an extra dividend of $5 a share, or 10 per cent, at their next meeting. On December 25, 1904, a similar extra dividend was paid.

ADVANCE IN SILVER.—In the London market the price for silver touched the highest figure since October, 1896. There is a good demand for the metal the world over.

GENERAL ELECTRIC DIVIDEND.—The directors of the General Electric Company have declared the regular quarterly dividend of 2 per cent, payable January 15.

CURB MARKET TRADING.

The market for copper issues was strong and active. In other parts of the list few issues showed any animation aside from Mackay common, International Mercantile Marine preferred and Chicago Subway. After the noon hour the trading subsided considerably and the market was inclined to react under realizing. Mackay common displayed exceptional strength, advancing to a new high mark at 54¼. Marine preferred ran off a fraction, while Chicago Subway gained a point. Central Foundry shares were decidedly firmer. American Can stocks were about steady. Bethlehem Steel common improved ¼; the preferred was irregular. In the mining group Granby Consolidated was firm; British Columbia Copper improved ⅝ per cent; Nevada Consolidated, on extensive transactions, gained ½; Greene Copper improved ⅝, while fractional changes were noted elsewhere in the group. In bonds Havana Tobacco 5s were off 1½ per cent. Central Foundry 6s improved 1 per cent; Japanese new 4s sold at ½ per cent premium; Albany and Susquehanna 3½s were up ¼ per cent. In the last hour a sharp reaction took place in sympathy with the stock market, and prices ran off from ¼ to 1 per cent.
