## F. A. SLADE'S FINE WORK.

### Scores 100 Runs for Manhattan Team Against Montclair.

An unusual disparity in the totals marked all the cricket games played yesterday in the Metropolitan District Cricket League championship series. A century was scored in the Manhattan and Montclair game at Prospect Park, while the opposing team were all disposed of for less than 40. F. A. Slade was the big man of the game. Going in first, he scored exactly 100 out of a total of 185, and did not give a chance until he was within 6 runs of the century. His splendid batting was frequently applauded, and at the end of the innings he was carried off the field. Of course, his performance dwarfed everything else in the game, but J. Rose played an exceedingly good game, and was in during most of the time the innings lasted. His score was 24, which total was also reached by J. H. Tattersall. A. Smedley and E. E. Gittens did the best bowling, their analyses being 5 wickets for 17 runs and 4 for 16, respectively. Dr. E. Tinker and J. Johnson did the best batting for Montclair, and F. J. H. Price accomplished the best work with the ball. The score is as follows:

Kings County suffered defeat at the hands of Brooklyn in the league game at Prospect Park, the margin being 84 runs. J. L. Poyer was again in evidence with the bat, scoring 52 by good judgment before getting caught and bowled. H. Poyer livened up things somewhat and quickly ran up 38 by a rapid succession of boundary hits, and was also not out when the game ended. A. Brown did some pretty cutting in his innings of 21, while G. Macpherson and W. F. Jackson succeeded in getting double figures. H. Rushton had the good analysis of 5 wickets for 17 runs, while A. S. Durrant had the peculiar record of 3 overs, 3 runs and 2 wickets. For Kings County, B. Wimpenny profited by being let off before he had scored and ran up 22, while T. H. The Columbia Oval team defeated the Yonkers eleven at Williamsbridge in the league game. The margin was 108 runs and the totals were 164, declared for 5 wickets, to 56. Top score of the day was made by A. Dover, who just missed the half century mark by one run. He was followed by B. Kortlang, whose total was 39, while A. The Columbia Oval B team received a defeat at the hands of the Brooklyn B team at Prospect Park by a margin of 43 runs, with a total of 92 against 49. The all around work of A. Corbin was the feature of the game, his record at the bat being 27, made in an innings without blemish, while he did almost better with the ball, getting four men out at a cost of five runs only.

The Prospect Park Club journeyed to Van Cortlandt Park and defeated the Yonkers B team by a margin of 38 runs, the total being 87 to 49. J. J. Hewitt was an all around performer for the winners, scoring 37 and capturing 3 wickets for 11 runs, while G. Bliss was not out for 15 and C. Laurie got 12.

The New York Adults team beat the Columbia Oval C eleven at Williamsbridge by totals of 80 to 29, the good batting of J. Barbour and W. Pratt being responsible for this result.

The Bellevue Cricket Club had as visitors at Upper Montclair the Manhattan second eleven, and a victory ensued for the home eleven, the totals being 112 to 37. Abbott, with 42, made the high score on the winning side, followed by Boddington and Melville, who scored 19 each. J. Standfast, for the visitors, was the only man to get into double figures, his score being 19.

## FEENEY TO SUPPORT GEN. BARTLETT.

### Bay State Democratic Governorship Contest Between Latter and Whitney.

Cummings and myself were present, Mr. Cummings announced that he would not enter into a contest for the Democratic nomination for Governor, and is not a candidate. In view of Mr. Cummings's positive declaration, I have decided to support General Bartlett."

The contest for the nomination now lies between Henry M. Whitney and General Bartlett.

# INVADER IN DEFEAT.

## Andrew Crawford's Trotter Beaten by Ann Direct.

In a race for a blue ribbon at the Empire track yesterday, Andrew Crawford's crack trotter Invader, 2:10, suffered his first defeat since the early part of the harness racing season of 1905. For two years the rakish bay had been the champion of the track and the Speedway in amateur races under the auspices of the New York Driving Club and the Road Drivers' Association, and his unexpected overthrow caused quite a stir among horsemen. The trotter that took his measure was Ann Direct, winner of the $10,000 Merchants and Manufacturers' Stake in the Grand Circuit last season. She was driven by James Butler, who bred her at his East View farm in Westchester County. The mare was erratic in professional hands last year, and was distanced about as often as she won. In the first heat yesterday she broke badly, but after that Mr. Butler kept her on a trot, and she won in handsome style, outfinishing Princess Pique in the second heat, and in the third carrying Invader to a break at the end of a gruelling drive through the homestretch. The time of the three heats was faster than any of the circuit trotters have made in the East thus far this season.

The racing in other events was extremely close and exciting, the team race alone proving to be a one-sided affair. George M. and Crown Prince were on their bad behavior, and were easily beaten by Governor Holt and Deputize. It was said last night that Deputize had been sold after the race to De Witt C. Flanagan, and that the Floyd-Jones pair would probably never start again as a team. Governor Holt was quite lame.

Going against her best previous performance this season, J. H. Campbell's black mare, Susie G., paced a mile in 2:13, without a pacemaker to spur her on. The summaries follow:

## CRUSHED UNDER CAR, DIRECTS RESCUE

### Farmer Retains Senses Until Given Ether Before Amputating His Legs.

[By Telegraph to The Tribune.]

Meriden, Conn., July 6.—George Hunt, sixty-five years old, a farmer of Glastonbury, showed remarkable grit when he was run over and probably fatally injured by a trolley car yesterday. He found himself on the wrong car to go from New Britain to his home. He tried to get aboard another car while it was in motion, and slipped from the running board.

With both legs so badly crushed that they had to be amputated, Hunt retained consciousness and directed the work of removing him from under the car trucks. He implored his rescuers to keep the news of the accident from his sister, because the shock might kill her.

He retained his senses until ether was administered at New Britain General Hospital, and his right leg was cut off at the knee and the left one just above the knee. His condition is critical.

## SOUTH CAROLINA COLONEL EXPLAINS.

### Says His Men Were Faultless in War Path Riot at Jamestown.

Columbia, S. C., July 6.—Colonel Henry T. Thompson, commanding the 2d South Carolina Regiment at the Jamestown exposition, returned to Columbia to-day with his regiment, and made a statement concerning the troubles on the War Path on the night of July 3, in which he says that the reports sent out from Norfolk regarding that affair were in some particulars incorrect. He declares that his regiment not only did not "throw off all discipline," but that he had at all times during the trip complete and absolute control of his men.

"When the row was precipitated," he says, "there were crowds of our men standing around with the members of other regiments 'seeing the fun,' as they expressed it. One of these, McElveen, of the 2d South Carolina, who was near the front of the crowd, was arrested as one of the ringleaders, but at the hearing next day he was released, as the evidence showed most conclusively that he was simply looking on and that he was arrested under a misapprehension, as he was absolutely without fault, either in bringing on the difficulty or in keeping it up."

## MANŒUVRES IN THE WEST.

### California Militia to Practise with Big Guns at the Presidio.

San Francisco, July 6.—Two thousand California National Guardsmen who are taking part in the army manœuvres at the Presidio in conjunction with the regulars last night slept at the big guns in the forts which line the bay shores.

For fifteen days the state militia will be drilled with the regulars in the handling of big guns. A part of the manœuvres will be the repelling of an imaginary night attack from the sea by a hostile fleet composed of launches and small boats. The manœuvres are in charge of Colonel Lunden. In addition to the troops stationed at the guns, an infantry support was established yesterday under the command of Colonel Cooke. The manœuvres proper will not begin until Monday. Before the expiration of two weeks it is believed that the militia companies will not only have familiarized themselves with the fortifications, but will have learned how to operate the heavy coast defence guns. According to the regulations, the officers of both the militia and the regulars must live in the camps during the manœuvres, although the homes of the latter are less than half a mile away. The regulars do not conceal their disappointment at the inadequate equipment of the state troops.

Another bullet had the same result, and, although faint, Mrs. Thayer fired a third time, the bullet inflicting a more serious wound and putting the lion to flight.

## LONG MISSING FATHER FOUND.

### Son Meets Him on Street Twelve Years After He Mysteriously Disappeared.

Allen Ostro, formerly a wealthy merchant of San Francisco, has been found in Philadelphia by his sons, after a mysterious absence for twelve years. One of the sons, Julian, is a law clerk in the office of Judge Sydney A. Syme, at Mount Vernon. The other brother is Leo Ostro.

Allen Ostro years ago was one of the most prosperous men in San Francisco, and lived in a fine home. His first misfortune came when he wagered a large sum of money on the election of Mr. Cleveland when he ran for the Presidency the second time. He met other reverses, and one day disappeared.

Leo Ostro was in Philadelphia on June 21, when he saw his father standing in front of the Bellevue-Stratford Hotel. Ostro said that after leaving San Francisco he visited the West Indies, and afterward went to Seattle, where he remained some time. Later he came East, and established at different times hotels in Atlantic City and Philadelphia. He explained that he had not informed his relatives of his whereabouts because he had not accumulated a sum equal to his former wealth, which he wished to do before communicating with his family. He said that he purposed to remain in Philadelphia.

## THINK LIGHTNING A PUNISHMENT.

### Visitation on Father of Man Who Escaped Punishment for Killing Sweetheart.

[By Telegraph to The Tribune.]

Ponca, Neb., July 6.—The main building on the farm of M. F. Brink, a wealthy farmer near here, and the father of the young man who killed his sweetheart on the eve of her marriage to another man last February, was struck by lightning twice within two hours to-day and totally destroyed.

A strong feeling is prevalent among the superstitious persons in the neighborhood that the destruction of the building was a direct punishment from above for the escape of young Brink from the penalty of his act. Brink was adjudged to have been suffering from a "brainstorm" at the time of his act, and after three months of nominal confinement was released three days ago.

## PROTECTS TRAVELLING PUBLIC.

### Safe Roads Automobile Association Issues a Statement at Boston.

Boston, July 6.—The Safe Roads Automobile Association, an organization formed three weeks ago for the purpose of making the public highways safe for the travelling public and to restrain automobilists who endanger life and limb, issued a statement to-day showing what had been accomplished thus far by the organization. The report says that many instances of careless driving have been investigated, with the result that the licenses of two automobilists have been temporarily suspended, while in a third case an operator defaulted when his case was called in court.

One of the rules of the road advocated by the association is that an automobile shall not pass another vehicle on curves or corners. To test the validity of the rule, one of the cases referred to in the report was brought before the Highway Commission, which controls the licensing of automobiles. The operator had run into a team while swinging out to pass another automobile at a corner. It was asserted that the man was known as a careful driver and was not going at excessive speed, but the commissioners revoked his license for two weeks, announcing that the penalty would have been more severe except for the evidence in favor of the accused. The other suspended license was in the case of the operator of a motorcycle, who, it was alleged, had unnecessarily frightened a team.

The default reported was in the case of an operator of a car which had struck a wagon, knocking the driver from his seat and running over him, causing severe injuries.

R. L. Agassiz, John D. Long, Eliot C. Lee, William A. Gaston and Henry L. Higginson are among the members of the association.

## TERRIER BITES THREE IN WILD RUN.

### Cry of "Mad Dog!" Starts Panic in Harlem Streets—Killed by Officer.

Half Harlem turned out yesterday afternoon to yell "Mad dog!" at a little fox terrier which had bitten two girls, a man and another dog in a wild run for his liberty. Although the dog apparently had only been made ill tempered by the heat, his spinal column will be sent to the Health Department to be tested for rabies. All those bitten have been cauterized and are in little if any danger.

Lizzie Kennedy, twelve years old, was playing with a baby and another girl on the third floor of the flathouse at No. 250 West 154th street when the dog ran into the room toward the baby. The Kennedy girl kicked at it, and the dog turned and bit her leg. Another little girl about four years old then chased the dog out of the room, the game being taken up by Charles Goldstein, a glazier, at work in the front of the house. When he started to hit the dog with a heavy stick the terrier bit his ankle.

Goldstein and most of the neighborhood then chased the dog to 153d street and Eighth avenue, where Lizzie Tezleff was standing, with her dog. As the terrier went by, with the mob in pursuit, she, too, kicked at him, and the dog stopped long enough to bite through her shoe. The girl's dog seized him then, and he had just broken loose when Patrolman Gallagher came up and shot twice at the terrier, finally killing him.

# THE OUTLOOK AT BOISE

## Haywood Not Expected to Testify Before Wednesday.

Boise, Idaho, July 6.—Counsel for the defence in the Haywood murder case held extended conferences to-day, both at their downtown office and in the cells of Haywood, Moyer and Pettibone at the county jail, and it was stated afterward that it would be Wednesday next before Haywood would take the stand as a witness in his own behalf.

The programme as it now stands is to begin Monday morning by reading the depositions taken at San Francisco as to the explosion at the house of "Fred" Bradley. These depositions are to be supplemented later with the evidence of an expert in explosives. It is contended by the defence that ten pounds of dynamite, exploded as Orchard swears the Bradley bombs were, would have blown Bradley into pieces and destroyed the whole front of the house.

Additional testimony will be adduced to show that before he fled from the Cœur d'Alenes, in 1899, Orchard attempted to sell his interest in the Hercules mine, and there will be a showing as to the movements and actions of "Jack" Simpkins when he went to Denver in the fall of 1905, after having parted with Orchard at Caldwell. This will about conclude the case, with the exception of the testimony of Haywood and Moyer, and it is believed that Moyer can be reached by Tuesday afternoon.

"Steve" Adams will not be called by the defence. To call him would open the way for the state to get his repudiated confession before the jury, and it is deemed better strategy to avoid this.

The direct examination of Haywood, according to the statement of counsel for the defence, will be extended. He will be taken over a sketch of his life that will embrace all of its important happenings, including his connection with the Western Federation of Miners, with which his later life has been closely interwoven. It is said that there will be no limit established for his protection, and that the gate will be open to the fullest and widest cross-examination that the prosecution may care to make. Haywood himself will explain that the $100 sent to "Jack" Simpkins nine days before Steunenberg was murdered was the remainder of the federation expense account that Simpkins left with Haywood to be forwarded to him at his home in Spokane.

The presentation of the state's case in rebuttal will probably begin on Thursday next and be carried over into the succeeding week.
