GENERAL MARKET REPORT.

New York, March 12, 1908.

COFFEE—There was no fresh feature in the coffee market to-day, and trading continued very quiet, with prices partly lower under moderate offerings in the absence of prompt export. Sales for the day were reported at 6,000 bags, and the market closed barely steady, net unchanged to 3 points lower. The market opened steady at unchanged prices to a decline of 5 points, the decline being attributed to easier primary markets and somewhat disappointing French cables. There was some scattering liquidation, or at least selling which was considered such, but business was too light to be considered significant, and there was no real trading feature. The French market was ¼ franc higher early, but lost the advance, closing net unchanged, and Hamburg was also net unchanged. The Brazilian markets were lower, advices reporting a decline of 25 and Santos of 50 reis. Receipts at the two ports were 10,000 bags, against 21,000 the previous day, 55,000 last year and 11,000 two years ago. Judahy receipts were 10,000 bags, against 3,000 two years ago. New York warehouse deliveries were 22,468 bags, or in excess of the receipts at the two Brazilian ports, to say nothing of deliveries at other American and European points. The visible supply of coffee of the United States, Brazilian, is reported at 3,797,000 bags, against 3,994,944 last year. The market for spot coffee, with quotations on the basis of 8½c for fair Rio No 7.

The range of contract prices in the futures market for the day was as follows:

COTTON—The cotton market continued quiet to-day, but was easier again, with most positions making a new low record for the current movement. Unfavorable trade advices and reports of a slack demand for spot cotton appear to be the bearish features in connection with the absence of aggressive bull support. The market closed steady, but at a net decline of 18@21 points, or 10@13 points from the lowest, on 76,000 bales. The market opened steady at an advance of 4@5 points, and after a little hesitation it extended the gains to a matter of 8 or 9 points on the active months in response to better cables, some New Orleans buying and moderate support from Wall Street sources. But offerings increased in the advance, and during the afternoon the market became quite easy on the unfavorable trade reports mentioned above, with the close at practically the lowest level of the session. Press dispatches report that Mississippi mills will curtail production by one-third. During the afternoon the market let was unfavorably influenced by reports that New England mills, with the exception of Fall River, would reduce wages 10 per cent. Unless this action should be followed by labor troubles it may not prove a bearish factor in the long run, as a reduction in the cost of production is not usually an unfavorable argument on consumption. Advices from Atlanta said that the mills in the vicinity of Birmingham had decided to run on full time. Dispatches from Memphis, Birmingham and Galveston reported an absolute absence of spot demand, and some points said that it looked as though commitments had been completed.

The range of contracts in the market to-day was as follows:

The local market for spot cotton, quiet, with prices 1 point lower at 11.30c for middling upland and 11.55c for middling Gulf. Sales, 1,600 bales. Southern spot markets were telegraphed as follows: Mobile quiet, unchanged at 11¼c; sales, 250 bales; Savannah dull, unchanged at 11c; sales, 940 bales; Charleston quiet, unchanged at 11c; Norfolk dull, unchanged at 11¼c; sales, 181 bales; Baltimore nominal, unchanged at 11½c; Augusta quiet and steady, unchanged at 11¼c; sales, 280 bales; St. Louis quiet, unchanged at 11¼c. Little Rock quiet, unchanged at 11c; Houston steady, unchanged at 11 15-16c; sales, 856 bales; New Orleans steady, unchanged at 11¼c; sales, 3,125 bales; Charleston quiet, unchanged at 11c; Wilmington quiet, ¼c lower at 11¼c, Houston quiet, unchanged at 11¼c; sales, 224 bales. Estimated receipts at leading points for Friday, with comparisons, follow: Houston, 1,500 to 2,500, against 8,109 last week and 7,000 last year at Galveston, 7,000 to 8,000, against 4,129 last week and 12,193 last year, and at New Orleans, 1,500 to 2,500, against 6,375 last week and 2,984 last year.

Cotton Exchange special Liverpool cables: Spot cotton, fair business doing; sales, 7,000 bales; speculation and export, 500; American, 6,000. Middling upland, 6.06d. Futures opened steady and unchanged; closed quiet, at a net advance of 1@1½ points. March and March-April, 5.66½d; April-May and May-June, 5.67d; June-July, 5.66d; July-August, 5.62d; August-September, 5.53d; September-October, 5.44d; October-November, 5.37d; November-December, 5.34d; December-January, 5.33d. Manchester Yarns, steadier; cloths, more inquiry, but not much doing.

FLOUR AND MEAL—Trading in flour was of the hand-to-mouth sort yesterday, with sales restricted to spring patents and clears. Prices were not quotably lower, although mills were wiring for bids. RYE FLOUR—Was dull with prices lower to sell. The following are prices quoted on the New York Produce Exchange: Spring patents, $5 25@$6 50; winter straights, $4 40@$4 60; winter patents, $4 60@$5; spring clears, $4 50@$5; extra No 1 winter, $3 90@$4 25; extra No 2 winter, $3 65@$3 85. RYE FLOUR—Barely steady. Quoted: Fair to good, $4 50@$4 90. Choice to fancy, $5@$5 25. CORN MEAL—Firm. Quoted: Kiln dried, $3 55. BAGMEAL—Firm. Quoted: Fine white and yellow, $1 45@$1 50. Coarse, $1 35@$1 40. FEED—Western barely steady. City steady. Quoted: Western spring, $27 50; standard middling, $27 50; flour do, $29 50; red dog, $30 50, all March shipment; city bran, $25 50 bulk, $27@27 50 sacks; middling, $27@$29 50; red dog, $30 50; hominy chop, $25@ bulk, $26 50 sacks; oilmeal, $32 50.

GRAIN—WHEAT—Dull, with weather and crop news from the southwest undermined the wheat market today, and wiped out an early advance of from 1 to 1⅝c per bushel, the close showing practically no change from the previous night. The selling of July and September in the last hour was extensive and prices gave way easily, as in view of the estimate of 45,000 bushels cleared for the Argentine this week, there was little confidence left on the bull side of the market. Previous to midday, however, a good deal of strength was shown at times, May in the local market advancing to $1 02⅞ on the bullish sentiment created by Wednesday's big cash business at interior points. Increased clearances of wheat and flour, together with an advance of ¾d to 1½d at Liverpool also had an effect on the market, and throughout the day the May option was relatively stronger than new crop positions. A Broomhall cable said that unless good rains fall in India within the next ten days the Punjaub crop, which was sown a month late, will probably be a failure. Late cables from Paris were 5 to 20 points lower, while Berlin showed ¼c advance and Budapest was ⅝c higher. At the decline a little export demand was noted, total sales on this account reaching 5 loads. The "Price Current" report was bearish. Further sales of cash wheat were reported at Chicago, although there was some difficulty in confirming Wednesday's big sales at that point. The cash market in New York was irregular, closing as follows: No 2 red, 99⅝ elevator and $1 00⅛ f o b afloat; No 1 Northern Duluth, $1 12⅝, and No 2 hard winter, $1 11⅝ f o b afloat. CORN—There was also a change in the appearance of this market, prices selling off rather easily in the afternoon, and giving the impression that bulls had unloaded and were playing for a reaction. The market closed quite weak at the lowest point of the day, and was ⅝ to ½c under the previous night in New York. Part of the late selling was on reports of a larger crop movement at interior points, although carlot receipts for the day, as well as holiday estimates, were light. Liverpool closed ¼d net higher, and the local cash market was quoted as follows, prices being normal: No 2 corn 73½c elevator, and 67c f o b afloat; No 2 white, 67½c and No 2 yellow, 67½c f o b afloat. OATS—In the early part of the session oats were quite firm, with sharp advances, based on commission house buying and lighter receipts, but the market eventually eased off with other grains and closed rather heavy. The cash market here was steady, being quoted as follows: Mixed, 26 to 32 lb, 57c; natural white, 28 to 32 lb, 57@60c, and clipped white, 30 to 40 lb, 60@65c. RYE—Market dull; No 2 Western, $79@80c, nominal, f o b New York. BARLEY—Market nominal.

COUNTRY PRODUCE MARKETS.

New York, March 12, 1908.

BEANS AND PEAS—Buyers are showing very little interest in domestic white beans and, while values are not materially changed, the feeling is easy except on strictly choice pea, which comprise a small part of current receipts. Much of the trade is still being supplied with foreign stock, which is selling in range of $2@$2 10 generally. Red kidney lack demand, and the market is weak. This is also true of white kidney and turtle soup. Yellow eye have cleaned up better and are steady; fair trading in California lima. Scotch peas quiet. We quote: BEANS—Marrow, choice, per bushel, $2 20@$2 25; do common to good, $2 05@$2 15; medium, choice, $2 37½@$2 30; do common to good, $2 05@$2 25; pea, choice, $2 35; do common to good, $2 05@$2 30; do white kidney, choice, $2 40@$2 45; do red kidney, choice, $2@$2 05; do common to good, $1 85@$1 95; black turtle soup, choice, $1 75@$1 80, yellow eye, choice, $2@$2 10; lima, California, choice, $3 25@$3 30. PEAS—Scotch, bags, per bushel, $2 45@$2 50.

BUTTER—Receipts to-day, 6,289 pkgs. There was a pretty fair movement to-day in the choice and fancy grades of table butter, and prices for such were quite firm. In some quarters there was a disposition to ask a little more money, but no higher prices have been established as yet. Among the more conservative operators there was a feeling that values should be held down long enough to insure larger trading. There is an ample supply of the medium to good grades of creamery, both fresh and held and of process, factory and packing stock, and all of these are easy. Fine process butter sells well and is steady. We quote: Creamery, specials, per lb, 29c; do extras, 28c; do firsts, 26½@27½c; do seconds, 25@26c; do thirds, 24c; do held, specials, 28½@29c; do extras, 28c; do firsts, 26@27c; do seconds, 24@25c; do thirds, 22@23c; do common to fair, 20@24c; process, specials, 25c; do extras, 24c; do firsts, 22@23c; do seconds, 19@21c; imitation creamery, firsts, 23@24c; Western factory, firsts, 22c; do seconds, 21c; Western factory, held, firsts, 21½@22c; do seconds, 21c; rolls, fresh, good to choice, 22@24c; packing stock, No 1, 20c; do No 2, 19c; do No 3, 18c.

CHEESE—Receipts to-day, 1,082 boxes. Trading keeps up in a very satisfactory manner, and with stocks steadily reducing the market is in firm shape for all grades of full cream cheese, but especially for good value undergraded stock, which continues most in demand. The out-of-town call is largely for white cheese, and such is becoming actually scarce. The finer grades only moderately active, but held firmly. Fine fall made skims in good demand and firm, but winter made slow and irregular. Liverpool cable: Finest Canadian, 64s 6d for colored and 63s for white. We quote: Full cream, specials, 16¼c; do state, full cream, small, colored, fancy, 15¾c; do small, white, fancy, 16c; do large, colored and white, fancy, 15¾c; do good to prime, 14½@15¼c; do late October and early November made, 13½@14½c; do winter made, 12@13c; do common to fair, 8c@9½c; do skims, 1½ n specials, 11c; do skims, fine, 8c@9½c; do fair to good, 6@7½c; do common, 3½@4½c; full skims, 1@2c.

EGGS—Receipts to-day, 19,396 cases. The demand continues very active, but the increasing receipts are giving us a better supplied market, and prices are a shade lower for general offerings. Stock in up town was well cleaned up, but there were some good sized lots due later in the day, a clearance of which is doubtful. The tendency is downward. We quote: State, Pennsylvania and nearby, selected white, fancy, 26c; do good to choice, 23@25c; do brown and mixed, extras, 22@22½c; do firsts, 21@21½c; do Western and Southern, firsts, 21c; do seconds, 20½c; do thirds, 19½@20c; dirties, 18@19½c; cheaks, 15@17c.

FRUITS, FRESH—There is a fair call for choice to fancy apples showing good selection and perfect condition, and for such prices rule steady to firm; medium and lower grades, which comprise the great bulk of the mills receipts, are dragging and urgently offered at easier supply, are dragging and urgently offered at easier. Cranberries are in light supply and held unchanged, but the demand is small. Florida strawberries about steady. Florida oranges without quotable change; selections of the most desirable sizes exceed quotations when fairly. Pineapples doing a little better under light receipts. We quote: APPLES, King, cold storage, per barrel, $3 50@ $4 50; do common to good, $2 50@$4; Spitzenberg, cold storage, $2 50@$3 25; do common storage, $2@$2 75; do Northern Spy, cold storage, $3@$4; do common storage, $2@$2 50; do Hubbardston, cold storage, $2 25@$3; Baldwin, cold storage, $2 25@$3 50; do common storage, $1 75 @$2 50; Greening, cold storage, free of scald, $4@$5; do general offerings, $2 25@$3 50; do common storage, $1 50 @$2 50; Russet, Roxbury, $1 75@$2 50; do Golden, $1 75@ $2 25; do poor to fair, $1 25@$2; CRANBERRIES, Cape Cod, late varieties, per bbl, $11@$12 50; do Early Black, $8@$9; do Jersey, per bbl, $6 50@$10 50. STRAWBERRIES, Florida, per quart, 20@40c; ORANGES, Florida, fancy, per box, $1 25@$3; TANGERINES, Florida, per box, 75@$1; do poor to fair, $1@$4; PINEAPPLES, Florida, per crate, $1 75@$3 75; do fancy, $4@$5.

HOPS—Trade is quiet and prices has occurred in Sonoma under anxiety to sell and over 2,000 bales have changed hands at 4@5c, principally at the lower figure. In Oregon there has been a continued steady demand from exporters at 4@5½c, which has held that market about steady. The Washington market is weaker, with growers inclined to sell at best prices obtainable. In New York State very little business passing. On the local market trading has been a little more active, with sales from 5½@7c, according to quality. We quote: State, 1907, choice, per lb, 12@13c; do prime, 9@11c; do medium, 5@8c; do Pacific Coast, 1907, choice, 12@c; do prime, 5½@6c; do medium, &c; do Germany, 1907, prime to choice, 25@28c; do State, 1906, 6@8c; do Pacific Coast, 1906, choice, 4@5c; do medium to prime, 3c.

HAY AND STRAW—There is a continued steady feeling on large baled hay and values are well sustained all the way from prime to shipping. On the lower grades of small bales there is a slightly easier feeling, though no marked decrease in quotations. Straw slightly lower. We quote: HAY, timothy, prime, large bales, per 100 lb, $1 05; do No 3@1, 82½c@$1; do shipping, 77½@80c; do packing, 55c; clover and clover mixed, 70@90c; STRAW, long rye, 65@70c; do short and tangled rye, 50@55c; do oat and wheat, 50@55c.

POULTRY—ALIVE—Receipts to-day, 4 cars of Western by freight an about one car scattering lots by express. Trading is more active to-day and some fancy stock has sold at higher prices than yesterday, though eight to ten cars unsold in jobbers' hands, though it is probable a large proportion of this will go out before the end of the week. No further carload lots by freight will be unloaded this week and probably but 6 of late receipts will have to be carried over on the track. We quote: FOWLS, per lb, 14c; YOUNG ROOSTERS, per lb, 12c; OLD ROOSTERS, 12c; TURKEYS, prime, per lb, 16c; do culls, 8c; DUCKS, per lb, 15c; GEESE, prime Western, per lb, 10c; do poor Western, Southern and Southwestern, 9c; GUINEA FOWLS, per pair, 50c; PIGEONS, per pair, 30c.

POULTRY—DRESSED—Fresh killed fowls, which comprise the bulk of the fresh killed poultry available, continue slow, though prices hold about steady. Fresh killed turkeys are generally undesirable, especially hens. Large white squabs in rather better demand and a shade firmer, but smaller birds without improvement. Frozen poultry generally quiet, but holders firm for fancy grades. We quote: Fresh killed—TURKEYS, young, 18@20c; do average best, 17@18c; do young toms, 15@16c; do common to fair, 12@14c; do old hens, prime, 15@16c; do old toms, prime, 14@15c; do old, fair to good, 12@13c; CHICKENS, spring, broilers, Philadelphia, 3 to 4 lb to pair, per lb, 25@28c; do Pennsylvania, 3 to 4 lb, 22@24c; do poorer grades, 17@20c; roasting, Philadelphia, 16@20c; do Pennsylvania, 12@15c; FOWLS, Western, dry picked, selected, 12 to box, 13½c; do fancy, barrels and large boxes, 13½c; do heavy, 13c; do poor, 10@12½c; do Western, scalded, 10@14c; do Southwestern, 10@ 13½c; OLD COCKS, dry picked and scalded, 10c; DUCKS and GEESE, Western, poor to fair, 8@10c; SQUABS, prime, large, white, per dozen, $1 75@$4; do mixed, $1 50@$2; do dark, $1 25; do culls, 50@60c. Frozen—TURKEYS, hens and toms, No 1, 19c; do No 2, 12@14c; do old toms, No 1, 16c; broilers, dry picked, 20@25c; CHICKENS, roasting, dry picked, 16@20c; do scalded, 15@17½c; chickens, No 2, 12@13c; FOWLS, dry picked, 12@14c; DUCKS, 12@16c; GEESE, 8@9c.

POTATOES AND VEGETABLES—Receipts of domestic potatoes are liberal and largely below prime quality, and for such trade is slow. The market for strictly prime stock is steady; foreign meet a fair demand when choice. Sweet potatoes quiet, but about steady. Old onions are in liberal supply, and prices still lean slightly in buyers' favor, although quotations show no further change. Outside quotations for Western red and yellow are extreme. Norfolk kale and spinach are still of very irregular quality and value, but the range of prices is without change. Florida lettuce and celery ruling a shade easier under liberal receipts. Fancy beans and peas are still wanted at firm prices, but ordinary lots move slowly, and values show a very wide range. Other Florida vegetables are without much change. New Orleans salad stuff is doing a little better under a good demand, and some improvement in quality. Beets also firmer. Other root vegetables without material change. Leeks continue dull. CHICAGO GRAIN AND PROVISIONS.

Chicago, March 12.—Higher prices for warm weather and a continued good demand for the cash grain had a strengthening effect on the local wheat market, the May delivery closing at a net gain of ¼c to ⅜c. Corn was off ½c to ⅝c. Oats were ¼c to ¼c higher. Provisions were 10c to 17½c to 20c lower. Sentiment in the wheat pit was inclined to be bullish all day, although the market at times was nervous. Shorts and commission houses were active buyers early in the day because of the firm tone of European markets and liberal sales of cash wheat. Late in the day numerous reports of the excellent condition of the fall sown crop weakened the market materially and caused a loss of nearly all the early gain. The close was steady. May opened ⅜c to ⅞c higher at 94⅛c to 94⅜c, sold at 94c, and then advanced to 95¼c. The close was at 94⅝c to 94¾c. Clearances of wheat and flour were equal to 436,700 bushels. Primary receipts were 602,000 bushels, against 738
