LAURELS FOR TOUCHARD

Wins Indoor Lawn Tennis Championship in Singles.

SHAFER WORTHY OPPONENT

Beaten Only After Incessant Change of Pace Wears Him Down.

Gustave F. Touchard won the fourteenth holding of the national indoor lawn tennis championship singles title, yesterday, on the courts of the 7th Regiment Armory, 66th street and Park avenue. In the final round of the tournament Touchard defeated George C. Shafer, after four keenly fought sets, by the score of 6—4, 3—6, 6—3, 6—4. The games tally was 21 and 17, and the points were 136 to 120.

By his victory Touchard, rated tenth on the national list for the past season, becomes the holder of the national indoor title for the second time in his career. He won it first in 1910, defeating R. A. Holden, jr., of Yale, in the final. Shafer stands as runner-up for the second time, as Theodore Roosevelt Pell beat him in the final in 1909.

During the first part of the great match Touchard played lackadaisically in the proportion of three dub shots to one brilliant one. In contrast, Shafer, the old Columbia University athlete, was as steady as a rock. His gets were phenomenal and he outplaced Touchard in such a way in the rallies that the latter made innumerable nets and outs. This made it possible for Shafer to forge to the lead at 4—3 on games. Then it was that Touchard treated the crowd to bits of his flashing brilliancy. His low drives to the back hand of his opponent and his scintillating smashing at the net were good for three games running and the set at 6—4.

Shafer receded off the first three games of the second set. He used good judgment in lobbing over Touchard's head every time the latter made one of his lightning-like scoops toward the net. These lobs were well played, and the dropping ball on several occasions tricked Touchard completely. Helped out by his service, which was unusually strong, Touchard managed to score the fourth game. Shafer immediately replied by winning a love game as he sliced the side lines on his returns. The rallies were long and furiously played in the closing of this set. Touchard compelled his adversary to do miles of running before Shafer could claim the set at 6—3.

All the tricks of direction and changes of speed were rung by the versatile Touchard as he made Shafer work, and work hard, for the points at the beginning of the third set. Shafer, by his steadiness, led at 3—1 on games. Then he began to fade. He could not stand the pace and strain. The cunning of Touchard was displayed at this point. He gave his opponent no rest, but forced the rallies faster, scoring five games and the set with greater ease than at any other time in the match.

The fourth set found Shafer somewhat refreshed from the period of rest. Touchard played him off his feet by a lengthy placing game, and then when Shafer had the lead of 4—1 he forced the end. Touchard played wonderful cross-court shots and smashes in the closing games, which he scored five straight and the set and match.

The point score by games in sets and stroke analysis of the championship match follows:

ATHLETIC LEAGUE BOWLING

Jersey City Beats Elizabeth, Putting New York in Lead.

Four series were rolled in the Athletic Bowling Legue last night with the result, the the New York Athletic Club has now a clear lead through the fact that the Jersey City Club took two games from Elizabeth on the alleys of the latter. Elizabeth, threfore, is at present two games each way behind the Medcury Foot combination.

Al. Wesa, of the home team, averaged better than 200 and despite his effort in the second game, he could not prevent the opposition from winning by two pins. The score follows:

A MONSTER FIELD ENTERED

Five Hundred Athletes to Compete in Mohawk Indoor Games.

Entries from more than five hundred athletes have been received for the annual indoor games of the Mohawk Athletic Club in the 22d Regiment Armory, this evening.

Oscar Hedlund, of the Boston Athletic Association, whose one-mile indoor record was bettered by Abel Kiviat last week, is out to retrieve some of his lost laurels. He will toe the scratch mark in the three-quarter-mile run, giving handicaps to Robert Egan, Matt Gels, Frank Joyce and Henry Kramer.

NOT ALERT ON SCHOOLS

Authorities Blamed for Lack of Training Facilities.

NEW PLAN PUT FORWARD

Committee on Inquiry Advises Co-operation with Trade Industries.

The committee on school inquiry of the Board of Estimate and Apportionment will issue to-day the report upon "Vocational (Industrial) Schools," prepared by Dr. Herman Schneider, dean of the College of Engineering, University of Cincinnati. In his report, Dr. Schneider outlines an entirely new plan of industrial training for children more than fourteen years old.

Dr. Schneider sets forth practical recommendations, including definite plans for securing the co-operation of the schools with the trade industries and a comprehensive treatment of their common educational problem. He has conducted his co-operative scheme successfully in the high school and college divisions of the University of Cincinnati for the last ten years.

He maintains that the schools cannot duplicate the work of the shops, but that the two may co-operate to mutual advantage. Dr. Schneider blames the authorities in this city for not being alive to the needs of the great mass of working people, although, he says, similar conditions are present in practically every industrial community in the United States. The problem in New York City, however, he says, is more pressing and more complex than in any other city.

Several constructive recommendations are made by Dr. Schneider, some of the more important being:

That day continuation schools be inaugurated for those children who are forced to go to work, when the law permits them to do so. That a compulsory continuation school law, similar to the Ohio law, be submitted to the General Assembly of the State of New York. That this law should compel the employer to send the children to school not less than four hours every week during the day time, where that is possible.

That the curricula of the Boys' Vocational School and the Manhattan Trade School for Girls be broadened to embrace a larger number of types of occupations, and that the Board of Education provide additional vocational schools for the benefit of those who go to work at about fourteen years old.

That the elementary night schools, operating under the present compulsory education laws, are a failure and should be abolished.

The Vocational School for Boys and the Manhattan Trade School for Girls are highly praised by Dr. Schneider, as is the New York Parental School.

UEBERALL PLEADS GUILTY

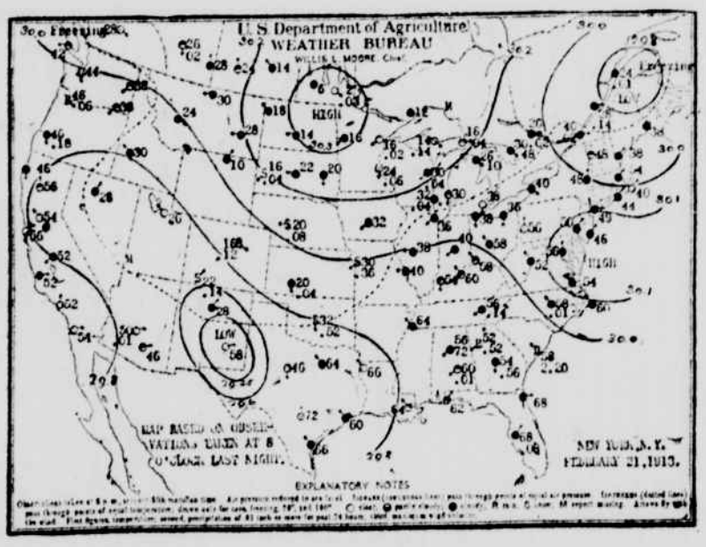
Admits Charge of Larceny Made by Fellow Hungarian.

Joseph V. Ueberall, who, according to Assistant District Attorney Brothers, has in the last six years cleaned up $140,000 by illegal transactions with his fellow Austro-Hungarians here, pleaded guilty yesterday to grand larceny in the second degree, after three days' trial before Judge Swann and a jury in the Court of General Sessions.

According to Mr. Brothers, Ueberall rented the offices vacated by the Austro-Hungarian Consulate, at No. 31 Broadway, and posed as a collector of realty incomes and an adjuster of estates for his countrymen at home.

His operations were brought to the attention of the Postoffice authorities by District Attorney Whitman, and he was charged with having appropriated $394 in money orders.

The Rev. Joseph Letanche, of St. Clement's Church, No. 406 West 46th street, was the principal witness against Ueberall. Ueberall was remanded to the Tombs for sentence on Monday.



THE WEATHER REPORT.

Official Record and Forecast.—Washington, Feb. 20.—Pressure is abnormally low over the Southern states and high over the lake region, the upper Mississippi Valley and the northern plains states. This pressure distribution has resulted in rains in the south Atlantic and east Gulf states, snow and rain in the region of the Great Lakes and snows over the plains states and the Rocky Mountain region.

Temperature has fallen considerably in the region of the Great Lakes, the Ohio and the upper Mississippi valleys and the south Rocky Mountain region, and it has risen in the Atlantic states, where readings are decidedly above normal.

A storm that is now forming in the west Gulf states will move northeast and cause snows Friday in the middle plains states and the Central Rocky Mountain region, snow and rain in the middle Mississippi and the Ohio valleys and the south portion of the lake region and rains in the south Atlantic and Gulf states.

The area of precipitation attending this storm will overspread the middle Atlantic and New England states Friday night or Saturday. In the Northwestern states and the plateau region the weather will be fair Friday and Saturday. The weather will be decidedly colder Friday and Saturday in the Gulf states, the middle Mississippi and the Ohio valleys and somewhat colder Friday and Saturday in the middle Atlantic and New England states.

No important temperature changes are indicated for other parts of the country.

The winds along the New England coast will be moderate variable, becoming east; middle Atlantic coast, moderate north to east; south Atlantic coast, moderate southeast and south; east Gulf coast, moderate variable; west Gulf coast, moderate south, shifting to brisk north; on Lake Michigan, increasing northeast.

Steamers departing on Friday for European ports will have moderate variable winds and unsettled weather to the Grand Banks.

Forecast for Special Localities.—For Eastern New York and Southern New England, cloudy and somewhat colder to-day; Saturday, rain or snow; moderate variable winds, becoming east.

For Northern New England, cloudy and colder to-day; Saturday unsettled, probably snow or rain; moderate north winds, becoming east.

For Eastern Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia, unsettled and somewhat colder to-day, probably followed by rain Friday night and on Saturday; moderate variable winds, becoming east.

For Western Pennsylvania, snow or rain in the northern and rain in southern portion Friday; colder; Saturday clearing; brisk east winds.

For Western New York, cloudy and colder to-day, followed by snow Friday night or Saturday; moderate north to east winds.

THE CROP MARKETS

Wheat, Corn, Oats and Coffee All Show Slight Gains.

Weather conditions in the winter wheat belt and lower foreign markets contributed to a little setback in the early trading in wheat futures, but firmness in the Northwest, export sales of forty loads and a belief that Europe will require an unusually large amount of foreign wheat for milling purposes, owing to the inferior quality of native varieties, steadied the market, and the close was at unchanged to a net gain for the day of ⅜c. Interior advices told of liberal supplies of cash corn and lower markets, with Texas trying to resell in Kansas City, but fair buying by local commission houses and reports of some export business afforded a check to the bearish influences, and the close was ¼c net above Wednesday's. Oats were featureless, price changes being in sympathy with those in wheat and corn, and the close being at ⅛c advance for the day.

Business troubles of a big Hamburg coffee house, lower foreign markets and generally demoralized conditions gave a nervous tone to the local coffee market, but in the late trading aggressive buying by a local broker, who was bidding for blocks of 5,000 bags, gave credence to a report that leading bull interests had decided that the market was low enough to warrant their taking hold again. Sales aggregated more than 150,000 bags, and the close was firm at the high of the day, showing a net gain of 6 to 14 points. The closing rally caused a more hopeful feeling among local bulls, as it was thought that the recent liquidation had left the market in a stronger technical position.
