THE CROP MARKETS

Continued from thirteenth page.

while sellers were steady, the decline in wheat encouraged buyers to hold off. Spring patents, $4 75@$5 10; winter straights, $4 60@$4 75; winter patents, $4 80@$5 20; spring clears, $4 15@$4 30; extra No 1 winter, $3 90@$4 20; extra No 2 winter, $3 80@$3 90; Kansas straights, $4 30@$4 40; fancy spring patents, $5 50@$6. RYE FLOUR—Steady. Fair to good, $3 70@$3 85; choice to fancy, $3 90@$4. CORNMEAL—Kiln dried, $3 45. BAG MEAL—Quoted: Fine white and yellow, $1 40@$1 45; coarse, $1 35@$1 40. COFFEE—New low records for the movement were established, and, for the first time since prices started down from the 14c mark last October, the initial figure of 8c appeared on the list, when 8.95c was the best bid obtainable for July at the close. Developments in Europe over our holidays were bearish, Havre market being 1½@1¾ francs lower at the close, while Hamburg showed a net loss of 1@1½ pfgs. Houses with foreign connections were the principal sellers here and, after opening at a decline of 11@15 points, prices continued steadily downward until at the close they showed a net loss of 19 to 23 points. Brazilian markets were also weak, Rio being unchanged, while Santos showed a loss of 50 reis. Receipts were liberal at primary points, and with new crop coffee coming in in abundance and the consuming trade apparently as apathetic as at any time during the last year, operators were inclined to favor the bear side of the market on the belief that consumers as a rule are in a better position to hold out for lower prices than Brazil is to hold out for higher ones. Spot easier on the basis of 9½c for Rio 7s. Local contract prices:

MOLASSES AND SYRUPS—Molasses quiet, with only a small routine business, and prices unchanged. Syrups steady.

NAVAL STORES—In sympathy with a firmer market at Savannah, the local market for spirits turpentine was steady at 39½c, with a moderate jobbing trade. Rosin firm and higher, but quiet. Tar dull and unchanged.

OILS—Linseed oil firm, with prices advanced 1c a gallon for American seed. Calcutta oil unchanged. Refined petroleum steady at recent prices.

RICE—Offerings were small, and prices remained steady and unchanged.

SUGAR—Refined firm, with a good withdrawal demand. Most of the leading refiners were holding to 4.50c for fine granulated, although it was rumored that Howell was taking orders at 4.40c, subject to delay. Raw was firm, with holders generally asking 1-32c advance over previous sales, but no business was reported, and the market was quoted as unchanged at 3.48c for centrifugal, 96 test; 2.98c for muscovado, 89 test, and 2.73c for molasses, 89 test. In London beet sugar was dull and easier, the early cable quoting July at 9s 3d; August, 9s 4½d, and October-December, 9s 4¾d, while on the curb July was quoted 9s 2¾d; August at 9s 4¼d, and October-December at 9s 6½d.

BEANS AND PEAS—Receipts, 1,393 bags beans. Firm holding of choice state marrow, with a little business at $6 40@$6 45. Medium and pea well sustained but quiet. Red kidney still favor the buyer. BUTTER—Receipts, 13,141 pkgs. The recent hot weather has hurt the quality of the butter, and the smaller percentage of fancy goods is making a little stronger market for that class. Bulk of open sales to-day at 27¼c for extras, but a few reported at 27½c. Most of the receipts now grade as firsts and seconds, and these are offered very freely at from 25@26½c. Process very quiet. Factory and packing stock firmer. Creamery, extras, 27¼c; firsts, 26@26½c; seconds, 24½@25½c; thirds, 23@24c; state dairy, finest, 26@26½c; good to prime, 24@25½c; common to fair, 22@23½c; process, extras, 24½@25c; firsts, 23½@24c; seconds, 22@22½c; imitation creamery, firsts, 24c; factory, current make, firsts, 23c; seconds, 21@21½c; packing stock, current make, No 1, 21c; No 2, 20@20½c; No 3, 19@19½c.

CHEESE—Receipts, 1,359 boxes. Market is sustained but quiet. There is a free offering of recent receipts, which, owing to the warm weather, show poor average quality. Some high cost goods, favored marks, are held above quotations, but trade is not taking hold above 14¼c, and business even at that is light. State, whole milk, fresh, specials, 14½c; average fancy, 13¾@14c; white and pale, undergrades, 12@13½c; state skims, fresh, specials, 10½@11c; choice, 8@10c; poor to fair, 5@7½c; full skims and badly defective, 3@4c.

EGGS—Receipts for three days, 29,497 cases. Arrivals lighter and advices indicate some decrease of shipments. There is a demand for high grade eggs beyond supply, and really good prime are in sellers' favor. There are few of the receipts good enough to exceed our quotation for firsts, and a very large part of the supply is still pressing for sale at from 18c downward. There is no general improvement in quality, though some marks are more carefully graded and are bringing rather better prices than heretofore. Nearby eggs firm in the higher grades, but offerings irregular in quality and value. Fresh gathered, extras, dozen, 23@25c; extra, firsts, 21@22½c; firsts, 18@20c; seconds, 16@17c; thirds and poorer, 12@15c; dirties, No 1, 15@16c; No 2 and poorer, 10@14c; checks, good to choice, dry, 13@14c; under grade, case, $10@$3 60; nearby, hennery, white, 28@30c; gathered, 23@28c; Western, gathered, 20@25c; nearby, hennery, brown, 26@27c; gathered and mixed, 19@25c.

MAY DELAY TERMINAL PLAN

Brooklyn Property Owners Object to Street Extension.

Opposition developed yesterday to that part of the South Brooklyn terminal plan which calls for the extension of Second avenue in a straight line north. Representatives of adjacent property owners went so far as to say that to carry out the original plan would cost the city at least $1,000,000, possibly much more, in damages.

The terminal committee of the Board of Estimate, of which Controller Prendergast is chairman, held a hearing at the City Hall. The Controller said Nelson P. Lewis, chief engineer of the board, was responsible for the plan to extend Second avenue.

John Hill Morgan, representing many property owners, said the plan would cut off some 333,000 feet of pier frontage, and in some cases it would be necessary to use considerable fill in order to carry out the "straight line" idea.

William N. Dyckman, representing the Dime Savings Bank, of Brooklyn, a large holder of property in the vicinity, backed up what Mr. Morgan had said. In a way, he said, the bank did not care, as the courts would make the city pay full value for the property, and the bank might be the gainer thereby.

The property owners have offered the city a strip of land in front of their holdings for the marginal railway, in case the Second avenue extension is abandoned.

AIM TO IMPROVE CHELSEA

Form Neighborhood Association to Outline Betterment Work.

"To make Chelsea a better place to live in, to do business in and to have financial interests in," business men and representatives of institutions in the section between 14th and 42d streets west of Fifth avenue have formed the Chelsea Neighborhood Association, with offices at No. 1182 Broadway. It will be non-partisan and non-sectarian in its work.

It aims to do the same sort of betterment work as that now being carried on to the
