New Orleans, Aug. 15.—The cotton market displayed a strong tendency to advance to-day, although bull support was not much in evidence and sentiment was still bearish. The continued drouth in the West, however, and the forecast of generally fair weather for the entire western half of the cotton region caused great nervousness among shorts, and their covering operations put prices up. The close was steady at a net advance of 19 to 21 points. The market gradually advanced the session through.

Boston, Aug. 15.—"The Commercial Bulletin" will say to-morrow:

"The volume of business in wool this week has been larger, though individual sales have been of moderate to small size. The activity among buyers and the larger sale of sample lots is most encouraging, though firmness without an advance is the net result. PLANS SEA BEACH TUBE

P. S. Board Asked to Let Contract on Unit Price Basis.

Plans for the reconstruction of the Sea Beach Railway as a four-track depressed line from its connection at Fourth avenue, about 86th street, South Brooklyn, to a point south of 86th street, near Coney Island, have been filed with the Public Service Commission.

Colonel Timothy S. Williams, president of the Brooklyn Rapid Transit Company, asks that the commission consent to the immediate letting of the contract to Major George W. McNulty without advertising and submitting it to competitive bidding. They want to make the contract on the unit price basis on condition that the contractor complete the work within seventeen months, the contractor to receive bonus on the amount of work done.

This is the sort of contract which created so much opposition when the Interborough wanted to put one through for the extensions of the elevated railroads. Careful study of the contract reveals that Major McNulty would receive about 11 per cent for his work, an even greater percentage than the Interborough wanted to give to John F. Stevens. It is figured that the entire contract would amount to some $1,500,000 and that the contractor would get a bonus of some $200,500.

Colonel Williams argues that if the commission does not permit the contract to be let without competitive bidding the work will be delayed several months. He points out that it is important to get it done as soon after the completion of the Fourth avenue subway as possible.

CHARLTON IN FINE SPIRITS

Steamer Carrying Him to Italy Stops at Boston.

Boston, Aug. 15.—The steamer Re d'Italia, on which Porter Charlton is being returned to Italy to stand trial on the charge of murdering his wife in June, 1910, stopped here to-day and took on 200 passengers.

While the vessel was coming up the harbor Charlton was allowed to be on deck for an airing, but he was closely guarded. He was locked in his room on the after deck soon after the steamer docked. At the pier a night letter, thought to be from his father, was awaiting the prisoner.

One of the two officers who are in charge of Charlton said that he was in good spirits and resigned to returning to Italy for trial.

CANTELOUPE RATES HELD DOWN

Washington, Aug. 15.—Increases on freight rates on canteloupes from New Mexico, Kansas and Colorado to New York and other Eastern markets, proposed by the Santa Fe Railway, have been suspended by the Interstate Commerce Commission until December 13.

MAGAZINE SUIT DROPPED

Anti-Trust Action Begun Two Years Ago Is Ended.

The federal government has dropped its anti-trust suit against the now defunct Periodical Clearing House, an organization that embraced some of the principal magazines published in the East. The suit, begun here about two years ago by United States Attorney Henry A. Wise, attracted widespread attention because the government sought to prove that magazine makers, some of them active in "muck raking" the great industrial and commercial combinations, were themselves guilty of combination in violation of the Sherman law.

The United States Court in this district decided in favor of the publishers nearly a month ago, but the news of the government's defeat did not become generally known until yesterday.

"The real object of the publishers," said Dean Emery, attorney for the defendants, "was to try by concerted action to correct some of the evils that had grown up around the taking of yearly subscriptions." Among these evils was cited a practice of some subscription agencies of collecting subscriptions from smaller agencies, and thereby winning cash prizes offered by publishers for a large number of subscriptions. The publishers were acquitted of the charge that they had combined to raise prices.
