Keep in mind the fact that a tall man cannot wear a suit that a short man should wear. This is the satisfactory feature on both the Newport and Normandy. They are absolutely correct in every and all requirements. But the man who is not over six feet tall is not overlooked; the same careful attention has been given him. The result is our Arvon, which also has much elegance of make and gives the short-man **extra inches** in appearance. We have these styles in the **NEW BROWNS**—in beautiful and choice materials, those new patterns of slight over-**plaid** almost indistinct. These cost what you would expect, \$10.00 to \$35.00.
