BOWLERS HOPE TO SET NEW RECORDS

Entries for Big Meeting Not Up to Estimate Once Made.

CHICAGO FAILS TO SEND ON A TEAM

Individual Contestants Help to Bring the Total Up to Last Year's Mark.

The eighth annual tournament of the National Bowling Association will begin on Wednesday at Columbia Hall, at Atlantic City. A revision of the entry lists shows that the number of five-man teams entered is 116, and that there are an even thirty from New York.

It had been confidently expected ever since work was begun in arranging this tournament that at least two hundred teams would respond to the call. The entry list shows that there are about eighty promises unfilled. Fifteen alone are from New York and Brooklyn.

Rochester, Syracuse and Utica were expected to send at least six teams each. Rochester has none, not even the former champions, the Grand Centrals, better known as the Maltops, while Syracuse and Utica have merely one each. For the first time Chicago has no team. Even "Judge" Howard failed to do his usual stunt. The tournament, however, will be as large as last year at Rochester, and there is a more representative entry than last season.

A feature brought out prominently this year is the fact that many bowlers have entered individually who will not go with teams. There are close to two hundred individual entries from New York, but thirty teams means only 150 men, indicating that about fifty will go independently.

This year's tournament suggests interesting reminiscences, for at that first meeting, seven years ago, there were great happenings. John J. Voorheis, the little wizard who won the all-round title that year and was the rival of Jimmy Smith then, was the real means of the Subways, of Brooklyn, failing to win the five-man championship. It was the result of the failure of Voorheis to get seven pins out of ten on a single ball.

The Corinthians, composed of five good oldtimers, from this city, had rolled their 2,814. It was the last five-man night of the tournament when the Subways took the alleys. They had a mark to shoot at. There was only one bright star on the team—Voorheis. Leading off there was Al Robinson, then came Billy Macdonald, George Johnson, Al. Dinsmore and Voorheis. It was a great try. Dinsmore in that last and all important game was there with 243. Johnson had 212. Macdonald was a trifle off, but then there was Voorheis, and he was in fine fettle, for he had already made 223 with neither a split nor a miss. He was bowling beautifully.

Voorheis spared in the tenth frame. He needed seven pins and pandemonium began to let loose, for where on earth was there another man more sure of seven out of that wooden triangle than that little wizard? Voorheis was plainly nervous. He shot—a little too much "steam." The ball, instead of the slight hook it ought to have taken, straightened out and struck the three pin full on. He simply carried away just half of the number—five pins—and the headpin stood shaking defiantly at him, for he had "feathered" it. Leaving five there lost the championship for the Subways by two pins, the total being 2,812. Voorheis's game was 175, but his total for the evening was 639.

Great could be the tales told of national tournaments. The year following, at Rochester, Frederick Schwartje offered to wager that he would take first place in the singles, as if he had a premonition as to what he would do.

Frederick toppled them over for 697, within two pins of what was then the world's record, and captured the championship as a result. It was at that same tournament that John McGuirk and John Grady, two comparatively unknown men from Paterson, broke through with a sensational 1,318 in the doubles, a record which stood until 1911 at Buffalo, when George Kelsey and Charley Johnson, of New Haven, hung up 1,355, which still is the top mark.

It was last year that George Kumpf, of Buffalo, broke that 705 record, held jointly by Tony Prio, of Brooklyn, and Tom Haley, of Detroit, by pounding out 712 at Rochester. What is to be done to these records in Atlantic City? They say the "boys" are shooting well.

TRIANGULAR LEAGUE WINS

Easily Triumphs Over Quadrangular Chess Players.

Cornell and Pennsylvania, representing the Triangular Chess League, defeated Columbia, Harvard, Yale and Princeton, comprising the Quadrangular Chess League, at the Brooklyn Chess Club, yesterday. The score was 5 points to 1.

Cornell made a clean sweep on all three boards occupied by her players, and Pennsylvania contributed 2 more points, the net result of one game won and two games drawn. N. S. Perkins, A. C. Ehrlich and W. Grafman were the members of the invincible Cornell team.

For Pennsylvania T. C. Hill scored at the fifth board, while his team mates, Rudolph Sze, the famous Chinese player, and M. J Teitelbaum, drew their games. R. Beach, of Yale, and B. Winkleman, of Harvard, saved the Quadrangular team from complete annihilation. The four defeated players were H. E. Leede, Columbia; D. E. Ehrlich, Columbia; D. A. Quarles, Yale; and G. W. Jarman, Princeton.

The summary of the match follows:

NEW YORK BOAT CAPTURES TROPHY

J. Dunbar Wright's Jane S. Wins Final Tilt for Title at St. Augustine.

St. Augustine, Fla., April 4.—By winning the second leg of the Southern speed boat championship here to-day the Jane S., owned by J. Dunbar Wright, of New York, which won the first leg yesterday, captured the title and trophy.

The Hydro Bullet, owned by Earl H. Deakin, of Chicago, was second. The race was in two legs of 25 knots each. With the exception of a few speed trials to-morrow, the racing programme closed to-day.

George W. Call's Impudence Junior, of Jacksonville, Fla., won the 15-knot handicap, the last of the minor competitions, late this afternoon.

The Hydro Bullet won the third and deciding heat of the 26-foot class fifteen-knot handicap.

For Rolls-Royce Owners.

Claude Johnson, general managing director of the Rolls-Royce Company, has been in New York for a few days making plans for the opening of a repair shop exclusively for Rolls-Royce cars. The shop will be manned by mechanics trained in the plant at Derby, England, and will carry a complete line of spare parts. A similar shop will be established in Toronto. It is also probable that arrangements will be made to sell those cars here.

New Features for Spring Horse Show in New York

Thirty-two Classes in All To Be Represented at Durland's Riding Academy.

Lovers of horses are jubilant in the "come back" of the New York spring horse show, which will be held on the evenings of April 22, 23 and 24 at Durland's Riding Academy, in West 66th street.

There are thirty-two classes in all, including some new features, such as the class for trotters under saddle, which has awakened interest throughout the country. This class will be a permanent feature of future shows.

The revival of the Durland horse show, which has not been held since the spring of 1909, and which used to be the only spring horse show in New York, has awakened the interest of those who own and enjoy horses, because it is one of the many signs that have been noticed of late that the horse is returning to favor after many bleak moons of gasolene.

It is not known as yet just who will enter the coming show, but it is safe to say that among the three hundred expected entries there will be many whose names have always been more or less closely associated with the tanbark. Already the list of entries, which will close on April 8, is large.

Cups are being given by private persons, some of them of great value. One of the most interesting of them all is a cup of antique silver, eighteen inches high and of beautiful design, that comes from the time of George III. Its value is estimated at $1,000.

The cup was presented to Colonel French of the 4th Hussars by the officers of his command as a token of their admiration of his soldierly and daredevil horsemanship.

When the colonel finally disappeared from the fox runs and the parade ground the cup was lost to fame. It was handed down to members of Colonel French's family, and after many years turned up in Christy's antique shop in London, whence it was brought to this country by Marshall Clapp, who lodged it in Lanthier's, in this city. From there it was donated to the show by a well known lover of horses, who does not wish his name to appear in connection with it.

A valuable cup is also being given by The New-York Tribune for one of the classes of four-in-hands. The cup is to be presented to the winning competitor in a class for road four-in-hands, in which both horses and appointments are to count. Sixty and 40 per cent are to be allowed for the horse and the appointments, respectively.

CUP, VALUED AT $1,000, Which will be competed for by road teams at Durland Horse Show.

The Prince Henry cup is an interesting prize that also will be awarded. It is being given jointly by O. J. Gude and Marshall Clapp. It has been named in honor of Prince Henry, one of the most famous jumpers and sires in the world.

This horse was greatly desired by the United States army officers. He would jump six feet six on the word of command. The army men sought to raise a large fund to buy him, but he was presented to the government at the instance of O. J. Gude. Later he won the Army Marathon. The cup is in commemoration of the splendid strain of horseflesh that has been brought into this country through Prince Henry.

Another of the best cups in the show is to be awarded for the class of trotting horses under saddle already referred to. There will also be cups for harness horses, four-in-hands, pairs, single harness horses, saddle horses and for jumping trials. Among those who have presented cups are O. J. Gude, Edward Kearney, Emil Seelig, John Gerken, George Crouch, Mrs. A. Stuyvesant, Thomas Healey, Marshall Clapp, S. K. Jacobs, J. B. Roveira, J. Campbell Thompson, Count B. F. S. Gregory, Mrs. George Chipchase, Sweet Briar Farm and "Rider and Driver."

The executive committee of the show includes O. J. Gude, chairman; William Durland, S. K. Jacobs, H. D. Bond, George Crouch, J. Gerken and S. W. Taylor. The ring committee for Wednesday evening will be William Halstof Vander Poel, Esmond O'Brien and Barron G. Collier; for Thursday evening, N. J. Ness, J. D. Beal and S. I. Davis, and for Friday evening, Peter Rouss, Charles F. Hubbs and Hamilton H. Salmon.

Wray Shifts Crimson Men to Get a Winning Crew

Many Veterans in Large Squad of Candidates for the Eight.

KENNEDY SELECTS SWIMMING STARS

Union Gets Three Places on the All-Northeastern League Basketball Five.

Jim Wray, who has been working overtime trying to figure out his best combination for a 'varsity eight from an unusually large and promising squad of seasoned oarsmen, took advantage of the ice-free Charles River basin last week for some good outside work.

The crew has been shifted once more, and on Tuesday only two men of last year's eight—Chandler, at stroke, and Reynolds, at No. 3—were in the shell.

Three of the other six men who showed so much promise early in the practice have been shifted to the second crew, although possibly only temporarily. Soucy, centre rush on the football team and a member of last year's freshman eight, has replaced W. Mittendorf at No. 5, Harwood gave way to Gardiner at No. 4 and Morgan's place was given to Talcott.

The Harvard coach has some splendid material, and it is going to be hard work for him to get his best crew together early. Eight more crews came out yesterday for the start of class rowing, so that there are now fourteen eights on the river. Of these eight represent the freshmen class. The 'varsity order now stands:

Murray, bow; Talcott, 2; Reynolds, 3; Gardiner, 4; Soucy, 5; H. Mittendorf, 6; Schall, 7; Chanler, stroke.

Harvard's spring football practice began on Wednesday, when Captain Brickley had more than fifty men on Soldiers' Field. Several veterans, however, are working with the crew and the baseball and track teams. Percy Haughton will direct this year's practice personally, as he wants to get the men into condition early so as to have plenty of scrimmaging a little later.

The prospects of the baseball nine, which is now out of doors, have brightened considerably with the announcement that Rex Hitchcock, who saved Harvard in the series with Yale last year, will be eligible to pitch. Without Hitchcock the Crimson would be weak in the box.

Jacob Carlson, coach of the Wesleyan basketball team, has picked an All-Northeastern League team from Union, Williams, Colgate and Wesleyan. Union, which won the league championship after a tie with Wesleyan, receives three places out of five.

In making his selection Mr. Carlson wrote:

"In picking an All-Northeastern League team from Williams, Colgate, Union and Wesleyan, I do not hesitate for an instant in picking Eaton, of Wesleyan, as right forward and captain of the team. He is fast on the floor, plays good team work, has an accurate eye for foul shooting, knows the game and is a born leader.

"For left forward I would pick Hodge, of Williams. He and Eaton would make a star combination. Hodge is a worker, fast on his feet, is a dangerous man in a game, and makes his opponent watch him all the time.

"Centre is the hardest position to fill. Allison, of Wesleyan, has shot more field goals than any other centre in the league and is an aggressive player, but is slow on his feet and seldom gets the jump.

"I would not consider Garfield, of Williams, as he plays more football than basketball. Johnson, of Colgate, is a better man than Garfield, but I would not hesitate in picking Woods, of Union, for the position. He will team up with the rest of the men, jumps well, is a fast floor worker and is a dangerous man close to the basket.

"Houghton, of Union, is my choice for right guard, as his work has proved him capable of holding down that position. He has an accurate eye for shooting. His one fault is that he doesn't play a very clean game, but that may be accounted for by the fact that he is very fast on his feet and a hard worker.

"The choice for left guard is another hard one, but I think D. Beaver, of Union, is entitled to that position. His team work is good, and he is an excellent shot. That is why I pick him over Trevithick, of Wesleyan."

If the Cornell Athletic Association can sell one hundred and fifty spring season tickets for major sports, a team of twenty men will be sent to the Penn relay carnival in Philadelphia on April 25. In case the sale does not reach this figure a smaller team or none at all will be sent.

REFORMS AT COLUMBIA

Athletic Association Members to Get More Privileges.

Columbia's long heralded mass meeting for the discussion of athletic affairs broke up in the early hours yesterday morning after accomplishing the more important of the reforms suggested by undergraduates in their criticism of the organization.

Despite the fact that a proposal to reorganize the system of managerial elections was voted down, the students carried their point for greater publicity in the affairs of the association, greater privileges for association members and the election of undergraduate members of the university committee on athletics.

The proposition to change the managerial election system was lost on the closest vote of the night. The proposal to elett undergraduate members of the university committee on athletics was carried almost unanimously.

HOPES TO REVIVE SCHOLASTIC ROWING

All Needed to Re-establish Sport Is Interest of the Schoolboys.

Scholastic rowing is more than likely to be revived in this city after a lapse of five years. Such, at any rate, was the statement of Fred. R. Fortmeyer, secretary of the National Association of Amateur Oarsmen, yesterday afternoon. The plan for boating crews from the various high and preparatory schools of this city will be discussed at the meeting of the New York Rowing Association at the New York Athletic Club to-morrow night.

There is no doubt that it will be approved by the rowing association, nor is there much chance of the Public Schools Athletic League refusing to sanction the regatta, as it did in 1908 and 1909, when the races were rowed regardless of official approval.

That schoolboy rowing was abandoned is not the fault of the Harlem Regatta Association, which promoted those well remembered races in 1907, 1908 and 1909. The association placed all equipment at the disposal of the schoolboys, provided capable coaches, offered valuable medals and did all in its power to boom the sport.

After a brief flash in the pan, however, interest died off, until in 1909 De Witt Clinton and the High School of Commerce alone remained of the five schools which were represented in the first regatta.

Dr. Luther H. Gulick, Dr. C. Ward Crampton and Dr. A. K. Aldinger, of the Public Schools Athletic League, are in favor of rowing, and their influence will count heavily. The rowing clubs along the rivers are keen to do their share, and it remains only for the schools to show the proper spirit.

GALATEA, STEAM YACHT, LAUNCHED

Ford's Steel Schooner Is One of the Largest Built at Wilmington.

[By Telegraph to The Tribune.]

Wilmington, Del., April 4.—The steel schooner-rigged steam yacht Galatea, designed by William Gardner, of this city, for E. L. Ford, of Detroit, who is a member of the New York Yacht Club, was successfully launched to-day from the yard of her builders, the Pusey & Jones Company. Miss Dorothy Ballantyne, of Detroit, smashing the customary bottle of wine against the yacht's bow, named the new craft as she began to move down the ways.

Thousands witnessed the launching from the shore, and as the big yacht, dressed with flags, took her maiden plunge in the Delaware River she was cheered again and again, for the Galatea is one of the largest steam yachts ever built in Wilmington. Her principal dimensions are: 192 feet over all; 157 feet water line; 24 feet beam and 10 feet 6 inches draft.

She is fitted with six watertight bulkheads, and her triple expansion engine, furnished with steam by two water tube boilers, is calculated to drive her at a speed of 12 knots. Under forced draft she is expected to go two knots faster.

The launching party included Miss Dorothy Ballantyne, E. L. Ford, Mrs. and Mrs. E. D. Speck, Dr. and Mrs. H. N. Torrey, Miss Stella D. Ford, Mr. and Mrs. F. S. Stearns, Mrs. H. N. Reynolds, Mr. and Mrs. S. S. Beardsley, Mrs. P. Leventhal, Mr. and Mrs. William Gardner, L. H. Case, G. H. Angell, Mr. and Mrs. Ellis Jackson, Howard Greenley, A. H. Sibley, Carl Oakman, F. C. Kidner, J. B. Schlotman and Philip Leventhal.

KOLEHMAINEN AT OLD TRICKS AGAIN

Lowers American Record for Five-Thousand-Metre Run.

WINS FROM SCRATCH WITH YARDS TO SPARE

Fifth Company Captures Point Trophy at 13th Regiment Games.

Hannes Kolehmainen, of Finland and the Irish-American Athletic Club, is up to his old tricks again. Starting in the 5,000-metre run, which was a feature of the games of the 13th Regiment, last night, the fleet-footed foreigner won by half a lap in the record breaking time of 14:57 4-5. This shatters the American record of 15:05 4-5, established by George Bonhag at Madison Square Garden two years ago. It is also said to be the second fastest 5,000 metres ever run. Kolehmainen established the record for the distance of 14:36.6 in the Olympic games at Stockholm when he defeated Jean Bouin, of France, by inches.

It was the real Hannes Kolehmainen who toed the mark for the race. He bounded over the floor with scarcely an effort, his stride, long, free and frictionless. Without any delay he started out on the trail of the limit mark men, and before half a mile had been covered had cut down the distance between him and the leaders by almost half.

He was timed at this point in 2:09. After covering about two miles he took the lead, and from that moment the race lost all semblance of a contest. The other men were hopelessly beaten, and every revolution of the track saw them slip further and further into the ruck. The Finn crossed the line with a furious burst of speed, and was comparatively as fresh as when he started.

The 5th Company won the point trophy with a total of 27 points. The 1st Company was second, with 12, while stretching along in order came the 3d Company, with 10; the 7th, with 5, and the 8th, with 3. The others were scattered.

William J. Kramer, of the Long Island A. C., won the combination one-and-a-half and two-mile runs. Both races started simultaneously. Kramer crossed the line in the first race in 6:58 4-5, and won the two-mile in 9:21 2-5. Eighteen men started in the race. Kramer took the lead at a mile and a quarter and held it without any trouble until the end.

The 5th Company won the half-mile relay race by a fair margin in 1:37. Jim Rosenberger won the race on the last relay, outsprinting his closest rival by some five or six yards.

The summaries follow:

100-yard dash—Won by F. L. Stephenson, 3d Company (scratch), Hugh Hirshon, 3d Company (2½ feet), second; J. Rosenberger, 5th Company (scratch), third. Time, 0:10 1-5.

NIMRODS FLOCK TO N. Y. A. C. TRAPS

Seaside Gunners Beaten in Special Match—Two Cups to J. B. Oakwood.

Ideal weather brought out a record field at the Travers Island traps of the New York Athletic Club yesterday. Thirty-eight gunners took part in all of the contests, including a team of six men from the Seaside Gun Club, of Bridgeport, Conn.

The latter shot a special match against the Winged Foot gunners and was defeated by 28 targets. The New York Athletic Club marksmen had a grand total of 474 targets, while the visitors from Bridgeport had one at 2446 blue rocks. Each nimrod shot at 100 targets.

The regular fixtures were well distributed. The monthly cup went to C. W. Berner, who had a full score of 25 targets. J. B. Oakwood was high gun in the club trophy shoot and also in the Travers Island match. He won each shoot with a full score of 25 targets. Mr. Oakwood also was the high handicap gunner of the day.

R. R. Debacher won the accumulation cup and W. B. Ogden captured the scratch prize, with the excellent score of 86 out of a possible 100 targets. He also won one of the special sweepstakes that ended the programme. The other went to T. B. Senior, one of the visiting Bridgeport marksmen.

POGGENBURG KEEPS BILLIARDS TROPHY

Women Crowd Liederkranz Hall to See Brown Beaten in Match for Charity.

J. Ferdinand Poggenburg, holder of the metropolitan championship trophy at 18.2 balkline billiards, retained his honors last night at the Liederkranz billiard hall, defeating Morris D. Brown, of the Hamilton Club, Brooklyn, by a score of 300 points to 242.

The game was played under the direction of the Ladies' Auxiliary Society of St. Mark's Hospital, and the hall was jammed to suffocation with fair devotees of the game. They proved they were keen critics of the intricacies of massé, draw and carrom shots by the enthusiasm with which they applauded every good shot made.

Both Poggenburg and Brown played far below their real form, at no time rising to great heights, although Brown electrified the gallery on more than one occasion by brilliant drives up and down the table.

The score follows:

J. Ferdinand Poggenburg (white ball)—0, 0, 2, 3, 18, 0, 0, 1, 0, 3, 6, 2, 4, 4, 20, 29, 0, 24, 0, 24, 18, 2, 0, 3, 6, 18, 29, 3, 1, 2, 9, 0, 28, 1, 4, 11, 7. Total, 300 points; average, 8 12-36; high runs, 29, 29 and 28.

Morris D. Brown (spot ball)—0, 29, 2, 0, 1, 0, 0, 2, 0, 16, 2, 0, 9, 7, 0, 31, 6, 1, 16, 4, 2, 5, 27, 3, 50, 1, 1, 0, 0, 19, 0, 1, 0, 5, 2. Total, 242 points; average, 6 32-35; high runs, 50, 31 and 29.

Lehigh Scores Easy Victory.

South Bethlehem, Penn., April 4.—Lehigh got away to a good season's start today, easily defeating Manhattan College by a score of 9 to 1.

CHESS PLAYERS SPEED MARSHALL

Dinner Given in Honor of Champion Who Will Play in Russia.

CAPABLANCA WINS GAME IN VIENNA

Rice Club Goes Back to Its Old Rooms at Cafe Boheme on Second Avenue.

The thirty-seventh annual dinner of the Manhattan Chess Club at the Hotel Brevoort a few days ago proved to be one of the most successful ever held. Nearly one hundred members and their friends attended.

It was announced as a farewell dinner for the United States champion, Frank J. Marshall, who will play in the international congress, which begins at St. Petersburg on April 26.

Under the circumstances nearly all of the after dinner speakers had a kind word for the champion, wishing him success in the tournament.

Walter J. Rosenstein, the vice-president of the club, was toastmaster, and among the speakers were Hudson Maxim, the inventor; Professor Isaac L. Rice, Edwin E. Slosson, Sidney Rosenfeld, Dr. M. M. Miller, Herbert R. Limburg, Frederick Rose, Prince Lazarovich Hrebelianovich, of Servia; Frank J. Marshall and Major J. M. Hanham.

Among those present were Aristides Martinez, F. E. Kahn, Dr. Charles J. Pick, Arthur S. Meyer, Leonard B. Meyer, J. Rosenthal, Alfred F. Kreymborg, Leon Rosen, Julius Finn, Dr. Louis Cohn, J. Halpern and James Liebling.

In his farewell exhibition at the Manhattan Chess Club, Marshall won twenty-two games in simultaneous play, losing three, to H. M. Ellison, M. J. Keys and H. L. Dadd and drawing five with J. McNeany, E. L. Gluck, H. R. Limburg, H. Erdel and F. Dalumi. Julius Finn, on the same evening, played six games blindfolded and simultaneously he won four games, among the one against the former Cornell champion, L. Tolins, drawing two with Mrs. C. E. Nixdorff and Alan G. Lynn.

Mrs. Nixdorff, who had challenged Mrs. S. R. Burgess for the women's championship of the United States, received word from the latter that she is unable to fix a date at present for the contest.

Capablanca is at present in Vienna, where he is engaged in a little match with Dr. S. Tartakower. According to foreign exchanges, the Cuban champion was successful in the first game.

A quadrangular tournament is being played at the Café Kerkau, in Berlin, with Spielmann, Teichmann, Mises and E. Cohn as competitors. So far, each man has scored one and one-half games.

Appended is the score of the third game in the recent Teichmann-Spielmann chess match:

SICILIAN DEFENCE.

WHITE. Teichmann.	BLACK. Spielmann.	WHITE. Teichmann.	BLACK. Spielmann.
1 P—K 4	P—Q B 4	11 Q—Kt 4	P—Kt 3
2 Kt—Q B 3	P—K 3	12 K R-K(b)	P-Q B 4(c)
3 K Kt—K 2	Kt-Q B 3	13 P—Q R 3	B—R 4
4 P—Q 4	P x P	14 B—Kt 5(d)	Q—Kt 3(e)
5 Kt x P	P-Q R 3(a)	15 P—Kt 4(f)	P x P
6 Kt x Kt	Kt P x Kt	16 Kt x P	P x Kt
7 B—Q 3	P—Q 4	17 P—K 5	P—B 4(g)
8 Castles	Kt—B 3	18 P x Kt ch	K x P
9 B—K B 4	B—Kt 5	19 B x P ch	Resigns(h)
10 P—K 5	Kt—Q 2		

(a) Apparently loss of time; but if it be necessary, in order to prevent the attack by Kt—Q Kt 5, then it should condemn this form of the Sicilian Defence. Spielmann played the same in one of the games in his match with Tartakower, and lost.

(b) White has now manifestly much the superior position.

(c) If 12 . . . P—Q 5, then 13. Kt—K 4 B x R; 14. Kt—Q 6 ch followed by R x B, with a winning attack.

(d) The prelude to a very fine combination. Black's game is already beyond redemption.

(e) The alternative was 11. . . Q—Kt 3, when the same combination would have held good.

(f) Shutting off the action of the adverse bishop preparatory to the final assault.

(g) There was no defence. If, instead, 17 . . . Kt—B 4, then 18 P x P ch, K x P; 19 R—B 7 ch, K—Kt; 20 Q—K B 4, B—B 4; 21 Q—K 5, Kt—K 3; 22 B—R 6; or 17 . . . Kt—K 4; 18 P x P ch, K—B (if 18 . . . K x P, then 19 Q—B 4 ch); 19 Q—K B 4, Kt x P; 20 B—R 6 ch, K—Kt; 21 R—K 8 mate.

(h) If 19 . . . P x B, then 20 Q x P ch, K—B 2; 21 Q—K 5
