# TOPICS OF THE DAY IN WALL STREET

## "Receivership" Talk No Longer Under the Ban of the Street.

## MANY REPORTS ARE CONTRARY TO FACT

### Some Readjustments Impending, but Companies Do Not Need Aid of the Courts.

Even as Broadway nowadays sees and hears with calmness what was "taboo" a few short years ago, so Wall Street discusses loudly and without reserve what would have been mentioned, if at all, in 1913 and 1912 only with whispered words and the most elaborate precautions against eavesdroppers. "Receivership" is notaing at all to say in this year of grace 1914. Everybody says it and with names, dates and places. And nobody seems to be aghast at the imprudence or afraid of the possible consequences. Receivership is talked of for the New Haven, for one of the Rock Island triumvirate, even for Missouri Pacific. In the case of the Chicago, Rock Island & Pacific Railroad the talk is harmless enough. That company is to go by the board anyway, if the reorganization plan becomes effective. But New Haven and Missouri Pacific, if people who ought to be best informed know at all what they are talking about, have by no means any intention of turning over to the courts problems that they are confident of solving unaided. Missouri Pacific's securities have to be scaled down and New Haven has yet to get foot loose from the tangle of interwoven subsidiaries. Neither, however, needs to take an anæsthetic to undergo the necessary operation, though allopathy is to be tried instead of homeœopathy for one patient and just the opposite for the other.

#### Readjusting "Mop."

The appointment of protective committees for the stockholders and two classes of the bondholders of Missouri Pacific is not to be taken as evidence that a receivership for that company is impending, according to members of the committees. What it does mean, however, is that there is to be a readjustment of the company's finances and the personnel of the committees suggests that this time there will really be something done. If the outcome of the negotiations with the controlling Goulds, which are seemingly imminent, finds Kuhn, Loeb & Co. financing the reorganization that is to be without a receivership few persons in Wall Street will be much surprised. And if the Goulds are no longer in control when the reorganization is effected the number of surprised persons will be smaller still.

#### Claflin Indorsed Paper.

The notes of the Hannessy Corporation, to the extent of $1,600,000, which were indorsed by the H. B. Claflin Company, differed in no way, it was learned yesterday, from the ordinary commercial paper that banks and note brokers buy. Commercial paper based on actual transactions and accommodation paper are identical in form as a general thing. It sometimes happens that the issuing company or the indorser states when paper is negotiated that it represents merchandise, but this is far from being customary. Ordinarily it is assumed that notes like those which had the Claflin indorsement in this instance are based on commercial transactions, and it is not the practice to ask whether they are or are not. Note brokers said yesterday that it had always been the general assumption, in the absence of specific explanations to the contrary, that Claflin indorsed notes were issued against merchandise operations.

#### Loans and Loans.

What appears to many people, and especially to money brokers, a matter for wonderment is that there should be so small a difference in the quoted rates for collateral loans and commercial paper. Between high class mercantile paper and loans secured by marketable bonds and stocks there is rarely a difference in favor of the latter of more than ¼ of 1 per cent. Money brokers believe that it should be nearer ¾ of 1 per cent.

#### Westchester Bonds.

In quarters where there is good reason for having correct information, it is said that New York, Westchester & Boston bondholders are not worrying much about their securities. It was only a short time ago that they received their half-yearly interest. In the five and a half months before the next interest is due they see a chance of much improvement for the New Haven, the guarantor of their bonds. Likewise they say that there never was such a guarantee as they have. It is copper bottomed, steel riveted and concrete reinforced. They naturally don't like the implications of New Haven's decline nor of the break in their own issue, but they believe their investment is secure no matter what happens to the New Haven.

#### The Breaks in Two Stocks.

At no time yesterday, until the last half hour of trading, was there any comfort in the market for those who were long of stocks. And there were occasions when the feeling experienced from watching the tape for a few minutes was even worse than dejection. Two breaks were especially notable. For the ten minutes that each lasted the atmosphere of brokerage offices was tinged with the deepest shade of whatever color it is melancholy most affects. In each case the declines were continuous, and without even trifling interruptions. New Haven at 12:20 o'clock was selling at 51⅝, itself a loss of 3⅞ points on the day, but from ⅛ it went to ½, to ⅜, ⅛, 51, and so on, dropping rapidly, until it touched 49¾, the lowest price of the session and by much the lowest price in its history. New York Central's break came later. It had been weak, like New Haven, but now and then it had rallied with some show of spirit. Around 2 o'clock, however, it started on the toboggan. The next few minutes saw a long string of sales, each at a lower price than the last, from 85⅝ down to 83⅞.

# PUBLIC UTILITY NOTES

## General News and Earnings of Various Corporations.

The United States Light and Heating Company will contest the receivership for which petition was filed on Monday in the Buffalo Federal Court by a committee of stockholders. A. Henry Ackerman, vice-president of the company, who has been named by Judge John R. Hazel as one of the three receivers, is severely censured in a statement issued by counsel for the company. Simultaneously with the filing of the application by the stockholders' committee, Mr. Ackerman submitted an answer admitting the mismanagement charged in the first petition and agreeing to a receivership. This action on the part of Mr. Ackerman, according to the counsel for the company, was taken without proper authorization. The counsel further pleads that the preliminary notice required by law was not given to the company before the granting of the receivership.

#### Kystone Telephone Co.

Gross earnings of the Keystone Telephone Company for June were $11,426, as against $105,599 for the same period last year, a gain of $5,867. The net earnings, after operating expenses and taxes, were $56,656; leaving a net surplus of $30,745, after deducting interest charges of $25,921. This net surplus is $2,197 more than that of June last year. The Keystone Telephone Company, a New Jersey corporation, owns the entire capital stock of the Keystone Telephone Company of Philadelphia, which in turn controls the Eastern Telephone and Telegraph Company.

#### Minneapolis General Electric.

For the period from January 1 to June 19 the output of electricity of the Minneapolis General Electric Company was 18.8 per cent greater than that of the corresponding period last year. Since January 1, 1914, this company has obtained an average of twenty-one contracts a week for wiring already built dwelling houses. In a single week during that period the sales department of the company closed 148 lighting contracts and 14 power contracts, involving 563 horsepower in motors. The company has a monopoly of the electric lighting and power business of Minneapolis, serving a population of 334,800. It also owns all stocks and bonds of companies which have developed water powers on the Mississippi and St. Croix rivers, amounting to 27,000 horsepower.

# TRADING IN THE CURB SECURITIES

## Oil Shares More Active, with Prices Lower—Rock Island Shares Decline.

The market on the Curb opened irregular yesterday, with a growing tendency toward heaviness in the prices of shares. The afternoon saw increased activity in oil issues, with lower prices prevailing. Rock Island common, new, fell ¼ point below yeterday's close, and the preferred ¾. Union Pacific rights closed at ¾ below yesterday's final price.

Increased activity in the oils resulted in consistently lower prices. The heaviest losses were made by the Buckeye Pipe Line, with a decline of 6 points. Continental Oil was off 5 points, Prairie Oil and Gas 5 and South Penn Oil 3. Two-point losses marked the close of Indiana Pipe Line, Solar Refining, Standard Oil of California, Standard Oil of New York and Vacuum Oil. The industrials were quiet, with narrow price changes, and the mining issues were steady.

# BUSINESS BRISK FOR SIX MONTHS

## Drygoods Man Hopes Last Half of Year Will Be as Productive.

## CONTROL TRUSTS BY PRESENT LAWS

### Jobbers' Association of Knit Goods Buyers Meets at the Waldorf-Astoria.

Lincoln Cromwell, of William Iselin & Co., drygoods commission merchants, in an address yesterday at the Waldorf before the summer meeting of the Jobbers' Association of Knit Goods Buyers, asserted that no further anti-trust legislation was necessary when the New York, New Haven & Hartford looting could be held up for public inspection and the thread trust dissolved by means of the old laws.

"The first six months of 1914," said Mr. Cromwell, "have been good ones for the manufacturer, the jobber and the retailer, and we are living in the hope that the next six will be as productive. Business can get along very well without any more Congressional doses."

It was the opinion of the delegates that the time had arrived to do away with what is known to the trade as "fixed prices." Fixed prices as applied to an article of wearing apparel mean that there are no intermediate prices at which the article is purchasable. Underwear can be bought for 25 cents, 50 cents or $1, but there is no grade offered by the retailer at 35 cents or any other intermediate price. A motion was passed whereby the question will be put up to the manufacturers.

C. B. Carter, secretary of the National Association of Hosiery and Underwear Manufacturers, gave a talk on labels and packing, in which he told of the progress made in this department of selling goods.

Among those who attended yesterday's meeting were C. W. Dickison, of the Pittsburgh Drygoods Company, Pittsburgh; R. W. Powell, of the J. S. Brittain Drygoods Company, St. Joseph, Mich.; C. E. Hutchison, of M. E. Smith & Co., Omaha; Charles W. White, of the J. V. Farwell Company, Chicago; William M. Starkey, of the Daniel Miller Company, Baltimore; S. G. Nash, of the Spokane Drygoods Company, Spokane, Wash.; T. J. Sullivan, of Sullivan & Co., Philadelphia.

W. B. Hiett, of Cooper-Coate & Casey Company, Los Angeles; R. M. Jennings, of Finch, Van Slyck & McConville, St. Paul; Joseph H. Estes, of the Richmond Drygoods Company, Richmond, Va.; Herbert L. Todd, of the Edson-Moore Company, Detroit; O. H. Kjos, of the Western Drygoods Company, Seattle; J. J. Shaw, of Callender, McAuslan & Troop, Providence; V. M. Smith, of the Carter Drygoods Company, Louisville, Ky.; William Cheek, of Smith, McCord & Townsend, Kansas City, Mo.

The Jobbers' Association of Knit Goods Buyers, like the Dress Fabric Buyers' Association, is subsidiary to the National Wholesale Drygoods Association.

# BRIEF WALL STREET NEWS

Trading in this market for foreign account yesterday amounted to about 15,000 shares, practically all sales.

The capitalization of the Standard Oil Company of California was increased from $50,000,000 to $100,000,000 at a meeting of the stockholders in Richmond, Cal. The action was merely a repetition of that of a previous meeting which was afterward found to have been improperly called.

The July "Handbook of Securities," published by "The Commercial and Financial Chronicle," appeared yesterday, containing a monthly range of prices up to July 1 of stocks and bonds sold at the various stock exchanges of the country, as well as yearly ranges for the leading exchanges, and tables of the earnings, fixed charges, surplus and dividends of securities.

Gerald Brooks has retired from the firm of C. H. Boynton & Co.
