FINANCIAL RECORD HERE AND ABROAD

Selected List of Stocks To Be Dealt In on Floor —Money Easy.

The course of business in securities yesterday appeared to indicate that partial resumption of open trading in stocks on Saturday will be attended with no more undue disturbance than was the case when business in bonds was transferred to the floor. Dealings will be at or above minimum prices, according to yesterday's ruling by Stock Exchange authorities, and delayed delivery will be prohibited. The list for trading, as made public, includes most of the securities that have been dealt in through the Clearing House at prices not lower than the close of July 30, less one dividend when payable, and all shares quoted at 15 or less on July 30. No attempt was made to confine trading to industrials, as had been suggested. Some of the active railroads held abroad have been officially dealt in recently.

The bond market yesterday was a trifle more active than at the end of last week, with prices generally firm. Rock Island issues were again spectacular. The collateral 4s were heavily traded in, around 350 of these bonds and certificates for those deposited with the protective committee changing hands during the day. New York Railways 5s improved and some of the railroad obligations showed strength. The active list was broadened further by around a dozen issues not hitherto traded in since reopening.

Stock prices as recorded on transactions through the Clearing House were a shade weaker. It is understood that some liquidation is in progress in preparation for the open trading at the end of the week. On Saturday stocks in the active list loaned can be returned. About 40 per cent of such loans outstanding on July 30 have been taken up. Assignment of one of the smaller Stock Exchange firms yesterday was incident to the clearing up process previous to resumption.

Though Clearing House institutions reported a reduction of surplus amounting to over $11,000,000 on Saturday, the excess funds available for loans was still so great that money rates were easier yesterday. Call money was offered at 3 per cent before the market closed and renewals were lower. Loans on Stock Exchange collateral were made at 4@4¼ per cent. Credit will be further liquefied as collateral loans on stocks are released from their frozen condition by renewal of an open market.

Marks exchange made rather an abrupt rise, and checks, which ended the week at 88¼, sold at 91. This abrupt recovery apparently indicates that in addition to selling of bonds for German account, which strengthened mark exchange last week, some liquidation of stocks is to be expected from the same source.

The Interstate Commerce Commission was sustained by the Supreme Court, which overruled the short-lived Commerce Court in the Nashville rebilling case. The commission had found that the railroads, in allowing a break at Nashville for reshipping, cleaning, classifying and sacking grain, were discriminating in favor of that city. The Commerce Court reversed this decision on the ground that privileges granted Nashville years before, so it could compete with the river and rail route through the city, were proper because of the continued physical existence of the river, even though that route was not greatly used.

In Paris the Bourse was reopened for cash dealings with a good attendance and no undue consequences that reached this market during business hours. As the French moratorium has been extended transactions for the account are not permitted. Payment of the required 3 per cent of the £350,000,000 British war loan had little or no effect on London discount rates, though in many instances subscribers turned in more than the amount demanded.

Sugar Trading Soon.

Members of the New York Coffee Exchange voted yesterday in favor of amending the sugar futures contract in such a manner as to eliminate European beet sugars, which it was originally expected to include in the local trading. With this question settled, the sugar futures market is expected to be opened on the Coffee Exchange here soon, and some predict that trading will begin next week.

Wheeling & Lake Erie 1st preferred.
Wheeling & Lake Erie 2d preferred.

TRADING IN THE CURB SECURITIES

Oil List Dull, with Few Changes in Prices—Some Weakness Among the Industrials.

In the absence of a number of traders on the Broad Street market yesterday because of the storm dealings in curb securities were greatly reduced. Some further weakness was noticeable in the Whelan issues. United Profit Sharing Corporation, after selling up to 15½, showed a loss of ¼ of a point at the close. Riker & Hegeman, however, made a fractional rise. Kelly-Springfield Tire continued to improve and advanced 1 point.

Business in the oil stocks was led by Anglo-American Oil at an advance of ½ of a point. Other issues were less active and practically unchanged apart from Atlantic Refining, which sold up 12, and Standard of California 4 points. The mining list was dull and narrow. Consolidated Gas convertible 6s were ¼ of a point higher.

Calumet & Hecla Div. Passed

For the second successive quarter the Calumet and Hecla Mining Company yesterday passed its dividend. The directors issued the following statement:

"Since the first of September the mine has been operated on three-quarters time, with a reduction of 30 per cent in wages of men and 15 per cent in pay of all salaried employes and officials. In the last few weeks the demand for copper has increased, but general conditions which affect the copper market are still so unsettled as not to warrant putting men back on full time, nor the declaration of a dividend at the present time."

PUBLIC UTILITY NOTES

General News and Earnings of Various Corporations.

The Standard Gas and Electric Company has declared a quarterly dividend of 1 per cent on the preferred stock, payable December 15 in scrip to stockholders of record November 30. The dividend bears interest at the rate of 6 per cent per annum, payable quarterly, and matures September 1, 1923, but is redeemable any time before that date at the option of the company. A plan of permanent financing which had been made prior to the European outbreak was abandoned by the company owing to the depressed financial condition, which provided for the retirement of the remaining balance of $2,250,000 collateral trust 6 per cent serial notes and other bills and accounts payable. These amounts, less current assets, as of December 1, 1914, totalled $232,112, and means for further advances to subsidiary companies pending suitable market conditions for selling their permanent securities.

Western Utilities.

A report of electric utilities operating in the Pacific and Mountain states, as compiled by "The Electrical World," gives a satisfactory growth in income and energy output for September. Returns from 78 per cent of the electrical industry showed an increase growth of 3.7 per cent in gross income and 3.2 per cent in energy output. Comparative figures from six of the larger cities in California, Washington, Oregon, Utah and Colorado showed a gain of 2.4 per cent in income and 1.5 per cent output, while from six smaller cities in New Mexico, Arizona, Washington, Wyoming and Idaho gains of 12 per cent in income and 10 per cent in energy output were reported.

EXCHANGE FIRM ASSIGNS

J. F. Pierson, Jr., & Co., Unable to Meet Obligations.

The New York Stock Exchange firm of J. F. Pierson, Jr., & Co., of 74 Broadway, yesterday announced its inability to meet its obligations and turned its affairs over to Ralph Wolf, of Hays, Hershfield & Wolf, 115 Broadway, who will act as assignee. The firm, which was organized in 1900, consists of J. F. Pierson, jr., son of General J. F. Pierson, and Clarence E. Fell. Mr. Pierson is the board member.

Abraham Hershfield, who is the attorney for the failed brokerage house, estimated the liabilities at $200,000. He thought that the assets would about meet them. Mr. Fell said the failure of his firm was due to the refusal of customers to put up more margins when requested to do so. This he attributed to the depreciation in security values following the closing of the Stock Exchange. He thought his firm would meet its debts dollar for dollar.

The firm was a pioneer in the odd lot business. Mr. Pierson was considered a specialist in Interborough issues. Because of their social activities both members numbered among their clients wealthy New York and Brooklyn families.

It is an open secret in Wall Street that following the closing of the exchange, on July 31, an investigation of the financial condition of many firms was conducted with a view to making the reopening attended with as little danger as possible.

N. Y. RAILWAYS BOARD

Income Bond Holders Obtain Representation on It.

The efforts of the committee of life insurance company officials representing the income bond holders of the New York Railways to obtain representation on the company's board of directors were successful at the annual meeting yesterday. The following were elected directors to represent the income bond holders:

Darwin P. Kingsley, president of the New York Life Insurance Company; S. S. Witherby, S. L. Leland, Henry Ollesheimer and J. C. Cobb. These men were elected to succeed Guy E. Tripp, chairman of the Westinghouse Electric and Manufacturing Company; Alexander J. Hemphill, president of the Guaranty Trust Company; Harry Bronner, of Hallgarten & Co., and E. S. Marston, president of the Farmers' Loan and Trust Company. Mr. Cobb was re-elected, while Mr. Leland was on both tickets and was satisfactory to both interests.

President Theodore P. Shonts said the gross revenues of the company for the four months ended on October 31, with October partly estimated, totalled $4,618,000, against $4,828,000 last year. Surplus after all charges, including rentals and interest on the refunding 4 per cent bonds, was $425,000, compared with $508,000 last year.

BRIEF WALL STREET NEWS

The Interborough-Metropolitan Company has applied to the New York Stock Exchange to list $17,942,000 additional 5 per cent cumulative preferred stock. This does not indicate an increase in the company's capitalization, but refers to preferred stock previously in the hands of the voting trust.

Gordon R. McAllister has retired from the firm of Gwynne Brothers and is now associated with Berdell Brothers, of 34 Pine st.

The annual meeting of the Rock Island Company has again been postponed to December 21.

The New York Stock Exchange membership of Charles Le B. Homer has been transferred to George H. Warren, jr., of Pyne, Kendall & Hollister, and that of the late August de Neufville to Tracy L. Turner, of S. B. Chapin & Co.

A booklet on Standard Oil Securities has just been issued by Carl F. Pforzheimer & Co. It gives the record of dividends of these securities as well as other data and statistics.

The St. Louis & San Francisco Railroad Company reports gross operating revenue of $3,754,028 for October, a decrease of $331,162 from the same month in 1913. Net earnings, which amounted to $1,197,633, also showed a decline of $79,752.

Gross operating revenue of the Virginian Railway Company for October, which amounted to $524,796, shows a decrease of $180,829 from that in the year preceding, which net income totalled $200,080, a loss of $166,547.

Stockholders of the Sintered Ore Company at their annual meeting yesterday elected J. E. Greenawalt a director, succeeding N. D. Hanfell, resigned.

Emergency currency retired yesterday amounted to $2,606,500, bringing the total up to $108,087,640.

TRADE IN STOCKS NEXT SATURDAY

Exchange Plans to Resume Business in Restricted List.

BARS DOWN ON ALL LOW PRICED ISSUES

Precautions Taken Against Any Extreme Pressure from Abroad.

The most important step toward a resumption of unrestricted trading in all securities on the Stock Exchange was taken yesterday, in approval by the board of governors at a special meeting of the recommendation of the committee of five that business be resumed on the floor in a selected number of stocks next Saturday. The restrictions in general are similar to those imposed upon dealings in bonds ten days ago to prevent a recurrence of the foreign liquidation that was the feature of trading during the week the exchange closed, which was on July 31.

The approval of the committee's recommendations was set forth in the following resolution passed by the board of governors:

"Resolved, That the committee of five is hereby empowered to permit dealings on the floor of the exchange in such stocks as it may designate under restrictions prescribed by it.

"Resolved, That the committee of five is hereby authorized to enforce stock loan contracts whenever in its judgment it may deem best so to do, and that the resolution of July 31, 1914, be modified in this respect."

Pointing out that its previous rulings relative to trading in so far as they apply to stocks admitted to dealings on the exchange from time to time would be rescinded, the committee's recommendations stated:

"Beginning on Saturday, December 12, 1914, dealings in certain specified stocks listed on the exchange will be permitted on the floor of the exchange between the hours of 10 and 3 o'clock each day except Saturday, when dealings shall cease at 12 oclock noon.

"Dealings in such stocks as shall be specified by and be under the supervision and regulation of the committee shall be for cash or regular way only and not below the minimum prices authorized by the committee from time to time. Transactions at prices below those allowed by the committee, or in evasion of its rules, are prohibited.

"All stocks quoted on July 30 at or below 15 per cent or $15 per share may be dealt in without restriction as to price, and will be marked free in the price column. All stocks admitted to dealings as above, which were being cleared through the Stock Exchange clearing house at the close of business on July 30, 1914, will be similarly cleared from the opening of business on the 12th day of December, 1914.

"All stocks admitted to dealings, which were being dealt in ex-clearing house at the close of business on July 30, 1914, will be similarly dealt in from the opening of business on the 12th day of December, 1914.

"Stocks admitted to dealings on the exchange will cease to be dealt in through the Stock Exchange committee on clearing house. Stocks not so admitted will continue to be dealt in through the committee on clearing house until further notice. All rules of the exchange governing delivery and default on contracts covered by these rules shall be in force on and after the 12th day of December, 1914, but the closing of contracts 'under the rule' shall be subject to the foregoing provisions."

The list of stocks to be admitted to dealings on the exchange beginning on Saturday is given elsewhere in this paper. The minmum prices will be announced on Friday.

The committee of five did not include in its list of stocks several important issues which are selling above the July 30 prices through the Stock Exchange clearning house, because of its intention to forestall, if possible, any heavy selling movement from abroad. Among those stocks in which the foreign interest is believed to be great are Canadian Pacific, Union Pacific, United States Steel, Southern Pacific, Anaconda Copper, Baltimore & Ohio, Chesapeake & Ohio, Delaware & Hudson, Illinois Central, New York Central and Great Northern.

The stocks which were seling below $15 a share on July 30, and in which the trading is to be unrestricted, include Allis-Chalmers, American Hide and Leather, American Linseed, American Woolen, Great Western, Corn Products Refining, Denver & Rio Grande preferred, Distillers Securities, Federal Mining and Smelting, Interborough-Metropolitan, International Paper, Missouri, Kansas & Texas, Missouri Pacific, National Railways of Mexaco 2d preferred, Nevada Consolidated Copper, Quicksilver Mining common and preferred, Rock Island common and preferred, M. Rumely Company, Texas & Pacific, Union Bag and Paper, United States Cast Iron Pipe and Foundry, Western Maryland and Wheeling & Lake Erie.

The loan market for stocks will also reopen Saturday on the floor of the exchange, for such stocks as are admitted to dealings, "from and after which date all rules of the exchange governing the borrowing and loaning of stocks shall be in force, but the closing of contracts 'under the rule' shall be subject to the foregoing provisions." The committee of five's statement adds:

"The above rule shall apply to stocks borrowed and loaned prior to and since July 30, 1914.

"Borrowed and loaned stocks will be cleared as before July 30 last, but only in cases where such stocks are admitted to dealings on the exchange.

"Loans of stocks not admitted to dealings on the exchange will continue to stand until further notice, unless otherwise agreed to by both parties to the contract."

While Stock Exchange authorities have deemed it wise to impose certain restrictions on a resumption of open stock trading, important financial interests yesterday did not expect any alarmingly heavy liquidation from abroad. The committee, it was said, had done its work so thoroughly that even the fear of an adverse freight rate decision had not delayed the reopening plans. About 40 per cent of all the stock loans outstanding on July 30 have been cleared up, and it is expected that this ratio will be largely augmented by the close of business on Friday.

ANDREW J. McCORMACK, Auctioneer.
REGULAR AUCTION SALE OF STOCKS AND BONDS
BY ADRIAN H. MULLER & SON,
OFFICE, NO. 55 WILLIAM ST.,
WEDNESDAY, DEC. 9TH, 1914,
at 12:30 o'clock, at the
EXCHANGE SALESROOM,
NOS. 14 AND 16 VESEY STREET.
BY ORDER OF EXECUTORS:
30 shs. Maiden Lane Safe Deposit Co.
