You are hereby notified that on Saturday, July 23rd, 1910, at 2 o'clock p. m., at the county court house, the democrats of Box Butte county, will hold a county convention, for the purpose of selecting five delegates to the state convention, to be held at Grand Island, Nebraska, July 26, 1910; and for the further purpose of selecting a county central committee, and a county chairman, secretary, and treasurer and such other business as they may deem necessary.

Robert Graham, Chairman.
C. W. Brennan, Secretary.

W. J. TAYLOR

Candidate for the Democratic and Populist Nomination for Congress.

Wahoo Democrat:—Taylor of Custer will be remembered as one of the forces in the last legislature, who had the fearlessness to grapple with friend and foe alike. It may be said to his everlasting credit that he is absolutely honest and abundantly able to cope with the strongest debaters in the country. He would be a strong man in the next congress.

The editor of The Herald visited Hemingford the first of the week and secured data for an article descriptive of that thriving town. Owing to being delayed nearly a day in returning to Alliance, by the wreck, it is impossible to publish this article this week but it will appear in our next issue.

An error in the dates given in the call for a democratic county convention, as published last week, made the date of the county convention July 16 and of the state convention July 23. The date of the county convention is July 23 (next Saturday) and of the state convention July 26. We wish to call attention, also, that the county convention is to be a mass convention and every democratic voter in the county is entitled to attend and participate. We sincerely hope there will be a large attendance from the country precincts and Hemingford, as well as from Alliance.

Alliance is growing steadily. One proof of it is the fact that the school census shows 1,011 children of school age in the city. If the census had been taken during the school term it would undoubtedly have shown many more.

H. E. Boon returned Tuesday from a trip into Wyoming, where he went last week intending to buy a bunch of calves. He found feed so scarce in that country that ranchmen cannot hold their cows and calves until wean-

There are various devices for burning oil in cook stoves, ranges, and heating stoves, but we have seen nothing that in our opinion equals the "Hot Blast Oil Burner", sold by the Nebraska Cheap Fuel company of Alliance. Convenience and economy are the two strong points. We call attention to the advertisement in this issue of the Herald.

"Bud" Moran assisted as one of the judges at the races in Alliance last week and covered himself all over with glory, besides winning the plaudits of the large number of persons who spectored the performances. The Fire Department was called out at one o'clock Sunday night but as the fire was in South Alliance and water could not be reached from the city mains the only thing the fire boys could do was watch it burn out. W. A. Dunlap of Malinda was in Alliance last week taking orders for the "Life of Roosevelt." This is a finely illustrated book, giving a deeply interesting account of the wonderful career of the ex president, and is sold at a very reasonable price. We were much pleased to learn from Mr. Dunlap that he was succeeding well in taking orders for the book, especially in view of the fact that he is so crippled that he cannot do ordinary manual labor. Persons who may be interested should drop him a postal card or letter to Malinda, Nebr., and he will call with a prospectus of the book.

REVIEW OF THE STOCKMEN'S CONVENTION FOR 1910

Herewith we are showing several photographs taken during the convention which was held July 5, 6 and 7 this year. They are all interesting and we are obliged to the Twentieth Century Farmer of Omaha for the use of them. Mr. G. W. Hervey, the genial editor of the above pop-

ular publication was with us during the convention and his write-up in the issue of July 13th was very interesting.

Although the meetings of the convention were not as largely attended by members this year, the crowd which came to the city was larger than ever before. Alliance business men realize the

value of advertising and this celebration and convention was very well advertised, as is now being done by the County Fair association for the fair to be held September 21, 22 and 23.

At the meetings of the association the need of building up the membership was emphasized. The millions and millions of acres of sandhills in western Nebraska will always be used for the purpose of raising stock, for not very much of it can be used for farming purposes. However, the growth of grass and the yield of hay is getting better each year and more cattle can now be supported on a section of land than ever before in the history of Nebraska stock raising.

Mr. T. W. Tomlinson, secretary of the American National Live Stock Association was present and told of the work the national association has been doing in protecting the interests of the live stock growers against railroad impositions, national legislation of a damaging character, etc.

During the convention many people came in from eastern points who had never been this side of the sandhills and they were all surprised at the large tract of fertile soil which lies in western Nebraska. There are millions of acres here that are just as good soil as can be found. Some of

those farmers further east who spend their lives farming hillsides and draws are greatly surprised to find a level plain of good chocolate loam. It looks mighty good and the enterprising land men of western Nebraska are doing their part in settling up this fertile country.
