The South Still Anxiously Awaits the Day When the Free Movement of Cotton May Be Resumed.

At Galveston, from which port there have sailed for Europe many ships laden with cotton, the automobile truck has been pressed into service for the movement of the bales.

One of the Life-like Biological Groups in the Permanent Educational Display at the American Museum of Natural History.
Animals of the wharf piles; shown grouped around the piles below water are star fish, several species of ascidians—which include sea-squirts and sea-pork—red-bearded sponge, sea anemones, squid, barnacles and different species of hydroids. Swimming around are several cunners, while a large jelly-fish is seen near the right.
