TALL LOFT NEAR MORGAN'S HOME

Sixteen Story Structure Planned Opposite House of George F. Baker.

LIKELY TO RESULT IN COURT FIGHT

Site Recently Purchased by August Heckscher from the Emily Havemeyer Estate.

A sixteen story loft and store building opposite the home of George F. Baker and within a block of J. P. Morgan's dwelling will become a reality, if not prevented by the courts. It is planned for the southwest corner of Madison av. and 38th st., a plot 98.9x95 feet, which was purchased recently by August Heckscher from the estate of Emily Havemeyer. Plans were filed yesterday for the proposed structure by A. L. Harmon, architect, who estimates its cost at $550,000. The property was sold through Clark T. Chambers for a price around $850,000.

It is likely that Mr. Morgan will fight in the courts against the building being erected. He was recently elected for a second term president of the Murray Hill Association, an organization whose chief aim is to prevent business encroachment in the district. Mr. Morgan's father and the Bakers, with other residents of the district, have spent thousands and thousands of dollars to prevent business invasion in the Murray Hill section.

The site is said to be just inside the Murray Hill restriction. The opposite southeast corner of Madison av. and 38th st., for many years occupied by the Old South Church, has recently been the subject of a lawsuit, and a recent decision of the court is that an apartment house can be erected on the site without infringing on the Murray Hill restriction.

When it comes to the matter of a business structure the recent decision does not apply, nor does the one affecting the Cameron Building, at 34th and Madison av., which was only partially upon restricted property, as was the new Professional Building, at the southeast corner of Madison av. and 28th st. The latter corner was formerly the site of the old Alston apartment, and shortly after the decision in the Cameron case the property was sold and a commercial building projected. The steel work was up several stories when Mr. Baker bought the property, giving the builders their price.

Mr. Baker, tiring of the vacant lot next to his residence, at 256 Madison av., decided to erect the Professional Building, four stories in height, which would conform with the other buildings in the neighborhood. No signs, however, are allowed on the outside of the structure. Mr. Baker has made subsequent purchases to protect his property.

Mr. Heckscher has been a prominent figure in the real estate market in recent years. His most notable former purchase was the old residence of the late W. C. Whitney, at the southwest corner of 5th av. and 57th st., and the former Morse house, adjoining.

Sales announced follow:

FEATHERBED LANE.—Charles E. Demsey sold the southwest corner of Featherbed Lane and Jump av. for Mrs. Mary A. H. Marks, who recently acquired it after giving a mortgage to Elizabeth Griggs, a woman, and Rufus Griggs, her husband, to secure 11 notes, all of which were given by Bryan L. Kennelly. The property is valued at $15,000. William J. Demsey, a West Brighton builder, intends erecting a five story modern apartment house covering the entire plot, providing about twenty families. This is the third record sale of a corner within the last month, and the highest price paid was close to $70,000.

39TH ST. The Mace Realty Company has concluded the leasing of the apartment houses at 623 to 631 West 54th st., which front 125 feet from Broadway. The houses occupy a plot 125x100 and were transferred subject to a mortgage of $104,000. The Mace Realty Company acquired the site a couple of years ago and now completes the deal.

LORELEAD PLACE.—Joseph A. Blackner has sold for the Herman Construction Company 2565 Lorlead Place, a four story flat, on a plot 42x90. It was a resale (taxpayer).

COMMONWEALTH AV.—John A. Stelmetz sold for the Crawford estate to Minnie Barger 1471 Commonwealth av., a one family ten room house, lot 25x100.

ROSEDALE AV.—John A. Stelmetz sold for Jessie Gibbs to the River Realty Company, Andre Rouat, president, the lot, 25x64, on the west side of Rosedale av., 150 feet north of Tremont av. The purchaser intends to sell to Abraham Kaplan, who will improve with a three story dwelling.

CLINTON AV.—Harry H. Cohen sold to the Clinton Construction Company the lot, 25x100, at the northeast corner of Clinton av. and 179th st.

CROTONA AV.—Harry H. Cohen sold to the Clinton Construction Company the lot, 26x100, at the northeast corner of Crotona av. and 179th st.

HARVESTING DELAY UNSETTLES WHEAT

Diminishing Estimates in Europe Offset Bearish Washington Report.

Chicago, July 9.—Uneasiness over the delay in harvesting in the United States and because of diminishing estimates of the yield in Western Europe, especially France, acted to-day as more than an offset for the bearish crop report from Washington as to wheat. The market closed unsettled, but ¼c to 1⅛c above last night. Corn finished ⅜c off to 1⅛c to 1¼c up; oats at an advance of ⅛c to ¾c to 1⅝c, and provision with a gain of 15 to 25.

Notwithstanding that the government report indicated the largest crop on record, the wheat market throughout the day showed a tendency to advance, excepting just at the opening and shortly before the close. Wheat rallied to-day from an early decline, due to the bearish construction placed on the United States government crop report. The ensuing upturn in values was largely the result of Liverpool advices telling of import needs and of chances that the yield in Western Europe would be smaller than had heretofore been expected. The crop outlook was said to be especially unfavorable in France. After opening ¼c to ⅜c lower the market rose to above last night's level all around, with July developing decided strength. Signs of an active shipping demand from the East had a bullish effect on corn. Sellers were scarce. The opening, which ranged from ⅜c off to 1⅛c advance, was followed by the market steadying at a range generally higher than yesterday's close, especially for July.

Oats hardened with other grain. At first, however, the market was under considerable selling pressure on account of the bearish crop figures from Washington.

Offerings of provisions were light. In consequence the market displayed firmness regardless of a decline in the price of hogs.

THE WEATHER REPORT

Forecasts and Records of the Last Twenty-four Hours.

Washington, July 9.—The storm that was central over New England Thursday night has passed to the Gulf of St. Lawrence, and the weather has cleared throughout the East. Another extensive area of low barometer pressure covers the plains states and the Rocky Mountain region, where it is causing overcast weather and widely scattered showers. Thunder showers are also reported from the south Atlantic and east Gulf states. Temperatures have not changed decidedly in any region, and readings are generally below normal east of the Mississippi and the Far Northwest, and above the normal in the Southwest. In the middle Atlantic and New England states fair weather with moderate temperatures will prevail Saturday and probably Sunday. At this time there are no indications of unseasonable warm weather in these districts. In the south Atlantic and Gulf states, the central valleys and the lake region, the weather will be overcast with widely scattered showers and moderate temperature during the next forty-eight hours.

Winds for Saturday and Sunday: North Atlantic, moderate west; middle Atlantic south Atlantic, light east; Gulf states, light to moderate variable; west Gulf, fresh south; upper lakes, moderate variable to fresh; lower lakes, fresh southeast and south on Lakes Michigan and Superior; lower lakes, light to moderate variable.

Forecast for Special Localities.—Eastern New York, Eastern Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia, fair to-day and probably to-morrow.

Northern New England, fair to-day and to-morrow; rising temperature.

Western Pennsylvania and Western New York, partly cloudy to-day and to-morrow.

Local Official Record.—The following official record from the Weather Bureau shows the changes in the temperature for the last twenty-four hours in comparison with the corresponding date of last year:
