CURB MARKET TRANSACTIONS

Strength in Petroleum Issues—Industrial Irregular—Coppers Weak.

Movement of prices among the curb securities yesterday was generally unimportant, save in the oil group. Though the list was narrow, trading in a few instances was fairly active. The result was an advance of 22 points in Standard Oil of New Jersey, 14 points by Standard Oil of California, while Illinois Pipe Line gained 9 points and Standard of New York 1.

Irregular price changes were shown in the industrial group. The Marine issues stood out in the trading, the common scoring an advance of nearly a point and the preferred improving 1¼. American Zinc gained nearly 2, and Canadian Car and Foundry preferred 1. Midvale Steel and Submarine Boat each declined a fraction. There was a generally weak tone shown by copper stocks, but the losses were of small proportions.
