CURB MARKET TRANSACTIONS

Quiet Trading Attended by an Irregular Price Movement—List Contracted.

Unusually quiet trading in yesterday's short curb session was attended by an irregular trend in prices, though the ruling tendency was upward. Many issues did not appear in the list and only a few stocks received any appreciable support. Trading in Aetna Explosives was again the feature and it rose nearly 2 points on active dealings. Tobacco Products made a fractional advance and Stromberg Carburetor was lower. Other industrials generally were quiet and moved in a narrow radius.

Cosden Oil and Gas was slightly depressed, while Pan-American Petroleum preferred and Wayland Oil and Gas improved fractionally. In the mining group only a few price changes were recorded. Cosden Oil 6s ended 2 points lower.
