R.R. VOTE LEANING TOWARD A STRIKE

Employes' Decision Will Be to Quit Work, Says Ballot Counter.

MEN OF 225 LINES INSIST ON DEMANDS

Roads May Face Complete Tie-up or $100,000,000 Wage Increases if They Comply.

Timothy Shea, in charge of the counting of 400,000 ballots cast by the railroad employes of 225 lines in this country to determine whether they favor a general strike, believed yesterday the vote would be almost unanimous to quit work.

If Mr. Shea is correct in his surmise—and he is expressing the general impression—practically every line of railroad in this country is facing a strike which will completely demoralize traffic of all sorts.

"Do you suppose workingmen are going to lose a chance to better their working conditions?" he asked. "Indeed they are not! That is not the spirit of progress, and it is not the spirit of the American people. Have you ever heard of a railroad that voluntarily offered to improve the lot of its workingmen? No, siree! That is why we have unions, and that is what unions are for."

The men demand an eight-hour day and time and a half for overtime. A conference of union officials and railroad managers at the Engineering Societies' Building from June 1 to 15 resulted in a refusal of the roads to grant the demands, with an offer to arbitrate under the Newlands act or refer the matter to the Interstate Commerce Commission.

Compliance with these demands would mean $100,000,000 wage increase, according to an estimate made by the national conference committee of the railways. Such a raise for men in freight and yard service alone is equal to a 5 per cent advance in freight rates.

Following the unsatisfactory conclusion of the conference a general vote was called. By this morning the entire quota of 600 chairmen of the adjustment committees of the four brotherhoods of railway workers will have congregated at the Broadway Central Hotel, each bringing with him the ballots marked by the workers in his respective district. The exact tally will not be known for a week.

The strike votes are being counted under the supervision of A. B. Garretson, president of the Order of Railway Conductors; W. S. Stone, grand chief of the Brotherhood of Locomotive Engineers; W. H. Lee, president of the Brotherhood of Railroad Trainmen, and W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen.

At present the Interstate Commerce Commission has no power to adjust wages of railway workers, and Congress has been asked to empower the commission to look into the railroad dispute.

POLICE MARKSMANSHIP SCHOOL GRADUATES 19

New York now has nineteen policemen—two lieutenants, two sergeants and fifteen patrolmen—who are expert pistol shots. Commissioner Woods awarded silver bar pins to the policemen yesterday as graduates of the first school of marksmanship.

Six months ago, Commissioner Woods decided that there were too many victims of the careless handling of firearms by police and organized a course in revolver practice at Police Headquarters under Detective Captain William Jones and several army officers.

The men who received awards yesterday were Lieutenants Michael F. Kelly, 4th Inspection District, and Rupert Deyo, of the 7th Inspection District; Sergeants Charles Stilson, of the Detective Bureau, and Joseph Bannon, of the Marine Squad, and Patrolman Jacoby, Seligman, Francis Walsh, Cassidy, Dea, Kirk, Manion, Stillman, Schmauder, Cabel, Schuber, Kornich, Evans, Butts and Kelly.

THE WEATHER REPORT

Records for Last Twenty-four Hours and Official Forecasts.

Washington, Aug. 1—The heat wave diminished somewhat yesterday in the upper Mississippi and Missouri valleys, the lake region, New England and middle Atlantic states, due to an area of high pressure coming down from Canada over the Great Lakes and throwing off fresh to brisk northerly winds in the sections mentioned. It was warmer in the south Atlantic states and was becoming much warmer in Montana and the Dakotas.

There was an area of low pressure moving off the middle Atlantic and New England coast, which helped to draw in the warm wave. Low areas were also located north of Montana and in the Gulf of California. Showers fell in Southern Florida, along the Gulf Coast, in Oklahoma, Indiana and on the Virginia coast. Elsewhere the weather was fair.

Forecasts for Special Localities.—Eastern New York—Fair to-day and probably to-morrow; little change in temperature; light north winds.

New Jersey—Fair to-day and to-morrow; slight temperature changes; light northeast winds, shifting later.

New England—Fair to-day and to-morrow; temperature about the same; moderate to light northerly winds.

Western New York—Fair to-day; warmer, with increasing cloudiness to-morrow; moderate east to southeast winds.

Local Official Record.—The following official record from the Weather Bureau shows the changes in temperature for the last twenty-four hours in comparison with the corresponding date of last year:

	1915.	1916.		1915.	1916.
3 a. m.	75	72	6 p. m.	73	80
6 a. m.	74	69	9 p. m.	73	76
9 a. m.	78	74	11 p. m.	72	74
12 m.	83	74	12 p. m.	72	—
4 p. m.	76	82			

Highest temperature, 82 degrees (at 4:30 p. m.); lowest, 69 degrees (at 6 a. m.); average, 76 degrees; average for corresponding date last year, 77 degrees; average for corresponding date last thirty-three years, 74 degrees.

Barometer Readings.

8 a. m. ..... 30.02 | 1 p. m. ..... 30.06 | 8 p. m. 30.09

Humidity.

8 a. m. ..... 61 | 1 p. m. ..... 50 | 8 p. m. 45

Local Forecast.—Fair today and probably to-morrow; not much change in temperature; light north winds.

HOUSE BILL PLANNED TO HARNESS NIAGARA

To Develop Power, but Preserve Scenic Beauty.

Washington, Aug. 1.—Hearings begun four years ago by the House Foreign Affairs Committee on legislation to regulate diversion of water at Niagara Falls for generation of electricity were closed to-day. Before Congress adjourns the committee plans to report a bill based on that introduced by Representative Cline, of Indiana, for cooperation with Canada in preserving the scenic beauty of the Falls and at the same time developing their hydroelectric resources. Indications are that a joint international commission to limit water diversion will be recommended.

Final statements supporting the claim of New York State to make use of the water diverted were presented to-day by a committee of the New York Legislature, consisting of State Senators George C. Thompson and George W. Simpson and Assemblyman Joseph D. Kelly. They took the position that the Federal government may control the amount of water which shall be diverted, but that its use should be granted to the state for development with any accruing revenue. They also suggested that the boundary waterways treaty with Canada be enlarged to develop power projects all along the border.

POLICE DEPARTMENT.

Transfers—To take effect 4 p. m., Aug. 2: Primn. Frank McCarron, 17th, to Traffic B; P. C. Becker, 18th, to 40th; T. W. Lennon, station house attendant, 149th to 148th; R. D. Miller, 10th, assigned as station house attendant.
