Prices Irregular In Quiet Trading In Outside Market

International Petroleum Advances Slightly, but Other Oils Are Generally Weak: Industrials Fairly Steady

Trading on the curb market was without especial feature yesterday and price movements were irregular, with many of the oils moving lower.

Standard Oil of California declined about ten points on the announcement of a $25,000,000 bond issue, while stock of the New York corporation of the group, which is said to be negotiating similar financing, was also under pressure.

Bonds were fairly active, with interest still attached to New Haven 4s, which sold up to within a fraction of 60 on good buying.

International Petroleum advanced ¼ to 16¼ on the final sale, but Simms eased off to 6⅜ and Carib Syndicate sagged to 7⅝. Maracaibo recovered nearly a point and Salt Creek new stock advanced to 10.

Industrials were fairly steady, with price changes small.

Bank of England Statement

LONDON, Dec. 16.—The weekly statement of the Bank of England follows:

Gold	£126,611,532	Inc.	£524,021
Reserve	13,936,000	Inc.	19,000
Notes reserved	12,336,000	Inc.	125,000
Circulation	131,233,000	Inc.	828,000
Public deposits	12,491,000	Dec.	3,023,000
Other deposits	146,170,000	Dec.	417,000
Gov. securities	77,123,000	Dec.	3,345,000
Other securities	73,298,000	Inc.	27,000

The proportion of the bank's reserve to liability is 9.64 per cent; last week it was 9.24 per cent. Rate of discount 7 per cent.

Reducing Rail Costs

WASHINGTON, Dec. 16.—New England railroads are giving minimum service to shippers in order to cut down operating costs and reduce losses, the Interstate Commerce Commission was told to-day at hearings on the application of the New England carriers for a readjustment of freight rate divisions between the roads east and west of the Hudson River.

J. E. Slater, assistant to the general manager of the New York, New Haven & Hartford Railroad, told the commission it was impossible to use through trains for way-station hauls, as it so delayed freight service that shippers were injured.

Realty & Improvement Earns $6.82 in Seven Months

For the seven months ended November 30 the United States Realty and Improvement Company reports a net income, after expenses and interest, of $1,103,464, equivalent to $6.82 a share on $16,162,800 outstanding capital stock, compared with $441,084, or $2.72 a share, for the corresponding period of the preceding year. Net earnings for the period amounted to $1,451,422, an increase of $662,379 over last year.

Net income for November showed $399,107, an increase of $335,136 over the same month in 1919. Net earnings were $448,815, an increase of $335,136 over the corresponding month of the preceding year.

Ohio Independent Steel Mills to Lay Off 20,000

YOUNGSTOWN, Ohio, Dec. 16.—Heads of independent steel plants here indicated to-day that the mills will be practically idle from the end of this week until the first of the year, owing to lack of orders. The contemplated suspension would effect about 20,000 workers.

Blast furnaces and other units which would suffer heavily from suspension will be kept going, it was said, but the main departments are expected to be idle. United States Steel Corporation mills in this district, however, are expected to continue at their present rate of about 90 per cent production.

Financial Items

Edward Froede, of the foreign department of the Columbia Trust Company, has been elected assistant secretary of the company.

William A. Read & Co., as syndicate managers for the issue of $25,000,000 ten-year 7 per cent debentures of the Standard Oil Company of California, announced that the subscription books were closed at 3.25 a. m. yesterday, the issue being largely oversubscribed.

Guaranty Trust Company of New York will be prepared to exchange on and after December 20, its outstanding trust receipts for the definitive Columbia Graphophone Manufacturing Company five-year 8 per cent sinking fund gold notes, due 1925, with coupon due February 1, 1921, and subsequent, attached, at its trust department.

N. Y. Standard Oil Earnings Expected To Be $60,000,000

Net After Taxes to Show Gain Over $43,000,000 Last Year; New $30,000,000 Bonds Are Offered at Par

Net earnings of the Standard Oil Company of New York for 1920, before deductions for taxes, will approximate $60,000,000, according to a statement issued yesterday on behalf of the corporation in connection with the formal offering of the new issue of $30,000,000 ten-year 7 per cent serial debenture bonds of the company. This compares with net earnings of $43,165,109 in 1919, after taxes and other charges.

The new serial bonds will mature in seven annual installments, from January 2, 1925, to January 2, 1931. The offering is being made at par by a group headed by Blair & Co., Inc.; the Equitable Trust Company and Wm. A. Read & Co.

"The capital requirements of the company have been supplied almost entirely from earnings," the formal statement in connection with the offering says, "and in the five years ended December 31, 1919, about $115,000,000 from surplus earnings has been reinvested in the business. The net quick assets as of June 30, 1920, exceed $150,000,000, or over five times the total issue of debentures."

Sharp Coke Curtailment

Net Decrease of Nearly 800 Ovens in Connellsville

CONNELLSVILLE, Pa., Dec. 16.—A net decrease of 786 in the number of active coke ovens in the Connellsville coke district was reported to-day in the weekly coke review of The Connellsville Courier. This does not include about 300 others which will be closed for an indefinite period at the termination of the week's run Saturday.

This condition is brought about, The Courier adds, because fully 50 per cent of the Merchant blast furnaces are idle and others operating only part time.

On the other hand, the H. C. Frick Coke Company, as coke maker for the United States Steel Corporation, has found it advisable to increase its coke production, much of the increase going into stock for future use.
