Reports of Shipping and News of Foreign Trade

Further Drop Is Reported in Shipbuilding

American Yards Are Stated To Be Constructing Only Slightly in Excess of 900,000 Gross Tons Now

Work Chiefly on Tankers

Two of Over 10,000 Tons Completed; One Shipyard Turning Out 77,000 Tons

Further shrinkage in the amount of work on hand in American shipyards for private account is shown by the report of the Bureau of Navigation of the Department of Commerce, reviewing conditions at the beginning of this month.

According to this compilation, 227 steel vessels, aggregating 901,229 gross tons, are being constructed, as compared with 252 vessels of 977,908 gross tons on February 1. Government ships building or contracted for by the Shipping Board are not included in these figures.

During February twelve ships, aggregating about 65,000 gross tons, were completed for private account. Most of these were tankers. The largest was the Walter Jennings, a 10,805-ton tanker built by the Federal Shipbuilding Company at Kearny, N. J., for the Standard Oil Company of New Jersey. The vessel will have a speed of 11½ knots. Another large oil carrier finished during the month was the Agwistone, built by the Newport News Shipbuilding and Dry Dock Company, Newport News, Va., for the Atlantic, Gulf and West Indies Steamship Company. The vessel, which is of 10,300 tons gross, will have a sea speed of 10½ knots.

Tanker Tonnage Prevails

The Bethlehem Shipbuilding Corporation turned out at its Fore River plant, Quincy, Mass., an 8,327-ton tanker for the Standard Transportation Company. The vessel has been named the India Arrow. The Gargoyle, a 7,357-ton tanker, was completed by the Moore Shipbuilding Company, Oakland, Calif., for the Vacuum Oil Company.

A second tanker for the account of the Atlantic, Gulf and West Indies Steamship Company, the 7,078-ton Agwiworld, was completed by the Sun Shipbuilding Company, of Chester, Pa. The Union Construction Company, at Oakland, Calif., turned out the 7,444-ton tanker Liebre for the General Petroleum Corporation.

Another of the Submarine Boat Corporation's fabricated freighters, the 3,545-ton Suspearco, was completed by the company at its Newark Bay plant. Another cargo carrier was completed by the Todd Dry Dock and Construction Corporation, at Tacoma, Wash. This vessel, which is of 3,20 tons, will be operated by the Alaska Steamship Company. She is named the Kennecott and will have a speed of 11½ knots. Two vessels of 3,285 tons each were finished by the New York Harbor Dry Dock Corporation, Port Jefferson, L. I., for its own account. These ships will be known as the Conimicut and Beezelake.

Large Yards Still Working

Of the work now in hand, the New York Shipbuilding Corporation, at Camden, N. J., has nine vessels of 64,290 gross tons. The Federal Shipbuilding Company has ten vessels of 61,400 tons under way at its Kearny, N. J., plant and seven of 45,100 tons at its Chickasaw, Ala., yards. The Bethlehem Shipbuilding Corporation is constructing eighteen vessels, aggregating about 125,000 tons, at its five plants.

The largest amount being built at a single yard, however, is the tonnage of 77,300, representing ten ships under construction at the Chester, Pa., yard of the Sun Shipbuilding Company.

So far as new orders go, no contracts for any additional large ships are reported to have been placed with American shipyards so far this year. A similar state of affairs is said to prevail in England. There, however, the reduction in the amount of work on hand caused by completions has not been so marked as in this country. This is partly due to the greater speed with which vessels are built here and partly to the long strike of shipyard joiners, which has materially delayed the fitting up of ships.

Device to Take On Oil at Sea Available for Naval Vessels

BOSTON, March 28.—Naval vessels at sea may take on their supply of fuel oil while under way through a device installed in the fuel ship Pecos, which is to be launched at the navy yard here on April 23.

Shipping Board Fights Ruling

WASHINGTON, March 28.—Solicitor General Frierson asked the Supreme Court to-day to issue writs of mandamus against several district judges who have ruled that libel suits could be filed against Shipping Board vessels which met with accidents while under government control. The vessels named included the Western Maid, Liberty and Carolinian.

MARITIME MISCELLANY

NEW YORK

March 27—An unidentified schooner is ashore on Fortune Island, off Miami, Fla.

LEWES, Del, March 27—Schr Jennie Flood Kroger (Am) left Buenos Ayres for Portland, Me; collided with str Eugene V R Thayer fifty miles southeast of Cape Henlopen. The former was badly damaged and was towed into Delaware Breakwater leaking. The latter proceeded to Philadelphia without damage.

MONTEVIDEO, March 28—Str Aniwa (Am) left Santos for New York; developed engine trouble and was towed back to Santos by str Independence Hall.

ST MICHAELS, March 28—Str Farnam (Am) left Southampton for New Orleans; arrived here with boiler trouble.

RIO DE JANEIRO, March 28—One lifeboat, with forty-five survivors of str Uberaba, which went to sea on the rocks off the coast of Maranhao, has been picked up at sea. Str Justin rescued passengers and crew, but two lifeboats put off from wreck before aid had reached them; one boat is still missing.
