Where Does He Bank?

That is the question today among business men about business men—a man is judged by the company he keeps.

Many honored names have been on our books through the third and fourth generation.

Our resources, our facilities, our experience are here to perform every function of a bank.

Where do you bank?

Seeking new business on our record

THE CHEMICAL NATIONAL BANK OF NEW YORK

Founded 1824

BROADWAY AND CHAMBERS, FACING CITY HALL

THE COMPTROLLER OF THE CITY OF NEW YORK

will sell at his office in Room 530, in the Municipal Building, on

Thursday, December 15, 1921

at 12 o'Clock Noon

$55,000,000—4½%

Gold Corporate Stock of The City of New York, payable December 15, 1971.

Exempt from Federal Income Tax and from the Income Tax of the State of New York.

Bids must be delivered to the Comptroller in sealed envelopes addressed to the Comptroller of The City of New York.

A deposit of 2 1-2 per cent. of the amount of the proposal must accompany each bid. Such deposit must be in cash or certified check upon a New York State Bank or Trust Company, or any National Bank.

For further information see "City Record" or consult any bank or trust company, or send for descriptive circular to

CHARLES L. CRAIG,
Comptroller of The City of New York.

Curb Prices Lack Definite Trend in Steadier Trading

Prominent Issues Affected by Conflicting Influences; Oils Irregular; Industrials in Narrow Range

Lack of a definite trend to prices on the curb market was noticeable yesterday as prominent issues reflected conflicting influences. A fairly steady tone was maintained, with most stocks confined within a narrow range.

Oil shares continued to attract most attention, with selling pressure causing reactions in Cities Service, Anglo-American International and others. Simms Petroleum fell below 12 at one time, but recovered late in the day and closed at the top for a fractional gain. Imperial Oil also rebounded.

In the industrial group changes were small and irregular. Burns Brothers B advanced slightly, but Farrell Coal sagged. Goodyear common recovered a fraction. Durant Motors was firm, but Glen Alden Coal failed to hold its top price.

Investment Information

Questions of general interest to investors will be answered in this column, in which case only initials will be used. Others will be answered by mail. Address all inquiries, inclosing a stamped, addressed envelope, to Financial Editor, The Tribune, 154 Nassau Street, New York City.

For a Business Man

Question—I will have available by the middle or latter part of the coming week approximately $10,000, which I desire to invest in "business men's investments" securities, yielding in excess of 7 per cent. Would you please furnish me with a list of such securities; if possible, would like two lists, one comprising bonds and the other one consisting of preferred and common stocks. Lists should include public utilities, railroads, industrials and possibly some metals. No objection to long term securities. Preference given to those with a fair chance of appreciation in price. Should be listed and have a ready market.—O. E. W.

Answer—For your bonds we suggest United States of Brazil 8s, 1941, recently selling at 105, to yield about 7.50; Goodyear Tire and Rubber first mortgage sinking fund 8s, 1941, recently selling at 109, to yield about 7.10; International Mercantile Marine 6s, 1941, recently selling at about 92, to yield about 6.75; Virginia-Carolina Chemical debenture 7½s, 1932, recently selling at about 97½, to yield about 7.80; Pennsylvania and Ohio Light and Power Company 7½s, 1940, recently selling at 98, to yield 7.70, and Packard Motor Car Company 8s, 1931, recently selling at par, to yield 8 per cent. As stocks suitable for a business man's investment we suggest Minneapolis, St. Paul & Sault Ste. Marie preferred, paying 7 per cent dividends and recently selling at 92, giving a current return of 7.61; Norfolk & Western common, recently selling about par and paying 7 per cent dividends; Miami Copper, recently selling at about 25 and paying $2 per year dividends, a return of about 8 per cent; American Telephone and Telegraph, stock recently selling at about 116 and paying 9 per cent dividends, giving a current return of about 7.75, and Union Pacific common, recently selling at about 131 to return about 7.60. All the above, both stocks and bonds, are listed and actively traded in on the New York Stock Exchange.

Not Good for Anybody

Question—Could you advise in regard to the enclosed circular City of Warsaw municipal loan of sixty-year 8 per cent improvement bonds, and any hope for a man of sixty to realize any benefit from it?—J. P. M.

Answer—In our opinion the purchase of bonds of the City of Warsaw, principal and interest payable in Polish marks, is not a good purchase for anybody, man or woman, aged six or sixty. The possibility of profit in buying these bonds lies entirely in the hope that Polish marks may some day be worth their normal mint parity. So far as we have been able to find out, there is not a single person qualified to judge who believes that the mark will ever exchange for its nominal value in American dollars. Further than this, we should like to point out that a tremendous increase in the exchange value of the mark, such as would be represented by the return of Polish currency to its nominal par value in terms of American dollars, would throw an absolutely intolerable burden upon the taxpayers of the city of Warsaw, so that, in our opinion, the inevitable result would be the repudiation of these bonds or, at the very best, a scaling down of the principal and interest to a figure which would be equitable for the Polish taxpayers, but which, at the same time, would rob American purchasers at present prices of the greater part of their chance for profit.

Third Avenue Railway

Question—Kindly inform me as to the advisability of retaining the following securities purchased about sixteen years ago: Third Avenue Railway Company 6 per cent gold bonds, 5 per cent adjustment mortgage, common stock.—J. H. W.

Answer—To retain the common stock of the Third Avenue is purely a speculation. The Adjustment Mortgage 5 per cent bonds are, it is understood, just about earning their interest charges and their retention would be, in our opinion, an attractive, semi-speculative investment. The 5 per cent first 5s, due 1937, are, in our opinion, a good investment.

Alabama Power

Question—Will you please let me have your opinion on the Alabama Power Company bonds 6s, which company, as I understand it, is a subsidiary of the Alabama Traction, Light and Power Company of Montreal, Canada?—J. F. T.

Answer—Alabama Power Company first 5s, due in 1946, are secured by a direct first mortgage on the entire property of the company, are redeemable at 105 and interest at any interest date, and have a strong sinking fund provision. The entire capital stock of the company is owned by the Alabama Traction, Light and Power Company, Ltd. The bonds are a good investment, in our opinion.

American Tel. and Tel. Convertible

Question—Would you approve converting the Telegraph and Telephone 4 per cent bond into the stock of the Telegraph and Telephone? I will appreciate any suggestion you have to make.—F. C. S.

Answer—The conversion of American Telephone and Telegraph 6s into the company's stock is, of course, attractive on account of the recent increase in the price of the latter. But, in our opinion, the opportunity to sell the convertibles and purchase with the proceeds either Northwestern Bell 7s or Bell of Pennsylvania 7s, both of which have recently been selling at about the same price as the convertibles, is a more attractive investment opportunity. By this switch you gain in security because you exchange a debenture bond for one secured by first mortgage; you gain in income because you receive $70 per year from the proceeds of each $1,000 of convertible 6s, as against the $60 which the convertibles now pay, and you get a long-term bond, non-callable before 1932, instead of a bond maturing within four years.

Strengthening an Investment

Question—I own eight shares of the Chicago & Northwestern preferred and nine shares of the common. Would you advise me to sell it and buy the American Telegraph and Telephone?—C. S.

Answer—We think that you would be strengthening your investment position materially by disposing of your Chicago & Northwestern, both common and preferred, and buying American Telegraph & Telephone stock with the proceeds.
