Paris Market Firm

PARIS, Jan. 16.—Prices were firm on the Bourse to-day. Three per cent rentes, 55 francs 10 centimes. Exchange on London, 51 francs 30 centimes. Five per cent loan, 80 francs 20 centimes. The dollar was quoted at 12 francs 9 centimes.

Day's Dealings in Bonds

The Market

Rising prices and activity continued unabated in the bond market yesterday, where no immediate check to development of current tendencies is seen by investment bankers. Interest was pretty broadly spread throughout the entire list, with no one group singled out as the favorite of the buyers. Thus, examination of the recent record reveals an effort on the part of such widely different classes as traction and foreign government issues to catch up with going money rates. The yield is the thing, and just at present the yield on many sound investment securities is well above the prevailing market for funds.
