Foreign Ships To Carry Corn For the Soviet

Supplies Bought With $10,000,000 Fund From Russia to Sail on Cheapest Boats, Is Relief Decision

40 Vessels To Be Filled

Announcement of Policy of American Relief Administration Expected To-day

Food supplies purchased with the 10,000,000 in gold given the American Relief Administration by the Soviet Government of Russia will be dispatched by the cheapest vessels, according to reliable information yesterday. This means that the movement will be handled in foreign steamers, which have been offered at figures considerably lower than those quoted by American steamship companies. No change will be made in the policy of carrying foodstuffs bought with the $20,000,000 appropriated by Congress, which by law must be transported in ships under the United States flag.

Definite announcement of the intention to use foreign ships is expected to-day or to-morrow from the offices of the relief administration. The only development now that might prevent the use of foreign tonnage would be notice from the Soviet authorities to pay higher prices for American boats.

It is estimated that foodstuffs bought with the Soviet funds will fill about forty vessels, if the greater part of the money is spent for corn and seed wheat. If a considerable part is used for the purchase of canned milk and other concentrated foods the requirements for ocean tonnage will be smaller.

The relief administration has not proceeded with the chartering of ships as fast as it has with the purchase of corn and seed wheat. The Shipping Board has been asked to provide about thirty vessels, and several have been obtained from private owners. More than twice this number will be required for the entire shipment. The opportunity which Secretary Hoover has given to American ship owners to offer boats at $1.50 above the rates quoted by foreign ships, which is regarded by him as a sufficient differential to offset higher wages and operating costs, has brought few bids. The attitude of the owners is that they must meet expenses on the outward voyages, as return cargoes are not available.

The rates which will be paid on Shipping Board vessels, to be based on cost, have not yet been made public.

Northern Pacific Sold to Admiral Line for Million

Reconditioning of Transport at Cost of $400,000 Is Provided For in Contract With Shipping Board

WASHINGTON, Jan. 16.—The sale of the Shipping Board transport Northern Pacific to H. F. Alexander, president of the Admiral Line, for $1,000,000, was approved to-day by Chairman Lasker of the Shipping Board. The sales contract provide that the purchaser shall recondition the vessel in accordance with the plans of the Shipping Board for this work. This task will occasion an expenditure of approximately $400,000. The Northern Pacific is to be used in the coastwise trade on the Pacific, sailing under the colors of the Admiral Line.

The Admiral Line has plans for the conversion of the Northern Pacific into one of the finest modern passenger ships for coastwise service between Seattle, San Francisco and Los Angeles. The boat can make the trip from Seattle to San Francisco, 804 miles, in thirty-three hours, which equals the time of the Shasta Limited, the fast train operated between those cities by the Southern Pacific. The trip from San Francisco to Los Angeles will take fifteen hours, better than train time. Theodore Ferris has drawn the plans for reconditioning the vessel.

Fleet Corpn. Fixes Scale Higher Than Operators

Reductions in Pay of Men Will Not Be so Heavy; Will Become Effective Feb. 6

WASHINGTON, Jan. 16.—The Emergency Fleet Corporation will put into effect on February 6 a new wage scale for deck officers and seamen slightly higher than the new wage scale recently announced by the Ship Owners' Association. The various schedules have been fixed by Commissioner T. V. O'Connor, in charge of wage agreement on the board, and the scale has been approved by Joseph W. Powell, president and general manager of the Fleet Corporation. An opportunity, however, will be given representatives of the deck officers and men to appear before the board on January 18 to be heard on the scale.

The scale recently put into effect by private operators carried reductions of 15 to 33 per cent.

Shipping Notes

H. C. Cantelow, formerly with the Pacific Steamship Company, has been appointed Pacific Coast manager of the Luckenbach Steamship Company, with head quarters at San Francisco, according to an announcement yesterday by R. C. Thackery, vice-president. The appointment is effective February 1. With Mr. Cantelow will be associated Zac. P. George in charge of eastbound and westbound freight traffic.

A. E. Clegg Returns

Alfred E. Clegg, vice-president of the Kerr Steamship Company, was at his desk yesterday after a trip through Europe. He was engaged in conferences with directors and officials most of the day and sent out word to reporters that his journey was purely for pleasure and that no business was discussed. When Mr. Clegg sailed several weeks ago there were rumors that the object of his voyage was to complete arrangements with one or more German steamship companies for the development of new services.

To Discuss British Claims

Harry Kimball, vice-president of the Emergency Fleet Corporation in charge of finances, expects to confer with Sir Ernest Raeburn, representing the British government, in New York next Friday on the claims arising from the transportation of supplies during the war. Mr. Kimball was at the offices of the Shipping Board, 45 Broadway, yesterday, on routine matters. Claims of the United States against the British aggregate about $21,000,000, while Great Britain has offsetting claims amounting to about $26,000,000.

Coal Exports Dull

The refusal of the eastern railroads to reduce rates on export coal $1 a ton has disheartened operators and has had a similar reaction on steamship companies. A. H. Bull & Co. state that "this was a great disappointment to exporters and apparently means that they will be handicapped in foreign markets for some time to come." Ship owners do not find the present ocean rates attractive and steamers are scarce, the company adds. It was pointed out that vessels sailing for South America are quoting rates as low as $3.25 a ton to the Lower Plate without takers.

Shipbuilders Optimistic

A combination of developments in the shipbuilding industry has given rise to considerable optimism and served to brighten the outlook for the ensuing year, says Clarence S. King, secretary of the Atlantic Coast Shipbuilders' Association. Saying that busy times are just around the corner, Mr. King bases his belief upon the need for fast passenger ships to balance our fleet of cargo vessels, the changes in the shipping industry brought about by the successful operation of motorships in competition with the older types and the contracts for about $10,000,000

Reports by Wireless

By United States Naval Service

[Distance is given in miles. Reports are dated at noon unless otherwise specified.]

NOTICE TO OWNERS, AGENTS AND SHIPMASTERS

The Tribune publishes daily reports of the positions of merchant vessels received through the United States Naval Communication Service. Shipmasters of vessels with radio apparatus may, without charge, report their (TR) noon positions through the following naval radio stations in the United States proper: Bar Harbor, Me (otter cliffs); Annapolis, Md; Cape May, N J; Norfolk, Va; Cape Hatteras, N C; Jupiter, Fla; Key West, Fla; New Orleans, La.

These position (TR) reports should be addressed only to the radio station called, and they will be forwarded to New York. It is important that the reports should be sent promptly at noon each day in order that they may be received in time for publication.

Position reports can also be sent through the stations of the Independent Wireless Telegraph Company, Inc, at New York, East Moriches, L I, and Easthampton, L I.
