

WEDDED NEW YEAR'S EVE.

Marriage of Josephine Ware and Lawrence King Most Brilliant Social Event of the Year

On Wednesday evening, December 30, the marriage of Miss Josephine Middleton Ware and Mr. Lawrence Watson King was solemnized at St. Matthews church. The ceremony was performed by the father of the bride, Dean Ware, rector of the church.

Miss Josephine is the third daughter of Dean and Mrs. Ware. She has won for herself the love and affection of the community by a charming personality and by her devotion to the cause of religion. Among other accomplishments she is a skilled violinist. She was educated in Boston, afterwards graduating from All Saints school at Sioux Falls, S. Dak., at which institution she was on the faculty for two years. She also took a course at the Deaconess Training school in Philadelphia.

Mr. King holds a lucrative position in the General Inspection Company of Minneapolis, from which company on the morning of his marriage he was informed of his advancement, with a substantial increase in salary. He is a graduate of the University of Minnesota and a member of the Beta Theta fraternity.

For the auspicious occasion St. Matthews spacious church was filled to overflowing with invited guests. The church was beautifully decorated by loving hands who had been busy for two days. Yellow snapdragons, smilax and ferns filled the chancel and made a temporary road screen very beautiful, the pews being tied with yellow ribbon.

Dean Ware's voice in reading the service and in making the short address to the married couple was filled with emotion. At eight o'clock the choir entered and took their places. After a short interval the processional, which was Lohengrin's wedding march, and which was played by Mrs. Bennett, began. The bridegroom and best man entered, both in evening dress, and stood at the right as the procession moved slowly up the aisle. First came the flower girl, little Frances Morrison of Mullen, carrying a basket of yellow snapdragons. She was followed by the six bridesmaids, Misses Grace Carlson, Edith Reddish, Della Holsten, Margaret Harris, Helen Rice and Matilda Frankle. They were beautifully dressed in white chiffon over yellow messaline and carried yellow snapdragons. Following the brides-

maids came the maid of honor, Miss Angela Ware, sister of the bride, dressed in yellow crepe de chene, with pearl embroidery and trimmed in fur, with train. The bride followed on the arm of Dean Cross, of Sheridan, Wyoming, who gave her away. She was gowned in a dress of white satin, trimmed with pearls, with court train. The bridal veil was the Honeten lace veil which was worn by her mother at her wedding thirty-three years before. The bride carried a bouquet of lilies of the valley.

The best man was Mr. Howard King, brother of the bridegroom (he also is graduating from the University of Minnesota). The ushers who escorted the wedding party to the seats were also in evening dress. They were Messrs. Anderson, Holsten, Tully and Wilcox.

Immediately following the ceremony a reception was held at the Parish house which was decorated by the Woman's Guild in yellow and white. In the receiving line, were Dean and Mrs. Ware, Mrs. King, mother of the bridegroom, Dean Cross, the bride and bridegroom, the best man, bridesmaids and little flower girl. Many of the guests went to the Rectory to see the many beautiful and costly presents which filled a room to overflowing.

The bride presented to the maid of honor a gold bracelet, to the flower girl a gold ring, and to the bridesmaids silver bracelets. Among the guests from out of town were Mrs. King and Howard King, mother and brother of the bridegroom; Dean Cross of Sheridan, Wyo.; Miss Charlotte Halley of Rapid City, S. Dak.; Mr. and Mrs. C. F. Gruenig, Mr. and Mrs. F. T. Morrison and daughter, and Mr. Bedford of Mullen, Nebraska.

Before leaving the reception the bride threw her bouquet to the bridesmaids, Miss Helen Rice being the fortunate one to catch it. The bride cut the beautiful wedding cake and everyone received a piece. The cake contained a ring, a thimble and a dime. Miss Bernice Kridelbaugh was fortunate enough to get the ring, which shows that she is to be the next bride in the church. The bride and bridegroom left at midnight for Minneapolis, enroute to Duluth, where they will spend two months. The bride's traveling suit was dark green broadcloth, trimmed in yellow fitch fur, hat of green velvet with fitch fur trimmings and yellow feathers.

LAND OFFICE MAKES REPORT

Interesting Report Given to Secretary Lane, Showing Immense Amount of Work Done

WASHINGTON, Jan. 5.—Secretary Lane has just received a report from Commissioner Tallman of the Land Office, with respect to the surveying work performed by the Bureau, which shows that in point of character of work, area surveyed and cost, the past season's work in surveying shows better results than at any time heretofore in the history of the General Land Office.

Frank M. Johnson, supervisor of surveys of the General Land Office, has been called to Washington for consultation. His reports as to the past season's work in the field are fully conclusive of the success of the direct system of surveys; that is to say, surveying by government employes directly, by and thru a regular organization with full government equipment for that purpose, rather than by survey by competitive contract as in former years. Not only is the actual work itself materially less expensive, but the results are far more satisfactory.

The surveying service of the General Land Office has surveyed during the past season under the direction of the commissioner about fourteen and a quarter million acres of the public domain at a cost of about three and eight-tenths cents per acre for field work. Most of this newly surveyed area lies west of the one hundred and fifth meridian of west longitude and includes Alaska, but extensive surveys and re-surveys have also been made in Nebraska, South Dakota and Arkansas, while fragmentary and investigation surveys are now being executed in Florida and Louisiana. In addition to this immense work which identifies for disposal approximately seventy-five thousand quarter sections, the General Land Office has made numerous investigation and examination surveys, including an investigation of a portion of the Oregon-California boundary line, townsite surveys, small holding claims, Spanish land grants, abandoned military reservations, surveys of reservations for the Navy department, island surveys, a survey of the boundaries of the Sequoia National park and re-surveys of thousands of state land selections, school sections and private land claims.

C. R. Sweet, traveling salesman for the Underwood typewriter company, with headquarters at Alliance, has returned from a two weeks' visit in Omaha. Mr. Sweet has been in the typewriter business for a good many years and has a wide acquaintance among the "boys". He leaves Monday noon for a trip out over the territory.

There were 38 cars of sheep, 7 cars of cattle and 1 car of hogs in the train. The train came in Wednesday night, fed over Friday, and went east Friday night.

The sheep men are Polanders who were formerly coal miners in Montana. They had a special passenger coach on the train in which to cook and sleep. The stock goes to Omaha, St. Joseph, Kansas City and Chicago.

A shipment of this size consumes an immense amount of feed. While in Alliance they used 225 bales of hay, 1,300 pounds of oats and 300 pounds of corn.

FOUND IT IN HIS POCKET

Saturday evening, about 7:30, after the snow had fallen sufficiently to make a blanket covering streets and sidewalks, a man going to his home in the east part of the city found a little boy down on the 4th street crossing on Niobrara avenue, feeling in the snow with his bare hand. When asked what he was hunting he replied in a pitiful tone that he had lost a dollar. The man at once set about helping him to find it, by the use of matches and burning paper to make better light than the street lights afforded, assisted by another man and woman who came up from the east. After they had searched until it seemed almost useless to hunt longer, the boy exclaimed in a joyful tone, "Oh, I've found the dollar in my pocket."

PEOPLE ENJOY SCHUBERT CLUB

Audience at Opera House Last Evening Demanded Frequent Encores. Fine Program

The program rendered by the Schubert Symphony club at the opera house Thursday evening under the auspices of the Woman's Guild of the Episcopal church was greatly appreciated by the audience who required frequent encores. The vocalists are all artists of high order and their singing created genuine enthusiasm. The members of the Guild deserve credit for bringing this high class entertainment to Alliance.

AFTER SICKNESS OR OPERATION

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body and restore the vigor of health.

For forty years the best physicians have relied on the wholesome predigestion nourishment in Scott's Emulsion which is totally free from alcohol or opiates.

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion sets in action the very forces that promote health; it is pure, rich strength.

MERRY WATCH NIGHT PARTY

Merry Makers Greet the New Year at the Home of Mr. and Mrs. Vio D. Shafer

Mr. and Mrs. Vio D. Shafer gave a watch night party at their home, 520 Niobrara avenue, that will not be forgotten soon by those who were so fortunate as to be there. It was a jolly crowd and the occasion was enjoyed immensely by all. Progressive flinch and other forms of entertainment, including vocal and instrumental music, made the hours fly swiftly until near midnight when a delicious oyster supper was served. Following the supper a like to the opera house "fire" and helping to ring the new year bell was indulged in by some of the party.

The piano music by Miss Nettie Nation and the vocal solos of Merritt Chaffee are deserving of special mention as a part of the evening's entertainment. The latter's rendition of "When that Midnight Choo Choo Leaves for Alabama" was especially effective.

The guests of the evening were: Misses Nettie Nation, Ethel James, Edna Donovan, Emma James, Della Brown of Hemingford, Lillie Townley. Messrs. Chas. Walters, Merritt Chaffee, Frank Wolverton, Lewis Powell, Floyd Donovan. Mr. and Mrs. Harold Thomas.

The officers installed were Elmer Lawrence, I. P.; Mrs. Anna Hagelton, Chief Counselor; Mrs. John A. Wolverton, Worthy Evangeline; C. C. Rodgers, Past Illustrious Protector; L. H. The big banquet was served in courses and was deliciously cooked. Those who had charge certainly proved themselves capital entertainers.

DECEMBER SALES VERY HEAVY

More Merchandise Carried Than Before but No More Income from Stamp Sales

The amount of merchandise sent out from the Alliance post office during the month of December, 1913, was double that of the year before, according to Postmaster Tash, but the revenue derived therefrom was not much greater than the year before, due to the reduction in the rates caused by the parcel post. Stamp sales in December, 1910, amounted to \$1,654, in December, 1911, to \$1,584; in December, 1912, \$1,448; and December, 1913, \$1,565. WANTS LANE'S HELP IN SAFETY WORK

California Industrial Accident Commission Asks Co-operation of Secretary Lane

WASHINGTON, Dec. 30.—The California Industrial Accident Commission has requested the co-operation of Secretary Lane of the Interior department, in connection with its safety work in the mines. This request in effect is that one of the expert engineers of the Bureau of mines, Mr. Wolfen, be designated to co-operate with the California commission on a half-and-half basis, the commission paying one-half of his salary and traveling expenses and the bureau of mines, of the Interior department, the other half duplicate copies of all reports and conclusions to be submitted to the State and Interior departments.

The work proposed will include an extensive study of mine safety conditions on Pacific coast, and this will include such investigations, research work and recommendations as will tend to the conservation of human lives as well as mining property. In speaking of this arrangement Director Holmes of the Bureau of Mines said:

"I think this arrangement is a thoroughly satisfactory one for the Bureau of Mines as it enables us to secure the information which the bureau needs in its study of mining conditions in the Pacific coast region; and it enables the state of California to get the same information; each securing the information at half the cost that would otherwise be required for each party."
