TO DEALERS IN WOVEN SKIRTS—

We hereby give notice that Letters Patent of the United States have for been granted, vesting in us the exclusive right to make, sell and use what is known in the market as the Woven Skeleton Skirt, whether the springs are inserted while in the loom or afterward.

It is generally known to manufacturers that this Skirt is original with us. But inasmuch as dealers may not be aware of our right, we hereby notify the trade that the Woven Skirt cannot be legally sold after this date unless they have the same or are manufactured by parties holding a license from us. The name of the manufacturer, and date of the patent, October 4, 1859, must be stamped on each Skirt. The fact that we have heretofore stamped our Skirts "Patent applied for," is well known, and we trust that all honorable merchants, as well as manufacturers, will now voluntarily comply with the requirements of the law, without a necessity for compulsory measures. The trade will please take notice that they will be liable to us for damages for the sale of all goods manufactured without a license after this date. We are prepared to license responsible parties to manufacture our Skirts "Patent applied for." is well known, and we trust that all honorable merchants, as well as manufacturers, will now voluntarily comply with the requirements of the law, without a necessity for compulsory measures. The trade will please take notice that they will be liable to us for damages for the sale of all goods manufactured without a license after this date. We are prepared to license responsible parties to manufacture our Skirts "Patent applied for."

Application can be made to WILLIAM KING, 183 West 13th st, or S. H. DOUGHTY No. 23 John st, who are fully authorized to grant such licenses.

JAMES DRAPER,
JAMES BROWN,
WILLIAM KING,
S. H. DOUGHTY.

New York, Oct. 5, 1859.

Messrs S H Doughty and others.

Sirs: As there are two methods of producing the Skirt patented to you this day, it may be of service definitely to define the scope of your claims. In one method the hoops are inserted while the tapes are in the loom, and during the process of manufacturing the same; in the other method the tapes are manufactured in a condition ready to receive the hoops, and the latter are inserted afterward. Skirts produced by either of these methods are covered by your patent, and any parties making or selling the same are liable to you for damages for all made or sold after this date.

Very respectfully,
THOMAS D. STETSON.

New York, Oct. 5, 1859. 181
