MACHINERY:

DICK'S ANTI-FRICTION MACHINE, FOR PUNCHING, SHEARING, AND PRESSING IRON, &c.

THE MOST EFFICIENT, ECONOMICAL AND LABOR-SAVING MACHINES IN THE WORLD.

Friction is all but done away with, but one-fifth of oil is required in running them; and no repairs are needed for years; the largest machine requires less than one-horse power, for Shearing and Punching iron, to one inch in thickness, with perceptible effect, and the work in the most smooth and perfect manner.

We refer to the largest and most successful establishments in the country, to learn the value of the various machines made under DICK'S PATENT, such as COOPER & HEWITT, Trenton, N. J.; CORLISS STEAM ENGINE CO., Providence, R. I.; J. B. & W. W. CORNELL, JAMES BEEBE & CO., New York; WYANDOTTE ROLLING MILLS, Detroit Mich.; CORLISS & NIXE PATTENT, Cohoes, Ct., and many others in New York, New England, Virginia, Illinois, Georgia, Ohio, &c., &c., many of whom, after using them for two or three years, say they would not be without them for three or four times their cost; and others say that in comparison with any other machines known to them, that they pay for their own cost in every six months' use.

All orders promptly attended to, and all information given by STEVENS BROTHER & CO., SOLE AGENTS, 222 PEARL STREET, ja5 tf*214 NEW YORK.

LEHIGH METALLIC PAINT—THE UNdersigned, agents for this invaluable paint, are prepared to supply the large cities dealers at the lowest manufacturers prices. They warrant the article to be superior to any sold in this market, being fully 75 per cent. metal; for preserving iron and other metals, and wood and canvass it has no equal. Brick buildings painted with one coat of this paint will be kept perfectly dry for many years—at about one-third the price of pure lead—it is worth vastly more for all such purposes.
