(Continued from First Page.)

sold to-day in all Christian Churches. In the Catholic Church it is a double of the first class, with octave. The hymn *Veni Creator* will be sung at the mass. The vestments for the season are red. With this denomination of Christians it is called "the Day of Pentecost." Among the Jews it is called "Shervuoth, or the Day of Pentecost." It has a two-fold purpose among these people, namely, the commemoration of the giving of the law on Mount Sinai, and the offering of the first fruits of the season for sacrifice in the temple. In honor of the latter the synagogues are splendidly decorated. In the Greene street synagogue belonging to the congregation Doreeh Armmo the adornments are a not-castle feature. Commencing at the apex of the ark in the east is a chain nearly two hundred yards in length, composed of arbor vitæ and cedar, tacked on each side of the ark and carried on a semicircle over the seats occupied by the President and Vice President; from this it mounts to end of the galleries and is carried around the entire edifice till it is joined again at the place of beginning, immediately above the apex of the ark is a garland composed of rare exotics. On crimson velvet hangings concealing the upper woodwork of the ark is a representative *Mogen Dovid* (shield of David). This is a large double triangle composed of pinks, lilacs, hyacinths and daisies. In the centre of this is the "all seeing eye," the brows being of violets, while the ball is formed of an immense topaz. The pillars of the ark are wreathed with evergreens and cedars, trimmed with medallions of lilacs. The pulpit is completely hidden with a triumphal arch of cedar, while from each side runs a winding chain of ivy. The centre of this arch is composed of reverences, pinks and lilacs. Between the pillars in the main auditorium are suspended Arcadian baskets filled with rare exotics. Around the clock is a wreath woven by the hands of the young ladies attached to the congregation. At the head of the steps leading to the readers' desk on each side, is a triumphal arch twelve feet in diameter, to match the one fronting the pulpit. Between each gas jet a massive bouquet, composed of hot-house flowers, is suspended. On the floor of the parterre are arranged rows of budding and blooming plants, comprising thirty-six species. This floral decoration fills the building with a delicious fragrance, rendering it ever pleasing to the eye. The festival will commence this evening at sundown, and terminates at sunset Monday. It is observed as a strict holiday, on which no secular business may be transacted.

THE CHOLERA.—The following is the latest report from the Hospital Ship at Quarantine:

May 17—Died, Alice Bent, from steamship Virginia, of marasmus; and James Johnson, also from the steamship Virginia, of disease of heart. In hospital last report, 47; two died as above, 2; remaining under treatment, 45.

D. H. BISSELL, Deputy Health Officer.

METROPOLITAN BOARD OF HEALTH—A HUMAN NUISANCE—REPORT OF THE REGISTRAR OF RECORDS—THE BATTERY BARRACKS TO BE APPROPRIATED FOR THE "CELLAR POPULATION."—The regular semi-weekly meeting of this Board was held yesterday afternoon. Mr. Acton was absent through illness. Dr. Crane was also absent.

The Attorney to the Board submitted a number of General and Special Orders, which were entered. Among the special reports were the following:

A large number of citizens presented a petition, praying that a varnish factory in 44th street, between 9th and 10th avenues, be removed. The Attorney also reported that orders had been served on the Street Contractors to take away the manure on the dumping grounds along the East River, but it had not been done.

The Attorney to the Board read the following most extraordinary document from the Sanitary Inspector of the 22d Precinct:

John Kranchi *alias* Schwerzer (nicknames) occupies part of three lots. One of them is situated on the southerly side of Bond street, nearly midway between the 6th and 7th avenues, and in a condition detrimental to health and dangerous to life. A four hours' fruitless effort was made to find the owner. On this is located Kranchi's abode, which consists of a barrel and some filth; old carpets spread upon the bare rock. On these he sleeps, and during inclement weather, protects his head and such parts of his person as the capacity of the barrel will accommodate. Adjacent to his abode is a pile of old lumber, sufficiently elevated from the rock as to allow his dogs to crawl underneath for rest and protection. All this is surrounded by baskets, barrels, pans and boxes containing decomposing bones, lobster shells, fish heads and tails, dead cats and dogs, grease, and every conceivable kitchen refuse, swill and garbage picked out of gutters, and ash and garbage boxes; all of which, or a part thereof, are stewed and cooked in their mixed state by said Kranchi, in the open air and a shanty population, and when stewed or cooked are eaten by said Kranchi and his numerous dogs. Evidence is not wanting to prove that he has eaten the dead rats and cats found on the public highways, and that he kills his own dogs for their meat as food when no other nourishment is at hand. Capt. Slote and Sergt. W. J. Lander say that such and similar charges as are above enumerated have been heretofore preferred on several occasions against said Kranchi, by members of the 22d precinct police force and many private citizens. * * * * I charge said Kranchi with occupying premises and possessing habits detrimental to health and dangerous to the lives of all who come in contact with him.

GUIDO FURMAN, M.D., Sanitary Inspector.

The communication was referred to the Sanitary Committee.

Ordinance No. 167, in relation to sprinkling the streets, was submitted by the Counsel to the Board in accordance with an order to that effect. It provides that the streets shall not be sprinkled in summer time after seven o'clock in the morning, and that no organic matter should at any time be thrown into the streets. After some discussion the matter was referred to the Committee on Laws and Ordinances.

Some discussion took place on the gas nuisance, but no result was arrived at.

Various nuisances were reported by the Sanitary Inspectors, and the usual course taken.

George W. Blunt, Esq., sent in a communication, reporting that on the 6th of May there were 500 cubic yards of a dirt heap foot of Washington Market; 768 on the 10th and 500 on the 15th. He says the meat for sale there must have a game flavor.

Dr. George Baylis was appointed an Acting Inspector for the sub-district north of Yonkers and South of Sing Sing, including Hastings, Irvington, Dobbs' Ferry and Tarrytown. Dr. Hicks was appointed Inspector for Flushing. It was announced that the town would pay him.

Dr. Parker remarked that the milk usually sold in the city was most detrimental to the health of children. He moved that a clerk be appointed to act as Assistant Inspector, to inspect all milk and milch cows. President Schultz said: "I inspected one of the stables where these stumpkin cows were kept, and it was most disgusting. I shuddered when I thought I might have some of that milk on my own table. I have not tasted milk since, and I don't think I ever shall." The resolution was passed, but subsequently rescinded, and S. H. Purser was appointed a clerk to act as Inspector without assigning him to any particular duty, but it is understood that he will have the above matter in special charge.

THE BATTERY BARRACKS.

Dr. Harris reports that the Battery Barracks consists of 13 separate buildings, 10 of which are for —— purposes, 1 for officers quarters, 1 for mess room and one for kitchen. When turned over to the Board they were occupied with military stores and old furniture. They were in a dilapidated and filthy condition, and unfit for occupation. It has since been thoroughly cleaned, whitewashed within and without, the floors repaired, &c. Two, however, in which military stores are kept, have not yet been put in order. Nine apartments in the buildings are subdivided so as to accommodate 18 families, and if the entire number were so subdivided, 180 families could be accommodated. The Hospital has 5 pavilions with officers' quarters, mess and store rooms, &c., and the buildings are undergoing proper repair. Dr. Harris suggests that the portion of the Barracks not to be occupied as Hospital be converted into temporary residences, for that class of people who live in cellars, and thus one hundred of those underground affairs of the worst character, should be at once emptied. His plan reduced to practice is: 1. Police to report 100 of the worst cellars in town. 2. Well appointed agents, religious, political or moral, to assist them, and proffer the inmates clean and comfortable apartments, if they will abandon their present apartments. 3. Remove every family which consents to be relocated, with their most useful articles of furniture; give them suitable rooms, but promise them no further support. We should thus, he says, have gathered in these buildings a colony of five hundred people. Ample baths are already established, and also a large wash-house and laundry. Discipline as regards good order, cleanliness and sobriety, could be rigidly enforced. The quest on of support each tenant would settle for himself. Those who have trades as shoemakers, tailors, etc., could readily obtain work from wholesale stores, and laborers could pursue their avocations with as much freedom as ever. It would not be long before families would be found in such a community, who had begun to thrive, and who could afford to take good rooms in the city, or who might prefer to go to the country. Thus the progress of disintegration might almost immediately commence, and places be made for new families.

TRANSFIGURATION SCHOOL.—The annual picnic for the benefit of this excellent school, which is conducted by the Sisters of Charity and Christian Brothers, will take place on Wednesday, the 30th inst. There are about 9,000 children who get instruction *gratis* in this school, and who are taught all the branches, including music.

FIRES.—Yesterday morning a fire occurred at No. 91 Mercer street, occupied by several tenants. G. W. Ferguson, in whose premises the fire broke out, occupied the third and fourth floors, as an oval frame factory. His loss was about $5,000; insured for $3,000. Worzberger & Horton, oval frame makers, who occupied the fifth floor, lost about $700. Insured for $1,500. Horace W. Sigler, manufacturer of mouldings and picture frames, who occupied the second floor, lost about $500; insured for $3,000. Mr. Richards, who occupied the first floor as a parking box factory, lost about $300; insured. The building, owned by Mr. Richards, was damaged to the extent of about $2,000; insured.

BOARD OF EXCISE.—There being no quorum (Dr. Crane and Mr. Acton being absent), an informal meeting was held, when the Counsel to the Board delivered the following opinion:

The Excise Law having made no provision for the surrender of a license, or the repayment of the license fee on such surrender, but having directed the Board to pay over all excise fees for certain specified public uses, it is not lawful for the Board to return the license fee, or any part of it, for the surrender of a license.

There being no provision in the law for the assignment of licenses, the Board, upon a transfer of the premises and business of a licensed person, cannot recognize the successor as authorized to sell under the Excise Law, until he shall have been duly licensed in his own name, upon his personal application, and upon the payment by him of the license fee, of not less than $50, and not over $250.

LIQUOR LICENSES.

Mr. Acton was still unable to do duty yesterday, and Mr. Manniere attended to applicants, assisted by Mr. Bergen. The Precincts heard were the 43d, 44th and 5th. For the 43d, Capt. Rhodes answered all questions. The record of the City of Brooklyn showed that portions of it were if anything worse than New York. The places around the Navy Yard were reported very bad. As Mr. Acton was away, all the jokes were left to Mr. Kennedy. Mr. Manniere simply cautioning those who passed muster that their licenses would be forfeited if they did not conform to the law. In the 43d Precinct, the record of shovers of counterfeit money was fearful. One men had had a barkeeper who used to shove it over the counter, and is now in Sing Sing, or, as the Captain said, "if he isn't, he ought to be." As the proprietor was not supposed to know it, however, he got a license. Some were reported as being on the record for receiving stolen goods. One of these explained that he bought a bit of jewelry, but did not know it was stolen. It was asked, however, that he gave only $1 for the article and it was worth $20. He was refused. In the 44th, a man who had always paid license, and whose mother formerly kept the place, came up. The record was bad. A man was followed from the house and robbed. He was refused. A house in Myrtle avenue was reported as a bad place. Fighting had been going on in the house, and other difficulties had occurred there. The night before was announced, he left that house, and was killed are he got away two blocks. A license was granted however to the satisfaction of all who heard the Captain's report. A license was granted to a man on Flushing avenue, near Kent, simply because it was considered necessary to have at least one place there. The neighborhood is reported bad. In the 5th, a namesake of the Superintendent applied who bought out a place only a week ago. It was reported as a notorious bad place to go to. A woman had previously kept it, and five persons had been sent to State Prison out of it. His case was laid over, Mr. Kennedy remarking that he had made a bad bargain, and was not quite so smart as the Kentucky gentleman are.

AMUSEMENTS — BARNUM'S. — This week a richer spacious saloon has been added to the Museum, where new curiosities will be displayed, while the lecture room has been redecorated. Next week the great American drama of "Uncle Tom's Cabin," with all the original music and effects will be performed. Mrs. G. C. Howard, the original "Topsy," who "never was born" will appear in that character, and Mrs. J. J. Prior will appear as Eliza. All the other curiosities will be presented as usual.

ACCIDENTS.—Coroner Gover held an inquest yesterday on the body of Frank Christy, whose death was caused by falling through a hatchway at 24 Warren street, where he was employed as a porter. Deceased struck on his head, receiving a fracture of the skull. A verdict of accidental death was rendered. Christy was 30 years of age..... On the 12th inst., while Thos. Gafney was employed in excavating for a new building at 357 Broadway, a bank of earth caved in, to escape which Gaffney ran against a wall with such force as to fracture his spine. He was removed to Bellevue Hospital, where he died on Thursday. Deceased was 50 years of age.

THE FATHER MATHEW T. A. B. SOCIETIES generally will hold meetings at their respective halls, to-morrow evening. The T. A. B. Society No. 4, Mr. Launcelot Murphy President, will meet at their new hall, corner Sheriff and Second streets. The litigation between rival parties of No. 2 is not yet adjusted. The case has been tried once and a decision given, from which an appeal was made, and a new trial was had before Judge Daly, a few months ago, but no decision has been rendered. The Society are anxiously awaiting it.

CONVENTION OF IRISH SOCIETIES.—A meeting was to have taken place last evening at 42 Prince street, (Hibernia Hall) at which the several societies were expected to hand in their contributions to the Sisters of Charity for the Orphan Asylum in Houston street. A quorum not having assembled at nine o'clock, no meeting was held. It was stated, however, by those who did appear, that a large amount had been collected.

SUSPICION OF FOUL PLAY.—At half past 6 o'clock last evening the body of an unknown man was found floating in the East River, near the dumping ground foot of Stanton street. He was apparently 35 years old, and had on a black coat and pantaloons. From appearances the police suspect that he was murdered and then thrown into the water.

ATTEMPTED SUICIDE.—About seven oclock last evening a young English woman, named Eliza Swift, aged 27, attempted to commit suicide by cutting her throat with a case knife, while laboring, as alleged, under delerium tremens. She was conveyed to Bellevue Hospital. The wound is not fatal.

THE COURTS.

U. S. COMMISSIONERS OFFICE—THE NOELTE EXTRADITION CASE—DEFRAUDING THE GOVERNMENT.—The Noelte extradition case was called up again yesterday before U. S. Commissioner Newton; and the Marshal made a return that the Sheriff refused to give up the prisoner, but that some of the obstacles which had prevented Noelte's production before the Commissioners would be so far removed that he would, in all probability, be produced on Saturday at 12 o'clock M., to which time the Commissioner adjourned the case.

FORGING ASSIGNMENTS OF REGISTERED BONDS.

U. S. vs. Thomas Loftus alias Boyle.—The prisoner was charged with defrauding the U. S. Government by false papers. The testimony of Thomas Sampson showed that the defendant when he was arrested, stated that being on a spree, he took from his uncle, in Philadelphia, a Registered Bond of 1861, for $1,000, on which he got from William Hastings (Dublin Tricks) $950, forging a power of attorney in his uncle's name; he subsequently got from his uncle $4,500 in bonds, of which he deposited $1,500 with a man of the name of Lanter, and $2,000 with Hastings. One bond for $1,000 passed through its regular course and a new bond was issued on it. Meanwhile the genuine Thomas Boyle, who makes his mark, had notified the U. S. Treasury of his loss and this lead to the present prosecution.

The case was then adjourned to Monday next.

THE JUMEL WILL CASE—THE TRIAL POSTPONED TO OCTOBER.—Judge Barnard, of the Supreme Court, has rendered the following opinion on the motion to postpone the Jumel Will case: "I do not think the application of the defendants an unreasonable one. The defendants swear that in their judgment they will be able (if a postponement is had) to obtain testimony that will defeat the plaintiff's claim to this property. I cannot see what injury can be done plaintiff or his interest by a delay of a few months, he is in possession of the property. He cannot be ejected under any process before the validity of the will is established. With a view of accommodating both parties to this suit, and in order that there shall be no further delay, I shall postpone the case until the 1st Monday of October next, and I hereby direct that the case shall be placed on the calendar for that day, with a peremptory order for trial without any further postponement or delay. Order to be settled on two days' notice.

COURT OF OYER AND TERMINER—SENTENCES OF JAMES O'BRIEN AND HENRY OTTO CLAUS.—James O'Brien, convicted of manslaughter in the fourth degree, for the killing of his wife, was called up for sentence yesterday. His explanation is that while he was sitting down in a chair and trying to get the pistol from his pocket, it exploded, and his wife being at the time leaning over him, she was accidentally shot. The Court sentenced him to three years imprisonment at hard labor.

Dr. Claus, convicted of manslaughter in the third degree, for the killing of Charles Carron, at his saloon in 26th street, was arraigned for sentence. The Judge in sentencing him remarked that the jury had taken a more grave view of the prisoner's offence than he had supposed. After a short time it would be proper for the prisoner to make an application for pardon, and any application to him in the matter would meet his favorable consideration. He sentenced the prisoner to two years hard labor in State Prison, being the minimum punishment for that grade of crime.

COURT OF GENERAL SESSIONS.—Thomas Golden, for robbery in the first degree, was yesterday sent to State Prison for 10 years.....Annis Smith, pickpocket, State Prison 5 years.....Robert Smith, attempt at burglary in the third degree, State Prison 2 years and 6 months.....Joseph Valle, alias and Charles Hellman, same offence, Penitentiary 1 year each.....Geo. Harrison, pickpocket, State Prison 4 years.....Anson Spencer, petit larceny, Penitentiary 2 years.....Nettie Brown and Lizzie Roberts, attempt at grand larceny, City Prison 30 days each.....Francis McCormick pleaded guilty to an attempt at burglary in the third degree, and was remanded for sentence.

POLICE INTELLIGENCE.—*Arrest on a Bench Warrant.*—Wm. Churchill, Timothy Monahan, Timothy Tracy, Edward N. Laffy, Wm. Maitland, and Peter O'Donnell, boatmen, boardinghouse-keepers, and runners, were arrested by the Harbor Police, yesterday, on a bench warrant issued by Judge Russel, the prisoners having been indicted for violating the law regulating the boarding of ships in this port without license. The accused had previously been arrested by Capt. Hart and held for trial. After their first arrest and discharge, by Justice Bowling, on the plea that they were ignorant of the law, they began civil proceedings against Capt. Hart, laying damages at $5,000 each.

An Alleged Boarding House Thief.—James Goodwin was arrested yesterday, on a charge of having stolen a gold chain and opera-glass from Mrs. Bertha White, of 820 E. 16th st. The complainant alleges that the defendant and a stranger called at her place, under pretence of wanting to hire rooms. On entering the house, Goodwin told his companion to wait in the parlor while he was looking at the rooms. Goodwin soon returned, and told his companion that he had better go and look at the apartments with Mrs. White, and that he would wait in the parlor. The men soon left, when she missed the property. Yesterday Mrs. White saw Goodwin on Broadway and caused his arrest. Justice Hogan committed him for examination.

Brooklyn.

LIQUOR MATTERS.—The total number of applications for liquor licenses granted yesterday were 915, of which one was by the Central Office, two by the 4th Precinct Police, four by the 43d Precinct, and two by the 49th Precinct.

HEAVY ROBBERY.—The flour and feed store of Mr. Wm. M. Shipman, No. 139 Myrtle avenue, near Bridge street, was feloniously entered on Thursday night, and robbed of $1,500. The sum of $1,[illegible] had been deposited with Mr. Shipman for safe keeping by a friend, which, together with $200 of his own money, was stolen, besides $20 worth of Union Ferry tickets.

BURGLARY IN A CHURCH.—The Bridge st. M. E. Church (colored) was feloniously entered on Thursday night last. The thieves did not succeed in getting anything, although there were some 500 in a drawer in the building at the time.

New Jersey.

BOLD OPERATION BY BURGLARS.—Between 12 and 1 o'clock yesterday morning, two burglars gained access to the yard in the rear of the house No. 32 Wayne street, Jersey City, occupied by Mr. Andrew J. Shivley, when they effected an entrance to the house by the basement door. Mr. Elliott M. Best, a relative of the family, was disturbed by the burglars, whom he heard going down stairs, and followed them to the basement. There the fellows lay in wait, and as Best came near struck him a blow on the head with a billet of wood, cutting his temple and laying him speechless. Meantime, Mrs. Shivley raised the window and called for the police, four of whom made their appearance after some delay. After hearing the circumstances related, one of the officers went out of the basement door and found the thieves still present. He gave the alarm, and a rush was made for the yard, but the burglars leaped on to a shed, and thence to the coal yard fronting on Newark avenue, from whence they escaped. They did not succeed in carrying away any plunder, but a velvet cloak, worth $100, and Mr. Best's pantaloons, with $19 in them, were found near the kitchen door.

ATTEMPT TO THROW A PASSENGER TRAIN FROM THE TRACK.—Two men were arrested at Princeton, on Wednesday, for placing a heavy ladder across the rails, for the purpose of throwing off the track the Monday night express train, bound east. Fortunately, the cowcatcher threw the ladder to one side. It appears that four men had just previously been put off of the ow. train going the other way, and they resorted to this diabolical mode of revenge.

MARINE NEWS.

May 19. S. rises, 4 39; S. sets, 7 14; High Water, morn

CLEARED.

STEAMSHIPS—New York, Bremen, via Southampton; Napoleon III, Havre; Pennsylvania, Liverpool; Germania, Hamburg; City of Paris, Liverpool.

SHIPS—Carrier Dove, Caliao; A Cressey, Boston.

Too Late for Classification.

A—DALLEY'S GALVANIC HORSE Salve is the most wonderful Horse Ointment ever discovered; it is very easily applied, and is readily washed off with a little soap and water. It is supplanting entirely the use of Liniments. Being contained in a large tin box, there is no danger of breaking.

It is a certain cure for Galls, no matter of how long standing, and can be applied while the horse works. A few applications will reduce the worst Swellings and Inflammations. For Cuts and Bruises, Nail-Pricks and Sores, it is insuitable. Many cases of Young Spavin have been cured with this Ointment. Scratches in its worst forms will yield to its magic influence. Sitfast, Sand Crack, Quarter Crack and Quitter have in many instances been rapidly cured by this Salve.

Many will say: "It is absurd, no Horse Ointment was ever yet made that could do all that is stated above." True, none before this could do it, but Dalley's Galvanic Horse Salve will do all and more than is claimed for it. Many horses which have been given up as useless have been saved by its agency. These are facts, and hundreds of certificates in the hands of the inventor, and open to the inspection of all, prove them to be facts.

Remember, all who have tried it say its power is wonderful, and continue to use it. One trial will satisfy the most doubtful. Only 50 cents a box.

For sale by Druggists, Harness Makers and Blacksmiths, or can be obtained by the dozen or single box at the Depot of DALLEY'S Magical Pain Extractor, No. 43 Liberty street, N.Y. 431

ATTENTION IS CALLED TO THE PRIvate hospital at No. 202 East 16th st, established by Dr. O'TOOLE (who is assisted by other physicians), for the treatment of consumption, bronchitis, catarrh, asthma, and all diseases of the throat and lungs. CLEANSE THE BLOOD—WITH CORRUPT disordered or vitiated blood, you are sick all over. It may burst out in pimples, or sores, or in some active disease, or it may merely keep you listless, depressed, and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Liver Complaints and Heart Diseases. Try Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure. We can only assure the sick, that we offer them the best alterative which we know how to produce, and we have reason to believe it is by far the most effectual purifier of the blood yet discovered by any body. Ayer's Cherry Pectoral is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is unnecessary here to recount the evidence of its virtues. The world knows them. Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all druggists and dealers in medicine everywhere. 408

DR. BONE, 114 WEST 16TH ST.—PALPItation, diseases of the heart, lungs, liver, throat, kidneys, old ulcers, tumors, scrofula, eruptions. Every form of skin disease. Office hours 1 to 4 and 6 to 8 p. m. 283
